AN INDIGNATION MEETING HELD AT LAS VEGAS.

PROMINENT PEOPLE ARRAIGNED BY IT.

LAS VEGAS RECORD, OTERO COUNTY ADVERTISER, MISS SNIDER, J. F. MANNING and GOVERNOR OTERO CENSURED and THEIR ACTIONS CONDEMNED.

Last week the native citizens of Las Vegas met en masse at the court house in old town, and passed resolutions censuring a number of newspapers and individuals who have made misrepresentations which seriously reflected on the Spanish-American population of the territory. Gov. Otero's report to the Secretary of the Interior is strongly condemned as unpatriotic and traitorous. It was the request of the mass meeting that the resolutions be published by all the newspapers, both English and Spanish, in the territory.

The resolutions, as we find them in the Optic, are as follows:

"At a public meeting held by the Spanish-American citizens, at the court house of the county of San Miguel, in Las Vegas, N. M., on the 26th day of October, 1901, the following resolutions were unanimously adopted by said meeting:

"We, the Spanish Americans of the county of San Miguel, Territory of New Mexico, and citizens of the United States in mass meeting assembled on this 26th day of October, 1901, have resolved:

Whereas, in the issue of the 20th of October, 1901, of the weekly, The Review, published in Las Vegas, N. M., there appeared an article defamatory of the Spanish-American race of the Territory.

And, Whereas, in said article we are charged as being ignorant, depraved, lazy and dirty in our private lives, and of being socially very inferior ourselves as well as our families:

And, Whereas, it is the sense of this meeting that the Spanish-American people must not allow such an insult to pass without

due censure and condemnation;

And, Whereas, we have been informed that the author of said article is a missionary, named Nellie Snider, who, with malicious intent and ulterior motives of lucre, has attempted to paint such a black and exaggerated condition of the social, religious and moral affairs of our people;

Therefore be it resolved, That with all the energy of which we are capable we condemn that action as unjustifiable as criminal on the part of said Nellie Snider; we point to her as one unworthy of living in our community; we brand her as an adventurer, an ingrate, a hypocrite and a demagogue, who after partaking of the hospitality of our kind people, has reciprocated with infamy and repeated insults, and for this reason we proclaim it before the world that she dishonors the name of a 'cultured miss,' back of which she would hide herself from our just indignation.

Be it further resolved that this meeting arraigns Editor Manning of The Review for having permitted such an article in his paper.

Be it further resolved that these resolutions be published in all the Spanish and English press of the territory.

Whereas, The Daily Record, a daily newspaper, published in the town of East Las Vegas, published and circulated in its issue of July 31, last, an article wherein is ridiculed and malinterpreted a certain religious practice observed by many Catholic Mexicans, to-wit: that of raising their prayers and doing homage to the Creator at nightly meetings commonly called wakes, which article is purported to be reproduced from the Alamogordo Advertiser; and Whereas, the said Record gives

that article the most prominent place in its publication, to-wit: on the first column of the first page, headed with large and prominent letters;

And, Whereas, the said Record makes the follow comment of said article, to-wit: *SCARING THE DEVIL. SINGULAR RELIGIOUS SERVICES HELD AT ALAMOGORDO, A RELIC FROM OLD MEXICO. MID-NIGHT DEVOTIONS THE DISCHARGE OF A GUN SERVING AS AN ACCOMPANIMENT TO THE PRAYER.*

Now, Therefore, this mass meeting protests against the ridicule that is attempted to be given to said practice intended for the purpose of humiliating our race and we arraign the Alamogordo Advertiser and The Record for circulating and publishing said ridicule.

That this meeting does not accept as sincere the defense which The Record makes of the attack of missionary Snider, for the reason that it has willingly, gratuitously and maliciously wounded our feelings in its aforesaid publication.

Whereas, Miguel A. Otero, in his report as governor of New Mexico, to the secretary of the interior, and to the president and congress of the United States, gratuitously insults the people of New Mexico, in a paragraph appearing on page 84 of said report which said paragraph reads as follows, to-wit:

"I distrust the outcome of these proceedings. Based upon former experience, there is no foundation to expect that salutary results will follow this prosecution. The petit jury, speaking algebraically, is in any community, however enlightened, nearly always an unknown quantity, represented by X; it is even more uncertain, composed of the Mexican-American citizen, commonly referred to as 'a greaser' who, by years of intimate association with the Indian, has imbibed more or less sympathy with his religious tenets; one of the strongest of which finds its expression in 'witch hanging.' Interfere with what your average Mexican is pleased to call his religion," and he immediately becomes aroused to the highest pitch of fanaticism, capable of undergo-

ing any sacrifice, any hardship. This is class of which petit juries in this country is generally composed, and is the class which will compose the jury empaneled to try the malefactors. The defense will get up the cry of religious persecution, dilate upon the unconstitutionality of the whole proceedings and I fear the "priests of the bow" will escape scot free to do the same thing over again whenever their medicine fails to work and a victim is required."

