## THE SPRINGER SCHOOL LAW NOW IN FORCE.

### SALIENT POINTS IN IT THAT EVERY PROSPECTIVE TEACHER SHOULD KNOW.

Some time ago Supt. L. H. Rudisille, had a circular prepared and sent out to teachers of Lincoln county, setting forth the main provisions of the Springer school law, and warning them of his intentions of enforcing it to the letter. The salient points of the Springer law of interest to teachers, are as follows:

The territorial board of education shall annually prepare or cause to be prepared two sets of examination questions, upon such subjects as it may elect (reading, writing, spelling, geography, arithmetic, English grammar, United States history, physiology hygiene and methods) for first and second class teachers' certificates, to teach in the several school districts, independent districts, and incorporated towns and cities of the territory; and such board shall send one of such sets sealed, to each of the county superintendents seven days before the last Friday in August and November, and on such last Friday as aforesaid, the said county superintendents shall open the sealed questions in the presence of the assembled applicants, for teachers' certificates, and the examining board shall at once proceed to hold examinations on such question.

First class certificates are good for three years, a second class good for two years.

Third class certificates, entitling recipient to teach for one year within the county in which granted, may be granted as now provided by law. It shall be compulsory upon all persons who expect to teach to attend the county institute or to show a certificate of attendance upon some county institute or approved summer school held within the year.

A legally qualified teacher to teach in any school district, independent district, or incorporated city, shall be one who has been certificated as prescribed in this act, and who possesses a certificate of attendance upon some county or city normal institute or summer school.

Any county superintendent or member of a school board, or county treasurer who shall directly or indirectly cause the public school funds to be paid for teachers' services to any other person

than a legally qualified teacher under the provisions of this act shall be guilty of a misdemeanor and upon conviction thereof shall be fined in a sum not less than one hundred dollars (\$100) nor more than five hundred dollars (\$500) for each and every offence and may be removed from office by the governor.

#### PERIL OF TWO TERRITORIES.

It has not been long since Montana secured statehood, and the press of that state have still bowels of compassion for the people who are denied full citizenship because of prejudice against them. The Helena Independent says:

"Arizona and New Mexico are rather inclined to boast of their prosperity, because they hope to be admitted to the union. They do not see the danger that threatens them. In New Mexico the number of manufactories, the amount of capital invested, the men employed and the total value of their output have nearly quad-

States be extended to them and their products. They have no legal claim to the protection of the constitution, and surely they need no other warning than that of the supreme court—that the constitution was made for the states, and not for the barbarians of territories.

"There are beet sugar factories in New Mexico, mines and smelters in Arizona. Why should the beet sugar and mine and smelter products of these territories be let in free to compete with the products of similar American enterprises? There are wool growers in New Mexico and Arizona. Why should their pauper-labor product be let in free, to compete with Wyoming and Montana and Ohio wool? The fruit industry of New Mexico and Arizona is booming. Shall the honest fruit-growers of California, Washington, Oregon, Florida and Michigan be compelled to compete with the climatic and other advantages of these alien territories? Let the

may awaken some morning to find a Foraker act hanging about their necks.

"If the products of Arizona and New Mexico begin to 'threaten' those of the civilized states, there will then be no question that the inferior races inhabiting those territories are unfit for self-government. Senator Hoar warned the people of this country a few years ago, from his seat in the senate, that New Mexico was populated by blanketed savages. Why, then, should these people be permitted to trade freely with us, unless they will consent to buy from us with gold, but exporting nothing to us, the superior races of the states!

"The great 'home market' of America must not be tainted with the products of the alien."—El Paso Daily News.

#### VEST'S TRIBUTE TO THE DOG.

One of the most eloquent tributes ever paid to the dog was delivered by Senator Vest, of Missouri, some years ago. He was attending court in a country town, and while waiting for the trial of a case in which he was interested was urged by the attorneys in a dog case to help them. Voluminous evidence was introduced to show that the defendant had shot the dog in malice, while other evidence went to show that the dog had attacked defendant. Vest took no part in the trial and was not disposed to speak. The attorneys, however, urged him to speak. Being thus urged he arose, scanned the face of each jurymen for a moment, and said:

