LINCOLN COUNTY RESOURCES.

RAIL ROAD POSSIBILITIES.

White Oaks, N. M., March 5, 1900.

Editor EAGLE:

One should know something about the subject matter before attempting to write, at least, should think they did, so thinking and for cause—20 years or such a matter sojourn—I feel to say something about Lincoln County, New Mexico, and to make a start will state first what I think "is no lie," viz: That Lincoln county averaged up, is not surpassed by any county in these United States.

This is big talk and talk don't prove anything, always, but now for facts. In the first place what goes to make a county, that is a good county? This is not an easy question to answer in one breath, but among the things that go to make a prosperous county are men, women, children, land, water, trees, timber, towns, rail roads, and out put. What has Lincoln county? People who have lived East all their lives, and especially in cities, imagine a county in New Mexico to be composed of outlaws, indians, and downright cussedness generally. Well it is true there are some of these things in New Mexico counties, but in proportion, far less than in the average counties of New York or Missouri; and Lincoln county today has as high education, intellect, vim and grim determination as can be found any where, or among any people.

No county has been more handicapped, especially in being isolated and away from transportation, but there is no loss without some gain, and the gain to Lincoln county in this matter is that she has been, as it were, "A kingdom unto herself," and by her want of communication and outside exchange she has become self dependent, and her citizens forced to mean business, and strictly business, to remain and exist. This has been a hardship, and yet a gain, in that the "fittest only have survived," and the survivers are, today, men, in every sense of the word, "averaged up." True some, are poor, in money, but are regular croesuses in experience, and experience, after awhile, will have its reward, right in Lincoln county, as well as in other worlds. So much for now as to the human resources, then comes mining, cattle, sheep, horses and stock generally. As to mines we will not try to say but a word at this time but will in a future article. Suffice to say, for now that we defy any camp to show better mines or prospects than Old Abe, South Homestake, North Homestake, Rip Van Winkle, Little Mac, Homestake South, Christopher, etc., in White Oaks District. The Helen Rae, American, Grover Cleveland, Vera Cruz, Rockford, Cashier, Not Much, and a score of others in the Nogal District; The Chinaman, Soldier Boy, Christmas, Yours Truly, George Washington, Martha Washington, Rosa, Orphan Boy, Crickets, Hopeful, Eita Emma, Silver King, and many others in Bonito District.

The above are a few of the mining claims adjacent to the town of White Oaks and Nogal. There are other district and in them are valuable deposits of mineral which will be heard from before long as rail road bear nearer and mining men are attracted. Notably among these districts may be mentioned the Jicarilla and Gallinas districts; also the White Mountain, Eagle and Ruidoso districts.

Few counties, even in the great State of Colorado, can show shafts, over 1000 feet deep perfectly dry with ore from surface down and big pay at that. These mines we will give our readers some data about before long.

As to cattle interests we have seen Ranch lands: but nothing superior to Lincoln Co. as witness; the El Capitan Co. with some where about 40,000 head of cattle and the same in sheep; the Carrizozo Co. with probably 30,000 head of cattle; the Angus V V outfit with probably 20,000 head; to say nothing of the many smaller ranches ranging from 500 to 5000 head. These ranches are the paradise for cattle, with the finest of grasses, black and white gramma ample and abundant waters, and timber for shade, and protection. As for fruit, vegetables, cereals etc., the Coe's places, Hales, Ellis, Coglan, Barber, Peters, etc. etc. produce the very finest.

As to timber the White Mountains; the Capitans, Jicarillas, and Gallinas have large areas of the finest Pines and Spruce. No intelligent affort for water has failed, with water any fruit or cereal can be grown to perfection.

Coal abounds near White Oaks and south into the Salado country for 20 to 30 miles.

All this and these, and much more, abounds in Lincoln County and to crown all the most delightful climate for comfort and health to be found in America, or any where else. All we now need (some think we do not, however), is the rail road which is now completed from El Paso to Capitan, and men and means to utilize the resources now lying idle for want of transportation, the opportunities are great and varied and from week to week we will give our readers special information upon various openings and projects.

HAS A CHIP ON HIS SHOULDER

The Alamogordo News Evidently Inviting in Some More Superlatives in Paying Its Respects to the EAGLE.

The Industrial Record of last week says:

"The News jumped on the White Oaks Eagle and the El Paso Herald in the same article. Its animus against the Eagle is accounted for by the fact that the Eagle is conducted on straight and honorable business principles, and has seen proper to defend its own town and section against the calumnious attacks of the News and other paid hirelings and sycophantic lickspittles of concienceless bosses."

The EAGLE does not know the nature of the attack, nor what prompted the chronic imbecile, and fighter of booze, who has temporary control of the editorial pencil of the Eddymogordo News to again turn his vituperate wind in this direction. However, the EAGLE does not doubt in the least that the Industrial Record has met the issue in every particular in the above terse and unmistakable English.