Now, therefore, we brand said report as a vile slander and as false in its assertions; an insult cast gratuitously against the good name of the people of New Mexico, and we denounce and arraign Miguel A. Otero as a vile defamer and slanderer of our race and protest against his rough and traitorous conduct.

That all of these resolutions be published in the Spanish and English press of the territory."

THERE IS A GOD.

Declaration of Ex-Governor Bob Taylor.

How true is Holy Writ, which declares that the fool hath said in his heart "There is no God." Tell me not, O infidel, there is no risen Christ! What intelligence less than God's could fashion the human body? What motive power is it, if not God, that drives those throbbing engines of the human heart, sending the crimson stream of life bounding through every vein and artery? Whence and what, if not God, is the mystery we call mind? What is it that thinks and feels and acts? O, who can deny the divinity that stirs within us! God is everywhere and is everything. His mystery is in every bud and blossom and leaf and tree; in every rock and hill and mountain, in every spring and rivulet and river. The rustle of his wing is in every zephyr, his might in every tempest. He dwells in the dark pavilion of every storm cloud. The lightning is his messenger and the thunder is his voice. His awful tread is in every angry ocean. The heavens above us teem with his myriads of shining witnesses—whose wheeling orbs course the crystal dread hall of eternity, the glory and power and dominion of the all-wise, omnipotent and eternal God.

The Deepest Mine.

The Revenue mine in the San Juan country Colorado, is the deepest mine in North America. It is 3,600 feet under the apex of the mountain.

ORE CONDITIONS CONSIDERED GOOD.

The Gold Coin at Cripple Creek Experiencing Similar Conditions to Those Found in the Old Abe.

"F. M. Woods, of the Woods Investment company, in speaking of the condition of the Gold Coin mine today, made a statement of the utmost significance as touching the future both of that great mine and the Cripple Creek district. He said: 'Our ore is gradually but surely changing from a telluride of gold to a sulphide of gold. The change has been going on gradually for some months past, in fact we have always found more or less sulphides on the way down. The point is, the sulphides are increasing, while the tellurides are gradually disappearing. I can also say that we note that the general average of our ore is increasing as greater depth is attained.'

'What is the character of the sulphide?' was asked.

'It is a white iron sulphide,' he answered, 'and the veins are getting more permanent and richer.'

This is very significant, for anyone having a general knowledge of mining knows that all permanent camps have to fall back on the sulphides for lasting qualities. That is, gold seems to be associated the world over more generally with sulphides and in a more permanent form than in connection with tellurides. Therefore the change of Cripple Creek from a telluride camp to a sulphide camp, as depth is revealing the fact to be, argues well for all future time. It is learned that the Portland and Last Dollar particularly, and the other mines of the district as they are one by one getting deeper, are finding out that what is transpiring in the Gold Coin is their experience also. Gold tellurides result in very showy ore bodies, as was seen last week in the Elkton, when such a deposit of sylvanite was opened in the 700-foot level, but all such fabulous bodies are more or less treacherous, and the good miner would rather have a steady body of sulphides than any other form of ore."

This same condition prevails in the Old Abe as regards the change to sulphide ores with depth, except that the change has been from a free-milling quartz to the sulphide ores with the same features of white iron, as are described in the foregoing article.

Jas. Moulton, who has tried Pueblo, Colo., Albuquerque, St. Louis and Kansas City, working at the trade of foundryman in most places, has returned to White Oaks and will resume his trade as shoemaker, in which he says there are more clear profits.

PERSONAL MENTION.

THE NEW YORK WORLD THRICE-A-WEEK EDITION.

The Most Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE together one year for \$2.00.

