THE PRESIDENT'S ANNUAL THANKS-GIVING PROCLAMATION.

WASHINGTON, Nov. 2.—The president today issued a proclamation fixing Thursday, November 28, as a day of national thanksgiving. In part the proclamation says:

"This Thanksgiving finds the American people still bowed with sorrow for the death of a great and good president. We mourn Mc-Kinley because we so loved and honored him; and the manner of his death should awaken in the breast of all our people keen anxiety for the welfare of the country, and at the same time a resolute purpose not to be driven by any calamity from the path of strong, orderly, popular liberty, which as a nation we have thus far safely trod. "Yet in spite of this great disaster it is nevertheless true that no people on earth have such abundant cause for thanksgiving as we have.

The past year in particular has been one of peace and plenty. We have prospered in things material, and have been able to work for our own uplifting in things intellectual and spiritual. "Let us remember that as much has been given us, much will be expected from us, and that true homage comes from the heart as well as from the lips, and shows itself in deeds.

"We can best prove our thankfulness to the Almighty by the way in which, on this earth and at this time, each one of us does his duty to his fellow man."

In accordance with the Presidents proclamation, Governor Otero has issued his executive proclamation setting aside Thursday Nov., 28th, as a day of public Thanksgiving and prayer throughout the territory of New Mexico, and recommends that on that day all business public and private shall be suspended, and that people assemble at their respective places of worship, there to give thanks for the manifold blessings granted them in the past by Almighty God, and supplications for their continuance in the future, and that of our bounty we should give to those of less store.

Copper Will Be King

"You may tell them that I am off for Arizona to find a copper mine," "And put it down that I said again that 'copper is king.' Let those who want to take the long chances go after the gold mines; but I am looking for something that comes nearer being a sure thing."

Mr. Quinn was seated in the lobby of the Van Nuys hotel when he delivered himself of these sage sayings. He was already to start on a journey to the Colorado river country to make examinations of a number copper prospects that had been presented to him.

"Should anyone ask you what is the most profitable metal to mine, tell him copper, and you may quote me as pour authority," he continued. "Why? Because there is a market now for more copper than is mined, and the demand for the metal is on the increase.

Maybe you do not know that this very day there is going on at Williamsport, Pa., a test that, if

successful—and I believe it will be—will put another crown on King Copper. It is the test, at the request of Secretary of War Root of Wm. A. Guerny's tempered copper plates. Guerny, it is claimed, has discovered the lost art of tempering copper. He made tests before war department officials that were even more successful than had been hoped, and now, today, unless something has interfered, they are trying Krag-Jorgenson rifles on these plates." —Los Angeles Herald.

BIG COPPER DEAL.

Col. S. L. Bean Buys a Rich Copper Property in Mexico For Eastern Capital. Price Paid is \$75,000.

Col. S. L. Bean returned yesterday from northern Mexico, where he purchased a copper proposition for eastern people. The price was \$75,000. The ore runs from 10 to 24 per cent.

Col. Bean leaves today for Jicarilla, where he has the management of the American Placer company's gold properties.—El Paso Daily Times.

Lone Wolf's Speech,

John D. Burden, formerly of this city, sends us a copy of the Democrat, a newspaper published at Shawnee, Oklahoma, his present home, in which we find the following:

"One of the unique incidents of the memorial services held here in honor of President McKinley was the address delivered by an Indian named Lone Wolf. He had been invited to make a talk, and when he arrived at the place of meeting he solemnly addressed the crowd as follows:

'Mebbe so me not talk; mebbe so me not read; mebbe so me not make you understand when me talk. Me neber go to school, but me not like I used to be. Mebbe so me better than me was. Me changed. Mebbe me paw was bad; he not know better; he not read. Mebbe so he not Christian, for he lived long ago and go on warpath and kill. Mebbe so last summer me go to Washington to see McKinley. Mebbe so me go into same church with McKinley. McKinley he work; he great father: he be fine man: me shake hands with him and me proud; me like him, the great father."

At this point Lone Wolf raised his hands in a gesture of sorrow and with tears streaming down his cheeks, said: "Mebbe so McKinley dead; him gone: him no more walks, him no more speaks to his red children; him dead. Me not able to say what me mean, me know. Mebbe so people all over cou'try; mebbe so white people and Indians feel heap bad; Kiowas, Comanches and Apaches sorry. Me sorry; me heap sorry; that's all."