"Gentlemen of the Jury: The best friend a man has in the world may turn against him and become his enemy. His son or daughter that he has reared with loving care may prove ungrateful. Those who are nearest and dearest to us, those whom we trust with our happiness and our good name, may become traitors to their faith. The money that a man has he may lose. It flies away from him, perhaps when he needs it most. A man's reputation may be sacrificed in a moment of ill-considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when failure settles its cloud upon our heads. The one absolutely unselfish friend that man can have in this selfish world the one that never deserts him, the one that never proves ungrate-

rupted since 1890. Last year the manufactured products of the territory amounted to \$5,605,795, as against \$1,516,195 in 1890. The census bureau tells us that Arizona contains 314 manufactories of all kinds, in which the amount of capital invested is \$10,157,068. These territories are going ahead at a rapid rate, and they are boasting of their rapid strides.

"But they do not see the danger. If they boast too loudly of their progress and resources they may alarm the people of the forty-five states, who may then demand that the recent decision of the supreme court of the United

thought die a-borning!

"Justice Brown most ably pointed out, in his masterly straddle in regard to Porto Rico, that if the inhabitants of acquired territory and 'their children hereafter, whether born savages or civilized,' become citizens of the United States immediately upon annexation, 'the consequences will be extremely serious.' What more warning do we need as to the dangerous consequences of annexing Arizona and New Mexico to the union of states? And what more warning do the people of those territories need, that if they persist in their wild progress towards prosperity they

Ex-Governor Hubbard of Texas is dead.

Corn will be corn and wheat will be wheat, this fall, but cotton will be wool just as it has always been since the new processes of manufacture dying, etc. were invented.

David M. White of Santa Fe, is being strongly recommended for Surveyor General of the territory. He is at present in the federal service as agent for the federal land commission. The term of the present incumbent ends July 26, 1902.

The chamber of commerce of El Paso, has passed a resolution denouncing the El Paso Daily Times for its action taken in the street car matters in that city, expressing in strong terms its unqualified disapproval of the conduct of that paper.

The drouth that is devastating the entire middle west and part of the south has already caused the loss of over \$400,000,000 of crops in the states of Kansas, Nebraska and part of the two Dakotas. Just think what this vast sum would have meant if, instead of being lost, it had been spent in storing flood waters in reservoirs against just such an emergency as the one that is ruining tens of thousands of farmers in the semi-arid west.—Argus.

**AGGRESSIVELY WORKING.**

The advocates of a national lease law are rapidly perfecting all their plans for presenting a united and determined front to congress in December. A dispatch from Denver, dated the 11th inst., says President Lusk, of the American Cattle Growers' association, has appointed the following committee to draft a bill to provide for the leasing of the public range: John P. Irish, of California; N. R. Parsons, of Utah; Bartlett Richard, of Nebraska; Henry M. Porter, of Colorado, and A. B. Robertson, of Texas. The committee will meet in Denver next September.

**OLD ISSUES.**

**Advisability of Dropping them From the Democratic Platform.**

The Las Vegas Optics says: U. S. Senator H. D. Money, of Mississippi, who is stopping in this city with his son, Mayor Geo. P. Money, received the following telegram of inquiry, to which his reply appears below: Cincinnati, Ohio, July 19, 1901. Senator H. D. Money, East Las Vegas, New Mexico:

Please wire briefly to "Enquirer" your views as to advisability of democrats dropping old issues of the past campaign and fighting the "third battle" on new questions devolved by current events as suggested by the Ohio platform.

East Las Vegas, N. M., July 20, 1901, Cincinnati "Enquirer," Cincinnati, O.:

The next campaign should be upon a platform of principles that would unite all who profess to be democrats and all who love constitutional liberty. The struggle now is to preserve the constitution and the free institutions that have grown up under it. I regret that the Ohio platform ignores the last two democratic platforms and did not denounce the judgment of the supreme court in the Porto Rican cases. It seems to me that all true citizens can agree to fight imperialism and the trusts.

H. D. MONEY.

**SECRETARY OF MINING.**

Prof. J. C. Carrera of Las Vegas, who is a delegate to the Miner's Congress at Cripple Creek and Boise City, will put a movement on foot to create a new cabinet position, that of secretary of mining. Prof. Carrera alleges that the mining industry demands as much attention as the Agricultural. The mining product of the country last year amounted to one billion dollars.

### FROM ANGUS.

[Bonito Valley Items.]

Correspondence.

All are busy in the upper Bonito. The boys are keeping up the assessment work on their mining claims, and every thing points to a very active summer.

