WILL H. HIGHTOWER GRANTED PARDON.

Governor Otero has pardoned Will H. Hightower who, little over two years ago, was sentenced from this county to 18 years imprisonment in the penitentiary for the killing of James Meggs.

The killing took place on Eagle Creek, near Hightower's home, and was the result of frequent quarrels between the two men over the ownership of a mining claim. The particulars of the case are well known to the people of Lincoln county, and it is unnecessary to again recall them.

The pardon has been secured through the recommendation of S. F. Matthews, who was prosecuting attorney for this district at the time, and through like recommendation from the grand jury indicting him, and by a petition of the majority of the residents of southern Lincoln county, as well as by the special report of Col. Geo. W. Prichard, who made a thorough investigation and report on the case for the territory.

Hightower escaped from the penitentiary, and after some time returned to Santa Fe and gave himself up, feeling certain, no doubt, that sufficient evidence could be produced to secure his pardon.

The majority of the people of this county have always felt that Hightower was justifiable in taking the life of Meggs, and that it was necessary in order to save his own.

Hightower grew up to manhood in the Eagle Creek neighborhood and had always borne an excellent reputation, being considered a leading citizen of his community.

NOTICE OF SUIT.

In the District court of the Fifth Judicial district of the Territory of New Mexico, within and for the County of Lincoln.

John Y. Hewitt, Administrator of the estate of Edwin R. Bonnell, deceased, Plaintiff,

vs.
Viola J. Bonnell, widow of the late Edwin R. Bonnell; Irwin Bonnell, Harvey L. Bonnell, Bert J. Bonnell and Daniel N. Bonnell, heirs of said Edwin R. Bonnell, deceased; and Viola J. Bonnell, as guardian of Minnie Bonnell, Charles Bonnell, Edna Bonnell, and Archie Bonnell, minor heirs of said Edwin R. Bonnell deceased, Defendants.

The above named defendants are hereby notified that a suit has been commenced against them in the said district court within and for the county of Lincoln, Territory aforesaid, by said plaintiff, for the purpose of having an account taken of all the real estate of which the said Edwin R. Bonnell died seized and possessed; to have said real estate, or so much thereof as may be necessary, sold for the payment of the debts of the said decedent's estate and for such other relief as equity may require and said court may deem just.

Said defendants are further notified that unless they enter their appearance in said cause on or before the fourth day of October, A. D. 1900, judgement by default therein will be rendered against them.

Plaintiff's attorney is R. E. Lund, whose postoffice address is White Oaks, New Mexico.

JOHN E. GRIFFITH,

Clerk of said District Court.

MINERAL LANDS ON FOREST RESERVE.

The Engineering and Mining Journal of August 11th, speaking of the regulations of the General Land Office, Interior department, says:

"The law provides that 'any mineral lands in any forest reservation which have been or which may be shown to be such, and subject to entry under the existing mining laws of the United States and the rules and regulations applying thereto, shall continue to be subject to such location and entry, notwithstanding the reservation.' This makes mineral lands in forest reserves subject to location and entry under the general mining laws, in the usual manner.

"Owners of valid mining locations made and held in good faith under the mining laws of the United States and the regulations thereunder, are authorized and permitted to fell and remove from such mining claims any timber growing thereon, for actual mining purposes in connection with the particular claim from which the timber is felled or removed."

RICH PANNINGS FROM

MCCORMICK'S CLAIM.

The Tularosa Democrat is responsible for the statement that Ed McCormick took into Tularosa last week samples of ore that panned \$10 to \$20 per pan. The claim, the Democrat says, is located twenty miles northwest of Tularosa. Mr. McCormick tells the "paperman" that he intends building a stamp mill to treat his ores, and that it will be erected in a few weeks. This is a rich story, and the EAGLE hopes Mr. "Mc." may soon come in to possession of his wealth.

BEST MINING CAMP IN

SOUTHERN NEW MEXICO.

White Oaks is maintaining her reputation as the best mining town in southeastern New Mexico. The business men and mining operators in this live little burg work together in entire harmony, and the result is that they have there the most independent and self-centered community in New Mexico.

Some samples of rock carrying free gold are on exhibition in the windows of the Exchange bank that must be eye-openers for visiting prospectors and mining men. —Journal-Democrat.

