LINCOLN COUNTY SUMMER NORMAL.

Many Reasons Why Every Teacher Should Attend the Normal this Summer.

NOTICE OF SUPERINTENDENT.

Advantages of Attending Lincoln County Summer Normal.

The Lincoln County Summer Normal will be held at Captain beginning the first Monday in August and continuing for four consecutive weeks.

Following we enumerate some of the many advantages of attending this normal:

First: Superior Faculty. Prof. D. M. Richards of the Las Cruces, N. M. College has again accepted the position of conductor of the Lincoln County summer normal. All who attended the normal at White Oaks last year can testify to his superior ability as an instructor and to his tact and skill in disposing of and answering the questions that come up before such a body. He is gentlemanly, kind, and courteous and his enthusiasm and long experience in school work are of untold advantage to the teachers for they cannot help but catch the spirit of enthusiasm and gain many helpful ideas from his practical suggestions.

County Superintendent F. J. Coe is a young energetic worker in the ranks and will lend every assistance to make the normal a success.

Second: Double Course of Study. Besides the regular normal course of study that is prepared by the Territorial Board of Education there will be a higher normal course by the aid of the teachers in attendance, giving considerable time to the study of methods, management, discipline and other subjects of equal importance to the successful teacher.

Teachers who are not preparing to take the examination and those who can spare the time from their regular studies will here find a great advantage over the single course as followed by most normals.

The younger teachers will learn much from the instructions, suggestion, and experience of the older ones, while all will find their minds all the brighter and their enthusiasm all the greater for having come in close contact one with another.

Third: Length of Term. Every one can readily see the advantage of a four weeks term over a shorter one. It takes considerable time to organize and get to practical work and thus about the time the organization is completed and the teacher become interested in their work, the short term normal closes, having accomplished but little real good. But where the term is as long as four weeks the time is sufficient to do much more real work and much better work, not having to retrace quickly over the subjects and giving time for the teacher to compare their study as before mentioned.

Fourth: School Building. The normal will hold its session in the Captain public school building which is the finest in the county, having been erected at a cost of several thousand dollars. It is neat and comfortably furnished.

Fifth: Climate and Scenery. To the many teachers who live in a lower altitude and who wish to recuperate and strengthen

then the hope of escape the scorching rays of a summer sun, we offer a climate unrivaled in the South West. A capitan is beautifully situated at the foot of the Mexican Mountains and has in its immediate vicinity a sea level. The warmest summer days are not too warm to comfortably study.

Sixth: Accessibility. Captain is an easy reach of all teachers in the county and those adjoining counties, it being reached by the Ft. Price & Northern and the stage line connections with Roswell, Lincoln and other adjacent places.

Seventh: Accommodations. Last, but not least, in the minds of the teachers.

Rooms have been offered free of rent to the teachers while attending the normal.

In this way several teachers can join together and do light house-keeping and reduce their board bill considerably. Water will also be furnished free. The two hotels have offered most liberal terms on board or room.

W. E. Dudley,

Chairman Normal Committee.

Gen. O. N. M., June 20, 1903.
Editor Eagle: I beg to announce through the medium of your paper that our next Normal, to be held at Captain, N. M., applicants for second grade certificates will be required to be examined in arithmetic, geography, orthography, reading, grammar, history, physiology, elementary pedagogy and penmanship. Those applying for first grade certificates will be examined on these subjects and also on civil government, elementary algebra, advanced pedagogy and elements of zoology and botany. Applicants for third grade certificates will be examined in the same subjects as those for second grades.

Ed. J. Coe,

County Supt. of Schools.

Teachers' Institute.

The regular Teachers' Institute is to be held at Captain, beginning on Monday, August 11, 1903, and to be in session four weeks. The regular examination of teachers takes place on Friday, August 25th.

As heretofore, teachers are required to attend the County Institute at least two weeks, but as little beneficial work can be done in such a limited term, it has been decided that we have two weeks longer session than usual, and it is to be hoped that all teachers will attend the full time.

Ed. J. Coe,

County Supt. of Schools.

Notice for Publication.

Land Office at Roswell, New Mexico.

June 2, 1903.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the United States Commissioner at Lincoln, New Mexico, on August 15, 1903, viz: Leo Oswald, Homestead Application No. 1058, for the W. 1/4 Sec. 2, and the E. 1/4 Sec. 28, T. 1 S., R. 13 E.

