OF INTEREST TO TEACHERS OF LINCOLN COUNTY.

Legal Excerpts Compiled By Lee H. Rudisille, County Supt. Of Schools.

The following information taken from the statutes of New Mexico is given for the guidance of those who teach in the Public Schools of Lincoln County.

By an act of the Territorial Legislature of 1901, a person legally qualified to teach in the public schools of New Mexico shall be one who has received a certificate according to the provisions therein contained and must possess a certificate of attendance upon some county or city normal institute held within the year; and must also hold a certificate from the county medical examiner showing freedom from tuberculosis.

Examinations for first and second class certificates are held only twice each year, on the last Friday in August and the last Friday in November. These examinations will be conducted by the county board of examiners, who must grade the applicants on the examinations so held, and immediately thereafter send the papers of the applicants with the grade given them, to the Territorial Board of Education to be revised, if deemed proper.

This revision shall be final, and the county examiners shall upon notification immediately issue certificates in accordance with instructions from the territorial board of examiners.

All applicants receiving a general average grade as high as 90 per cent, and no grade in any one branch lower than 70 per cent, will receive a first class certificate entitling them to teach for three years throughout the territory. Those who receive a general average grade not lower than 70 per cent, and with no grade in any one branch lower than 50 per cent, will receive second class certificates entitling them to teach for two years within the county in which granted. These may be honored in other counties, at the discretion of superintendents of those counties, for the time specified in the certificates. The law provides for renewal, without examination, of only first class certificates.

In districts where Spanish is the only language spoken, it is required that teachers have know-

ledge of both Spanish and English.

County superintendents, members of school boards and county treasurers are prohibited from paying any other than legally qualified teachers upon penalty of a fine not less than \$100 nor more than \$500, for each and every offense, and may be removed from office by the governor.

Examinations for all grades of certificates will be given in the following branches: geography, arithmetic, English grammar, United States history, hygiene, and methods of teaching.

Examinations for third class certificates will be conducted, as formerly, by the county board of examiners and the certificates issued without supervision from the territorial board, and will be good for one year in this county only.

Section 1536. Compiled Laws, requires all teachers, to keep a daily register of their schools and at the end of each term make a report to the county superintendent showing the whole number of pupils enrolled during such term, giving their names, ages, sex, and branches taught, and such other information as may be deemed important. Failure to make such report may subject the teacher to a fine in a sum not more than \$50, upon conviction in any justice court.

A brief monthly report is also required to be made out in duplicate, one to be filed with the clerk of the district school board and the other sent to the county superintendent before warrants for salaries can be approved by him. Daily registers and blanks for these reports will be furnished by the county and issued by the clerks of the several districts.

The territorial board of education is vested with exclusive power in the matter of prescribing the text books to be issued in the public schools of the territory.

An Act of the last legislature makes it a misdemeanor, punishable by fine or imprisonment, for any person to write, make marks upon, or in any manner deface or injure any building, fence, wall, or inclosure, or the furniture, apparatus or fixtures therein, belonging to any school district; all teachers are specially required to warn their pupils against any violation of this law, particularly as to defacing school furniture and obscene writing on walls and out buildings.

The last legislature also enacted a law prohibiting the killing of any song bird and all birds known as harmless and whose principal food is insects, by fixing a penalty for every bird wantonly killed. Teachers are required to impress upon their pupils the cruelty and criminality of this offense.

LEE H. RUDISILLE,
County Superintendent.

WHY REFORMS FAIL.

Prof. Felix Adler, assessed for \$5,000 in personal property, has not sworn off any of his taxes. He lets the assessments stand. The remarkable thing about this fact is that professor Adler is a member of the reform committee of fifteen.

The majority of the members of that committee have sworn off their personal taxes. Mr. Charles Srrague Smith and Mr. Joe B. Erhart, assessed at \$25,000 apiece, have sworn that they have no taxable personal property at all. Mr. Austin G. Fox and Mr. John Harsen Rhoades, assessed at \$30,000 and \$100,000, respectively have sworn to the same thing. Mr. George Putman was assessed at \$100,000 admits \$2,000 and swears off \$98,000. Mr. John S. Kennedy owns up to \$25,000 of his \$100,000 assessments. Prof. Edwin R. A. Seligman is willing to pay taxes on \$105,000 out of the \$250,000 attributed to him by the assessors. Mr. Jacob Schiff has substituted a valuation of \$150,000 for one of \$1,000,000.

