BONITO CITY MINING NEWS.

District Active, Annual Assessments Being Done—

GENERAL NEWS OF THE DISTRICT.

Correspondence.

The Iowa & New Mexico Mining and Milling company is erecting a horse power hoist and shaft house on the King Rex mine, are timbering the shaft and will sink to 100 foot point and cross-cut to foot wall. This mine has proven to be the richest in free gold of any mine in the Turkey Creek or Bonito country. The same company are putting in trackage and cars in the Richard Carvel tunnel and will start at once to drive the tunnel several hundred feet. They will also cross-cut to catch the south vein and sink a winze 75 feet at the point where the south vein intersects the main Carvel vein. This mine has plenty of first-class milling ore on the dump.

The ore in Monte Cristo mine is improving; some free gold at 25 feet; the shaft is being well timbered with the view of sinking deeper at some future time. The annual assessment work is about finished by this company, and all its energies will be directed to a winter of development.

Grafton & Berry have a good showing of gold on one of their claims on lower Turkey Creek.

Byrd & Collard are preparing for winter work on their Old Crow mine, which shows up well in silver and lead, and native silver shows in many places. There are a number of silver and lead properties in the Bonito country that would prove shipping mines with very limited development work. The Bonito country is destined to be the smelting point for southwest New Mexico.

Felix Brown of Capitan, is cleaning ground below Bonito City to erect a summer hotel. He has already built a large artificial lake and will stock it with a variety of game fish.

Billy Brown, a prospector, is developing two good silver and lead properties in School House canyon, south of Peters' store. Alfred Corn and Joseph Henley are building houses on upper Turkey creek. It is their intention to spend the winter there.

William Dispain is going on a trip to Oklahoma to visit relatives. W. W. Corn and family are on an

outing trip down in the Seven Rivers country.

Work is going on at the famous China mine and will be continued through the winter. Some good silver strikes have been made in the Eagle creek country by Will Hightower.

DISAGREEABLE FACTS.

I do not on an occasion like this wish to speak of disagreeable facts, but it is well that we should realize and face them and then apply the remedy. Our ridiculously low assessment for taxation is constantly spoken of and reflected upon. The present assessed value of the territory is less than forty millions, while it is a notorious fact recognized by all who know anything about the subject that it ought at the least to be three times that amount. The figures show that we have dropped from forty-five million in 1890 to less than thirty-eight millions in 1901, and the reduction still goes on, until as a means of self-preservation, in order to protect our credit and pay the actual expense of the government, the territorial board of equalization last month made a raise on the returned value of all the property it could reach. This, my fellow citizens, is a lamentable state of affairs, and one that must be remedied by you. You must see to it that proper men are elected to assess the property and equalize its value, so that we may appear to the world what we are in fact, as to our wealth and ability to pay our obligations.

This I believe to be the principal objection to our immediate admission, and if at this meeting you will adopt suitable resolutions upon this most important and vital subject and determine to see them carried out, you will have taken a long step toward the object for which we are here assembled.—Governor Otero's speech at statehood convention.

Would it not be wise for us to get these things fixed up before trying to get into the union? If we could show a good system of territorial government we might convince congress that we could handle ourselves under a statehood government. Good many of those congressmen are from Missouri and must be shown on this statehood question for New Mexico. Our conditions and our advantages and disadvantages are well known to congressmen, and sentiment expressed by ambitious politicians must fall before arguments which set forth the facts. And as the Governor says, the board of equalization's blanket raise presents some stubborn facts.

Trapped By The Enemy.

The way of the transgressor is hard as was shown in the case of Will Shepard, who was sent out last week as special constable to arrest Curly Carroll, who was and is yet, presumably, wanted for killing Juan Bereras. Shepard unfortunately fell into company with some booze peddlers out on the line of railroad construction and according to his tale of woe, and Will has never lied except as to matters of war and courtship, he says he was doaped, relieved of his wad, and turned out of doors into the rain with his name at the bottom of, just how many drafts he can't tell, as some of them beat him to town and others are still arriving, and foreign exchange has yet to be heard from. Will says he had just as much money in London, Liverpool and other eastern cities as he had in this country, and he is satisfied that he will be dead broke when the enemy gets through with him. There is one feature of the affair however, that Will can look to with pride, and that is the loss to the other fellow of unmeasured booze, and the defeat of the skull and cross bones as applied to the membranes of his stomach.