He names the following witnesses to prove his continuous residence upon and cultivation of, and land:

Robt. Leslie, Wm. Kennedy and Jas. Morris of White Oaks, N. M. and Philip Blewett of Lincoln, N. M.

How and Where to Register for publication July 2, 1903.

Saddle for Sale.

MARRIAGE TO UNITE POWERS

Rumor Says Princess Margaret, of Connaught Will Wed the Czar's Brother.

London, July 22.—Once more a rumor has been reported in London, the Connaught, and in St. Petersburg, that she is destined to become the consort of the czar. According to the gossip, the matter was talked over by Queen Alexandra and her sister, the Dowager Empress Dagmar, mother of the Czar, when they met at Copenhagen on the occasion of the family gathering in honor of King Christian's birthday, and it is also stated that the announcement of the betrothal will be made during King Edward's visit to Russia.

The Czar's brother, Prince Alexander of Connaught met when he was in England for the late queen's diamond jubilee, and he was said at the time to have been much charmed by her.

If indeed Princess Margaret is destined to become the wife of the Czar, it is by no means improbable that she may some day share the imperial throne of Russia, for as the Czar has no sons, his brother is his heir.

The Game Law.

The following synopsis of the present game law of New Mexico which has been prepared by the warden will be of interest to persons who expect to fish or hunt during the present season.

The open season for different kinds of game is as follows:

Deer, with horns may be killed with gun only, November and December (each year limit one deer).

Elk, Antelope and mountain sheep killing absolutely prohibited.

Wild turkey and mountain grouse with gun only, October, November and December.

Quail with gun only, October, November, December, January, and February.

Pheasants every species killing absolutely prohibited.

For fish the open season is:

For mountain trout every species with rod, hook and line only, May 15 to October 15. Size limit, not less than six inches. Weight limit, six pounds per day.

Bass, large and small mouth species, May 15 to October 15, with rod, hook and line only. Weight limit, six pounds per day.

Game or fish killed or caught within the territory of New Mexico must not be sold at any time.

Where water is taken by ditch for irrigating purposes from streams whereon are lying fish wire screens, must be placed at the intake of such ditch. Size of mesh 1/2 inch.

Use of dynamite, firing and trapping in streams and below.

Penalty for violation of these laws, for each offense.

The Eagle's Clubbing Offer

Each subscriber new and those renewing may now take advantage of the following clubbing offers.

Eagle and Three a Week World, one year.

Eagle and Twice a Week Republic, one year.

Eagle and The Commoner, one year.

Eagle and Minerals, one year.

The Saturday Edition of Colorado Springs Mining Record, one year.

Eagle and Cosmopolitan, one year.

Eagle subscribers will be given cut rates on all publications listed by the News agencies of this country and Europe by subscribing through this office.

After the Wedding.

We recommended they say, and you think you have said me.

With take this veil from my brow and look on me.

There's matter to you, you and mother to grieve you.

There's doubt to distract you and pain to annoy you.

For all as you see common earth, common dew.

He weds and would you to stay, not me.

He shake out the robe that I hold after you.

And see if you have me to keep and to hold.

Look close on my heart, on the worst of its sinning.

For if not you, today, for the yesterday, winning.

The past is not mine, I am too proud to borrow.

You must grow to new heights, if I love you tomorrow.

Were married, I am pledged to hold by your side.

As the girl at your feet, do as hand and foot do please.

That way lies in honor, my path way my pride.

But mark me, I cannot grow, grow either side.

I shall know, if you feeling in body with you.

Shall walk with my feet, out in the dew.

Were married, Oh pray that our love do not fail.

I have wings flattened down and hid under my coat.

They are subtle, I wish you can never undo them.

And swift in their flight, you can never pursue them.

And spite of all chasing, and treading all banks.

I can slip like a shadow, away from your hand.

Now call me not cruel, and do not try to take me.

I am yours for all time, to be just what you make me.

To wear my white veil for a sign or a cover.

As you shall be proud in my love, or my love.

A cover for peace that is dead in a town.

Oh bless that name, never be written or spoken.

Alfred Carey.

New Schedule.

The following is the schedule of departures and arrivals of mails, carried on to White Oaks, now in effect.

Leave White Oaks, at 8 p. m.