Owing to the fact that the News has no subscribers in this locality and that from some cause probably best known to themselves, the copy containing this tirade against the Industrial Record, the Herald, and the EAGLE, like the many thousand pamphlets, describing the invigorating qualities of the ozone around Alamogordo, the fertility of the soil adjacent to the White sands, contiguous fields of waving grain, tropical fruits, hanging gardens etc.—the field of circulation was out of the country where people knew nothing of the conditions in reality. These discriptive pamphlets as well as the publication itself are alike articles of export, and are of no value as a local commodity. Now sony when you are taken with another pugilistic fit you would better look up the Remus and Romulus of your own virgin city and say unto them ye verily! When armored against such publications as the El Paso Herald and the Industrial Record I am strictly not in it, and owing to the fact that I am on the wrong side of the fight when attacking the EAGLE and the White Oaks country I think it will be policy to let them alone, Sabe?

The Best Remedy for Rheumatism QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain wich it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggist of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by. M. G. Paden.

Caught a Dreadful Cold.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1058 Milwaukee Avenue, Chicago, says: During the late severe weather I cought a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by M. G. Paden.

Official Paper of Lincoln County

THE ROCK ISLAND WILL BUILD

To White Oaks and Connect With the El Paso & Northeastern.

The following from the Globe Democrat, seems indicative of an intentional extension into the White Oaks country from Liberal Kansas:

"H. A. Parker, general manager of the Rock Island, arrived at El Paso last night in his private car and this morning will leave on a trip over the El Paso & Northeastern road. Rumor says the Rock Island will build from Liberal, Kan., to White Oaks, N. M, to connect with the El Paso and Northeastern."

The El Paso & Northeastern officials have been interviewed on the above subject by El Paso papers and they say that, although the Rock Island may contemplate an extension, they have no definite information to that effect. Even though an early extension were already decided on, this method of handling the subject would be resorted to any way, and it is more than probable that the E. P. & N E. will be absorbed by the Rock Island people should they decide to build, which now seems reasonably certain.

The Rock Island is the road that White Oaks wants, and should it decide to come into the country, we do not fear that they will come in the same liberal and sensible way they enter every territory they have yet built into. It has always been the policy of the Rock Island sytem to build up and develop the sections it touches instead of trying to swallow up everything in sight.

Money is in most instances held by sensible people, at least, and though designing intriguers have tried by various means to turn capital and investors out of the best mining districts in this county, in order to give themselves a little more time to increase their grasp, and enlarge their possessions, the time has passed when such efforts can be made successful.

White Oaks, as the EAGLE has stated before, wants a rail road, and must have a rail road, and a great effort is going to be made this summer to get it. The coal will be opened and shown up The gold mining interests will be put prominently before the public, with three or four mines in operation. The iron and marble will be advertised, and the building stone, which is of the very finest quality known in the west, will be put on exhibition.

There is no question that the greatest tonage in an undeveloped district, known, is here ready for the first road that comes after it. The Rock Island is wanted, and a very liberal offer awaits their bidding should they decide to investigate the matter with the view of building.

Gray Gleanings.

Regular Correspondence.

On Saturday night, a baile was given in Mr. Welch's new furniture store in South Capitan. A very enjoyable time is reported.

Mrs. S. T. Gray has been very sick for more than two weeks, and though somewhat better is not able to be up yet. Her many friends sincerely regret her illnes and wish her a speedy recovery.

Miss Beulah Gray was called home from school in El Paso, last week on account of her mother's sickness.

Mrs. Whiteman and daughter, Miss Flora, of Roswell stayed in this place last Thursday night. They were en route for Alamogordo where they will make their home for a short time.

J. W. Prude of Ruidoso, and Mr. Rice of Eagle Creek were visitors here this week.

Dr. Skipwith was up from Lincoln on Thursday, The Dr. was just on the eve of moving to Roswell to reside permanently.

The printing press has arrived at Capitan, so hereafter our paper can be published at home.

As Cinderella was considered unfit to attend the ball on account of her poor wardrobe, so this region has been considered unsuitable for settlement on account of its poor and unsufficient water supply. But the gifts of the fairy godmother enabled Cinderella to outshine all others at the grand assembly, so the gift of the great Creator, hidden for hundreds of years from sight, will help this place to take fore most rank among the towns of the Territory. The priceless boon referred to—pure, clear soft artesian water was discovered a few days ago by parties who were drilling for coal at a short distance from slope No. 4. So now, with good reason all in this community are rejoicing.

The Democrats of the District of Columbia held a mass meeting last week, and declared that delegates to the Kansas City Convention must be Bryan Democrats. The faction urging the sending of delegates to the convention uninstructed were completely snowed under.

Aldermen of El Paso called a public meeting of El Paso citizens last week to send in to Texas Congressmen a protest against the passage of the Puerto Rican tariff Bill. Congressmen are requested to do everything in their power to secure free trade between this country and the Island.

Oom Paul has again showed the English how 'tis done "Don't cher know". The Boers surprised and defeated Col. Broadwood near Bloemfontein. British losses were estimated at 350 men killed, wounded, and missing.

Winter is dying hard. The tail end of a Dakota blizzard struck us yesterday, and overcoats and White Oaks coal, iron—y as it is, came in good place, and that is something that every inhabitant in in this community has, is an overcoat and plenty of coal.

