### THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Thrice a-Week World..... \$2.00  
" " St. Louis Republic..... \$2.00  
" " Industrial Record..... \$2.25  
" " Mining Record..... \$2.50  
" " Daily Mining Record..... \$4.00  
" " Cosmopolitan..... \$2.10

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.

### TWICE-A-WEEK REPUBLIC.

Every Monday and Thursday a newspaper as good as a magazine—and better—for it contains the latest by telegraph as well as interesting stories—is sent to the subscriber of the Twice-a-Week Republic which is only \$1 a year.

The man who reads this paper knows all about affairs political, domestic and foreign events; is posted about the markets and commercial matters generally.

The woman who reads the Republic gathers a bit of information about household affairs and late fashions and recreation in the stories that come under both the headings of fact and fiction. There is gossip about new books and a dozen other topics of especial interest to the wide-awake man or woman.

### NEW MONEY ARRANGEMENTS.

From the Silver City "enterprise."

The postoffice department has recently authorized the Silver City postoffice to cash all money orders presented for payment whether drawn directly on this office or not. In other words, a money order is now cashed wherever presented, the same as an express order and bank draft, and without regard to the office upon which it is drawn. This privilege has been accorded offices of the first and second class for some time and it is now extended to offices of the third class. It is a convenience which will be greatly appreciated by the public.

Another ruling of the department which will expedite payment and make money orders more popular is that permitting payment of the order upon presentation without waiting for the receipt of the corresponding letter of advice. To secure this favor, the order must be presented within thirty days after date of issue. Under the old plan, delay was often experienced in payment due to non-receipt of advice. This is now obliterated and orders paid promptly on demand.

Headache often results from a disordered condition of the stomach and constipation of the bowels. A dose or two of Chamberlain's Stomach and Liver Tablets will correct these disorders and cure the headache. Sold by Dr. Paden.

### PECULIAR FIND.

Roswell "Register."

Mr. and Mrs. Harry W. Walters, of Roswell, made a find a few days ago that may make them rich. Mrs. Walters is the daughter of Captain John Slawson, who was well known in the southwest in the early days and who was killed by the Apaches in 1882. Captain Slawson, was a dealer in mining stocks and was in the habit of sending his stock to his wife in Detroit for safe keeping. About twenty years ago Mrs. Walters was visiting her mother when Mrs. Slawson gave her a silk waist pattern neatly tied. It was an odd figure and Mrs. Walters did not unroll the goods until a few days ago and was greatly surprised at finding a lot of mining stocks issued to her father in various companies amounting in all to the snug sum of \$64,970, and bearing dates from 1863 to 1873. Several of the companies are still in existence and are reported to be flourishing. The stocks have been placed in the hands of Judge Freeman for investigation and sale.

Mrs. C. E. VanDeusen, of Kilbourn, Wis., was afflicted with stomach trouble and constipation for a long time. She says, "I have tried many preparations but none have done me the good that Chamberlain's Stomach and Liver Tablets have." These Tablets are for sale at Dr. Paden's drug store. Price, 25 cents. Samples free.

cept when the herders were away, and then I would get a very good hearing. Now there are some who cannot be kept away from our meetings, even when their preacher is here. Last Sunday several of the Methodists left their meeting and came to hear me. This week the Methodists are holding a revival meeting and say we are trying to get our members together. One baptist who attended my meeting at Nogal has recently moved to White Oaks, and on last Lord's day she came to hear me and influenced two of her friends to come, who had not been to hear any one preach since I came to the Territory. This lady admitted that I was right in requiring the Baptists to be baptized for the remission of sins, but she has not yet submitted to it herself and I don't know whether she will or not. Her husband belongs to the Baptist church, but says we are the only people he has heard who preach the Bible just as it is.

The Baptists are trying to get up money to pay for a preacher and an organ. They said C. was able to do more in this work than all the others together, but both times when they approached Mrs. C. upon this subject she replied: "If I have anything to spare I feel that it is my duty to give it to Brother Stovall." We have great hopes that this Baptist lady will obey the gospel. It is evident that she is sorry that she is a Baptist, but she is not sorry enough.