Notwithstanding his bad English and disjointed remarks Lone Wolf made a wonderful impression on his audience—X.

Gone to His Reward.

J. M. de Aguasyo, one of Lincoln County's most respected citizens died at his home in Texas Park Sunday at 11:30 p. m. Nov. 3rd. He was born in the City of Teocaltiche, El Grande, State of Jalisco Mexico in 1848. He came to the United States in 1860; has lived in Lincoln county most of the time since leaving his native country. In 1873 he married Frances Hill, daughter of Jas. Hill of Tularosa. He was a member of the methodist church and a christian gentleman. He has served Lincoln County one or more terms as Probate Judge. He leaves a wife, and a family of five daughters and two sons.

What Tin Cans Are Good For.

The utilization of the metals in the thousands of tons of tin cans thrown annually into the rubbish heap has long been a dream of the metallurgist. Not only is it desirable to save the tin coating, but this must be done in such a way that the iron plate that it covers is available for soldering, hammering and the ordinary metallurgical processes. The Lamotte method used in Brussels, changes the tin, by the action of chemicals, into a chloride, whence the metal is recovered as tin from an ore. By a new process the tin coating is attacked by a mixture of nitrate and sulphate of soda, into a bath of which the cans are plunged, being afterward heated to assist the chemical action.

The chemicals do not attack the iron, so it can be utilized as if it had never been tinned. Another process still destroys the iron, but has the advantage of bringing the tin into the metallic state without any supplementary smelting. The old tin plate is treated with sulphate of copper. This throws down its copper in the metallic state and forms sulphate of tin, but as soon as the iron is laid bare the fickle acid drops its tin, also in the metallic state, and seizes on the iron, transforming it into sulphate of iron. By one or another of these processes the tin from any old scrap heap may be obtained as the pure metal, in a commercially valuable form.

Coming Usefulness of Oil.

While the oil excitement in Texas has somewhat subsided, it has not by any means died out. Two more "gushers" came in at Beaumont recently, showing as great capacity as the former ones. Progress is being steadily made in the work of utilizing and shipping the product of the wells which are held under control against waste. The uses to which the oil can be put are being constantly tested as fuel for locomotives, the smelting of iron ore, and for all purposes where coal is now used. The latest practical test which has proven successful is as fuel for cotton gin boilers. The sugar planters of Louisiana look forward to it as the coming fuel for boiling their cane juice and getting rid of the expense of first cost transportation and handling coal—their chief dependenc for fuel. Already it has found extensive use in southern towns for sprinkling dusty streets.

DAMAGING FLOODS AT ROSWELL.

The Hondo and Other Tributary Streams Out Of Banks.

The Roswell Record in describing the second Noah's, says:

Water is a very good thing—that is; in its proper place.

It is necessary in making coffee and for a beverage for live stock.

It is also good to irrigate with, and for washing clothes.

All these facts about water were forgotten last Friday, however. The trouble began last Thursday with a heavy rain fall that extended far into the mountains, and set the hondo on a job of drainage that was too much for its capacity. The result was a strike. The watershed of some 3,000 square miles overloaded the classic stream and it went on a tare such as the memory of man does not record.

At Rockcorral nine miles southwest of town, the trouble began, and from that point the banks were of little use, the water spreading all over the country, and coming down the old road into town with a gurgle and a whoop.

By 9 o'clock Friday morning the down town district was a sea of water. On main street the water was from one to three feet deep and it was almost as bad two blocks each way. There was a considerable current, two, and the side walks left their happy homes and started off a fleet of boxes and barrels. People waded around with high boots and every dray and hack in town was chartered for street cars. The ordinary ditches were buried under many feet of swirling, muddy water and there was little ground showing between Fifth street and the railroad and South Roswell.

The chief damage done in the down town section was to the streets and sidewalks, the street and alley committee of the town board estimating that at least \$2,000 will be required to fix things as they were before Jupiter Pluvius cut 'er loose.

The only injury to mercantile stock was in the store of Forstad & Johnson, where the loss was about \$300.

Ed. Seay also mourned the coming of the waters. He had 30,000 pounds of salt stored in his warehouse and all that was left when the waters went down was the sacks. Several tons of wool was also water logged.