A MINISTER'S GOOD WORK.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Powers, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them three or four days without relief then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Cholera and Diarrhoea Remedy and he said, 'No' I went home and brought him my bottle and gave him one dose; in fifteen or twenty minutes told him to take another, but he said he was entirely cured." You can find this wonderful preparation at Dr. Paden's drug store.

TIMBER RESERVE OF LINCOLN CO.

S. J. Holsinger, special agent of the interior department, general land office, with headquarters in Tuscon, returned to El Paso from a month's investigating tour of the Sacramentos, Capitan and White mountains of southeastern New Mexico. He was ordered to look into the advisability of creating a forest reserve on the mountains named, and in a few days will report favorably upon White and Capitan. The reserve, as he recommends it, will embrace a quarter of a million acres of forest. His report should be heard from by October.

In addition to the reserve report, Mr. Holsinger recommends the establishment of a national park of four townships, or 85,000 acres, enclosing part of White mountain and the adjacent valley. Mr. Holsinger states that the valley is a natural park site, which could be greatly improved upon by the expenditure of little money. This feature of the report will have to be taken up in the shape of an act before congress. —Albuquerque Citizen.

Mr. Holsinger, when here a few days ago was asked if any agricultural lands would be included in the reservation now under consideration by the government, and his reply was that only the mountains proper would be included in the timber reserve, and that mineral lands may be entered and located and timber cut for domestic uses, development of mining claims, etc., just as though no reservation existed. The section of country near White Oaks, which has been withheld from entry and mining locations, is not a timber reserve for the reason that it has never been set aside by the government. The conditions as have been explained to the EAGLE are as follows:

A petition was sent in to the government asking that the district referred to be segregated from the public domain and constituted a national park—not a timber reserve. Later the petitioners, or a majority of them at least, thinking they had petitioned for a timber reserve only, sent in a counter petition asking that former one be revoked. Pending investigation by the government the territory was withdrawn from entry, during which time both the homesteader and miner have been precluded from entering the district. However, under the proposition now before the government, Mr. Holsinger says that the White Oaks reserve, except timbered portions of the mountains, will be thrown open and not included in the new reserve.

As to the national park reservation, to which the foregoing article from the Citizen refers, and the amount of territory it embraces, the EAGLE has heard nothing, but the proposed timber reservation is only to take in the forests of the mountains proper and will not interfere with the homesteader unless agriculture can be conducted on a perpendicular basis, where cultivation may be carried on by hoist machinery. There never has been any objection to a timber reserve in Lincoln county, but there have been objections to embracing so much territory as was included in the original proposition, which included territory not necessary to the preservation of the timber. But that condition has been removed and only the forest districts are included in the petition now before the government, and the territory included in same will be set aside with little if any opposition.

FOR COMMISSIONER DISTRICT NO. 3:

Ed. C. Pfingsten.

GROSS INCOMPETENCY OF CENSUS ENUMERATORS.

A Washington dispatch, in speaking of the work of the census bureau, thus refers to the returns from this territory. "The census of New Mexico is in a deplorable condition. The men charged with the work seemed to have been totally incompetent. The agricultural and manufacturing schedules have been returned, and this work will all have to be done over again. The enumeration has not yet been examined, but it is feared this part of the work will be as defective as the other."

When Pedro Sanchez' appointment as territorial census enumerator was made public the EAGLE remarked that the appointment was made with utter disregard to competency, and for political purposes solely. The foregoing dispatch shows the statement to have been correct. This is a sample of republican politics in New Mexico and adds a little more shade to the black eye this territory has worn for sometime under the control of the Otero administration. In the appointment of his force of district enumerators the question of ability to properly transact the duties of the office seem to have been entirely forgotten in his eagerness to favor the fellow who could influence the greatest number of votes for the republican ticket in the fall election.

The results are painfully apparent, as shown in the dispatch at the head of this article. Some and possibly all of the schedules must be returned for correction, and the additional expense incurred must be borne by the taxpayer, who is assessed to pay both for the mistakes and the adjustment of the mistakes of a regime of incompetents who manage to get appointments without consideration of merit.

The Eagle does not allege that there are no exceptions to the general rule of Mr. Sanchez' appointments, but on the other hand does claim an exception as to Lincoln County where at least a part of the number appointed were competent men, and it is not likely that many mistakes will occur from the fault of enumerators in this county.

BRITAIN IS FIGURING ON COST OF BOER WAR.

