FREE TRADE FOR PORTO RICO.

President Issued Proclamation Today In Accordance With the Foraker Act.

Washington, July 25.—The president issued a proclamation establishing free trade between Porto Rico and the United States and declaring the organization of a civil government for that island. The proclamation is purely formal and only in the body of the resolutions, adopted by the Porto Rico legislature, (heretofore published) does it appear the island is set free commercially today, in commemoration of the anniversary of the planting of the American flag on that island. The proclamation is headed "Cessation of Tariff—Porto Rico."

It recites that the act of April 12, 1900, (otherwise known as the Foraker act) provided whenever the Porto Rican legislature enacted and put into operation a system of local taxation to meet the needs of the government and by resolution so notified the president, the latter shall issue a proclamation and all duties on goods passing between the United States and Porto Rico shall cease. As the legislature has complied with that requirement of the act in terms set out in the resolutions quoted in full in the body of the proclamation, that document says: "Therefore, I William McKinley, President of the United States, in pursuance of the provisions of the laws above stated and upon the foregoing due notification, do hereby issue this my proclamation, and do declare and make known that the civil government for Porto Rico has been organized in accordance with the provisions of said act of congress."

"And I do further declare, and make known that the legislative assembly of Porto Rico enacted and put into operation a system of local taxation to meet the necessities of the government of Porto Rico."

CERRILLOS COAL FIELDS.

Special to The El Paso Herald.

Cerrillos, N. M., July 26.—The deed transferring the Cerrillos Coal Fields and 32,000 acres of coal lands in this county, to the Chesapeake and Pittsburg Coal and Railroad company from the Cerrillos Coal Railroad company, consideration \$460,000, was recorded at Santa Fe today in the office of the probate clerk. The property had been bought in at foreclosure sale.

LAUNCHING THE MAINE.

Philadelphia, July 27.—The battle ship Maine was successfully launched from the Wm. Cramp Ship and Engine Building company's yards today. An immense crowd witnessed the launching of the latest addition and probably the most powerful of steel clads.

Workers knocked the last shores from the cradle of the vessel, Miss Mary Preble Anderson of Portland grasped the bottle of American champagne, wrapped in the stars and stripes, and, crashing it upon the big ship's bow, exclaimed in a loud and firm tone, "I christen thee Maine."

The new war vessel is far superior to the one destroyed in the harbor of Havana. The other Maine was a second-class battleship, built at the New York navy yard. The new one is a first-class bat-

latest improvements and devices known to modern naval architecture. The ship will carry a crew of about 600 officers and men. Though every effort is being made to hasten its completion, it will probably be a year before the Maine is ready to go into commission.

ALAMOGORDO INUNDATED.

Cor. El Paso Daily News.

This afternoon a hard rain fell here and in the mountains, and water flowed through through the streets like rushing rivers. In the street in front of the depot it was hub deep, and dogs swam in it. It rushed through the depot four inches deep, and everything had to be moved. The depot clerical force went barefooted with trousers rolled high. Water ran like a mill-race over the grass

COURT OF INQUIRY

Washington, July 25.—Secretary Long announced this morning that he had selected Admiral Dewey and Rear Admiral Kimberly and Benham as members of the Schley court of inquiry. The precept to the court has been published. It was prepared by the Judge Advocate of the Navy, and who has also been appointed Judge Advocate of the court. The precept covers the entire controversy regarding Admiral Schley during the West Indian Naval Campaign of 1898.

Secretary long says that the proceedings will be open and the widest latitude permitted in the matter of witnesses, Rear Admiral Schley to be represented by counsel. The secretary said that none of the officers of the court chosen had, so far as he knew, expressed an opinion concerning the Sampson-Schley controversy, and it was therefore to be presumed that they would enter upon their work in an unprejudiced spirit.

NEW MEXICO RAIL ROADS.