The usual bad luck followed the Stockman. About two feet of water encompassed it about and the office cat lost five of its lives before it succeeded in reaching the top of the job press. The shears were uninjured, however, and the paper appeared on time from new quarters in the Ross building.

ZIEGLER BROTHERS.

The way be sure of a good fit, and guaranteed goods, is to

Try one of these Nobby K. N. & F. Suits, at Ziegler Bros.

ZIEGLER BROTHERS.

Several business houses were saved from damage by hastily constructed levees in the doorways.

In the meantime North Spring river had something doing. The water came over the country in vast sheets and raised the stream which has the proud privilege of girding Riverside Heights clear out of its banks. All of the bridges over the stream were under water and more or less damaged. The residences of K. G. Stacy and O. Hedgecoxe were surrounded and the families took to higher ground, as it afterwards proved unnecessarily.

The damage was not confined to the town, however. At the Stockard ranch, up the Hondo, 200 head of fine hogs and much other stock was drowned, while all the way to the Pecos the farmers encountered similar losses.

Dams were carried out everywhere, and the bridge over the Berrando near the home of W. G. Urton was carried half a mile down the stream. Other bridges and crossings were injured more or less.

The railroad had its troubles, too. The track was under water in several places and no trains went out Friday. Telegraphic communication was shut off early in the day and was not re-established until Friday night.

The injunction of S. P. Railway company against the Bisbee road has been sustained by the courts. The injunction granted the Southern Pacific prohibits the Bisbee company from crossing the Rio Grande river on territory claimed by the S. P.

ALTO BREEZES.

Correspondence.

Nick Bastion passed through Sunday on his way to White Oaks. He informs your correspondent that his ranch and cattle are for sale. He gives as his reason for wanting to close out his ranch and stock interests, that he does not want to live in a country where such persecution is practiced by judges, and juries find such verdicts as are reported in the Leslie-Vega-McDonald case.

Many of our people are busy gathering their crops, and with doing their annual assessments on their mines and prospects; others are prospecting.

Prof. Nat James is teaching the Angus public school, during the absence of Miss Mae Gilmore at Las Cruces.

The Eagle Creek public school is progressing nicely and the enrollment is still increasing.

More people are coming in and taking homesteads among us.

We have a Sunday school organized. The organization was effected by missionary Burlingame of Alamogado.

Have you seen the verdict in the Leslie-Vega-McDonald case? Forty head of cattle and \$1,500 damages were awarded W. C. McDonale. It is pretty tough on the defendant when the cattle companies use their own hired help as prosecuting witnesses.

FROM ANGUS.

Correspondence.

Mr Thomas is teaching our school during the absence of Miss May Gilmore.

It appears that some three individuals have been monkeying with other people's kids of the kine. Two of them are supposed to have left these happy ranges and the other to be "hiding out." None of these fellows are old citizens and have probably been driven out of other districts for their depredations. "Smoke 'em out!" If Lincoln county desires to establish a zoological garden, they might utilize this talent in securing rare specimens of animals in Africa.

About eleven o'clock a. m. Monday, from a eminence some two miles north of our postoffice, the sides of the mountain range comprising the Carizo was illuminated with a glow consisting of all the beautiful colors of the rainbow. It was a magnificent spectacle to behold. The writer never saw or heard of the like before. It may have been a rare phenomenon of nature like sun dogs in the temperate zone.

An extra came up on the E. P. & N. E. the first of the week, consisting of 30 cars and carrying 1000 tons of freight. It was loaded with supplies for the front.

**THE REPORT OF
THE GRAND JURY
To Judge McMillan.**

In the District Court of the Fifth
Judicial District of the Terri-
tory of New Mexico, Sit-
ting Within and For
the County of
Lincoln.

To the Hon. Daniel H. McMillan, Presiding:

The grand jury selected for
the November term of this court,
beg leave to submit to your Hon-
or their report for the session
now terminated, to-wit:

We have carefully investigated
all crimes alleged to have been
committed within the county,
and where the testimony was in
our opinion sufficient to warrant
indictments, true bills have been
returned. In cases where we
were satisfied that the evidence
was insufficient, or the com-
plaints were made in the spirit of
malice or revenge, we failed to
return true bills.