It has been just a little over nine months since we began work in New Mexico. During this time the Lord has blessed me with an opportunity of aiding about sixty persons in entering the good work. Twenty of these were baptized, several of the others were brethren who had gone far off into sin, others had not done this, but were not living up to their Christian duties. I have never been near so successful in the way of getting additions, as many of my brethren have been, and considering this in connection with the adverse circumstances under which I have labored, I think we have cause for great rejoicing and thanksgiving to God. It may be that others would have done much more, but I can comfort myself with the thought that I have done the very best I could. Brethren, let me have your prayers. If I did not know that I had the good wishes and prayers of so many good people, my stay here would be an unpleasant one indeed. Let us all strive to live nearer to God and to do more for the advancement of His holy cause during the present year than we have ever done in any previous one. Your humble brother in Christ.

JOHN L. STOVALL,

### A GOOD COUGH MEDICINE FOR CHILDREN.

"I have no hesitancy in recommending Chamberlain's Cough Remedy," says F. P. Moran, a well known and popular baker, of Petersburg, Va. "We have given it to our children when troubled with bad coughs, also whooping cough, and it has always given perfect satisfaction. It was recommended to me by a druggist as the best cough medicine for children as it contained no opium or other harmful drug." Sold by M. G. Paden.

President McKinley has heard the roar of the lion and the growl of the bear in China and has said to Chaffee, pull your freight out of the land of the Chinese. Chaffee has pulled,

## AN EXCELLENT CHANCE

To get 12 or 15 head of First-class milk cows at a bargain. These cows are mostly Jerseys, the best butter makers in the world—About the same number of young stock.

Two full blood Jersey bulls—1 and 4 year-olds Will sell for cash or goats. For Particulars inquire of ISAAC ELLIS, Lincoln, N. M.

### PREACHERS AS HERDERS.

The following letter written by Rev. Stovall, is taken from the "The Firm Foundation," a church paper published at Austin, Texas.

White Oaks: Since I reported our meetings here, we have held protracted meetings at the following places: Fresnal, Tularosa, Nogal and Capitan. None were baptized at Fresnal, but two erring sisters who had wandered off into the Baptist church, returned. Some young people became very much interested and said they wanted to obey the gospel, but thought it best to study the Book a while longer first. I found only two Christians at Tularosa, but I there found an opportunity of preaching to an erring brother, who said he had not heard a gospel sermon for fifteen years, and the old story sounded so sweet to him that he could not resist it, and was glad to be again numbered with the people of God. One lady confessed her Savior, but after the brethren had made a faithful search, they reported that water suitable for baptizing, could not be found; but she, not being willing to give up the good work which she had begun, on the same day, boarded the train for Carrizozo and there took the stage for White Oaks, landing there about midnight. On the following morning she went three miles further, making in all a distance of sixty miles, and was buried in the water that was almost as cold as ice itself. In the month of December we held a meeting in Capitan, where no other gospel preacher had ever

preached, but we succeeded in getting fifteen brothers and sisters together with three or four competent leaders, one of whom is a school teacher of no little influence. Others said they were going to unite with this congregation, but were prevented by the smallpox. One young lady came a distance of fifteen miles and was buried in the water when there was ice around the edges. Unbelievers thought this was cruel but she suffered no ill effects, notwithstanding she was in poor health. We had no additions at Nogal but have hopes that our meeting there will result in much good. Nogal is a very small town but has two saloons. One of the saloon men invited me to his home and treated me very kindly in every way. The other who has no family, paid my way at the hotel and furnished me conveyance to the depot. One dear old brother attended this meeting who had not heard a gospel sermon for more than twenty-two years; but his life had been so pure that no one could say but just one thing against him, and that was that he was so uncharitable that he claimed that there was but just the one way. I am now at White Oaks and have preached here every Sunday this year except one when sickness prevented. Our opposers here have made great efforts to keep us from getting a hearing, and to a great extent have succeeded. For several months after I came I would only get an opportunity to instruct the few members, and sometimes a very few others, ex-

**OF LOCAL INTEREST.**

Spring is here as the season goes, but the weather does not indicate it.

A cyclone at Adamsville, Michigan, sucked up the water of a creek and formed a water spout.

In an open well in Waxahatchie, Texas, were found five live dogs, and the skeletons of five cats and one coon.

The Opera House at Albuquerque was burned down March 24. The opera house was new and cost about \$25,000. The cause of the fire is not known.

