IMPORTANT MINING DEAL

W. A. McIvers & Co., of Nogal, Have Secured an Eighteen Months Lease on The Deadwood & Red-Cloud Claims.

A VALUABLE GROUP

The Property of The Gallina Mining & Smelting Co. \$25,000 Have Been Expended in Development of These Properties.

OPERATIONS BEGIN SOON.

A mining deal of great importance, not only to the parties interested but also to the people of Lincoln county, was closed here on Tuesday last, when the Gallinas Mining and Smelting Company leased to W. A. McIvers & Co. of Nogal, the south half of its Red Cloud and Deadwood mining lode claims up in the Gallina mountains.

The term of the lease is for eighteen months, active operations are to commence within thirty days from date, and Mr. McIvers will spend many thousands of dollars in the further development of the property.

Judge H. C. McDougal of Kansas City, the president of the G. M. & S. Co. came to this territory first in 1881, when the Red Cloud and Deadwood claims were mere prospect holes, was one of the original incorporators of his company, and has since then been here often looking after the interest of his company. He returned here again some months since clothed with authority to sell, lease or operate these properties, in the development of which his company expended about \$25,000 in 1881 and 1882, and after negotiating with various parties finally concluded it was best to lease. Then he called for James P. Carnes of Trenton, Mo. and Claude N. Comstock of Albany, Mo., to come to White Oaks for consultation with himself and John Y. Hewitt and Joseph E. Spence, all directors of the company. They all met here on Tuesday and the result was as above stated.

The Redcloud and Deadwood have long been known to be by far the most valuable mines in the Gallinas, and as they are only six miles from the line of the new

Rock Island railroad, there is no reason to doubt that their ores may now be mined, shipped and smelted at a splendid profit.

The EAGLE extends its congratulations to the G. M. & S. Co., as well as to Mr. McIvers on the closing of this deal.

Regular Correspondence:

We have had splendid rains, the fall continuing from 3 o'clock a. m. to 6 o'clock p. m. It came slow and steady and all soaked into the ground.

Many settlers are coming into this country and establishing nice homes.

Mr. Seamons and wife of Roswell are up on Eagle Creek, enjoying our fine climate.

R. C. Stewart is here from El Paso.

Thomas Walters, Chicago, is also rustivating on Eagle.

Mrs. Dyer is visiting at Roswell.

Crops are looking well, gardens fine, stock fat and the country is generally prosperous.

Mat Gilmore is with the Carrizozo round-up.

Alto is coming to the front: two shingle mills are in operation; we have a grist and saw mill going; Hotel, one or two stores, post office etc.

Editor "EAGLE" how is it that Roswellites can come up here, kill big black tailed deer, carrying head, horns and hide away with them to Roswell to be mounted, while we mountaineers are not allowed to kill this game? The reason I ask you is because editors should know every thing.

[The editor of the EAGLE is not ace high when it comes to accounting for the application and enforcement of New Mexico statutes, but on this important provision the editor respectfully refers the correspondent to our worthy game warden, Dr. M. G. Paden, who undoubtedly will take pleasure in taking the matter up and testing the force of the statute against such offenders. The indiscriminate slaughter of game in the White Mountain by parties outing on the streams from outside counties and even from other states is being, and has been practiced here every summer and will continue unless prosecution is resorted to. And in the matter of prosecution a game warden is helpless unless

those acquainted with the violations of the statute report same to the game warden and aid him in bringing the miscreants to justice.—Editor.]

The provisions of the statute on this character of offences are as follows:

On page 97, Chapter XLVI, acts legislature 1901, will be found the following:

Section 1. After the passage of this act for a period of five years, thereafter, it shall be unlawful to kill or in any wise destroy or injure any elk, deer, antelope, or mountain sheep in the Territory of New Mexico, except on private ground or property by the owner or lessee thereof, or with his permission.

Section 2. Any person or persons violating the provisions of this act shall be punished by any court before whom complaint may be made, by a fine not to exceed One Hundred Dollars (\$100.00) and not less than Fifty Dollars (\$50.00), or by imprisonment in the county jail, not to exceed six months and not less than thirty days. Each killing or injuring or in any manner destroying any of the animals, except as provided herein, shall constitute a separate offense under the provisions of this act.