We regret to state that in our
opinion the petty larceny of live-
stock seems to be on the increase
in this county. This crime and
the indiscriminate carrying of
deadly weapons in certain sec-
tions of the county appears to
constitute a large per centage of
the complaints which have been
brought to our attention. If the
larceny of live-stock could be
suppressed, this county would
become one of the most law-abid-
ing sections of the territory, and
the expense of our courts would
be materially decreased. In our
opinion, these depredations are
confined to a very small percent-
age of the population, a class
who contribute little or nothing
to the taxes of this county. It is
the bounden duty of all law-abid-
ing citizens to make every effort
to see that the laws are enforced
to the end that every citizen,
rich or poor, may have the pro-
tection he is justly entitled to
under our laws.

We believe that more vigilance
on the part of the executive offi-
cers of this county in rigidly en-
forcing the laws against the car-
rying of deadly weapons would
result in a great benefit to the
whole community.

The grand jury visited the jail,
and found that institution being
conducted by the sheriff in a very
satisfactory manner. The pris-
oners had no complaints to make,
and were satisfied with their
treatment and food. We would
suggest to the county commis-
sioners, the advisability of furn-
ishing the jail with better and
more suitable bedding, and that
the broken window lights be
promptly repaired. A new coat
of paint on the cells would per-
ceptibly improve the appearance
of the interior.

We recommend that more suit-
able quarters be prepared before
next term of court for the accom-
modation of the grand jury. The
room used by the present jury is
very unsuitable, for the reason
that it is impossible to adequat-
ely ventilate it, and also that the
noise caused by walking in the
hall directly above has proved
very annoying, and we have
found it almost impossible to
transact business on that account.
Several of our members have con-
tracted severe colds, which we

Ziegler
Brothers
Sole
Agents
at
White
Oaks.

directly attribute to the un-
healthy condition of the room
placed at our disposal.

A special committee, consisting
of five members, was appointed
to report on the condition of the
various county offices, a report of
which is hereto attached and
made a part hereof.

The grand jury is unanimously
of the opinion that the public
funds of this county should not
be deposited with or used by any
private firm or corporation, as
such a precedent once established
is liable at any time to jeopardize
the best interests of the county,
and it is strongly urged that the
county funds be deposited with
some bank in the territory, the
responsibility of which is beyond
question.

Altogether 51 true bills have
returned in this court.

We extend to the court and to
the court officials, and also the
county officials, our thanks for
their courtesy to us during our
deliberations.

Respectfully submitted on be-
half of the grand jury.

J. H. CANNING, Foreman.

In the District Court of the Fifth
Judicial District of the Terri-
tory of New Mexico, Sitting
Within and For the County of
Lincoln.

Report of the Special Committee
Appointed to Examine the
County Offices.

To the Grand Jury.

We, your committee, appointed
to examine the books of the var-
ious county officials, report as
follows:

We find that all licenses col-
lected by the sheriff have been
duly reported and accounted for.

We find the Probate Clerk effi-
cient and courteous, and the af-
fairs of his office properly attend-
ed to.

Your committee find the books
of the County Treasurer neatly
kept. Owing to the fact that
the County Treasurer does not
keep county funds in any bank,
your committee were unable to
check up his accounts. We recom-
mend that the county funds
be kept in some bank in the ter-
ritory so that the condition of the
county finances could be at all
times ascertained. Under the
present system it was impossible
for your committee to ascertain
whether the amounts to the cred-
it of the several offices are in the
hands of the Treasurer.

Respectfully,
I. L. McCORKLE,
Chairman of Committee.

Rain began falling here Tues-
day night and continued for 12
hours without abatement.

**PERSONAL
MENTION.**

R. D. Armstrong went to Lin-
coln.

J. P. C. Langston is in from
the hay camp.

Attorney R. E. Lund returned
from Lincoln Sunday.

J. W. Smith is off work on ac-
count of an attack of rheumatism.

John A. Brown and Nick Bas-
tion are home from Lincoln.

W. C. McDonald was in the
city from Carrizozo ranch Tues-
day.

Mr. and Mrs. John P. Foley
have a new baby. Its a girl and
of course they are happy.

J. J. McCourt returned the first
of the week from a visit to Capitan,
Lincoln and Carrizozo ranch.

Hon. H. B. Fergusson, passed
through Monday en route home
from the Lincoln district court.

Mrs. Jos. Capuano and family
have gone to Alamogordo to re-
side. Mr. Capuano has a shoe
shop in that city.