Santa Fe, New Mexico, July 22.—Pittsburg and New Mexico capitalists to-day incorporated the Santa Fe Central Railway Company, capitalized at \$2,250,000, to build a road 120 miles long from Santa Fe to Pinos Wells, to connect the Denver & Rio Grande and Rock Island systems.

The Albuquerque Eastern Railway Company was also incorporated, capitalized at \$1,500,000, to build a railroad forty miles long from Albuquerque to the San Pedro coal fields to connect there with the Santa Fe Central.

Both lines have been surveyed. They will cross and connect with the Santa Fe system.

REVIVAL AROUND HILLSBORO.

Hon. W. S. Hopewell of New Mexico says that a revival of the mining industry around Hillsboro is evident. Several properties have change hands lately and active work has been commenced on properties that had been idle. The famous old Wick mine has been taken hold of by New York and El Paso capital and is being further developed. The water is being pumped out of the main shaft which new drifts will be run.—El Paso News.

J. A. Brock left this morning for a trip into the White Oaks country.—El Paso News.

The New Mexico

SOCORRO, N. M. School of Mines

FALL SESSION BEGINS SEPT. 9, 1901.

Regular Degree Courses of Study:

- I. Chemistry and Metallurgy
- II. Mining Engineering
- III. Civil Engineering

Special courses in degree in ASSAYING, CHEMISTRY and SURVEYING.

A PREPARATORY COURSE maintained for the benefit of those who have not had the necessary advantages before coming to the School of Mines.

Tuition—\$5.00 for preparatory course; \$10.00 for the technical course.

There is a great demand at good salaries for

Young men with a technical knowledge of mining.

For Particulars Address

F. A. JONES, Director.

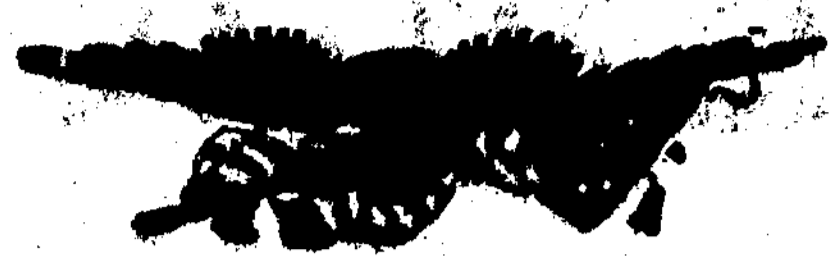

bleship of 12,500 tons displacement, with a speed of 18 knots. Her main battery will consist of four 12-inch guns, and her secondary battery will be twelve 6-inch guns. The original Maine had only 6682 tons displacement, a main battery of four 10-inch guns and a secondary battery of 6-inch guns.

The new Maine is fifty feet longer than the old, her engines will have an indicated horse power of 16,000, as against 9293 of the old ship. Her armor is 12-inch Kruppized as against the 12-inch Harveyized steel used on the old ship, and her coal bunker will carry 2000 tons, giving a steaming radius of 10,000 knots at a cruising speed of ten knots an hour. The interior equipment of the vessel will contain all of the

plots in the plaza, leaving a large amount of yellow silt over the grass. Sunday afternoon it was almost as bad. Should we have real hard rains for any length of time, the freshet from the mountains is liable to do damage. The cross ditches made to avert such an event are not large enough, as they soon fill up and the water sweeps away the embankments and reaches the town. The streets running north were totally covered with rushing water knee deep. Lots on the water front were not held a premium today.

Territorial wools are being secured in places of production prices fully equal to current eastern rates, and are being bought with a view to a prospective rise in prices.

HOW TO BUILD A TOWN.

The best way to build up a town is to stand by each and every man in the town who does right. Whenever a man is doing well do not tear him down. All the residents of a town ought to be partners, not opponents. When a town ceases to grow, it begins to die and the more people do to kill each other in their business or good names, the more rapidly will utter ruin come to all. Stand together for the advancement of every citizen. If a man shows ability to prosper, do not pull him back through jealousy or weigh him down with cold indifference. Natural advantages alone do not make a city. Farseeing and comprehensive grasp of opportunity are equally necessary. Working in unity is a potent factor in building cities.—Optic.