Arrive Capitan, at 5:30 p. m.

Leave Capitan daily, after receipt of mail from train, but not later than 8 o'clock.

Arrive at White Oaks, at two hours and thirty minutes.

Postmaster Brown, informs us that under this new schedule, mail for rail road comes at 3:30 p. m.

Advertised Letter List.

The Eagle Printing Company

S. M. Wharton, Editor
Silas R. M., Business Manager

Official Paper Lincoln County.

THURSDAYS \$1.50
THURSDAY AUG. 6. 1903.

Consolidation Discontinued.

After the issue of the White Oaks Eagle the paper will be consolidated with the Capital Progress and the publication continued at Capital under the name of the Capital News. The change is made purely for business reasons. The Eagle Printing Co. has acquired both papers and business conditions do not warrant the continued publication of both papers in the county, hence the consolidation of the two plants. Capital has been selected because of its advantages as a central location for a county paper.

The proprietors of the Eagle Printing Co. are under obligations to the business men and to the good people of White Oaks for favors and kindnesses shown the Eagle and for a patronage which has been extended in accordance with conditions governing their prosperity or adversity, as has been experienced in the life of the town.

In quitting White Oaks as the base of our operations we do not intend to quit laboring for her interests and future, we leave but will continue the same and our devotion to aid her every enterprise, as we shall every other community in Lincoln county. We shall take a special pride in contributing, when in our power to do so, to the town's well being and to the welfare of all her inhabitants.

We feel that we rightfully appreciate the support that has been given us during the half a decade we have published the Eagle in White Oaks, and if we have accomplished any good for the community, we hope, at least that we have been amply compensated by the heavy cooperation, friendly and good will of the best citizenship of the community. The good will and whatever share of the patronage we merit we hope to retain, and shall strive to show a just appreciation.

All unexpired subscriptions to the Eagle will be turned over to the Capital News, which paper will be regularly forwarded to the Eagle's subscribers.

The Chapman-Ludlam Oil Well.

E. G. Ludlam returned Tuesday from the east, where he has been for some time looking after the affairs of the company. While in St. Louis he ordered a quantity of 5 inch casing which will be used in reducing the present hole, and some bits and jars.

The well is now down something like 500 feet, and as soon as the new tools and casing arrive, the operators will begin their downward stroke for China. Messrs. Chapman and Ludlam are showing their faith by their works, and should they be fortunate enough to strike oil, the indications are favorable, it will be one of the greatest boons Lincoln county ever received.

In spite of their persistency in the oil and faith in the final results, the benefits to accrue to the people of this town, generally the Eagle reflecting that success may crown their efforts. Brotherton, the oil house containing will continue to contain million operations was destroyed.

Hotel Baxter

A POPE IS CHOSEN.

All the leading Candidates Defeated by a Cardinal, whose Name Was Secretly Mentioned.

ASSUMES TITLE PIVS TENTH

ROME, Aug. 4. (Special Telegrams.)—The election of a pope, which has been the subject of much speculation since the death of Pope Pius IX., has resulted in the election of a cardinal, whose name was secretly mentioned. The cardinal, who is a member of the Sacred College, has assumed the title of Pius X. He is a very young man, and his election is considered a surprise. He is a native of Italy, and has been a member of the Sacred College for many years. He is a very able administrator, and his election is considered a sign of the seriousness of the papacy. He is expected to be a very active pope, and his election is considered a great event in the history of the church.

Pope Blesses Crowd.

ROME, Aug. 4. Cardinal Machi, secretary of the apostolic briefs, announced to the crowd assembled before St. Peter's that Cardinal Sarrio had been elected and had taken the name of Pius X. The crowd on duty lined up on the piazza and presented a salute of 100 shots after 10 minutes. They then appeared in the side of the balcony of the papal palace and blessed the population with exclamations of an enormous crowd assembled on the piazza.

E. P. N. E. TIME CARD.

Effective April 1 passenger trains will run as follows: No. 1 changed to No. 3 and No. 2 changed to No. 4. Nos. 1 and 4 abandoned, but will run as specials semi weekly.

\$375 for Letters from Farmers.

The Rock Island System offers \$375 in cash and transportation for letters relative to the territory along its lines in Arkansas, Indian Territory, Oklahoma, Texas and New Mexico.