G. B. Oman, came up from El
Paso Monday night, and went
to work for the EAGLE Tuesday
morning.

Harry S. Comrey is recovering
from an attack of malarial neu-
ralgia, which has kept him in
doors for several days.

Charles Smith and family are
going home to spend Thanksgiv-
ing with the old folks. Their
parents live at Victor, Texas.

Copeland with his talking ma-
chine entertained most of the
town at Bonnell hall Monday
night.

Wallace Gumm and Ben Goff
made a trip up the railroad this
week and disposed of several head
of horses.

Mrs. A. Ziegler and Mrs. Leon,
entertained Wednesday after-
noon. The order of entertain-
ment was progressive word con-
tests.

Arthur G. Burlingame, mis-
sionary American Sunday School
Union, came over from Capitan
Saturday. He is a guest of Dr.
Lane. He will remain in the
city a few days.

Judge M. H. Bellomy and M.
H. Koch, have been summoned to
serve the United States grand and
petit juries at Socorro. The
court convenes there on the 25th,
inst.

Harry Gallacher is expected
home this week. He has been
visiting relatives and sight see-
ing in a dozen different states
during the past two months.

George Lee came in Tuesday
from the Yaeger-Spence copper
mines. He states that the team-
sters began hauling the second
car load shipment from these
properties to the railroad Tues-
day morning.

Suffering at Our Own Doors.

The administration seems to have settled its course in relation to the Boers - there will be no intervention. There is no hope held out to the Boers who are looking to this great republic for sympathy never before withheld. But we may demonstrate the charity of the nation by extending a helping hand to the Boers who are suffering almost within sight of our shores. Hundreds of Boer men, women and children are captives in Bermuda. They are crowded into a comparatively small section their greater number being allotted to one third the area devoted to the lesser number of British soldiers guarding them. They are terribly crowded. Their homes are floored tents and their rations not at all what they have been accustomed to in their homes. They have been forced to make clothing from old sails and blankets. They suffer from bad water and sickness is devastating their numbers. They sleep on straw beds and suffer untold hardships. The Christain register invites all good men and women to lend a hand in helping these poor prisoners. Contributions sent "Lend a Hand," No. 1 Beacon street, Boston, will be received and will help in the work of mercy. The administration's attitude toward the nation that is assassinating two little republics in South Africa reflects upon the sincerity of the people of this great republic. Great Britain rules India with a rod of iron, and America feeds the starving people of India. Great Britain is assassinating republics in South Africa let the American people show their opposition to this course by extending a helping hand to the Boer prisoners in Bermuda. The Commoner.

\$1,050 For a Goat.

At the exhibition of and sale of Angora goat breeders at Kansas City, Missouri, last week, New Mexico secured the highest priced Angora buck ever sold. Says the Kansas City Star:

"The real enthusiasm of the show was at the sale. The ring was crowded to its utmost capacity and bidding was sharp and active. The first animal offered was a three year old prize winning buck owned and bred by C. P. Bailey & Son of San Jose, Cal. and was sold to Mrs. M. Armer of Kingston, Sierra county, New Mexico, said to be one of the largest breeders of Angora goats in America and one of the best judges of animals in the west. The contest was spirited from the beginning and pandemonium ensued when the price ran up to \$1050, the highest ever paid.

The tail end of a Kansas blizzard struck us Tuesday morning, and the weather bureau is "busted."

ZEIGLER BROS.

O LIBERTY!

One hundred and twenty-five years have passed since Jefferson wrote our Declaration of Independence proclaiming that "all men are created equal." One hundred and twenty-four times since then our Fourth of July orators have poured forth their copious eloquence in praise of that equality. Steam and electricity have made us next-door neighbors to all the peoples of the earth. Education has spread among all classes down to the poorest of our citizens. We have become the most broad-minded, tolerant and enlightened of civilized nations.

Yet an American named Washington, one of the most learned, most eloquent, most brilliant men of the day - the president of a college - is asked to dinner by president Roosevelt. And because the pigment of his skin is some shades darker than that of others a large part of the United States is convulsed with shame and rage.

This man is a negro. Therefore in eating with him the president is charged with having insulted the south. This man may cast a ballot, but he may not break bread. He may represent us in the Senate Chamber, but he may not "join us at the breakfast table." He may educate us, but not eat with us; preach our Gospel, but not be our guest; enlighten our minds, but not entertain our bodies; die for us, but not dine with us.