This paragraph contains food for thought for a good many people in this community. A unity of interests and sentiment, would in the course of two or three years make White Oaks the best town in Southern N. M. A local board of trade might help out in this way.

THE GREAT STEEL STRIKE.

Late advices from Pittsburg, Pa., say, that the signs are most encouraging to the ending of the strike. It is said the steel men will get what they ask.

President Shaffer and the steel trust magnates are arranging for a final conference tomorrow, which will probably bring a settlement.

Shaffer's invitation to visit Morgan on Saturday bore excellent fruit. The first of August will probably end the contest entirely.

Computation foots up a total loss of \$6,515,000 on account of the strike, of which sum \$3,960,000 is charged to the combine and \$2,516,000 to the strikers but this will soon be made up owing to the better prices which now prevail and improved operating conditions as well as better feeling between employer and employees.

The Lincoln county Baptist association meets next Thursday night at the Congregational church.

MISSOURI PRAYS FOR RAIN.

Governor Dockery of Missouri issued a proclamation asking the people of Missouri to devote the morning services in all the churches, Sunday July 21, as a time of petition for relief from draught. This it is said is the third time in history of the commonwealth that divine intervention has been sought to avert distress.

The great drought of 1540 made the Indian tribes of the Mississippi valley call on De Soto, the explorer, to intercede with his God that they might not perish of starvation. History tells us that rain fell in torrents, the night following rearing of the De Soto's crosses on the banks of the father of waters.

Again in 1874 Missouri was visited by drought, and Governor Hardin was sought by the people to issue a proclamation it was issued the united petition offered, the rain came, and Missouri crops were soaked with water.

Certificate of Apportionment of School Funds,

—FOR THE—

COUNTY OF LINCOLN, NEW MEXICO.

I, Lee H. Rudisille, Superintendent of Schools for said County, do hereby certify that I have duly apportioned the school fund of said County on this 31st. day of July 1901. The amount of money subject to such apportionment is one thousand five hundred ninety-one Dollars and forty-four cents (\$1591.44). The total number of persons of school age is 1739. The rate per scholar is \$0.91 which is apportioned to the several school districts as below:

No. of Prec.	No. of Sch.	No. of Pup.	Gen'l Fund	Prec't Fund	Liq' Fund	Poll Tax	Amt.
1	1	247	224.77	5.00	123.60		353.37
2	18	28	47.82				47.82
3	20	31	78.71				78.71
4	30	70	48.70				48.70
5	32	51	46.41	100.00	18.82		165.23
6	1	108	73.98				73.98

Total	1739	1739	1591.44	148.00	182.00	51.00	1591.44

Amt. left for next Apportionment \$1901.44
LEE H. RUDISILLE, Superintendent of Schools.

The drawing in Uncle Sam's great land lottery, for the disposing of the Kiowa-Comanche lands was begun on Monday at El Reno, I. T. There are about 167,000 registered applicants and 13,000 homesteads to be divided among them. This would give a prize to one in thirteen. The old song "Uncle Sam is rich enough, to give us all a farm," is now as obsolete as the Declaration of Independence.

At Plymouth church, services next Sunday morning and evening at the usual hours. The new organ will help in the music.

GREAT MIDSUMMER CLEARING SALE.

EVERY article of Summer Wear, will be closed out regardless of Cost.

305 North Oregon St., El Paso Texas.

JICARILLA NUMBLE.

F. M. Johnson and family have
 returned from an extended trip
 through Texas, visiting friends
 and relatives they say that New
 Mexico is good enough for them,
 the climate is much better and
 mountain breezes more refresh-
 ing.