J. P. C. Langston, DeRoscar, and Mr. Thompson, are still pushing work on their copper mine at the head of Lane Canyon. They have run a tunnel of about 60 feet on a good lead of copper and silver. This prospect is only 5 miles from town and is considered a bonanza.

Commissioners court adjourned at Lincoln Tuesday. The Board will have an adjourned session the 17th of this month to consider the letting of the county printing and some other matters deferred from the regular session this week.

Chas. Spence and family will move to White Oaks to live. Spence Bros. have sold out their sheep, and Chas. will invest in White Oaks property.

N. J. Thatcher, of Denver, Colorado, has been in the city several days. Mr. Thatcher is representing capital which wants to invest in White Oaks mining properties.

Six coal miners came here yesterday from Cerrillos. They made the journey overland by wagon.

The Fruit of His Folly.

The play, "The Fruit of His Folly," rendered by the White Oaks Dramatic Club last Friday night at Bonnell Hall, was greatly appreciated by all who saw it. The house was, as is always the case, when the Dramatic Club entertains, crowded to the limit.

The Club has since its organization given a number of interesting plays; and while the receipts every time have been entirely satisfactory, and the attendance all that could be accommodated, most, if all not money taken in, has been invested in such articles as are necessary to make the next play more entertaining than the one preceeding it. In this they have been successful.

Such supplies, in the way of scenery and costume, are expensive, and the efforts of this club to give an excellent entertainment should be, and is, highly appreciated by White Oaks people.

The rendition of every part of this drama was excellent, and the moral of the play was forceful, and the way Jack Dunning (J. J. McCourt) and his wife, Dorothy (Mrs. A. Ziegler) presented these characters was very impressing. Whiskey and Cards, with the attendant gross recklessness of young men who indulge in them, in most, if not all cases, bring the victim to grief; in few instances would "Jack" ever have recovered, the $40,000, which was his all, staked on the races, or escaped the utter ruin, the very brink of which he narrowly avoided on different occasions, during the five years, he thought his little fortune was really lost, and that all hope of home and domestic happiness was ended.

The songs which were listened to between the acts, were excellent. The singers were Mrs. J. F. Carpentar, J. J. McCourt, and Polly, Mrs. J. J. McCourt; these with music by Prof. Jno. L. Reyes, and Mrs. A. Ziegler, were greatly enjoyed by every body present. The announcement of another play by the club will be waited with anxiety by all lovers of this character of entertainment.

Edward McTeage of Richardson is reported dangerously sick. He is suffering from an attack of Pneumonia. Dr. M. G. Paden is treating the case.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

A Powder Mill Explosion.

Removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. Don't dynamite the delicate machinery of your body with calomel, croton oil or aloes pills, when Dr. King's New Life Pills, which are gentle as a summer breeze, do the work perfectly. Cures Headache, Constipation. Only 25c at M. G. Paden's drug store.

The Record's correspondent at White Oaks makes the assertion in this week's issue that the El Paso and Northeastern railway company have refused to haul White Oaks coal to market. If this is true, and it no doubt is, as the gentleman says that he stands prepared to prove every statement, the road needs looking after by the El Paso Chamber of Commerce, as such action on the part of that company is decidedly against the interests of El Paso. The Record has been discriminated against by officials of this company for once making the statement that the Eddy brothers would never sell coal to El Paso consumers at a less price than has been paid in the past, but the Record never dreamed that the railroad company would go so far as to discriminate against the White Oaks coal in favor of the product at Capitan. This is a detriment to the interests of El Paso consumers, as coal has been very scarce here this winter. What can be the intention of the Eddy brothers, if not to force control of the White Oaks coal mines? The coal at White Oaks is of just as good quality and in as great quantity, as that owned by the Eddy brothers at Capitan, and the people of White Oaks deserve just as much consideration as those along the route of the line, so why this discrimination, unless it is for the object of controlling the mines at White Oaks?—Industrial Record.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong, I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and $1.00. Trial bottles free at M. G. Paden's Drug Store; every bottle guaranteed.

TRY ADVERTISING.

The territorial press calls attention to the fact that large sums of money are daily sent out of the territory which ought to be spent with home merchants. This buying of goods in Chicago, St. Louis, Kansas City and Denver, which can and ought to be bought in the territory, is all wrong, but New Mexico merchants themselves are to blame for this. They do not advertise as they should. One Chicago firm spends $500,000 a year in advertising. John Wanamaker spends 5 per cent of his gross income for advertising. There are very few merchants in New Mexico who spend one-tenth of 1 per cent of their income for advertising. Let New Mexico merchants advertise liberally and judiciously, and money that now goes to the good advertisers in the large cities from this territory will stay at home, and additional money will come flowing in to advertising merchants from surrounding districts. Judicious advertising is one of the requisites for success in business life in New Mexico, as well as it is in New York or Chicago.—X.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy; of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great newspaper. The Semi Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi Weekly Rebublic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make The Republic's Sunday Magazine a specially attractive weekly magazine The half-tone illustrations printed in this magazine surpass anything ever attempted by a newspaper These products of photography are worth the price of the paper. Special articles by trained writers on the news and the subjects engaging the public attention are prepared for The Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1 25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.