A number of new coal locations have recently been made in the Carrizo and Patos mountains, and one opening made showing a fine vein of coal three and a half feet in thickness.

Twenty-seven hoboes, two of whom stole a keg of whiskey at Carrizo, arrived at Alamogordo. Their actions gave the snap away and the fellows who stole the whiskey were arrested and brought back.

In our last issue we stated that Fred Roberts had been appointed a cadet to the Military Institute by Mr. Hinkle. We are now informed that he was appointed from Otero County, by Mr. Slaughter.

La Grippe is no respecter of persons, and as a result, Dr. M.G. Paden was confined to his bed several days this week. Dr. J.F. Mains has been kept on the jump attending the sick during Dr. Paden's illness.

La Grippe seems to have set in afresh this week, and as result, a great many of our people, mostly children, are indisposed. There is no one seriously ill so far as we have heard, but many in the past few days have required the services of a physician.

Robert Lesley made a trip to Roswell last week where he went to take Coke and Karl Keith and Ernest Langston who are going to Oklahoma to secure some of the valuable lands soon to be opened for settlement. Rob brought back a load and produce.

These days but little is heard from the town of Nogal, but never mind! The country will hear from Nogal before long. There is no better mining district in New Mexico than Nogal, and its mines will not long be idle when so many are looking for the yellow metal.

We are in receipt of a communication from Capitan which is well written and interesting, but which we refrain from publishing as we see in it the skirmish line of a first class school row. This is a matter which the people of the school district must settle for themselves.

Plymouth Church services, Palm Sunday March 31st, preaching by the pastor Rev. H. G. Miller. 11 a. m., subject, the "Heroic Christ;" 7:30 p. m., special song and praise service, in harmony with the spirit of the day, subject of short talk, "The Reigning King." The Palms will be sung at the morning service as a "Solo" and at night rendered by the full choir. The hymns at the evening service will be such as all can sing, and everyone is invited and will be made welcome.

The weather has been unusually cold here for March, and the past few days as cold as any we had during the winter, with the exception of two or three days. Just what this is due to and what it portends, no one seems able to say. Some think the new star may have been the cause, while others are equally as positive, that it had nothing to do with it. Some say we are to have a hot dry summer, and others that it is to be wet and cold. So, we are "up a stump," in the midst of so many conflicting opinions, and can only advise our readers to "Never mind the weather, so that the wind don't blow."

**PERSONAL MENTION.**

J. E. Wharton this week, received a consignment of fruit trees from Stark Brothers' nurseries, which he will set out on his ranch east of Patos mountain.

Mr. J. H. O'Reilly, a druggist and insurance man from Albuquerque, is in town. Mr. O'Reilly came in with Mr. Fergusson, and is looking for business in this section.

Messrs. W. J. Henley and Jerry Hocradle, two prominent citizens of Nogal are in town today. They expect considerable activity in Nogal mining district this summer.

J. O. Nabours was in town this week from his ranch in the foothills of the Oscura mountains. He says stock are fat and the green grass about three inches high. As a stock country, the Oscura is hard to beat.

A. Y. Smith, who lived at White Oaks several years ago, died at Morenci, Arizona, on March 16. He was a member of the White Oaks lodge A.O.U.W. and his widow will soon receive \$2,000 from the order.

Hon. H. B. Fergusson is here from Albuquerque. He comes on legal business, but his many friends here are always glad to see him come, even if he makes but a hurried business visit. He is attorney for the defendants in the suit affecting the Compromise mine.

F. M. Crockett was in from the rail road work Monday. He and his sons have a contract for grade work on the El Paso & N. E. extension. They are on the sixteenth mile and will finish this contract in a few days. He says sixteen miles of road will be finished in two weeks.

W. A. McIvers, manager of the Iowa and New Mexico Mining & Milling company, was here from Schelerville yesterday. He says that work over there is progressing satisfactorily. They are going to put in a gasoline engine and hoisting machinery on the Home Stake mine in a few days.

Eugene Heiniman, the manager of the Compromise and Boston Boy mines, returned this week from Kansas City. He was accompanied by Mrs. Heiniman who has been in Kansas City some time on account of her health. We are glad to learn that Mrs. Heiniman's health is greatly improved.