Mrs. A. N. Price has moved
 out from White Oaks to be close
 to Mr. Price and help him along
 with his work, as batching and
 working does not go well togeth-
 er. Mr. Price says the Bible
 saying, it is not well for a man to
 live alone is wise.

Sam McFadden spent a few
 days out at the rail road last
 week and says the contractors
 are getting along very well and
 that the track laying is coming
 up very fast it will be to camp
 28, by August 10th.

There will be quite a contin-
 gent of Base Ball fans, from this
 place to witness the game be-
 tween White Oaks and Allen's
 nine of camp 28. The boys from
 the camp made a favorable im-
 pression on the people of this
 place who witnessed the game
 July 4 by their Gentlemanly con-
 ducted while on the diamond,
 may success attend them.

Geo. Weisher, A. Donaldson and
 others made a trip to the Tucson
 Mountain, on a prospecting tour
 and returned, yesterday. They
 were well pleased with their trip.

Manager Hatfield, A. Johnson
 and Elmer E. Boalt, of the
 American Placer Co. with Sam
 McFadden went out today to the
 round-up at the mouth of Ancho
 Gulch. Mr. Johnson expects to
 take views of the round-up.

PERSONAL MENTION.

Mrs. Wm. Hoyle is going
 east to spend two or three months
 visiting among relatives.

John Ramsdale and family
 were in from the ranch Sunday
 to attend the service at the Chris-
 tian church.

H. C. Cray, Rev. L. L. Gladney,
 Mrs. John Woodland, Mrs.
 Joseph Biggs and Dr. A. G.
 Lane went to camp meeting at
 Nogal last Monday.

Mrs. B. F. Gumm who is with
 the camping party on the Ruido-
 so is reported sick at the camp.
 John Gumm left here yesterday
 morning for Capitan to bring her
 home.

Rev. J. L. Stovall, who has
 been ministering to the Christian
 church in this neighborhood for
 some time past, has gone down
 into the region of the Penasco, in
 the interest of his church.

J. L. Typer agent of the New-
 man Organ Co. is at the Baxter.
 He is here to deliver several organs
 which were ordered on his last
 visit. Next Sunday the new
 organ will be at place at Ply-
 mouth church.

S. M. Wharton and H. C. Cray
 are making a tour of observation
 to the Oscuras. It is expected
 they will bring back with them
 glad tidings and visible evidences
 of great wealth, from that good
 land toward which many are
 casting wistful eyes.

Dr. J. K. Bishop, has been suf-
 fering from a severe attack of
 mountain fever for the past ten
 days. That he might have bet-
 ter care and accomodation he was
 removed to the residence of Mrs.
 Edney, last Saturday. The last
 reports say that he is quite com-
 fortable.

Current rumors indicate new
 life for White Oaks. Weddings
 are once more in order. The
 Timoney cottage has been se-
 cured by one well known couple
 for a home. And another party
 has gone to an adjoining state
 for a bride. This is a good start
 and the outlook is delightfully
 promising.

FROM ANGLUS.

[Bonito Valley Items.]

Corro spondence.

The rainy season is now on us,
 have had rains all around us but
 in our Park the ground is not
 wet beyond three inches. Have
 always understood that the rains
 generally follow the water courses.

F. G. Peters is building three
 cottages to rent to people who
 summer in our mountain.

There are a great many pass-
 ing here as it is the best road east
 of the mountain range, and the
 travel centers in here for the up-
 per Bonito, and its alluring can-
 yons, which have great possibili-
 ties for mining operations.

Lincoln county had more rain
 during the month of July than
 during the whole season of last
 year.

OF LOCAL INTEREST.