Section 3. The provisions of this act shall apply to all Indians on or off reservations, or coming into the territory from adjoining states or territories, and it is hereby made the duty of the Secretary of the Territory to make certified copies of this act, within ten days after the passage, thereof, and send the same by registered mail to each and every Indian agent and Post-master in the Territory of New Mexico.

Section 4. This act shall take effect from and after its passage and all acts and parts of acts in conflict [herewith] are hereby repealed.

R. H. Box a new comer from Brown county Texas, have just sold a bunch of cattle to John Stewart, and has bought Guy Herbert's place for \$2,000.

The Brown county people have taken pretty much all the high mesa country around the V V ranch. Their crops are looking pretty well considering the dry season.

Have just had a passable shower doubt if it wet the ground

over one inch deep, this makes the third shower we have had this season, none of them heavy.

Black berries and plums are now ripe, the apple and pear crop promise a full yield of first class fruit, not damaged by worms.

The Eagle Company has bought Jesse Rogers' place at the mouth of South Fork, most of the old settlers will now be hunting new locations. Understand Guy Herbert is thinking of locating in Old Mexico.

Treating Low Grade Ores.

A well known mining authority made the statement some months ago that the annual reports of the Alaska-Treadwell company, operating on Douglas Island, Alaska, constitute an admirable text book upon modern mining. They show steady dividends on the one hand—steady improvements in the methods for handling low grade gold ores on the other. Both results are important, and where the improvements exist the dividends are almost certain to follow, as the low grade gold vein is usually generous as to size and permanent in the item of depth.

The Alaska-Treadwell Gold Mining company is a Boston corporation. It is capitalized at \$5,000,000, and the par value of the shares being \$25 each. In January last it opened 1902 by declaring a dividend of \$75,000, and the total paid to that time was \$4,895,000. In his annual report the manager shows that the improved methods in mining and milling, adopted last year, resulted in reducing the average cost per ton, for both these items, from an average of \$1.10—the record heretofore on ores not absolutely free milling—to 66 cents per ton, the new challenge figure. The company owns and operates 550 stamps, which are fed from a mountain of ore. As the ore averages less than \$2 per ton, the new process means not only a cut of nearly one half on the expense of mine and mill operation, but it brings within the field of profitable reduction a vast amount of quartz which under former conditions would be classed as barred and worthless.

In its comments on the astonishing result above set forth the San Francisco Chronicle predicts the Alaska-Treadwell method will make ores worth \$1 per ton—fire assay, of course—profitable to work, and in the case of the Treadwell mine the \$1 standard will add millions of tons of available quartz in sight to the corporation's stock.

No one save a practical miner can fully comprehend the significance of a profit in \$1 ore. If the new Treadwell process can be applied in California, Colorado, South Dakota and New Mexico, and it probably can, it will bring into the field of active operation an indefinite volume of gold-bearing quartz which now affords no profit whatever. In Colorado and the Black Hills the cost of mining and treating gold ore has been reduced from \$3.00 per ton in the 1870 period—extending for almost ten years—to about \$5 at present, with even a lower figure where the ore is of a fluxing nature or will yield 90 per cent of its values to cyanide treatment. On the great mother lode in California—one of the largest low

grade bodies in the world—the cost of mining and milling has been cut down from about \$9 per ton twenty-five years ago to \$2.25 at present, and now \$4 ore is worked at a profit. But there is, says the San Francisco Chronicle, "a vast reserve in the vein, carrying from \$2 to \$3 per ton, which nobody can afford to touch with a \$2.25 process, all of which will yield a big profit for working if the new process of the Treadwell mine can be applied to it. Gold quartz mining has reached a wonderfully fine point when the cost of winning the precious metal from its matrix is reduced to 66 cents per ton."—Rocky Mountain News.

MOTHERHOOD
The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shattered nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.
WINE OF CARDUI
143 Market Street, Memphis, Tenn., April 14, 1901.
In February, 1901, I took one bottle of Wine of Cardui and one package of Theodor's Black-Draught. I had been married fifteen years and had never given birth to a child until I took Wine of Cardui. Now I am mother of a fine baby girl which was born March 31, 1901. The baby weighs fourteen pounds and I feel as well as any person could feel. Now my home is happy and I never will be without Wine of Cardui in my house again.