These things help to answer the question why reform movements fail. Invariably, sooner or later, they run up against the business interests of the reformers. It is a well-known fact that the "leading citizens" of New York, as of every city, are the men who carry out the great schemes of corruption which ward politicians are the errand boys. Any investigation pushed to a certain point reaches these leading citizens, and then it stops.

Swearing off taxes is a very venial offense compared with some others that are committed by our most respectable citizens, as would be clearly manifest if we ever had a genuine investigation into the question of vice in the tenements or into the genesis of the tunnel contracts.

But Al Johnson is dead.—New York Journal.

THE WEATHER.

Rev. Irl R. Hicks the noted weather prophet, says the entire summer will be unusually hot, very encouraging to the sweltering inhabitants of all portions of the land except in the high altitudes of the mountain regions. In localities like that of Raton hot weather is an unknown condition. Rev. Hicks says:

"There is a reason for everything that happens in nature. If this summer is different from last summer there must be some explanation for the change. For the past ten years or more I have been continually calling the attention of the public to the fact that the present year would be phenomenal in more ways than one. I have said that there would be a great drought and verification of the prediction is found in the conditions which exist today in all parts of the country. The reason is, that this season is a Jupiter period. The relationship between Jupiter and Saturn is of a peculiar nature. No man now living will ever see them in their present relationship again. The bright star which we see in the heavens in the evening, the brightest star in the firmament, is Jupiter, and near it Saturn may be seen. They will not come so close together again, under present conditions, for many years. It is to this phenomenon that I ascribe the intense hot summer, and as these planets move slowly their influence will be felt through the entire season."—Gazette

SPANIARD COMMENDS SCHLEY.

Captain Moreau, who commanded the Christobal Colon in the Santiago fight, says that Schley and the Brooklyn were the bravest of the brave. They were always in the thickest of the fray.

"The suggestion that Schley displayed cowardice must have come from cowards," says he.

MONUMENT FOR JOHNSTON.

The Confederate Veterans and Daughters of the Confederacy are working hard to have Governor Sayers ask the legislature at its special session to appropriate money for a monument over the neglected grave of Albert Sidney Johnston, in this city. He fought in the Texas-Mexican war, the United States Mexican war, and on the Confederate side in the civil war, meeting death in battle.

A halfstone of Governor Otero should be printed on the American flag, according to the New Mexican's idea of his importance. The New Mexican says: "Governor Otero and the American flag seems to have one quality in common. They are still here in spite of many efforts to the contrary."

It has been given out from the official figures that the shrinking of taxes in New Mexico has been enormous. The assessed valuation last year shows a reduction of \$4,000,000. In the item of sheep alone it is well known that there are over 5,000,000 sheep in the Territory. The records show over 4,500,000, yet only 1,500,000 are returned for taxation. This is also true of other live stock. There are thousands of cattle unassessed in the Territory.

Judge Daniel H. McMillan has a column and a half write-up of what he has done in New Mexico, in the Buffalo Evening News, a paper published in his home town. The EAGLE is not very much concerned one way or another about Judge McMillan, or what he or any other carpet-bagger, has done in New Mexico; but from a standpoint of morality, New Mexico would probably be as well off without him. According to his reputation at Lincoln and Roswell terms of district court, one would naturally infer that he is more fitted for superintendent of a Mormon colony than to direct a court of justice. Such is life, however, in New Mexico. Selah.

UP AGAINST IT.

Eddy county is having, or going to have trouble in the perfecting of title to property sold for taxes last year. The trouble seems to have originated from the erroneous advertisement of delinquent taxes. It has been a subject of embarrassment to the county for months, and the grand jury during the county's last court recommended that the sale be set aside and the delinquent tax list re-advertised so as to comply with the law.

RECORD'S SPECIAL OUT.

The special illustrated edition of the Industrial Record, El Paso Mining Journal, is out, and is a record of great credit to its authors. The mining camps of New Mexico receive a handsome mention in this special. The White Oaks country has been given the most thorough and impartial write-up it has ever had. The Record's friends in this country are numbered by a poll of the inhabitants. The paper has done us a good service, let us return it by doing the Record a good turn when opportunity comes.

ADDITIONAL LOCAL.