He says during the two days he imbibed the lotion of these experienced apothecaries, that he sailed a yacht through the Mediterranean, hunted in the Scotch highlands and played the highest stakes at Monte Carlo, danced with angels and was entertained at the court of Edward VII, and wound up a member of the English parliament and premier of the British government. But suddenly the spell was broken when he realized that he was only the disfigured representative of the late deputy Shepard, with a sensation of painful thumping around the solar plexus similar to that he imagined would be produced by a piece of railroad iron in the hands of an Irishman. Shepard says that everything that looks like red liquor is not always healthy booze.

He is now organizing a stock company with the view of purchasing the prescription from which these people compound their medicine and taking it back home with him where he will sell the compound to the Texas farmer as a sure-shot prairie-dog exterminator—he says it will do the work.

BY PRECIPITATION.

In an interesting article upon copper precipitation from the water drawn out of the famous mines of the Butte region of Montana, Mining and Metallurgy, of New York, says that four million dollars are annually extracted from the mine water by means of precipitation.

"From all these mines a large amount of water is daily pumped," says the article, "and this water carries in solution copper salt of sulphate, i. e., sulphuric acid in combination with the metal. The greater affinity this acid has for iron rather than copper effects the precipitation of the copper in a nearly pure state when the solution is brought in contact with iron. The acid then leaves the copper and combines with the iron, forming an iron sulphate which, being very soluble in water, allows the iron salt to pass off. These characteristics of copper-impregnated water being understood by the managements of the properties named, large precipitation plants were installed adjacent to the mines and at a lower level than that of the egress of the water from the pumps in order that this solution might be saved."

STATEHOOD A GOOD THING-BUT.

Statehood will be a good thing for the entire territory, but like the rose it must have its thorn. It is now happily the case that judges are not elected and the judicial department in the main are above reproach. When we become a state judges will be elected, and with the methods now in use for nominating and electing, the bench may possibly be occupied by officers who know not law, justice nor decency.—Dona Ana County republican.

The Albuquerque fair is said to have been a good one, but the statehood convention, aside from the forensic display of oratory by some of our ambitious politicians, had a somewhat similar effect on the general populace that a shower bath would have on a consumptive on a November morning. Hoop'er up, boys; you may look for a place to fall later, because you must come down with a dull thud, when your pet hobby goes before the next congress.

Our worthy sheriff is reported in print as felicitating himself upon his success in keeping the merchants from opening their stores Sunday. Good Christian people are not desirous of having the Puritanical blue laws enforced. George Washington wrote that this was a civil government and not a religious one. Why does not our officious sheriff go for the fellow who married a 14-year-old girl and the party who performed the ceremony?

Mr. Honeywell has arrived with a bunch of about 200 mixed cattle and fifty horses. He has bargained for a homestead claim, improvements and fodder that lie midway between our postoffice and Nogal.

"Drink and the gang drinks with you; swear off and go it alone; for the bar room bum who drinks your rum has a querulous thirst of his own. Feast and your friends are many; fast and they cut you dead; they'll not get mad if you treat them bad, so long as their stomachs are fed. Steal if you get a million, for then you can furnish bail; it's the great big thief who gets out on leave, while the little one goes to jail. Advertise and the dollars will come; stop and they fail to arrive; for how are men who have money to spend going to know you are alive?"—Ex.

RESOLUTIONS

OF
Knights of Pythias Lodge, Baxter
No. 9, White Oaks.

WHITE OAKS, Oct. 17, 1901.

In memory of our martyred Brother, Knight
William McKinley,
This page of our Record is lovingly
DEDICATED.
SHOT SEPTEMBER 6, 1901.
DIED SEPTEMBER 14, 1901.

The grandest and most liberal nation in the Universe mourns the loss of its president, our martyred brother, William McKinley, struck down by the foul hand of an assassin; and while this lodge deplores his untimely death and regrets that the nation is deprived of its Chief Magistrate, cut down in full vigor of manhood, and while in the discharge of his official duties, it as earnestly calls for the punishment of the cowardly and brutal assassin, and hereby signifies its willingness to aid in any manner becoming Pythianism in the suppression of all societies that have for their purpose the extermination of rulers of nations.

Resolved, That this lodge hereby commends the righteous life of our martyred President as the true exemplification of the life of a Pythian Knight, and worthy of emulation by Pythians everywhere. A study of his life and character should lead the members of our noble Order to a higher and more appreciative understanding of the meaning of the well defined precept of Pythian duty, thereby enabling us to avoid anger and dissension, to cause us to work together in the spirit of fraternity and to more fully exemplify the friendship of Damon and Pythias.

Brave and true in life,
He died as he lived,
Conscious of his eternal reward.
His last and kindly uttered words are jewels ever to be treasured in the hearts of Pythians:
"It is God's way—His will be done."

"Lead, kindly light; "Nearer, my God, to Thee. This has been my constant prayer."