Col. Geo. W. Prichard left yesterday for Carlsbad to enter upon his duties as District Attorney for the 5th Judicial District. Col. Prichard cannot be at home again until about the first of July, as he must be in attendance upon the courts continuously, and Socorro court coming last will keep him busy till about that time.

Mr. McIvers who recently visited the Oscura copper country, says it is all right. The copper usually appears in blanket form and runs as high as thirty per cent. A Chicago company is now preparing to put in a leaching plant to work the ores from the various mines in that section. The plant will cost about \$50,000.

R. E. Lund recently became a purchaser of an interest in the Boston Boy mine of this place. This is a promising property, and has a regular force of men engaged in doing development work. We expect this mine ere long to be a regular producer of gold bullion in such quantities as will make it one of the best mines in the White Oaks district.

John W. Owen is out near Gallo canon, drilling for water for a stock ranch. We have not heard from him this week and don't know whether water has been found or not. Spence Bros. are also drilling another well in that section. They have two wells out there already. It is only a matter of a short time till that whole country will be occupied with ranches.

**BIDS FOR BUSINESS.**

See us for prices on lumber.—W. O. B. & L. Co. Our bargains are still on, do not fail to get our prices.—Collier. EYES TESTED FREE.—J. B. COLLIER, Optician.

Good set of store fixtures for sale—Collier. For Quality and Quantity see us for prices on lumber.—W. O. B. & L. Co.

O. K. Building and Lumber Co. Agents for Alfred Peats & Co's. WALL PAPER.

New goods arriving daily, see our new Summer Hats we just unpacked.—Ziegler Bros.

WANTED:—A first class Gardener. Apply to Sam Wells, Postoffice, White Oaks, N. M.

If you need a good carpet call at the postoffice store and see samples and get prices.—Jno. A. Brown.

There is no use going bare-foot this Summer for our Shoes are where any-one can reach them.—Collier.

Try a pair of our new U. S. \$2.50 Ladies Shoes we just received, every pair guaranteed to wear.—Ziegler Bros.

Still doing Business at the old Stand—Special prices on Lumber, Doors, Sash, Screen Doors, etc etc.—W. O. B. & L. Co.

Have you seen those new Novelty Dress Goods, in fancy Worsteds and Cotton Goods Ziegler Bros just received?

For a pretty Easter Dress, you cannot get anything nicer, than one of those pretty Voulauds Ziegler Bros. just received.

**HATS! HATS!! HATS!!!**

We have everthing desirable in headwear, from a plain Ladies' Sailor Hat to a fine French Pattern Hat, also a full line of Children and Misses' Hats. New stock of Men and Boys' Hats also just arrived.—Ziegler Bros.

Mrs. Carrie Nation, the saloon smasher in Kansas, fell out with her negro publisher, and proposes hereafter to run her paper, "The Smasher's Mail" without his help. He suppressed one of her tirades against Judge Hazen before whom she was tried.

S. S. Doak was here from Schelerville yesterday. He has recently moved with his family from Webster City, Iowa, to Schelerville. He is connected with the Iowa and New Mexico Mining & Milling company and will assist Mr. McIvers in managing the properties of this company. We welcome Mr. Doak and family, and hope to see many more such become permanent residents.

The Iowa and New Mexico Mining & Milling company has recently purchased the Turkey Creek group of mines, and will at once begin to clear off the ground for a mill. They will first put in a saw mill to saw lumber and timbers needed to erect buildings and later for the mines. This is one of the best companies we ever had operating here, and if we mistake not, it is going to be of great benefit to this section. This company does its mining in the ground, and not like some, on paper only, and that the members will be amply rewarded, there is no doubt.

There are, it is claimed, fifteen hundred health seekers in Albuquerque. Most of them are consumptives.

White Oaks Avenue.

Some mining deals of considerable importance were closed here this week. Messrs. Paul Mayer, Jones Tallafarro and Chas. Spence have each bought an interest in the famous Compromise mine from Heiniman and Cray. They are three of our most substantial and successful business men, and can be relied on to push the development and operation of this valuable property.