The Ball at Hotel Baxter Saturday night was much enjoyed by those who attended.

McPherson and Chittenden have contracted about 50,000 feet of lumber at Santa Rosa. Four outfits were loaded in the yards here yesterday for that place.

The oil company represented by E. S. Brown is getting in a diamond drill, and will immediately begin prospecting holdings in the Patos district east of town.

TEACHERS ELECTED.

The school board held a meeting Wednesday evening for the purpose of electing teachers for the ensuing school year. J. F. Wharton, brother of J. E. and S. M. Wharton, and late principal of the De Leon high school, at De Leon Texas, was elected principal; Mrs. Jno. A. Hollars, first assistant and Miss Mabel Walsh second assistant. The opening term will begin the first Monday in September.

BAPTIST ASSOCIATION.

The following ministers will be present at the opening of the Baptist Association at the Congregational church to-night: Rev. Geo. H. Brewer, General Missionary, Albuquerque; Rev. C. A. Taylor, principal Baptist College at Alagordo; Rev. H. O. King, Pecos Valley; Rev. V. C. Rocho, Alagordo; Rev. H. P. Powell, Carlsbad; Rev. C. A. McIlroy, Weed; Rev. Newbrough, Cloudcroft; Rev. R. P. Pope, Cloudcroft; Judge A. Green, Carlsbad.

PAYMASTER LICKED.

Constable John Owen came in yesterday from the railroad line, having in custody Wm. Forester, who is charged with assault on the person of paymaster, H. C. Miller. It seems that Miller and Forester had some difficulty over money due Forester, and Miller slapped Forester when the latter drew his sixshooter and laid it with considerable force on the head of Miller resulting in a deep scalp wound.

Forester went before Judge Collier and pleaded guilty, as charged, and was fined \$100, and costs of suit, in default of which he now languishes in the bastille.

HICKS--COLLIER.

The marriage of Miss Lillie
 Hicks to Mr. Elbert T. Collier,
 of White Oaks, N. M., took place
 at the home of the bride, in this
 city, this, Thursday morning, at
 8:30 o'clock. Rev. J. S. Chapman,
 of the First Methodist church,
 spoke the words of wedlock. The
 marriage circle was limited to
 this family and a few intimate
 friends. Miss Hicks is recogniz-

Correspondence.

A. H. Rockenfelder's family, of Roswell, is now occupying one of P. G. Peters' summer cottages here.

Plums and blackberries are now just beginning to ripen; apples and pears, that have been well cultivated and irrigated, are fine and a full crop.

The strawberries, gooseberries and early peaches are all gone, and it will be about a month before the late peaches will be ripe. One late variety of cherries at the Willows, will hold good till the 15th; that makes a three-months season for this delectable fruit. It is astonishing the quantity of cherries the birds can get away with, which reduces the income one-half per tree in an orchard of one hundred trees.

COAL TAR.

We are told that the waste of coal after the gas has been extracted produces a gas tar, which yields a series of dyes of unrivalled beauty; scarlet, violet, orange and magenta, and that eighty-nine separate tints are obtained by the judicious blending of these colors. Pretty much all of the coloring used by fabric manufacturers, now-a-days, are the product of this gas tar, popularly known as aniline dyes. Seventeen medicines are the product of coal tar; about a dozen perfumes, scents that are known by the name of the flowers they are extracted from; vanilla for flavoring custards and puddings is a product of coal. Besides these dyes and scents, coal tar yields a substance called saccharine, one pound of which is equal to two hundred weight of sugar. It is wholesome and a capital disinfectant. Preserves made of it will keep indefinitely.

With the many discoveries of late years and the heavy beds of coal Lincoln county has, of numerous varieties, who knows what industries will be carried on here in a decade or two hence?

With this, you see, Lincoln county needs an academy, where chemistry, the natural sciences and mechanical arts can be taught, with Latin and modern languages; English literature and ancient history, which is largely fables feed to the dogs.

A gang of Mexican horse thieves are said to be giving the railroad contractors a good deal of trouble along the line of construction. A few days ago a contractor discovered that six head of horses were gone, and in company with his dump boss found the trail and started with guns in pursuit. They returned later in the day with the horses—no information was asked or given as to what was done with the thieves.

SPECIAL MASTER'S SALE.