Last Thursday was an interest-
 ing day in Justice Collier's court.
 The case of the Territory against
 Wilson McFarland on the charge
 of cattle stealing was heard by
 him as examining Magistrate.
 District attorney G. W. Prichard
 appeared for the prosecution and
 attorney Wm. Watson for the
 defence. Under the statute, the
 alleged offence is a felony, and
 the authority of the magistrate
 is restricted by it to hold the
 prisoner for the action of the
 grand jury, in case the evidence
 warrants presumption of guilt,
 or if not to dismiss the complaint.
 It appeared that McFarland had
 been examined on the same charge
 for the same offence by Justice
 Manuel Vigil, and by him the
 evidence was thought insufficient
 to sustain the charge of felony,
 but sufficient to sustain the charge
 of misdemeanor under another
 statute, than that upon which
 the complaint was based. He
 therefore fined him as provided by
 that statute. The action on part
 of Justice Vigil, led to consider-
 able discussion by the attorneys
 as to the jurisdiction of the pre-
 sent court. Justice Collier decid-
 ed that he had jurisdiction, and
 would hear the case and decide
 upon its merits from the facts.
 The evidence disclosed, that Mc-
 Farland had roped and tied down
 a calf belonging to the Block
 Ranch. Two hours or more
 after he had done so, he led the
 calf toward his father's cow pen,
 ostensibly, to have the cow fol-
 low him and the calf, for the pur-
 pose of milking. On the way he
 was arrested by Will Thompson.
 He was leading the calf by a rope
 tied to the pommel of his saddle.

Evidence was presented that
 the McFarlands were in the habit
 for a long time of taking up
 Block Ranch cows for milking
 purposes and had never been
 forbidden to do so. Quite a
 number of witnesses were exam-
 ined on both sides. In the end
 Justice Collier dismissed the case,
 holding that the evidence sub-
 mitted as not sufficient to warrant
 him holding McFarland on the
 charge of larceny under the
 statute on which the complaint
 was made.

Preparations are in progress
 for a grand reception and dance
 at Hotel Baxter on Saturday
 night. Boniface Lund proposes
 to give to "Allens Nine" of
 the Rail Road camp's a genuine
 White Oaks welcome. The boys
 of this town will be glad to have
 another opportunity of meeting
 those gentlemanly young men on
 the diamond.

Arthur Johnson, who has been
 in the Jicarillas, with the Ameri-
 can Placer Company is in town
 on his way to Chicago. He ex-
 pects to go to South America to
 superintend the rection of one of
 his father's Machines.

A BIG COPPER DISCOVERY.

W. C. McDonald and Ira Bolles
Millionaires.

A couple of Carlsbad men who have been out prospecting in the Guadalupe for some time past, returned to Carlsbad last week, and with them brought some fine specimens of copper ore. A rough assay at a blacksmith shop turned out an ingot of almost pure copper that weighed twelve ounces, and it was smelted from a piece of rock not much bigger than a man's fist. To even the unpracticed eye and hand, the ore shows a marvelous richness, the percentage of copper being at least 85 per cent, with a strong trace of gold. The finders are W. C. McDonald and Ira Bolles, who declare that there are at least 100 carloads of the ore in sight on the top of the ground, and that the find is less than 60 miles from Carlsbad.

Messrs. McDonald and Bolles declare that they traced the vein for over a mile, and that there is an almost incalculable amount of the ore on the surface at the "blow-out" discovered and located. Specimens of ore have been sent off for assay, and if the discoverers can show any large bodies of the rock they are easily millionaires.—Current.

SOLD IN THE SACRAMENTO.

Pat Durack in the service of Eddy brothers has made gold discoveries in the Sacramento Mountains. A description of the formation is given by an exchange as follows:

The overlying wall is black dolomite (slate). The ledge matter is a porphyritic gangue disclosing iron and sulphurets and, to the amazement of Durack himself, sylvanite, a mineral constituent that runs over 30 per cent gold. Some three weeks ago Durack, accompanied by J. L. Burks, an expert and practical miner of Cripple Creek, Colorado, went and sampled the property at the discovery shaft. After panning the rock, which showed free gold, he determined to have it thoroughly tested. He sent samples to Cripple Creek and to Burlington of Denver for that purpose; the results given were \$117 and \$120 respectively to the ton.