GENERAL FORCIBLY RETIRED.
 General J. H. Smith, who issued the kill and burn order to Major Waller in Waller's campaign against the natives of Samar, has been reprimanded and forcibly retired by President Roosevelt. Smith's order was to kill and burn and make Samar a howling wilderness, and to spare no native over ten years of age. Under this brutal order Major Waller put to death a number of

native porters, without trial, the charge being treachery against the U. S. government. For this outrage Waller was court martialed and gave as his defence, the orders of General Smith, following which he was released and General Smith tried by court martial and retired as above stated.

OUR 20-BILLION-DOLLAR FARMS.

When one's urban prejudices move him to sympathy with "the poor farmer" of the land it is well not to generalize. According to the census reports the poor farmer's business in the United States for the year 1899 turned in a gross income of 18.3 per cent.

June 1, 1900, there were 5,739,657 farms in this country, and they were valued at \$16,674,690,247, of which 78.6 per cent. represented land and improvements and 21.4 per cent. buildings. On these farms were implements and machinery valued at \$761,261,550 and live stock to the amount of \$3,078,050,041. Total value of farm property thus accounted for, \$20,514,001,638. So the horny-handed tiller of the soil is established, perhaps to his own surprise, well up in the billion-dollar class.

Since 1850 the farms have multiplied four times and the total values more than five times. Gains of value in the west have much more than offset the eastern decrease. As The World recently noted, New York is high in rank among the agricultural States of the Union. It is preceded by Missouri, Iowa, Illinois, Indiana, Ohio and Pennsylvania, in that order.

The census reveals no reason why "the whistling farmer boy" should change from his merry tune.

I hereby announce myself as a candidate for the Republican nomination for Sheriff of Lincoln County, subject to the action of the Republican County Convention.

R. D. ARMSTRONG.

I hereby announce myself as a candidate for Sheriff of Lincoln County, subject to the action of the Democratic County Convention.

J. W. WHITESIDE.

CANDIDATE FOR REPRESENTATIVE.

As a result of the earnest solicitation of his friends from every section of Lincoln County W. A. McIvers of Nogal, has consented to make the race for the Democratic nomination for joint representative from the counties of Lincoln, Eddy and Chaves.

Mr. McIvers is unqualifiedly one of the most fitted among many representative democrats in Lincoln county, for this honor, and being heavily interested in industrial enterprises of the county, is in position to demand consideration for his constituents in the Territorial Assembly.

Twenty-five years previous to his locating in Lincoln county, Mr. McIvers resided in Washington and Idaho, and during that time was interested in some of the most important mining enterprises of the Pacific Slope. One of the greatest evidences of his worth as a shrewd and upright business man, is that many of the people associated with him then have invested with him in Lincoln county. With one possible exception he has influenced the investment of more capital in Lincoln county than any man in it, and as a result the tax rolls have

been handsomely complemented and employment has been given many laborers who are prosperous and happy, as are the business men in the communities in which they reside.

He was the organizer of and is now a stockholder in the Iowa & New Mexico Mining & Milling Co., whose interests are at Schelleville and Turkey Creek, two very promising camps of the Nogal district. He is general manager of the Free Gold M. & M. Co., vice-president and manager of the Rialto Mining Co., Nogal, president of the Lincoln Leasing Co., operating in the Gallinas, has invested in a number of mining claims as well as town property at Nogal. He also owns a cattle ranch near Nogal and his 30 years' experience in the west has thoroughly acquainted him with its stock and mining interests, as well as agriculture in the irrigated arid region of the Rocky mountains.

Hence, a man more thoroughly fitted and better acquainted with the needs of the people of these three counties could not possibly be selected. He is a man of pleasing address and eminently qualified to represent the people of these three counties with respect to the important and rapidly increasing industrial development of the entire district.

Should the legislative convention select Mr. McIvers as its candidate there is little doubt that he will be successful or that he will ably represent this district and acquit himself with honor and great credit when he leaves the Territorial Assembly.

A SIXTH JUDICIAL DISTRICT.