J. M. Rice returned from Chicago last week, accompanied by his wife and J. S. Tilden of Ohio, one of the Rialto-Parsons syndicate, who is also interested in mining in Colo., and Thos. B. Garsh and wife, who came out to our wilds to spend the summer among the rugged cliffs of Mt. Blanco. Last year they spent their summer in Europe.

The Baptist held a three days series of meetings with us.

The big camping party from White Oaks that is now rustating on the head waters of the Ruidoso camped one night in our Park.

Will Tompkins Richard Hamilton and Julian Taylor, started to Ruidoso Wednesday morning for a week's outing and trouting.

H. A. Ozanne of Wichita, Kansas, has been in the city a number of days visiting his father U. Ozanne, who has been seriously ill for two weeks.

C. W. Hyde and W. A. Hyde were in the city Tuesday. They inform us that an abundance of rain has fallen in their section of the country in the past two weeks.

Mrs. Robt. Barr, and her two youngest children, McKinley and Ellen, are in the city visiting Mrs. Barr's sister Mrs. Jane Gallacher. They live at Bonanza, Ark.

The base ball game between White Oaks team and camp 28, rail road team has been postponed to August 4th.

A five mill tax levy was voted by this school district for school purposes, Tuesday the 2 rd. This means good public schools for White Oaks as usual.

The Lincoln Baptist association convenes at this place August 8, and will continue to, and including the 10th. A large attendance is expected.

### OF LOCAL INTEREST.

#### A CITIZEN OF WHITE OAKS.

Urbane Ozanne, a resident of White Oaks, N. M., was born in Chateaubriand, France, May 8th, 1835. He received a common school education in his native town. In 1850 he emigrated with his parents for the United States embarked in a sailing vessel, and arrived in New Orleans, La., after a trip of sixty-two days. He engaged in the mercantile business for himself in Nashville, Tenn., and continued the same until the begining of the war. On June 25th, 1857 he was married to Miss Fannie Bouvard. After the war he engaged extensively in cotton planting in Alabama and Mississippi, which he continued until 1875. In 1868 he was elected a member of the constitutional convention from Panola county, Mississippi, and the same year was appointed probate judge by the governor of the same state. He was elected sheriff of Panola county, Mississippi, in 1869, and was re-elected in 1871 and in 1873. From 1875 to 1880 he lived in Memphis, Tenn. and Wichita Kans. In 1880 he came to New Mexico, and established a stage line between Carthage and White Oaks. He also had the government contract to carry mail between those points and Lincoln.

Mr. Ozanne is at present a very sick man, his son having just come out from Wichita, Kansas, where he is engaged in the drug business, to attend at his bedside.—Las Vegas Optic.

The EAGLE is pleased to announce that Mr. Ozanne is much improved, and it is thought so far recovered that he is out of danger.

The ball game between camp 28, and our home team August 4th, will be worth seeing—take it in.

The hot weather clerk here has been fired and the bureau busted wide open by repeated cooling and refreshing showers. The grass is now humping it and stock will begin to put on some fat.

There is so much rain in the mountains that our campers are having a wet time of it, and the fish stories will not be as rich as they might have been under more favorable circumstances, when the outers return home.

Ferdinand Spilke of Jicarilla, one among the first settlers of that camp, died Monday morning of old age. Mr. Spilke was a Russian by birth, but had been a citizen of the United States for a great many years. He was a Union soldier in the war of the rebellion, and made a creditable record in the service. He was laid to rest in the White Oaks cemetery Tuesday morning at 10 o'clock by the members of Kearney Post G. A. R. of which he was member.

Those opposed to a lease law in New Mexico would better begin to make their influence felt, or they will be swamped by those favoring the leasing of the public domain to individuals, of the next session of congress. The advocates of the law are organizing and are going to present a solid front.

At a meeting of the New Mexico Sheep Sanitary Board at Albuquerque, last week, war was declared on all violators at certain sections of the territorial statutes, and it was decided to wipe scabby sheep off the earth, if the law regarding dipping etc. was not in future complied with. Buy a little sheep dip boys or you may lose your merinos.