THE DROUGHT BROKEN.

General rains are reported throughout Missouri, Arkansas, Kansas, Iowa, Nebraska, and Oklahoma. The prospects are for a continuation of more showers in the section covered by these states. Rains have also fallen in Texas and the outlook for the cotton crop is much brighter. The rains however are too late to be of any material help to the corn crop. It will help the fodder production and furnish water for stock.

Incidental to the rains the temperature as officially reported is lower from 6 to 10 degrees.

SPECIAL MASTER'S SALE.

In the District Court of the Fifth Judicial District of the Territory of New Mexico, sitting in and for the County of Lincoln.

Chas. H. Hild, Plaintiff
vs.
Jose Montano, Josefa de Montano, H. Michells and Timoteo Analla, Administrators of the estate of Jose Analla, deceased, Defendants.
No. 1205.

WHEREAS in the above entitled cause and court, on 22nd day of May A. D. 1901, judgment was rendered against the defendants Jose Montano, and Josefa de Montano in favor of Charles Hild in the sum of two thousand, four hundred and ninety-five and 22-100 dollars (\$2,495.22) which amount bears interest at the rate of ten per cent per annum from the date of said judgment and against said defendant in favor of the defendant H. Michells in the sum of two thousand, six hundred and twenty-eight and 12-100 dollars (\$2,628.12) together with interest at the rate of twelve per cent per annum from the date of said judgment and the further sum of two hundred and fifty-six and 58-100 dollars (\$256.58) as an attorney's fee in said action; and whereas it was determined by said court that said defendants Jose Montano and Josefa de Montano were justly indebted on said date to the defendant Timoteo Analla, Administrator of the estate of Jose Analla, deceased, in the sum of six hundred and eight, seven and 21-100 dollars (\$687.71) with interest thereon at the rate of twelve per cent per annum from the sixth day of August A. D. 1900;

And whereas each of said amounts was by said court found to be lien upon certain real estate of said defendants Jose Montano and Josefa de Montano situated, lying and being in the county of Lincoln in the Territory of New Mexico and described as follows, to wit:

The south half of the south east quarter, the north west quarter of the north east quarter and the north east quarter of the south west quarter of section 30, in Township 11, south of range 19, East; the south one half of the north west quarter and the north west quarter of the south west quarter of section 29 and the north east quarter of the south east quarter of section 29, in Township 11, south of range 19, East; and the south one half of the north east quarter of section 12, in Township 11 south of range 19, East, all of New Mexico meridian, containing four hundred acres, as per United States patent.

And whereas it was ordered by said court that all and singular the interests of said defendants Jose Montano and Josefa de Montano be sold at public auction to satisfy the aforesaid lien, and the undersigned was appointed special master to make said sale.

Now, therefore, notice is hereby given that on the 24th day of August, A. D. 1901, at the hour of ten o'clock in the morning, of said day, at the front door of the court house of Lincoln County, in the town of Lincoln, New Mexico, I shall offer for sale at public vendue, and sell to the highest bidder for cash, all and singular the interest of said defendants Jose Montano and Josefa de Montano in and to the real estate and premises above described.

E. W. HERRING,
Special Master,
Lincoln, New Mexico, July 17th, 1901.

FOSBURGH IS FREE.

Pittsfield, Mass., July 26.—At the opening of court today in the Fosburgh trial Judge Stevens instructed the jury to bring in a verdict of not guilty. This was done, ending the trial.

The verdict was received with shouts of applause.

When Robert Fosburgh was discharged from custody the crowd rushed as one person to shake hands with the handsome young man.

THOSE PEACE NEGOTIATIONS.

The Hague, July 29.—There is strong evidence that negotiation to end the Boer war are progressing. Premier Kuyper is working on the matter.