THURSDAY NOV. 7, 1901

The EAGLE does not feel half so lonesome in the position taken against the "statehood or bust" crowd since the conservative press of the territory have almost without exception, fallen into line. Nobody opposes statehood, probably, under a constitution that would guarantee the protection of property and a better local government, but there is nothing offered or proposed by the Rodey following, either good, bad or indifferent, just statehood. Any old thing qualified or unqualified, will do for a constitution, and its relation to the people does not seem to concern either Delegate Rodey or the Governor. Why should it so long as it provides for the election of two United States senators? The hope of thus being rewarded is firing the ambition of these gentlemen, and when they speak of the great good that is to come to "the people of New Mexico" under statehood, it is themselves to whom they refer. However, if the Governor makes many more reports to secretary of interior, speaking algebraically about his countrymen, and Delegate Rodey continues to write for the newspapers, it is pretty certain that neither of them will ever address the United States senate.

A FORERUNNER.

The first carload of ore over the El Paso-Rock Island route from the White Oaks country was shipped a few days ago. This is only the forerunner of immense shipments that will soon set in from that section. There is more activity in that district now than has ever been, and there are more prospectors on the search for minerals. The chances are that there will be steady shippers next year from the vicinity of White Oaks. There are many propositions near the line of the Rock Island that have been lying idle for lack of transportation facilities, and now that this difficulty has been overcome the owners of those properties will begin active development. With reasonable freight charges the Rock Island road can do a handsome business in ore tonnage alone. Industrial Record.

THE STATEHOOD MEETING.

As a gathering of congenial spirits for the purpose of whooping things for statehood the meeting at Albuquerque last week might be called a "howling success." But the gathering hardly reached the dignity of a convention. It was a cut and dried affair, almost entirely devoid of intelligent discussion, although the several set speeches were good and one at least was eloquent.

Governor Otero delivered the only address that was at all timely. J. Francisco Chaves, in accepting the chairmanship of the convention, reviewed his past life much to the delectation and edification of the Spanish delegates. Governor Murphy, of Arizona, who knows as much about real conditions in New Mexico, as Dick Croker, talked for thirty minutes and said little. A Mr. Mundy, an eloquent orator from Chicago, delivered a series of eloquent phrases that were pleasing to the ear, but not in the least instructive. That part of the delegation that went to Albuquerque to be enlightened upon the subject of statehood were sadly cheated and disappointed.

The committee on resolutions reported promptly at two o'clock, bringing in a lengthy document of reasons why we should be made a state. These resolutions were simply a rehash of Mr Rodey's utterances in the past prepared by him, perhaps months ago; it is useless to publish them. In them there was not a single reference to what kind of a constitution the people of the territory desired. They simply plead for statehood unconditionally. Therefore the resolutions were adopted with a whoop, and the body adjourned at half 2 o'clock.

Throughout the entire meeting there was not a single utterance from which one could get an idea as to what kind of a constitution the people of New Mexico desire, and those who went to Albuquerque to get information were sorely disappointed. What transpired really amounts to nothing more than an endorsement of the Otero-Rodey program.—Carlsbad Current.

"NEW MEXICAN'S" EXCUSES.

When the tax system in a state like New York is at fault it can not be expected that the revenue laws in a territory like New Mexico should be perfect.

New Mexico seems to be no worse in tax dodging than is, for instance, the great city of Chicago.—New Mexican.

So, is it any excuse for the rotten ring of schysters in New Mexico that other states or cities are deeper in the mud than we are in the mire? Let the New Mexican answer; it is engaged in the excuse-campaign business.

The Louisiana race war has resulted in the death of ten persons, and the wounding of many others.

AGUINALDO'S SUCCESSOR.

Aguinaldo now has a successor in the person of one Malvar, who has proclaimed himself captain general of the Philippine Islands.

He is reorganizing the Filipino army under two lieutenant generals and four generals of division. Every guide caught aiding the Americans will be treated immediately as a traitor. Those who surrender to the Americans will be treated in the same manner. Malvar considers his own appointment to be temporary until the meeting of the general assembly of liberators. He congratulates the soldiers on the good work they are doing in the field, and also those who are working for the cause of freedom and liberty in the cities.

There is a temporary suspension of hostilities in Venezuela. Revolution is apparently the life of South American countries, and Venezuela must necessarily be dull through the period of inactivity.

Some newspapers have been bold enough to really declare Czolgosz to have been shocked when the executioner turned 1,700 volts of electricity into him.

Bryan spoke to democrats at Denver last week.

WATTERSON PROPHECIES.