#### MACLAY'S NAVAL HISTORY.

Secretary Long has ordered certain paragraphs of Maclay's Naval history stricken out. The paragraphs referred to, censure Schley's action at the battle of Santiago, accuse him of misrepresentation, etc. This, as everybody understands, is the work of Mr. Sampson and his historian, and shows conclusively that Mr. S. has given up convincing this generation of his greatness; even the school boys of the country knowing him not to have been Schley enough at Santiago.

However, through his historian, Mr. Maclay, he is making a last struggle to poison the minds of posterity, by employing this hoopy ass, Maclay, the panegyrist of his fame at Santiago. Secretary Long has not gone far enough in demanding that certain sections of Maclay's history be suppressed; but now he should employ a negro to boot his anatomy out of Annapolis.

#### ESTEY CITY CAMP.

The El Paso News has had a representative in the new copper camp in the Oscuras and has uncovered a good many items of interest concerning the Estey Co.'s intentions in the district's development, the White Oaks people are many of them interested in this camp, and a White Oaks company made the first locations there in the fall of 1899.

The El Paso Daily News says: The Estey Mining and Milling company was incorporated in New Jersey some time ago to carry on business in New Mexico. However, it is no new concern in the west, as it has a large mining interest and two quartz mills in Colorado. Estey City, the company's place of business, is in Socorro county, about 10 miles from the Lincoln county line, 30 miles from White Oaks, 25 miles from Capitan, 144 miles from El Paso, and is reached via El Paso & Northeastern railway to Oscura, and thence by stage 16 miles over a good road.

Estey City now has a population estimated at not less than 250. There is a large general merchandising store conducted by the company, one saloon, about 50 dwellings, and a mill that will furnish employment to a large number of workmen.

This structure is an extensive affair, substantially constructed, and has four floors, all given over to milling purposes. The ground floor contains a tank room 75x150 feet, with engine room 75x40 feet and boiler room 75x100 feet to be used for tanks and store-room purposes and an apartment containing the same space for four large pulverizers. The third floor has space of 50x100 feet where a 13-ton crusher is stationed. The fourth floor is entirely devoted to ore bins, some intended for custom ore and the others for the company's own daily supply.

The engine room will house four engines, of which one will be a powerful compound Corliss. Two boilers are in position and four others are en route from the shops. There will be two pony boilers and ten hoists at the mine, or rather quarry, for the ore body is really the face of a low mountain, and will be taken out after the manner of quarrying rock. A small smelter will also be erected to reduce a certain amount of the ore, refractory in character and carrying silver and gold.

In sixty days the company expects to have everything in shape for the successful operation of the mill. They claim to have the ore in vast quantities and of sufficient value to leave a large surplus of profit beyond expense; to have an abundance of coal conveniently near for fuel, and to have no doubt concerning the water supply.

**BACCILLI CONGRESS.**

London, July 22.—The British tuberculosis congress was opened to-day by King Edward and Queen Alexandra.

The attendance is enormous. The United States, Germany, France and various European countries have representatives attending.

It is said that more than 7 per cent of all diseases are due to tuberculosis.

The result of the congress will be most helpful in the prevention and cure of the disease, as the specialists present will compare investigations and decide what are the best modes of treatment.

**THROAT CUT.**

Nelse Pierson, working at contractor Leonard's camp, east of Santa Rosa, was killed by a fellow employee, Robt. Raider. The killing occurred last week. Pierson's throat was cut from ear to ear. No particulars are known. Both men were seen standing on the grade only a few minutes before the killing was announced. There is one witness who claims to have seen Raider draw his knife, strike it into Pierson's throat and slash it across, but he knows nothing about the cause of the affair. This is the first killing that has taken place on the line of the extension of the Northeastern Ry. Raider is in custody at Puerto de Luna.

**WHAT THE MINER DOES FOR THE NATION.**

In this era of consolidation to destroy competition it is of note that the metal mining industry is one that encourages and supports all others and competes with none, remarks the Western Mining World. A new factory competes with established factories; an additional farm tends to lower prices of farm products; another store cuts into the trade and profits of existing ones; the miner, alone, enriches all and competes with none. He creates the real wealth, patronizes every other establishment and, producing nothing that he can consume, affords the best home market for the products of others. The amount of his purchases depends upon the amount of mineral development. His work sets in motion and sustains a legion of other industries, all operating to the common good.