It is reported that Sidney Hollis, the American who recently arrived with the project of building a temple commemorating the peace conference, was actually sent from Washington at Colonial Secretary Chamberlain's request to represent England in the negotiations.

Mrs. Dan Carr and children are at home from a pleasant visit to Marfa.—El Paso News.

THE REMEDY FOR CATARRH
AND HEALING
OF THE
CATARRH
OF THE
EYE'S
AND
COLD HEAD

It is a well known fact that the eye is the most delicate of organs and that it is easily injured by colds and catarrhs. The remedy for these ailments is a simple and effective one, and it is one that has been used for many years with the most successful results. It is a remedy that is safe and reliable, and it is one that is well known to all who have used it. It is a remedy that is well known to all who have used it.

RAILWAY ACCIDENTS.

The total number of casualties to persons on account of railway accidents during the year ending June 30, 1900, was 58,185. The aggregate number of persons killed in consequence of railway accidents during the year was 7,844, and the number injured was 54,310. Of railway employees 1,560 were killed and 29,643 were injured.

THE MARLIN FIRE ARMS CO.
INTEREST IS BEING EXPENDED IN THE use of automatic revolvers and improved rifles in large numbers. A 45 caliber bullet weighing 600 grains does a shock so large that the brain matter can not recover its normal position. This is the reason for the fatal results. For more information on our articles, call for a sample.

Shoes for \$1.50. \$1.50 and \$1.75
Shoes for \$1.00 per pr.

RESTORING THE MASON AND DIXON LINE.

The monuments of the Mason and Dixon boundary line between Pennsylvania and Maryland have suffered severely from the attacks of vandals, and they will soon be replaced with cast iron markers. Rapid progress is now being made on the relocation of the line. The eastern portion was originally marked by stone monuments at equal distances of one mile. Many of these have been removed or destroyed. The western portion, owing to the great difficulty at that time in the region traversed by the line, was marked by wooden posts, cut on the spot and secured in place by mounds of earth or stone piled around them. These posts have disappeared, but some of the mounds remain. Many of them have been destroyed by cultivation of the ground. It is believed, though, that enough of them can be recovered to enable the relocation of the boundary with precision.

The Pennsylvania legislature has appropriated \$7,000 to reset and repair the boundary monuments, and the Maryland legislature \$5,000. Dr. W. C. Clark, of Baltimore, is cooperating with Secretary of Internal Affairs Latta of Pennsylvania, in directing the work. — Baltimore American.

MUCH READING FOR LITTLE MONEY.

The New York World has got the cost of printing down to a minimum. Its latest offer of its monthly newspaper-magazine is interesting if from no other cause than that it shows the acme of "how much for how little."

The Monthly World is a 32-page magazine with colored cover. Its pages are about the size of the pages of the Ladies' Home Journal, and it is copiously illustrated in half-tone. The illustrations are the result of the best artistic skill, aided by all the latest printing-press appliances, making a magazine unrivalled in the quality of its contents and its appearance.

Each issue contains stories of romance, love, adventure, travel; stories of fiction and fact; stories of things quaint and curious, gathered together from all over the world; and reviews of scientific and historical literature. It is a magazine for the man and woman of the day.

A feature each month is a full-page portrait of the most famed man or woman of the moment in the world.

In collecting and preparing for the press, the Monthly World is a masterpiece of the art of the printer.

The New York World will send six numbers of this newspaper-magazine on receipt of fifteen cents stamp. Address: The World, Pulitzer Building, New York.

A GREAT NEWSPAPER.

The Sunday edition of The St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its new service is world-wide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high-class literary matter than any of the monthly magazines. The fashionless illustrations in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The cartoons are by the best artists. The humorous stories are the class, by authors of national reputation.

Sheet music, a high class, popular song, is furnished free every Sunday in The Republic.

The price of The Sunday Republic by mail one year is \$2.50. For sale by all news dealers.