The work of war, waste and devastation of the Boer republics is about ended, and the English government is now figuring the cost. The loss of men, dead, sick, wounded and disabled is estimated to be 75,000 out of an army of 280,000 men who have been in the South African service from first to last. This is the largest army England has ever had in the field at one time, and the money expended will approximate a hundred million pounds, or \$500,000,000.

OUR EXHIBIT ATTRACTS ATTENTION IN EL PASO.

Secretary E. E. Russell, of the Chamber of Commerce of El Paso, writes John Y. Hewitt as follows: "You have no idea how much interest is displayed here in the city in your exhibit, especially the coal, building stone and marble. I am sure that no exhibit from any locality will attract more attention, or will be regarded by our people as giving greater promise of value in the development of our resources and the building up of our city."

The foregoing section of Secretary Russell's letter to Mr. Hewitt is in substance what every mining man who visits this country says of it, and shows what may be accomplished by the right kind of advertising. Mining men often take what is generally said of a mining district with a good deal of allowance, but when the resources of a community are placed on exhibition and a true and accurate description of each several product given they no longer doubt that the locality contains something worth looking at, and money will be spent making investigation; and the happy conclusion of it all is when conditions are found to be as represented, as will be the case at White Oaks, mining men invest their money with the satisfaction of knowing they are going to get satisfactory returns on it.

The EAGLE has always advocated this mode of advertising the resources of this mining district, and the fact that our exhibit is creating such interest in El Paso is impeachable evidence that it is the proper theory for the solution of the future development of the White Oaks country. Four gold mines, in operation here are admitted to be greater producers than can be found anywhere in New Mexico. There are three others here that would be producing but for pending litigation. We have coal that is now being shipped to Roswell, 100 miles, and sold for \$12.00 per ton, and many other resources, lying undeveloped that must soon command the attention of capital.

The attention of Capital should be pointed to these at once. Delay is useless, and men who are holding these things waiting for something to turn up are not going to live always, to wait for somebody to come in and show what they have. Capital must be shown by the owner of a property. It is not the custom for money to show the merits of a mining claim or any other resource to the owner. Some fellow will say, "Oh, advertising doesn't pay". Some fellow has also said: "God will look after fools, but smart men must look after themselves." Intelligent people know that the right kind of advertising is indispensable, and that without it the whole world would be slow.

It requires little reflection for a business man to see that great good may be accomplished by placing a splendid exhibit at Roswell during the fair there in October. While it may not be seen by as many people as will see our exhibit in the Chamber of Commerce at El Paso, a great many will see it and advertise the resources of this mining region in districts that would probably never be reached by the Chamber of Commerce exhibit at El Paso. There are a number of people interested in this matter already. Let the whole community take it up and we can have an exhibit at the Roswell fair, at a minimum cost to the community, that will be the means of bringing both money and people into this district.

Senator Butler, of North Carolina has renounced his allegiance to populism and will take the stump for McKinley. This is the end of populism in North Carolina. The republican gain Butler, the democrats get the rest.

DEMOCRATIC TERRITORIAL CONVENTION AT SANTA FE.

Headquarters, Democratic Territorial Central Committee, Santa Fe, N. M., Aug. 18, 1900.

By direction of the Democratic Territorial Central Committee of New Mexico, a Democratic Territorial Delegate Convention is hereby called to be held in the city of Santa Fe, New Mexico, on Thursday, the 4th day of October, 1900, at 2 o'clock p. m. on said day, for the purpose of nominating a candidate for Delegate to the 57th Congress of the United States, and such other business as may come before the convention.

The following is the representation to which each county is entitled in said convention:

Bernalillo.....	21

All Democratic, conservative, reform forces, and all citizens of New Mexico who believe in the principles enunciated in the Democratic National Platform adopted by the Democratic National Convention held at Kansas City on July the 4th, 1900, are cordially invited to participate in the election of delegates to said Convention.

CHARLES F. EASLEY,
A. B. RENEHAN, Chairman.
Secretary.

The Capital, Mr. Catron's paper at Santa Fe, says that the Hon. Sol Luna has positively declined to be considered as a candidate for delegate to congress, and that he has stated this determination to many leaders of the party. Does this preclude Mr. Luna from accepting the republican nomination should the party thrust it upon him? Mr. Luna is probably acquainted with that old phrase, "a fool and his money are soon parted," and does not care to be pulled into the campaign with little hope of election, when it is certain to cost him a good deal of dust.