As a promoter of railroad traffic, as a creator of new enterprises, as a customer for manufactures of all kinds, the miner is the best purchaser, vivifying a wide circle of activities. It has been calculated that each underground miner affords employment for 10 men above ground, thus putting in motion industrial waves on which ride to profit the merchant, manufacturer, farmer and railroad man. He asks for little, but self-interest suggests to every man in every capacity that anything that aids the mining industry aids his own business.

The value of the miner's patronage is manifest. Whatever helps the miner helps all; whatever represses the mining industry injures to that extent the welfare of the nation. The miner needs no subsidies, concessions or anti-trust legislation; he does need, however, to have his importance more generally recognized. Were it not for the miner one-half of this entire nation would still be wilderness, and the other half filled with people preying upon one another in the struggle for existence. The miner has created the greatest home market in the world and is thus the foremost factor in all commercial development. When the miner has money to spend, everybody in his vicinity is prosperous. And the truth of these patent facts should be recognized in the legislature of every mining state and territory.

Chairman.

**SPECIAL MASTER'S SALE.**

In the District Court of the Fifth Judicial District of the Territory of New Mexico, sitting in and for the County of Lincoln.

Chas. Hfeld, Plaintiff  
vs.  
Jose Montano, Josefa de Montano, R. Michaels and Timoteo Analla, Administrators of the estate of Jose Analla, deceased, Defendants. No. 1285.

WHEREAS in the above entitled cause and court, on 22nd day of May A. D. 1901, judgment was rendered against the defendants Jose Montano, and Josefa de Montano in favor of Charles Hfeld in the sum of two thousand, four hundred and ninety-five, and 22-100 dollars (\$2,495.22) which amount bears interest at the rate of ten per cent per annum from the date of said judgment, and against said defendant in favor of the defendant R. Michaels in the sum of two thousand, six hundred and twenty-eight and 19-100 dollars (\$2,628.18) together with interest at the rate of twelve per cent per annum from the date of said judgment and the further sum of two hundred and fifty-six and 58-100 dollars (\$256.58) as an attorney's fee in said action; and whereas it was determined by said court that said defendants Jose Montano and Josefa de Montano were justly indebted on said date to the defendant Timoteo Analla, Administrator of the estate of Jose Analla, deceased, in the sum of six hundred and six, seven and 21-100 dollars (\$667.21) with interest thereon at the rate of twelve per cent per annum from the sixth day of August A. D. 1900;

And whereas each of said amounts was by said court found to be a lien upon certain real estate of said defendants Jose Montano and Josefa de Montano situated, lying and being in the county of Lincoln in the Territory of New Mexico and described as follows, to wit:

The south half of the south east quarter; the north west quarter of the south east quarter and the north east quarter of the south west quarter of section 30, in Township 11, south of range 19, East; the south one half of the north west quarter and the north west quarter of the south west quarter of section 29 and the north east quarter of the south east quarter of section 30, in Township 11, south of range 19, East; and the south one half of the north east quarter of section 12, in Township 11 south of range 14, East, all of New Mexico meridian, containing four hundred acres, as per United States patent.

And whereas it was ordered by said court that all and singular the interests of said defendants Jose Montano and Josefa de Montano be sold at public auction to satisfy the aforesaid liens, and the undersigned was appointed special master to make said sale.

Now, therefore, notice is hereby given that on the 24th day of August, A. D. 1901, at the hour of ten o'clock in the morning of said day, at the front door of the court house of Lincoln County, in the town of Lincoln, New Mexico, I shall offer for sale at public vendue, and sell to the highest bidder for cash, all and singular the interest of said defendants Jose Montano and Josefa de Montano in and to the real estate and premises above described.

E. W. HUBBARD,  
Special Master.  
Lincoln, New Mexico, July 17th, 1901.

### A GREAT NEWSPAPER.

The Sunday edition of The St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its new service is world-wide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high-class literary matter than any of the monthly magazines. The fashions illustrated in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The funny cartoons are by the best artists. The humorous stories are high class, by authors of national reputation.

Sheet music, a high class, popular song, is furnished free every Sunday in The Republic.

The price of The Sunday Republic by mail one year is \$2.00. For sale by all news dealers.

### THOUGHT SHE HAD GONE

#### WITH A HANDSOMER MAN.

Nearly everyone throughout this section—and particularly those who travel much on the railroad—knows John Perry. Until the news agents were taken off the passenger trains two weeks ago, John had acted in that capacity on Conductor Pollock's run, but he now officiates as porter of the new hotel at Cloudcroft.