So far as the people of the Pecos Valley are concerned, the matter of the sixth judicial district (which has taken its place in the long list of broken republican promises) is of more importance than any other question of the day, excepting, perhaps, statehood. It was the knowledge of this fact that led many to hope that Delegate Rodey would be able to pull the necessary strings, and caused the most intense disappointment when that gentleman not only failed to push the matter but insulted the men who helped elect him when they asked him to advance it. Only Mr. Rodey's evident ignorance of the facts can excuse his course, for justice has come to a hard pass in the valley. It could not be otherwise under the present circumstances. The judge lives, when he is in the territory at all, in Socorro, which is 600 miles away by rail, and he has practically no acquaintance with people or conditions in this part of the territory. The prosecuting attorney lives at White Oaks, a hundred miles away, and his knowledge of things here must necessarily be

limited. This is not making any charges against either judiciary or the prosecutor, for I know perfectly well what a democratic protest amounts to against a republican official, but it is a notorious fact that the administration of justice in Chaves and Eddy counties is a misnomer. In the first place the court officials are here only a few days, they have no grasp of local conditions, and all they care for is to conclude the session as soon as possible and get away. There can only be one result in the face of such conditions. The prosecuting attorney runs down the list of cases picks out those in which he has reasons to believe a conviction will be easy, and all the rest are continued under one pretext or another, or no pretext at all, and the court enters the order of continuance at his request without any questions. Witnesses may have come for hundreds of miles and the defense most likely is entirely ready, but the case goes over, even if it has been pending for years and trial demanded at every session. It is not necessary to trace the meaning of such a system. The man who is charged with some small offense, of which like enough he is innocent, stands a good show of being ruined by the accumulated costs, and the right of immediate trial is made a farce and a mockery.

There is no cure for this unfortunate state of affairs except by creation of a sixth judicial district, so that the judge and prosecutor will be in close touch with the people to whom they are to administer justice. The way it is now the judiciary is a reproach to the bar, a bitter injustice to the people and a travesty upon the principles that are supposed to govern the courts of free America.—The Tenderfoot.

IMPORTS AND PROSPERITY.

For the fiscal year that ended June 30 last the exports of the United States were \$105,731,584 less and its imports \$79,739,143 more in value than for the fiscal year that ended June 30, 1901.

Nevertheless, these are prosperity figures. No delusion is more delusive than that which regards exports alone as profitable. British imports exceeds British exports in value by about \$800,000,000 a year, but no country save our own rivals her in wealth and general prosperity. And as the United States becomes more a creditor and less a debtor nation its imports will tend to catch up with and exceed its exports in value.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

SERIOUS FIGHT AT CORONA.

Frank Gilbert's Skull Crushed in By a Sixshooter Blow.

Deputy sheriff C. D. Mayer was wired here from Corona as follows:

"Catch Jap Clark on charge of murder of Frank Gilbert, said to be at block ranch."

A. J. Garvin.

Following this came another wire to J. W. Owen as follows: "Gilbert is not dead. Sent him to hospital at Alamogordo. Clark went to Lincoln to give himself up."

F. A. Du Bois.

Further information received through agent at Carrizozo says that Gilbert passed through to the hospital at Alamogordo, and passengers on train said Gilbert's skull was crushed in and they considered the wound fatal.

Nothing is known concerning the particulars of the fight.

White Oaks Oil Prospects.

The Chapman-Ludlam oil company has just ordered a new \$1,500 drill which has a capacity of 3000 feet and as soon as this machinery is placed will begin work in earnest and will put the well down to 3000 feet if oil is not struck sooner.

The company has the greatest confidence in striking oil at some where between 1800 and 2500 feet. The well is now down nearly 500 feet and the indications for oil are very strong.

Mr. John Brotherton who has had something over 20 years experience in the oil regions of Pennsylvania, has charge of the drill, says he would not wager a five cents against \$100 that the company does not strike oil, but thinks it will come at a depth of about 2000 feet. He thinks it possible that small strata carrying limited quantities may be encountered sooner but something near that depth must be obtained before satisfactory results will be had.

W. A. McIvers, who is sinking a well west of town, has his new and heavier machinery now at Carrizozo station, and will sink a well in the vicinity of Flat Top mountain. His machinery has a capacity of 3000 feet, and Mr. McIvers affirms the company's intentions of going that depth unless they get oil before they reach it. Their well has reached a depth of more than 300 feet, but the new machinery will be installed before they proceed further.