Henry Watterson, who announced himself a candidate for the democratic nomination for president, in case he is successful in his race for governor of Kentucky, prophesies all kinds of calamities will befall President Roosevelt during his career as president. We quote Mr. Watterson as follows:

"Mistakes, like misfortunes, never come singly. They travel in groups and are cumulous. We democrats have but to get together and to keep our powder dry to carry all before us three years hence, because this young man is a bronco-buster and he is going to raise more of that stuff from the very hot place with the very short name to the square inch than was ever raised before in that particular neck of the woods."

The El Paso News has learned from a party who professes to know that the recent activity in the construction of the El Paso-Rock Island extension is owing to the fact that the Rock Island has secured the shipment of a large quantity of Mexican oranges which must begin to be transported east at a date not later than December 16. It was also stated that to accomplish this a temporary bridge will be used across the Pecos at Santa Rosa, the permanent structure probably not being completed in time.

THE EAGLE WILL LET YOU KNOW

The EAGLE would like to serve notice on all newspapers that have been doing so much guessing about the sale of mining properties at White Oaks that if you see a notice of sale in the EAGLE you can rely on its being true, and we are not liable to overlook a news item of as much importance as a mining sale. Nearly every newspaper in the territory, and some out of it, have been selling the Old Abe mine here for the past three months, an occasional correspondence from White Oaks to the New Mexican has been talking about an ominous expectancy portending great changes here, etc., but nothing of very much importance has "busted" in the community so far, and the Old Abe has not yet been sold. It is true that one or two syndicates have been negotiating, and one or more is now wanting the property, but it takes money to buy gold mines, especially one as valuable as the Old Abe, and should a mining deal of such magnitude take place in White Oaks the EAGLE will let you know.

Attorneys Hewitt, Wharton, Watson and Lund are attending the session of district court at Lincoln this week. Attorneys Dye and Carpenter will go down some time this week.

ONE JAMES C. FIELD.

One James C. Field, who once-upon-a-time, has been a printer, came up from Alamogordo last month to take charge of the Eagle's mechanical department, but went up against booze so hard and work so little that he was unfit for the service. So he managed to draw a little more money than was coming to him, invested in some new shoe leather, a brand new "sky piece" and a good deal of booze, and returned to "Alamo" looking presumably, like the Nebraska negro, "for a more warmer climate." He also managed to get away with a new make-up rule and left his old one instead, and carried off our cister n key. Things have been pretty dry around here since his departure, there being neither water nor booze in the office. The paper is out on time, however, and as soon as we are fortunate enough to get a printer who cango down town with a dollar in his pocket without spending 90c of it for Green River whiskey, and who is not afraid of that healthful exercise called work, we will give you a little better service.

Judging from the rumors afloat around town we must soon witness the festivities of one or more weddings. We might guess correctly but will defer the matter until the invitations are out.

A Mile a Minute.

An effort is being made in England and Germany by railroad companies to increase the speed by rail to 100 to 120 miles per hour. The experiment will be made on the road between Manchester and Liverpool. Americans, while a fast people, think the steam railway has about reached its practical limit in the United States, and that 65 to 70 miles is enough for all practical purposes in this country. A mile a minute most of us regard as fast enough.

THE COMMONER.

[Mr. BRYAN'S Paper]

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and WHITE OAKS EAGLE together for one year for \$2.00. The regular subscriptions price of the two papers when subscribed for separately is \$2.50.

AGENTS WANTED: German Electric Razor Hone. Guaranteed equal to the best hone made. Can use water, oil or lather. Will last a lifetime. Each hone packed in neat cardboard case. Every one perfect. Just the thing for private use. Price 75cts. We want an agent in each township to whom exclusive sale will be given. Write for sample and agents outfit, sent by mail. A money coiner. Address, Marsh Mfg. Co., No. 542 West Lake St., Chicago.

THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Three a-Week World	\$2.00
" St. Louis Republic	2.00
" Industrial Record	2.25
" Mines and Minerals	2.50
" Daily Mining Record	4.00
" Cosmopolitan	3.10
" Commoner	2.00

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and anyone desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one, should take advantage of this liberal offer.

EL PASO MID-WINTER CARNIVAL.

El Paso is preparing for another great Mid-winter Carnival to be given January 14, 15, 16, 17, and 18, 1902. This will be the second annual event, and will be the greatest entertainment ever given in the southwest.

The "sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest, you can get a glimpse of Mexico at El Paso and this, with the Mexican bull fights, is something that other cities can not afford. To see the ancient city of Juarez Mexico is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend, there will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become famous as an entertainer and at the coming Mid-Winter-Carnival the border metropolis promises the most extravagant free show, fiesta and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now preparing the program, which will be published soon.