Drying preparations simply developed out of the nostrils, they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size, Ely Brothers, 56 Warren St., N. Y. The Balm cures without pain, does not irritate or cause itching. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

A few days ago, on Big Otter creek, in Clay county, W. Va., reports the Cincinnati Enquirer, Mrs. Boggs, a superstitious, over 70 years old, was mysteriously murdered. She lived by herself, and was sitting at a window when a shotgun charge entered her body, killing her instantly. The mystery surrounding the murder, it is claimed, has been partially cleared away by the arrest of a man named Cottrill, who is now in the county jail on suspicion of having been implicated in the murder. It brings to light a genuine case of witchcraft superstition. Cottrill is under the impression that he has suffered from supernatural power exercised by Mrs. Boggs. He claims that at times during the last three months he has been ridden by her all over Clay and Calhoun counties, in witch-fashion. On one occasion the old lady's house appeared to him to be a blacksmith shop, and he was shoeing his horse there at night, when the witch appeared and told him that that would be the last night he would ever shoe the horse. Within a day or two the horse died. It is said that other neighbors of the old lady were affected with the same hallucination, and that threats were previously made to kill her. Cottrill refused to talk about the murder, but talks freely on the wrongs he thinks he suffered at the hands of the aged woman. Many cases of sickness in the neighborhood were attributed to her supernatural influence, and on several occasions it is claimed a lynching was threatened, but no one could be found with sufficient courage to lead those who fancied they had been wronged.

The Boston Herald Chatterer and the lady in pursuit of a cook: "A few days ago a lady in pursuit of a cook was interviewing and being interviewed at a certain employment bureau. 'I shall want you to go into the country with me,' she remarked to the mighty personage, who was eyeing her from head to foot. 'Yes, ma'am; and do you have low-necked dinners, ma'am?' Mrs. Cook inquired. 'Low-necked dinners!' What do you mean by that?' said the lady. 'Well, ma'am, do you eat your dinner in low-necked dresses? I have a friend who says she'll not take no place unless the family eats in low-necks, and I thought I wouldn't, either.' So this is what we are all coming to! Not even our domestics will endure 'plain living,' and if one wants a six dollar cook she can't have her without promising to 'eat in low-necks!'

Among the tales of a traveler brought home by certain Buffalo tourists is one which, according to the Commercial, they declare true in every particular, of a conversation between two girls from Rochester, N. Y., overheard from neighboring deck-chairs on the steamer. 'Let's see,' said No. 1, 'who is the poet-laureate now?' 'Why, Tennyson,' said No. 2, the well informed, who knew everything. 'And the one before him was - let's see, what was his name?' No. 1 could not recall the name instantly, but she got it at last. 'Oh, yes; now I remember - it was Whitler - John Greenleaf Whitler! He was the poet-laureate before Tennyson.'

Forgetting has its pleasures, because it permits the closing of the mind's eyes to harsh experiences and depressing incidents. It is not a crime to fall, but it is a crime against one's better nature to brood upon failures, says the St. Louis Globe-Democrat. The fellow who forgets failures may succeed. He certainly will not if he goes into every new battle cowed and cowering at the recollection of past defeats. Dwellers in a swamp grow to have the lifeless look of the lowlands. Remembrance of the blues makes one blue. No man is ever born a pessimist. He becomes one, by forgetting the wrong things.

The success of a dull or average youth and the failure of a brilliant one is a constant surprise in American history, says a writer in Success. But if the different cases are closely analyzed, we shall find that the explanation lies in the staying power of the seemingly dull boy, the ability to stand firm as a rock under all circumstances, to allow nothing to divert him from his purpose, while the brilliant but erratic boy, lacking the rudder of a firm purpose, neutralizes his power and wastes his energy by dissipating them in several directions.

An incident in real life as described by Chiefly About People in the Boston Journal: 'The smallest peddler of hot frankfurters was standing at the corner of School and Washington streets the other night. 'Running the business yourself?' I queried. 'Now,' said the youngster, 'I'm just waiting for the "dogg" Mill Dabney comes back.'

In certain places in New Jersey there are a drug in the market. At Mallica Hill recently they stopped up the water wheel, stopped the running of the dynamo and shut off the electric light.

In a Cleveland (O.) morgue counter took the other day one woman's wrist was broken and another's skull was disfigured.