Truly Liberty must smile at such broad-minded logic, such enlightened tolerance. Or should she weep? - World.

Experience Convinces.

Mining Begins In the Phillipines.

An important mining deal is reported by the Manila American wherein John Dix Morgan, representing California capital, purchases a number of mining claims for \$260,000. The examination of the claims was made by Colonel Bowie, after Mr. Morgan had seen President McKinley in San Francisco and received from him encouragement that the mining laws of the United States would be extended by congress to the Phillipines. The American, in telling of the purchase, says:

"The purchase includes the Utah group of claims, on the Butuan river, owned by Perry Imes and associates; the Antismoke and several single claims, owned by Robinson, Grey, Roper and another, all located on the south fork of the Butuan river.

"The highest price paid for a single claim was \$80,000 to Mr. Robinson, but the groups brought higher figures. There were 25 claims in the aggregate, 12 of which were located under the Spanish laws and measure about 950 feet by 630 feet, while 13 were located according to the mining laws of the United States and are 1,500 feet by 600.

"All of the claims have some development work on them. One, in the Utah group, has a 60-foot tunnel, showing ore all the way which runs from \$10 to \$12 worth of gold to the ton.

"The nature of the ore requires expensive works to extract the gold, but Mr. Morgan has plenty of capital behind him and will put in ample plants. He will establish his headquarters at a point two miles east of Baguoi, in Benguent, province, and has already let the contract to build a capacious and comfortable residence there at a cost of \$2,000 gold. In it he will install a well appointed laboratory, the assaying outfit for which cost \$1,100 gold in London and is complete in every particular."

To read of a mining claim in the Phillipines being named Utah is homelike; probably a Utah man had to do with its location.—Exchange.

The Guano Caves Sold.

J. K. DeMier came down from his guano caves Monday morning, accompanied by a party of California capitalists, who came for the purpose of having some final tests of the lava guano made at the college, and if tests were satisfactory, to close the deal for the purchase of the contents of the caves. As was expected the tests were entirely satisfactory, and Wednesday the papers were signed, Mr. DeMier stepping down and out and Californians taking control.

Extensive operations will be commenced at once. Machinery will be put in to aid in the extraction, sacking and shipping of the guano and phosphate, which is known to be 25 feet deep and from 60 to 100 feet wide.

During the past three years there have been nearly 5000 tons of guano shipped from these caves, with a value of about \$168,000. The extent of the deposit far exceeded the most sanguine expectations of Mr. DeMier, and the indications now are that it will be a source of supply for some time to come, notwithstanding the fact that the machinery to be placed on the ground will greatly facilitate the development and shipment of guano.—Dona Ana Republic.

A Second Shipment.

J. A. Eddy was up visiting the Yaeger-Spence copper camp Saturday, Sunday and Monday. A second carload shipment is now being hauled to the switch to be shipped to El Paso smelters.

THE NEW YORK WORLD THRICE-A-WEEK EDITION.

The Most Widely Read Newspaper In America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE together one year for \$2.00.

THURSDAY NOV. 14, 1901

The strike of boilermakers in shops of the E. P. & N. E. continues to cause the company a great deal of trouble, says the El Paso Herald. The bad quality of the water used on this road makes it necessary that the flues of the engines be cleaned and repaired after each trip. Shortage of workmen in the boiler shops makes this impossible, and the result is the engines die on the road.

K. P. Ball.

The K. of P. Lodge of this city will give a Thanksgiving ball at Bonnell Hall on the night of the 28th. Prof. Juan L. Reyes has been engaged to furnish the music. Refreshments will be served at the hall. Invitations for the event are already out. About 125 people have been invited. The Lodge will give a second entertainment during the holidays which will be of a literary character. One of the leading features will be a side degree of the order which is said to be one of the very best ever presented.

Grand jury adjourned Tuesday morning. Most of the White Oaks contingent reached home Tuesday night.

The Talioferro Mercantile & Trading Company have received three carloads of freight this week. No we don't need a railroad to White Oaks.

Rev. R. P. Pope, returned Tuesday from a trip to Capitan and Lincoln. Rev. Pope informs the EAGLE that there were ten conversions at Capitan, and six additions to the church. He organized a Baptist Sunday school at Lincoln. They started with a membership of ten.