In the District Court of the Fifth Judicial District of the Territory of New Mexico, sitting in and for the County of Lincoln.

Chas. Ilfeld, Plaintiff
 vs.
 Jose Montano, Josefa de Montano, R. Michaelis and Timoteo Analla, Administrators of the estate of Jose Analla, deceased, Defendants.

No. 1265.

WHEREAS in the above entitled cause and court, on 22nd day of May A. D. 1901, judgment was rendered against the defendants Jose Montano, and Josefa de Montano in favor of Charles Ilfeld in the sum of two thousand, four hundred and ninety-five and 22-100 dollars (\$2,495.22) which amount bears interest at the rate of ten per cent per annum from the date of said judgment, and against said defendant in favor of the defendant R. Michaelis in the sum of two thousand, six hundred and twenty-eight and 13-100 dollars (\$2,628.13) together with interest at the rate of twelve per cent per annum from the date of said judgment and the further sum of two hundred and fifty-six and 88-100 dollars (\$256.88) as an attorney's fee in said action; and whereas it was determined by said court that said defendants Jose Montano and Josefa de Montano were justly indebted on said date to the defendant Timoteo Analla, Administrator of the estate of Jose Analla, deceased, in the sum of six hundred and sixty-seven and 21-100 dollars (\$667.21) with interest thereon at the rate of twelve per cent per annum from the sixth day of August A. D. 1900;

And whereas each of said amounts was by said court found to be a lien upon certain real estate of said defendants Jose Montano and Josefa de Montano situated, lying and being in the county of Lincoln in the Territory of New Mexico and described as follows, to wit:

The south half of the south east quarter; the north west quarter of the south east quarter and the north east quarter of the south west quarter of section 30, in Township 11, south of range 19, East; the south one half of the north west quarter and the north west quarter of the south west quarter of section 29 and the north east quarter of the south east quarter of section 30 in Township 11, south of range 19, East; and the south one half of the north east quarter of section 12, in Township 11 south of range 14, East, all of New Mexico meridian, containing four hundred acres, as per United States patent.

And whereas it was ordered by said court that all and singular the interests of said defendants Jose Montano and Josefa de Montano be sold at public auction to satisfy the aforesaid liens, and the undersigned was appointed special master to make said sale.

Now, therefore, notice is hereby given that on the 24th day of August, A. D. 1901, at the hour of ten o'clock in the morning of said day, at the front door of the court house of Lincoln County, in the town of Lincoln, New Mexico, I shall offer for sale at public vendue, and sell to the highest bidder for cash, all and singular the interest of said defendants Jose Montano and Josefa de Montano in and to the real estate and premises above described.

E. W. HULBERT,
 Special Master.

RICH ORE IN THE GALLINAS.

The Alamogordo Mining company received returns this week from samples sent away for assay from a couple of their claims in the Gallinas, which proves that this company is in possession of some valuable mining property. The assay from one claim gave value of twelve ounces silver and 29 per cent copper. The samples sent away were not picked and represent the average value per ton of the entire vein, which is 18 feet in width. The company owns a group of eleven claims, none of which have been developed beyond what is required for the first assessment, and if the values increase with depth as is likely the case, it will not be surprising if they uncover a fabulously rich body of ore.

The company is composed of Geo. Kenhedy, John Hunter, John Phalan, A. C. James and I. N. Barrett.—Otero County Advertiser.

A stranger visiting Socorro was killed by lightning on the streets of that town last week.

GALLINA CAMP.

Correspondence.

A D. Long of Albuquerque is in the camp prospecting.

C. M. Bryan had a fine 8 pound boy presented him by his wife on the 8th ult.

C. M. Bryan, J. F. Palmer and S. F. Hostetler went to White Oaks for supplies last week.

Lawrence Barrett has secured assays from ores taken from his group that show values of 22 to 29 per cent copper.

An Alamogordo company, composed of John Hunter, John Kennedy and John James, are prospecting here. They want copper.

McBoon and Webster have struck good copper ore on the Rover. The shaft is 20 feet deep, the lead shows both copper and lead.

Mark Thomas is expected here next week with a drilling outfit. He has been engaged by a number of the local inhabitants to sink a well for mutual benefit.

A. Hansel has returned from Albuquerque, and has begun the assessment on his various claims. He anticipates getting in machinery for regular development as soon as conditions will warrant it.