During his service as news agent on the railroad John struck up an acquaintance with a young woman of his race, who resides near White Oaks. His courtship was pressed with ardor and John made such effective headway that the girl promised to be "his'n." No date was set for the marriage, but after John had accepted the position at cloudcroft the romantic character of his surroundings so impressed him with the advisability of having his Dulcinea share with him the charm of his mountain home that he forthwith urged that they be tied in a bowknot immediately.

The girl consented and last Monday they were married at White Oaks, returning here Tuesday, with the intention of taking Wednesday afternoon's train for Cloudcroft. Mrs. Perry, just before the train was due to leave for the mountains, left her husband to do some shopping. Just as the train was ready to pull out—and Mrs. Perry not showing up—John concluded she must have already got aboard the train and was waiting for him there and he entered a car with the intention of going through the train in search of her. Before he ended his search the train had pulled out and Mrs. Perry was not visible! It was obvious to John that he had abandoned his wife and visions of a suit for divorce based upon desertion floated through his brain. There was nothing for John to do but go on to Cloudcroft and when he got there he kept the wires hot with messages to his new-made wife and his friends, in the attempt to straighten matters out. At last accounts the gentle dove of peace broods once more over John's household. Mrs. Perry having taken Thursday's train for Cloudcroft.—Alamogordo News.

### GENERAL NEWS ITEMS.

Hon. J. F. Hinkle and family have moved to Roswell to reside.

J. H. Nash, a wealthy cattle man of Cimarron, was thrown from his horse and killed.

The Sierra Blanca Gold and Copper Co., with headquarters at Las Cruces, has been incorporated.

Eleven head of mules died on the Leonard ranch near Roswell, of some dread disease unknown to the horse doctors of Roswell. Stockmen are uneasy that it is some character of fatal epidemic.

**VEST'S TRIBUTE TO THE DOG.**  
(Continued from 1st Page.)

ful or treacherous, is his dog. A man's dog stands by him in prosperity and in poverty, in health and in sickness. He will sleep on the cold ground, where the wintry wind's blow and the snow drives fiercely, if only he may be near his master's side. He will kiss the hand that has no food to offer; he will lick the wounds and sores that come in encounter with the roughness of the world. He guards the sleep of his pauper master as if he were a prince. When all other friends desert he remains, when riches take wings and reputation falls to pieces he is as constant in his love as the sun in its journeys through the heavens. If fortune drives the master forth an outcast in the world, friendless and homeless, the faithful dog asks no higher privilege than that of accompanying him, to guard against danger, to fight against his enemies. And when the last scene of all comes, and death takes the master in its embrace, and his body is laid away in the cold ground, no matter if all other friends pursue their way, there by the graveside will the noble dog be found, his head between his paws, his eyes sad, but open in alert watchfulness, faithful and true even in death."

Then Vest sat down. He had spoken in a low voice, without a gesture. He made no reference to the evidence or the merits of the case. When he finished judge and jury were wiping their eyes. The jury filed out but soon entered with a verdict of \$500 for the plaintiff, whose dog was shot; and it was said that some of the jurors wanted to hang the defendant.—Dumb Animals.

**PARSONS-BONITO DISTRICT.**  
Special Correspondence.

Messrs Bird and Collard are working a force of five men sinking a shaft on their property, located in Argentine Gulch, just below Parsons. They are now down about eighty feet in good looking ore, which assays gold, copper, silver and lead.

Fred Garrendyke, an experienced mining man is here and has a small force of men at work cleaning out the old tunnel and shaft on the Chinaman Mine, they are now in a 46 inch vein of gold and silver. This property belongs to Iowa parties and was worked eighteen years ago, when the lead was lost, and was found again by the miners last week.

John M. Rice has returned from Chicago, having completed all the arrangements for starting work on the Parsons Mine.

W. J. Thatcher has cleaned out the tunnel and shaft of the old Hope Mine and is drifting for the ore body, which is supposed to be only a few feet to the east side of the shaft.

The owners of the Turkey Creek property are now in Chicago making arrangements to work on a much larger scale.

The prospects for good crops on the Bonito could not be better for this season of the year and most every acre of cultivated land is planted. Judging from present prospects there will be a large surplus of grain and potatoes.