This means good things for White Oaks, for the reason that every geologist who has examined this locality has returned the same report, all agreeing that oil is here in paying quantities but that it is deeper than in some other oil sections.

LOW PRICES FOR FOREIGNERS ONLY.

An advertisement now appearing in newspapers in different parts of the country reads as follows:

One hundred dollars will be paid for the special discount sheet (any month in 1902) to accompany Henry W. Peabody's Export Price-List; \$25 will be paid for similar sheet of other leading export houses; foreign correspondence solicited; answers will be considered strictly confidential. The Democratic Congressional Committee wishes these sheets to demonstrate the very great difference between the home market and export prices charged by our protected manufacturers. Address Literary Bureau, Democratic Congressional Committee, Bliss Building, Washington, D. C.

It has been freely alleged and generally believed for many years past that the tariff-made trusts have two prices for their goods—a higher price for the home market, a lower price for the foreign market—and that the price charged to American consumers equals the lower price charged in the foreign market plus the amount of tariff duty and ocean freight. As to some of the commodities this fact has been at different times well established. For example, The World on Jan. 9 last made this editorial statement, based on figures obtained direct from trustworthy sources:

It (the steel trust) is now selling rails in England at \$22.50 per ton, after paying rail road and ocean freights. The ocean freight alone is \$5.11 per ton. So that American steel rails are really being sold in England at \$17 per ton.

The American price is \$28 per ton—\$11 higher than the English price.

Now, there is good reason to believe that in many other lines of American manufactured goods this same rule prevails—high prices for Americans, low prices for foreigners. The plain purpose of the advertisement quoted above is to put this general belief to the test of proof.

Yet Mr. J. R. Bradlee, of the firm of Henry W. Peabody, in an

interview on the subject, says he cannot understand what the advertisement's object is. He "should have thought that the Democratic Literary Bureau in Washington would have come to us for any information they wanted" instead of advertising. But when Mr. Bradlee was asked if he would give one of the firm's export price-list to the Democratic Literary Bureau if asked to do so he naively replied:

"I doubt if we should, I would not feel that we were at liberty to do so."

That reply fully justifies the advertisement. The export price-list is a secret document. The fact that its makers are not willing to let the public see it raises a strong presumption that it would prove what has been long charged—that the protected trusts are beating the foreign manufacturers in their own markets, and incidentally beating the American people much worse.—New York World.

TRUSTEE'S SALE.

Whereas Seaborn T. Gray and Sarah C. Gray, his wife, of Lincoln county, New Mexico, did on October 27th, 1900, by their deed of trust, duly executed and delivered to me or said date, as trustee for the creditors of S. T. Gray, convey to me all their right, title and interest in and to the following described real estate and personal property, to-wit:

The full and undivided one-half interest, right and title in and to the south half of the northeast quarter, and the north half of the southeast quarter of section twenty-six, township eight south, range thirteen east, and known as the Manuel Artiago Homestead: all the right, title and interest of the parties of the first part in and to section sixteen, township nine, south, range fourteen, east, 640 acres of school land, held under lease to the said S. T. Gray: also an equal and undivided one-half interest, right and title to the following land, to-wit: the east half of section nine, township nine south, range fourteen east; the east half of southwest quarter, section nine, township nine south, range fourteen east; the west half of section ten, township nine south, range fourteen east, and the south half of the southeast quarter of section four, township nine south, range fourteen east, together with all and every his legal and equitable right under and by virtue of a certain contract made between the parties of the first part, or either of them, and the Alamogordo Improvement Company, a corporation of New Mexico, bearing date January 12th, 1900, and recorded in Book D. at pp. 184-190 of the Records of Deeds of Lincoln county, New Mexico: together with

all moneys due and to become due from sales; and arising from the contemplated sale of the said lands or parts thereof as a town-site at Capitan, or otherwise in the said County of Lincoln, and which lands were conveyed by the parties of the first part to the said Alamogordo Improvement Company: together with any and all buildings of every description erected upon and belonging to the said parties of the first part, or either of them, on the said lands above described, including the store building, a saloon building, a small residence occupied by Dr. Moore, a restaurant building, a slaughter house, and a dwelling house, and all appurtenances and attachments appertaining to any and all the said buildings:

Now, therefore, I, the undersigned trustee, do hereby give notice that, in pursuance of the authority given me in the said deed of trust, so made, executed and delivered to me on said 27th day of October A. D. 1900, and which said deed of trust was duly recorded on the second day of November A. D. 1900, in "Book E" of real estate mortgages, in the office of official recorder for said Lincoln County, New Mexico, at pages seven to eleven inclusive, I will on the 30th day of August A. D. 1902, at the front door of the post office in the town of Capitan in said Lincoln County, at the hour of 2 o'clock p. m. of said day, offer for sale at public auction and sell to the highest bidder for cash in hand, or on ninety days time, with security for payments to be approved by me as such trustee, and reserving the right to reject any and all bids and to re-offer the property for sale unless security offered is approved and accepted by me, all of the said above described real estate, houses, buildings and improvements on said school section, and all and singular all the right, title and interest of said S. T. Gray and Sarah C. Gray in and to all the real estate including all the houses, buildings, improvements, privileges and appurtenances to the same belonging or in any wise appertaining; and also all the right, title and interest of the said S. T. Gray and Sarah C. Gray in and to all moneys due and to become to them or either of them, under and by virtue of a contract and agreement made and entered into by and between said S. T. Gray and the Alamogordo Improvement Company, a corporation organized and existing under and by virtue of the laws of New Mexico, and which contract bears date January 12th, 1900 and was duly recorded in "Book D" at pages 184 to 190 of the record of deeds for said Lincoln County, New Mexico, including all the legal and equitable rights, interests and privileges of the said

parties arising from or existing by virtue of said contract; that said sale will be continued from day to day and from time to time until all the said property shall be sold, and that I will make and execute good and sufficient deeds of conveyance to the purchasers of said real estate and good and sufficient bills of sale and transfers to all of the said personal property to the purchasers of same. Said property to be sold to satisfy the indebtedness of said S. T. Gray amounting to about \$12,000.

Witness my hand as such trustee on this July 30, 1902.

John W. Owen came in from his Gallo ranch Friday:

Thrice-a-Week World.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially; whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and WHITE OAKS EAGLE one year for \$2.00.

Pecos Valley Stock Trains.

Beginning on last Monday, July 28, 1902, and continuing every Monday thereafter up to and including November 24, 1902, we will run a weekly stock train for Kansas City, St. Joseph and Chicago markets, on the following schedule:

| „ Canadian, 4:15 „ | „ |
| „ Higgins, 6:00 „ | „ |
| „ Gage, 7:00 „ | „ |
| „ Whitehead, 7:25 „ | „ |
| Ar. Woodward, 8:10 „ | „ |

Where connection will be made with train No. 428 on the A. T. & S. F. Ry. We shall make every endeavor to run this train promptly on above schedule, but this notice is not a guarantee that we will do so. Shippers should file orders for cars at least three days before the date on which they expect to load.

The Fort Worth & Denver City Co. will run a similar train to connect with our train at Washburn at midnight Monday.

We will continue to handle trainload shipments, with proper notice, on any day of the week, as suits shipper.

DON A. SWEET,
Traffic Mgr.

An eminent authority on gems says the New Mexico turquoise, which is rapidly coming to be recognized as the distinctive American gem, seems to be more admired than the Persian, for its deeper, richer blue, and its soft, velvet appearance when polished. Owing to its greater power of absorbing the light when dressed and set, it is much more difficult to imitate by art than the Persian gem.

Reduced Rates.

Greatly reduced rates for round trip to Boulder, Denver, Colorado Springs, Pueblo and Trinidad, Colorado. Tickets on sale daily until September 30th, final limit October 31st, 1902. Stopovers allowed in Colorado at and north of Trinidad. Side trips to all points of interest in Colorado and Utah.

One fare for the round trip from all points on S. K. of T. and Pecos System to Canyon City. Tickets on sale July 14 to 18, inclusive. South of Carlsbad July 13 to 17. Final limit fifteen days from date of sale.

THE COMMONER.

[Mr. BRYAN'S Paper.]

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and WHITE OAKS EAGLE together for one year for \$2.00. The regular subscriptions price of the two papers when subscribed for separately is \$2.50.