Pueblo parties are expected to arrive here next week to examine a group of properties belonging to local prospectors. Chances are reasonably certain that they will invest, and begin operations for development.

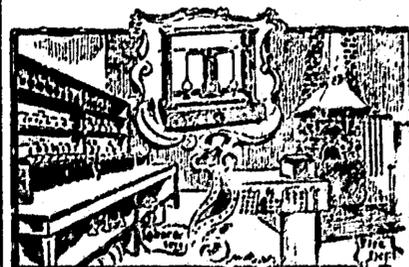

Watch the Gallinas. This is the coming mining district of this section of New Mexico, and railroad facilities will soon be such that capital can be induced to take hold, and develop our prospects into producing mines.

There was a Jewell—Barrett scrap here since our last letter, and the principals though not professionals, are way-up amateurs. The energy expended in settling the difficulties between them properly directed against the English would have aided materially in making Oom Paul major of London, or falling short, would at least have made Lord Roberts' endowment by the English parliament double the 100,000 pounds given him.

NAVAJO RESERVE DIVIDED.

The Navajo reservation in New Mexico and Arizona has been divided into two agencies, and by this arrangement the Indians can be dealt with more prudently, and in this way can be kept on the reservation. The eastern division will remain at Defiance, and the western agency at Blue Canon. N. J. Needham, superintendent of the Indian school, will take charge of the agency at the latter place. It is reported that the reservation is very dry and the Indians have very little grass and water for their stock.

The stock interests of this section has never been more encouraging. Winter grasses are already assured.

Crops are as fine as they have been for years. The Eagle Creek potato will be a surprise in the market this fall. They will turn down the spuds shipped in here if the season continues.

There is nothing of interest developed in a mining way recently. The District is, however, rapidly becoming known to mining people, and we may reasonably expect investment and development to follow.

NOTICE OF CHANCERY SALE.

In the District Court in and for the County of Lincoln, New Mexico.

John A. Brown, Administrator of the Estate of late Lee Bowman, deceased, Plaintiff

No. 1233

vs. The Unknown Heirs of the late Lee Bowman deceased Defendants.

Notice is hereby given, that by authority of that certain Decree and Order of Sale made by the Court in this cause, bearing date the 29th day of April A. D. 1901, whereby it is decreed and ordered that all the right, title and interest of the late Lee Bowman above named, in and to that certain property at issue in said cause, to wit: The equal and undivided one half right, title and interest in and to that certain Mining Claim, situate in the Jicarillas Mountains, in the Jicarilla Mining District and located, named and known as the "Prospect" Lode Claim, in said Lincoln County, shall be sold under the order and direction of the said Court, or so much, and such parts thereof as may be necessary to satisfy the demands of the Court of Probate of the said County of Lincoln, and the claims therein allowed and all costs of suits, expenses and costs of sale and all other lawful demands of the Administration of the Estate of the said Lee Bowman deceased, in the said Probate Court, and whereas the said Court has appointed and directed that the undersigned, the Referee herein, do execute and give lawful and ultimate effect to the said Court's Decree and Order;

Now therefore, in obedience to the said order and direction, I will at the town of White Oaks, in said County of Lincoln, in front of the Post-office, on Saturday, the seventh day of September, A. D. 1901, at the hour of 10 of the clock of the forenoon, offer for sale by Public Vendue, and will then and there sell to the highest bidder for instant cash, the whole of the said property of the said Lee Bowman, deceased, to-wit: The said equal and undivided one-half of the said Lode claim, the said "Prospect" Lode as above described, or as much thereof as may be found necessary for the said named purposes.

The said sale and all matters pertaining thereto, to be reported to the Court, for its confirmation; upon which confirmation, title by deed of conveyance, will be executed as provided by the Court's decree and by the Laws of New Mexico.

Witness my hand at said County of Lincoln, this fifth day of August, A. D. 1901.

The work of changing the 60-pound rail used on the E. P. & N. E. some distance out of El Paso to 70-pound rail, the standard of the American Society of Engineers, has been completed, and now the weight of rail is uniform as far as the Pecos river will be of 70-pound rail—and makes the E. P. & N. E. one of the best roadbeds in the West.—Alamogordo News.