The oil people are having all kinds of trouble with their well drilling outfit. Operations have been practically suspended for a week.

Fire and Life Insurance
REAL ESTATE
Continental Oil Company.

Ralph S. Bonnell returned to Tularosa from Old Mexico, with 2,000 head of improved goats, which he has placed upon his ranch above Tularosa, adjoining Mescalero reservation. During the coming week he will receive a shipment of several hundred Angora bucks to be placed with his heard. These bucks cost several thousand dollars. Mr. Bonnell has also six full blood hounds which he intends working with his herd, as a protection against lobos and other wild animals.

Fifty Bushels Per Acre.

Jas Moulton spent a part of last week on his farm in the Pfingsten settlement, south of Nogal. Mr. Moulton brought in two sample ears of corn grown on his farm this year, on sod land, that are beauties to look at. He has gathered an average of 50 bushels per acre, and the best of his yield reached 70 bushels per acre. This is very fine considering that the crop was from sod land and had very little cultivation.

This demonstrates that corn may be successfully grown in Lincoln county without irrigation, and that while farming to a great extent has been looked upon as foolishness heretofore in Lincoln county, the past five years of experiment by farmers in the Nogal vicinity, has proven it to be profitable. They produce good crops of corn and oats, and nearly all kinds of fruit, as well as an abundance of vegetables every year.

TEACHERS EXAMINATION.

Notice is hereby given that the regular teacher's examination for Lincoln County will be held at White Oaks, New Mexico, on the 29th. day of November, 1901.

"The Best is the Cheapest."

Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, \$1 a year. Any newsdealer, newspaper or postmaster will receive your subscription, or you may mail it direct to THE REPUBLIC, St. Louis, Mo.

A FREE PATTERN

THE COMMONER.

[Mr. BRYAN'S Paper.]

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and WHITE OAKS EAGLE together for one year for \$2.00. The regular subscriptions price of the two papers when subscribed for separately is \$2.50.

AGENTS WANTED: German Electric Razor Hone. Guaranteed equal to the best hone made. Can use water, oil or lather. Will last a lifetime. Each hone packed in neat cardboard case. Every one perfect. Just the thing for private use. Price 75cts. We want an agent in each township to whom exclusive sale will be given. Write for sample and agents outfit, sent by mail. A money coiner. Address, Marsh Mfg. Co., No. 542 West Lake St., Chicago.

JOB WORK.

Job Work of every description neatly and cheaply done at the EAGLE office. New type, new machinery and skilled workmen. Everything new and the best. Try this office for anything and everything in the job line. Our facilities are the best, and all orders promptly filled.

NOTICE.

Suit will be brought in ten days from date of summons against all parties warned on road work, who do not comply with said summons on or before the expiration of said ten days.

J. W. OWEN,
Road Supervisor.

THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Three a-Week World	\$2.00
" " St. Louis Republic	2.00
" " Industrial Record	2.25
" " Mines and Minerals	2.50
" " Daily Mining Record	4.00
" " Cosmopolitan	2.10
" " Commoner	2.00

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and anyone desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one, should take advantage of this liberal offer.

EL PASO MID-WINTER CARNIVAL.

El Paso is preparing for another great Mid-winter Carnival to be given January 14, 15, 16, 17, and 18, 1902. This will be the second annual event, and will be the greatest entertainment ever given in the southwest.

The "sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest, you can get a glimpse of Mexico at El Paso and this, with the Mexican bull fights, is something that other cities can not afford. To see the ancient city of Juarez Mexico is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend, there will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become famous as an entertainer and at the coming Mid-Winter-Carnival the border metropolis promises the most extravagant free show, fiesta and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now preparing the program, which will be published soon.

White Oaks, N. M.

IN GOOD TASTE

The man who can go into a store and buy an overcoat or a suit ready to wear, and who uses good taste and judgment in the selection, is better off than one who must depend upon his tailor. He sees how each garment fits. He examines them in general and in detail, and judges of their use in his case. And best of all, he is saving money. If any one doubts the truth of these assertions, let him come to us. We are ready to prove it. The following prices mean a saving on overcoats. If the prices please you, come in and see the garments. They will please you better:

Fine Melton Overcoats, former price, \$10 now \$7.50. Strictly fine Melton, former price, \$12 now \$10. Extra fine Cheviot, \$15 now \$12. Fine Ulsters from \$7.50 up.