Resolved, That this page of our Record be, and is hereby dedicated, to the memory of our departed Brother, and that our charter be draped for a period of 30 days. Be it further

Resolved, That a copy of these resolutions be forwarded to the widow of our departed Brother and that a copy of same be furnished the WHITE OAKS EAGLE for publication.

SOL. C. WIENER,
S. M. WHARTON,
J. A. HALEY,
Committee.

The Schley court of Inquiry has proven that there really was a battle with the Spanish fleet at Santiago, and that Admiral Schley was really there, and that the brooklyn did good service, and that Cervera's fleet was destroyed and that the American people were well satisfied with the result—Now where does Sampson come in? There is no question about his figuring very prominently in McClay's history.

CAPITAN NEWS.

Items of Interest Happening
In and Around the Town
of Capitan.

EDITOR EAGLE:

Seeing that other sections of the county are represented in the EAGLE from week to week, and thinking that, perhaps, it might not be out of order for Capitan and vicinity to be heard from with reference to the happenings, social and otherwise, in the constantly changing chain of events, we will endeavor to furnish you a letter each week.

W. H. Slaughter, the insurance man of Alamogordo, spent several days in Capitan last week.

Ira Sanger is in Roswell this week on business.

W. H. Lumbles of Picacho, the hustling sewing machine agent for the singer people, was here this week. He reports the machine business good.

Mr. and Mrs. E. W. Hulbert of Lincoln, spent Sunday in Capitan.

Fred Dieter, representing Houck & Dieter, Wholesale liquor dealers of El Paso, was in the city a day or two. He went from here to Lincoln and Picacho.

J. T. Price and J. L. Smith transacted business at the county seat Tuesday.

S. T. Gray and Mr. Shepard have gone to Roswell to attend the races. They took three horses with them which they will enter.

Rev. R.P. Pope of White Oaks, preached here last Friday night. He went to Bonito Saturday and conducted services there Sunday.

Bert Rowland, Guy Herbert and others, are in the White Mts. on a hunting expedition.

Ed Levy of El Prso Grocery Co., called on customers here this week.

C. M. Bryan has about completed extensive improvements in his large furniture store and hardware store, and has added a stock of groceries.

N. J. Thatcher, the mining man was in from Bonito last Thursday. He says there is considerable activity in mining matters in that vicinity. He has a great deal of faith in the future outcome of that section of the country as a mining district.

Little & Fawcett have completed the improvements on the court house at Lincoln, ordered by Judge McMillan at the close of the spring term of district court, which will add materially to the comfort of those who attend the next regular term which convenes the first Monday in November.

A party went into the mountains last week bear hunting. On returning they assumed a mysterious air and are entirely non-committal as to the number and size of animals slaughtered.

Missionary Work Needed.

Way up the forests of the Sacramento mountains a baptist preacher some weeks ago fell in with some people who seemed to be well fitted for the missionary efforts on which he was bent. He had been riding nearly all day, and late in the afternoon came upon a cabin set in the midst of a woodland. Near the door was a spare straight haired woman, who gazed at him curiously. The minister spoke to her courteously and made some inquiries concerning the neighborhood. Her husband was a hunter the woman said.

"And is he a God-fearing man?" asked the preacher.

"I reckon so," came the slow reply, "cause he always takes his gun with him."

The visitor hastily changed the subject and inquired if there were any baptist in the neighborhood.

"I duno," said the woman, simply; "but there's a lot of skins hanging up in the cabin; you can look at 'em and see if you can find any."—Alamogordo News.

The White Oaks EAGLE continues to tell the truth about existing conditions, that in its opinion do not warrant statehood. The EAGLE is being correspondingly blessed by those papers who lean the other way for one reason or another. Incidentally it is finding that the way of the truth teller is not strewn with roses.—Roswell Record.

Republican journals are using a great deal of space trying to explain Roosevelt's Southern Policy. It is hard to make the bent of an independent mind conform to the ideas of the average republican newspaper.

Our regular quota of correspondence from Bonito and Eagle Creek arrived late last week but are published in this issue.

EL PASO MID-WINTER CARNIVAL.

El Paso is preparing for another great Mid-winter Carnival to be given January 14, 15, 16, 17, and 18, 1902. This will be the second annual event, and will be the greatest entertainment ever given in the southwest.

The "sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest, you can get a glimpse of Mexico at El Paso and this, with the Mexican bull fights, is something that other cities can not afford. To see the ancient city of Juarez Mexico is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend, there will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become famous as an entertainer and at the coming Mid-Winter-Carnival the border metropolis promises the most extravagant free show, fiesta and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now preparing the program, which will be published soon.