Someone has discovered that sun stroke is also the work of a microb of peculiar shape and kind. It only remains now to find the germ which causes people to freeze to death in winter time, remarks the Chicago News. The germ which invades the physical anatomy that has been struck by lightning and the bacillus that plays havoc with persons who are run over by railway trains can be hunted up and identified later.—Optic.

SANTA ROSA.

A. P. Jackson is out of town on a trip over the extension. He is visiting Santa Rosa, where the E. P. & N. E. and Rock Island connect, and liberty, whence an extension will be built from the Rock Island to the Dawson coal fields. Mr. Jackson, if he finds conditions favorable, will put in a lumber yard at each place. Mr. Jackson in a letter just at hand says it is a fine country between White Oaks and Santa Rosa, though of course it is not settled. It is covered with cedar and pinion, and there is plenty of grass. It will be a fine stock country when water is developed, and the railroad company is proving that water can be had. Mr. Jackson says there is a fine well of water fifteen miles from Hallihan's camp.—Alamogordo News.

Santa Rosa has at present fourteen saloons, five restaurants and lunch counters and a hotel, three barber shops and a livery stable, and three stores at the various camps, which goes to show that she is picking up quite lively.

A GREAT NEWSPAPER.

The Sunday edition of The St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its new service is world-wide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high-class literary matter than any of the monthly magazines. The fashions illustrated in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The funny cartoons are by the best artists. The humorous stories are high class, by authors of national reputation.

Sheet music, a high class, popular song, is furnished free every Sunday in The Republic.

The price of The Sunday Republic by mail one year is \$2.00. For sale by all news dealers.

THE NEW YORK WORLD
THRICE-A-WEEK EDITION.
The Most Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE together one year for \$2.00.

The regular subscription price of the two papers is \$2.50.

SHERIFF'S EXECUTION SALE.

George W. Prentiss, Plaintiff
 vs.
 The Rip Van Winkle Gold Mining Co., Defendant.

Notice is hereby given that by virtue of an execution issued out of the District Court of the Fifth Judicial District, Territory of New Mexico in the above entitled cause in which George W. Prentiss on the 9th day of June, A. D. 1899, recovered judgment against the defendant Company a corporation for the sum of Eight Thousand Five Hundred Dollars, (\$8,500.00) together with interest at six per cent, per annum from the 1st day of July, A. D. 1899, to date of sale; I did on the 3rd day of July, A. D. 1901, levy upon and will at the hour of 10 a. m. on the 14th day of August, A. D. 1901, in front of the post office at the town of White Oaks, Lincoln County, New Mexico, expose at public sale, and will sell to the highest bidder for cash, the following described mining claims, and real estate, the property of said defendant Company, or so much thereof as may be necessary to satisfy said judgment, together with all accrued interest and cost, and cost of sale, viz: All the land and improvements contained in mineral entry No. 26, Lot No. 184, known as the Rip Van Winkle Lode Claim, in Sec. 25 township 6, S. MUCH READING FOR LITTLE MONEY.

The New York World has got the cost of printing down to a minimum. Its latest offer of its monthly newspaper-magazine is interesting if from no other cause than that it shows the acme of "how much for how little."

The Monthly World is a 32-page magazine with colored cover. Its pages are about the size of the pages of the Ladies' Home Journal, and it is copiously illustrated in half-tone. The illustrations are the result of the best artistic skill, aided by all the latest printing-press appliances, making a magazine unrivalled in the quality of its contents and its appearance.

Each issue contains stories of romance, love, adventure, travel; stories of fiction and fact; stories of things quaint and curious, gathered together from all over the world; the results of scientific research and editorial reviews. It numbers among its contributors the leading literary men and women of the day.

A feature each month is a full-page portrait of the most famed man or woman of the moment in the public eye.

In collecting and preparing for publication the literary matter and art subjects for the Monthly World no expense is spared.

The New York World will send six numbers of this newspaper-magazine on receipt of fifteen cents in stamps. Address The World, Pulitzer Building, New York.

TWICE-A-WEEK REPUBLIC.

Every Monday and Thursday a newspaper as good as a magazine—and better, for it contains the latest by telegraph as well as interesting stories—is sent to the subscriber of the Twice-a-Week Republic which is only \$1 a year.

The man who reads this paper knows all about affairs political, domestic and foreign events; is posted about the markets and commercial matters generally.