It is always wise to add a word of explanation unless you are certain you are understood. A story by a professor of zoology, wishing to procure some trichinose pork for purpose of experiment, went to the butcher and asked him if he ever got any spoiled pork. 'Sometimes, but I always throw it away,' answered the butcher, with a great show of virtue. 'Well,' said the professor, 'the next time you have any, I wish you'd send me some,' meaning, of course, to his laboratory. The butcher was inwardly very much surprised, but knowing the professor to be an eccentric man, made no reply except to say that he would. Three weeks passed, when the professor, growing impatient, again visited the shop, and asked: 'Haven't you found any spoiled pork yet?' 'Yes,' said the butcher, promptly, 'I sent up two pounds a week ago.' A ghastly look came over the professor's face; as he stammered: 'Where did you send it?' 'To your home, of course,' said the butcher. The professor and his family had eaten the pork, but, as no after ill effects were noticed, he consoled himself with the thought that trichinose was not so dangerous as he imagined.

Among vegetables Lima beans have the highest food value, containing 32 per cent. of nutrients, says the Saturday Evening Post. Sweet potatoes come next, with 29 per cent., green peas next with 23 per cent., white potatoes next with 21 per cent., and string beans next with 13 per cent. Green sweet corn has 10 per cent. of nutrients, beets 12 per cent., turnips 11 per cent., cabbage, cauliflower and spinach eight per cent., turnips, eggplant and lettuce seven per cent., tomatoes and asparagus six per cent., and cucumbers four per cent. Dry beans or rice are about the most economical foods one can buy, containing as they do 88 per cent. of solid nutrient. Fish has very high food value, in fact, is very nearly as nutritious as chicken or turkey. A pound of eggs, on the other hand, yields only half as much nourishment as a pound of lean beef, notwithstanding a well-known popular theory.

The woman of 45 who owns to her age and could therefore presume to give advice to others was talking seriously to the comparatively young woman of 20, says an exchange. 'Don't ever allow yourself to reach that stage of affability,' she was saying, 'at which people will call you a good fellow. I know that many a girl likes to have that reputation and men are likely to be attentive to the sort of girl who is called a good fellow. She is generally sure of having a good time. Men will take her out, always be glad to have her in a party, be very attentive to her at dances and make her seem like a belle. All these rewards come to the girl who is a good fellow. But I have rarely heard of a man who wanted to marry her.'

Taking in view the northern states, including all from Ohio to the Dakotas, together with Missouri and Kansas, the rate of increase of population has fallen from 28 per cent. in the decade 1890-1900 to 18 per cent. in the last decade. The rate at present is accordingly below the average rate of increase for the entire union instead of above it as formerly. The agricultural prisms of the west have been won and population no longer flows to virgin lands to any large extent, whereas the manufacturing cities of the east still attract population. The central west yields the pace to the older sections of the east.

The census enumerators in many cases failed to realize the importance of mortality statistics. In one of the eastern states an enumerator had only two deaths in a population of more than 1,300 for the entire year, which the supervisor thought was not sufficient, so he sent back the returns. The enumerator responded with the following explanation: 'Dear Sir: There were four more people that died, but they was widows.'

A Washington man complained bitterly to the district commissioners of the pasting of advertising labels on loaves of bread, and wanted them to stop the practice, but the commissioners assured him that the official chemist's opinion was that the use of these labels on bread is in no way detrimental to health.

Just as the United States gets through counting votes on November 3, Canada will begin to vote. This within 48 hours all of the English-speaking people of the North American continent will have exercised the right of suffrage.

During the last ten years, more than \$10,000,000 has been expended in the United States in the maintenance of agricultural experiment stations, \$7,000,000 of which has come from the federal government.

Chicago now contains a greater population than all the cities of the United States combined in 1840, and New York now has a greater population than all the cities together had in 1850.

A woman in Topeka, Kan., who is suing for a divorce petition for the custody of the family cow.

A GREAT NEWSPAPER.  
The Sunday edition of The St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its new service is world-wide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high-class literary matter than any of the monthly magazines. The fashions illustrated in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The funny cartoons are by the best artists. The humorous stories are high class, by authors of national reputation.

Sheet music, a high class, popular song, is furnished free every Sunday in The Republic.

The price of The Sunday Republic by mail one year is \$2.00. For sale by all news dealers.

REMARKABLE CURES FOR RHEUMATISM.

From the Vindicator, Northfordton, N. C.  
The editor of the VINDICATOR has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. Sold by Dr. Paden.