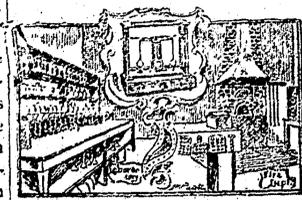

The Boers are weary of battle against hope, and after sacrificing the best blood of the republic are ready to lay down their arms in order to save their families from starvation, and their country from utter desolation. "War is hell," and Britain understands the application of the last word of Sherman's declaration. And, although she has had some of the egotism and arrogance battered off her face by Boer lead, she has not yielded her greedy lust for stamping the life out of a weaker government.

Callis P. Huntington, the railroad magnate, who constructed the first overland rail road is dead. He leaves a fortune estimated at between \$40,000,000 and \$50,000,000. His immense fortune was handled by the deceased millionaire in a manner that showed him to be a master of finances. The general stock market was not disturbed by his death, and even his own stock chief among which was the Southern Pacific which immediately rallied its one point decline, shows the excellent condition of his finances.

There are now 3,000,000 native born Germans who are citizens of this country. This means 3,000,000 votes against imperialism in the coming presidential election. The German-American is for Bryan.

WHITE OAKS COAL
SILLING FOR \$12.00.

Old Abe coal is now being freighted to Roswell, 100 miles, and selling in competition with Col. coal, the Old Abe coal being preferred at \$12.00 per ton over Colorado coal at \$8.00.

G. W. Kieth and Robt. Leslie began hauling Tuesday morning. The coal is being used in the blacksmith and machine shops, and will be marketed there in considerable quantities during this year.

With our coal commanding \$12.00 per ton; with four gold mines in operation, and with iron, fire clay, sulphur, sandstone, water, timber, live stock, fruit, agriculture, climate, etc., is it not pretty certain that the Rock Island will tap this district with a main line?

A HORSE THIEF KILLS AN OFFICER.

W. W. Corn, of Bonito, handed the Eagle reporter the following account of a killing which took place near Alamogordo Monday:

A man by the name of Barber borrowed a horse from A. J. Gilmore at Angus, stole a saddle from Walter Gray, of Capitan, and started toward El Paso. He was followed by Arthur May and Kendrick Hamilton, officers at Nogal, and was apprehended near Alamogordo. The fugitive opened fire on the officers as soon as they came in sight. Hamilton was shot dead and May narrowly escaped the bullets of Barber, who evaded arrest.

ANNUAL CONFERENCE AT WHITE OAKS, SEPT. 6.

The Methodist Episcopal Church South will hold its eleventh Annual session, beginning Sept. 6th, 1900, at the Methodist Church, White Oaks, New Mexico. Will be in session possibly five days. We reasonably expect forty or fifty preachers, their wives, and delegates in attendance.

Bishop H. C. Morrison of Louisville, Ky. is to preside. We trust the people of White Oaks will throw open their doors and kindly entertain the Conference. Many have already offered their hospitality. If there are others who will take delegates, please report to the Pastor. Many people in the surrounding country, wishing to attend an annual Conference, are cordially invited to come prepared to camp and enjoy the services with us.

CHATTEL MORTGAGE SALE.
Whereas, on the 7th day of March, A. D. 1900, John N. Copeland, of the county of Lincoln, Territory of New Mexico, executed and delivered to El Capitan Land and Cattle Company, of said county, a chattel mortgage with power of sale, mortgaging seven yearling heifers; seven two-year-old heifers, and seven cows, all branded C on left hip or shoulder, which said chattel mortgage was duly recorded the 2nd day of June, A. D. 1900, in the records of chattel mortgages, Book No. 1, page 173. And whereas, the said mortgage was executed to secure an indebtedness of the said John N. Copeland the sum of \$300.00, as shown by his promisory note of March 7th, 1899, payable on the 1st day of January, A. D. 1900, with interest at the rate of twelve per cent. per annum; and whereas, the conditions of said mortgage has been broken, and default has been made in the payment of said indebtedness and interest thereon, and the same being long past due and payable; notice is hereby given that in pursuance and virtue of said power of sale contained in said mortgage, the said El Capitan Land and Cattle Company will, on the 8th day of September, A. D. 1900, at the hour of 12 m. of said day, in front of said company's store in the town of Richardson, in said county and territory, sell at public auction to the highest bidder for cash, the said above named cattle to satisfy said mortgage and note and all charges and expenses touching the sale thereof under said mortgage.