The woman who reads the Republic gathers a bit of information about household affairs and late fashions and recreation in the stories that come under both the headings of fact and fiction. There is gossip about new books and a dozen other topics of especial interest to the wide-a-woke man or woman.

THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Thrice-a-Week World	\$2.00
" St. Louis Republic	2 00
" Industrial Record	2 25
" Mines and Minerals	2 50
" Daily Mining Record	4 00
" Cosmopolitan	2 10
" Commoner	2 00

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.

Editor, E. O. Creighton, of the Roswell Record is engaging intensively in various industrial enterprises in the Pecos Valley. His two latest ventures are melon growing and oil stock.

MINERALS ENTRIES WITHIN FOREST RESERVES.

In view of the proposed forest reservation in Josephine, Douglas, Coos and Curry counties the following extract from a circular issued by the department of the interior June 24, 1899, will no doubt be of interest to our readers:

"The law provides that 'any mineral lands in any forest reservation which have been or may be shown to be such, and subject to entry under the existing mining laws of the United States and the rules and regulations applying thereto, shall continue to be subject to such location and entry,' notwithstanding the reservation. This makes mineral lands in the forest reserves subject to location and entry under the general mining laws in the usual manner.

"Owners of valid mining locations made and held in good faith under the mining laws of the United States and the regulations thereunder are authorized and permitted to fell and remove any timber growing thereon, for actual mining purposes in connection with the particular claim from which the timber is felled or removed.

"The law provides that 'The secretary of the interior may permit, under regulations to be prescribed by him, the use of timber and stone found upon such reservations, free of charge, by bona-fide settlers, miners, residents and prospectors for minerals, for firewood, fencing, buildings, mining, prospecting and other domestic purposes, as may be needed by such persons for such purposes; such timber to be used within the state or territory, respectively, where such reservations may be located.'

"This provision is limited to persons resident in forest reservations who have not a sufficient supply of timber or stone on their own claims or lands for the purposes enumerated, or for necessary use in developing the mineral or other natural resources of the lands owned or occupied by them. Such persons, therefore, are permitted to take timber and stone from public lands in the forest reservations under the terms of the law above quoted, strictly for their individual use on their own claims or lands owned or occupied by them, but not for sale or disposal, or use on other lands, or by other persons. Provided, that where the stumpage value exceeds \$100, application must be made to and permission given by the department."—Oregon Mining Journal.

DIVIDED A THOUSAND PER CENT.

New York, July 29.—The First National bank, which recently increased its capital from a half a million to ten million dollars, has declared a dividend understood to be between three and five million dollars.

The latter figure is equivalent to a thousand per cent on the old stock.

ORDER OF THE GARTER.

Hereafter no woman will be a genuine snob unless she wears a garter on her arm.

Edward VII. has conferred upon his royal consort, Queen Alexandria, the most noble Order of the Garter, and on the first formal appearance she will be expected to wear it upon her arm instead of elsewhere.—William E. Curtis' London Letter.

SHEEP ARE IN DEMAND.

Sheep seem to be in demand just at the present time, notwithstanding decidedly bearish tendencies. In the last two weeks not less than fifteen men have been in the valley, coming from all portions of the United States, but the amount of their purchases have been nil. They have not been willing to pay the figure asked for good stuff, and for the most part have drifted down into the San Angelo country.—Roswell Record.

OF INTEREST TO STOCKMEN.

The Live Stock Inspector at Woodward, Okla., and Kansas City, Mo., issue of July 15, 1901, publishes a cut of "Advance," together with parties interested in the sale of this highest priced beef steer ever sold in the world. The animal was owned, bred and exhibited by Stanley R. Pierce of Creston, Ole county, Ill.; age 1 year, 11 months; weight, 1430 pounds; price, \$150 per hundred; amount, \$2145. The sale was made by J. P. Bowels, president of the Bowels Live Stock Commission association, well known in the Southwest.

A PRINCELY ESTATE.

W. J. Wilson has completed a map of the W. E. Washington lands south of Hagerman. This map shows Mr. Washington's real estate holdings in that locality to consist of 10,640 acres. And though the map does not show it, the fact may be added that it is all under fence and stocked with a good class of cattle and horses.—Roswell Record.

COCHITI GOLD.

One of Cochiti's mines has this year produced \$600,000 in gold bullion, a sum greater than official figures of the United States credit to the entire territory.