We hear many compliments from the taxpayers regarding the present board of county commissioners by their wise and economical administration. The fee fiend has lost his occupation. If the present board keep up their good record there will soon be a noticeable reduction of the tax rate.

**A SYMBOL OF SORROW.**

An exchange has the following very pertinent remarks concerning the commonly used emblems of mourning:

"Why do people hang crape on the door when a loved one takes departure to 'the undiscovered country from which no traveler returns,' and clothe themselves in black garments in memory of the departed loved one? What is there about black appropriate to the occasion? Black suggests nothing sweet, or tender or beautiful. It is not an emblem of purity or hope. It is a symbol of night, and night in scripture, and in all literature is a symbol of danger and despair. Night is a time when doors are bolted and windows are fastened, and when the singing of the wind and the rustling of the leaves nettle the nerves. One of the best things said about heaven is that 'there is no night there.' Then why wear the emblems of night in memory of friends? Did you ever think it is really a reflection upon them? Besides it is an unheavenly custom. And medical experts will tell you that. Really the world needs no symbols of mourning. Nature heals and hides scars as soon as possible. Every soul knows its own sorrows and that is enough. No need to advertise them. But if the world must have a symbol of sorrow let it be white, unless the sorrow be without hope. White is the emblem of purity. White is the emblem of peace. White is the garb in which angels are supposed to be robed. White is the color of the great Throne, around which we love to think our loved ones gather. White is typical of eternal day which it gives us joy to believe has dawned upon them. And surely if our loved ones could break the silence of the tomb, they would bid us remember them joyfully rather than sorrowfully.

**THE NEW YORK WORLD**  
**THRICE-A-WEEK EDITION.**  
The Most Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE together one year for \$2.00.

The regular subscription price of the two papers is \$2.50.

**SHERIFF'S EXECUTION SALE.**

George W. Pritchard, Plaintiff  
The Rip Van Winkle Gold Mining Co., Defendant, 1172.  
Notice is hereby given that by virtue of an execution issued out of the Lincoln District Court, of the Fifth Judicial District, Territory of New Mexico, in the above entitled cause in which George W. Pritchard on the 9th day of June, A. D. 1899, recovered judgment against the defendant Company a corporation for the sum of Eight Thousand Five Hundred Dollars, (\$8,500.00) together with interest at six per cent. per annum from the 1st day of July, A. D. 1899, and cost of suit; I did on the 3rd day of July, A. D. 1901, levy upon and will at the hour of 10 a.m. on the 14th day of August, A. D. 1901, in front of the post office at the town of White Oaks, Lincoln County, New Mexico, expose at public sale, and will sell to the highest bidder for cash, the following described mining claims, and real estate, the property of said defendant Company, of so much thereof as may be necessary to satisfy said judgment, together with all accrued interest and cost, and cost of sale, viz: All the land and improvements contained in mineral entry No. 20, Lot No. 634, known as the Rip Van Winkle Lode Claim, in Sec. 25, township 6, S. R. 11, East; also all the land and improvements contained in mineral entry No. 27, Lot No. 633, known as the Comstock Lode Claim in Secs. 23, and 25, in township 6, S. R. 11, East, together with all fractional interest contained in original locations, said tracts being situate in the White Oaks Mining District, Lincoln County, New Mexico, and I will make to the purchaser thereof, a sheriff's deed therefor.

Only 10 and 15 cts. each—none higher. Ask for them. Sold in nearly every shop and store, or by mail from  
**THE McCALL CO.,**  
136-148 West 14th St., New York.

**TWICE-A-WEEK REPUBLIC.**

Every Monday and Thursday a newspaper as good as a magazine—and better, for it contains the latest by telegraph as well as interesting stories—is sent to the subscriber of the Twice-a-Week Republic which is only \$1 a year.

The man who reads this paper knows all about affairs political, domestic and foreign events; is posted about the markets and commercial matters generally.

The woman who reads the Republic gathers a bit of information about household affairs and late fashions and recreation in the stories that come under both the headings of fact and fiction. There is gossip about new books and a dozen other topics of especial interest to the wide-awake man or woman.

**THE EAGLE'S CLUBBING RATES.**

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Thrice a-Week World	\$2.00
" " St. Louis Republic	2.00
" " Industrial Record	2.25
" " Mines and Minerals	2.50
" " Daily Mining Record	4.00
" " Cosmopolitan	2.10

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.