Letters should deal with the writer's experiences since he settled in the territory in question. They should tell how much money he brought with him, what he did when he first came and what measure of success has since rewarded his efforts.

Letters should not be less than 500 nor more than 1,000 words in length and will be used for the purpose of advertising the Southwest.

For circular giving details, write John Sebastian, Passenger Traffic Manager, Rock Island System, Chicago, Ill.

Special Levy Carried.

At the special election, held last Saturday for the purpose of voting on the proposition of a levy of 2 1/2 mills for payment of interest on school bonds, 67.1 per cent favored the school and a mill to create a sinking fund for this payment of said bonds. 74.5 per cent and both levies carried. There were one vote against both levies and one vote against the 2 1/2 mill levy, and 20 straight votes in the affirmative. With a substantial fund in the general fund special to begin with and the contributions from this special levy, estimated quarterly by the appropriation from the general school fund, the White Oaks school will not suffer for funds the coming term and will be able, as in the past, to conduct a nine months term.

Sale of Household Goods.

My household goods are for sale at a very low figure for cash. Call at Residence and see what you can buy for a little money. Brick dwelling south of D. M. G. Paden's wagon store.

TWENTIETH CENTURY FUND.

The raising of a twenty million dollar fund as a twentieth century thank offering by the Methodist Episcopal church of this country is a triumph of religious and philanthropic zeal that has no precedent in the annals of the church.

Four years ago the bishops of the Methodist church, in conference at Springfield, Mass., conceived the idea of raising this twentieth century thank offering. To raise it would afford a signal test of the church's vitality. To the man who knows little of the impelling power of religious faith and enthusiasm the gathering of this \$20,000,000 seemed like a tremendous undertaking. But the pastors and laymen went to work in the good, old-fashioned Methodist way. Fervent prayers were followed by energetic hustling among the followers of Methodism, and as a result of a little more than three years' work the thank offering, was complete.—Las Vegas Record.

Santa Rosa Oil.

Santa Rosa, New Mex.—The O. K. Crude Oil well, in the Santa Rosa field, is down over 900 feet and the indications of oil are multiplying. The Consolidated Oil company's well is down 930 feet, at which point the drill broke, causing a delay of from two to four weeks.

It is reported that C. H. Taggart, of the Pintada Mining and Copper company, of Guadalupe county, struck a small vein of oil, while drilling for water at the property of the company. The oil is said to have a paraffine base which makes it very valuable if it should be found in sufficient quantity.

The Standard Oil Company has gotten control of the Beaumont oil fields and the Jennings oil fields of Louisiana and have advanced the price of oil to one dollar a barrel. Before the company got control of these oil fields, oil was only about twenty cents per barrel. For a while oil at Beaumont sold as low as eight cents. This is a lesson in monopoly and competition. When a trust controls a product the price is put at the highest mark which the consumers will stand. Under competition the law of supply and demand regulates the price. It is not difficult to see which is better for the masses of the people—the consumers.

Miss Mabel Mitchell, of Plainfield, New Jersey, was engaged to Prof. Peck, of Lehigh University. He contracted consumption and in its last stages Miss Mitchell attended him. He died and in a short time the disease took hold of Miss Mitchell and her death followed, Christmas day at Washington, D. C. Miss Mitchell was one of the teachers, city schools of Washington.

The New Mexico Oil and Gas company have shipped a drilling outfit from Boulder Colorado, to Raton, New Mexico, and will begin drilling at once for oil on the McKowen ranch which is thought to be one of the most favorable locations in the Raton oil district. They intend to go two, to three thousand feet.

J. L. Reyes, Bautista Telles, Martiniana Lujan, San Sandoval, Tiofilo Lalono, Jose Chavez, Tomas Chavez, Juan Carrillo and Prisciliano Pino have been appointed by Bishop Bougarde, of Santa Fe, as a committee to solicit subscriptions to build a Catholic church at White Oaks.

Mrs. Jessie Benton Fremont, widow of General Fremont and daughter of Thomas H. Benton, died recently at Los Angeles. She was 79 years old. Mrs. Fremont was the author of a biographical sketch of her father, as well as other literary works of merit.

Efforts are being made to find the wife of M. H. Caldwell, who died in El Paso December 20. He held a policy in the Modern Woodmen of America for \$2,000, but so far Mrs. Caldwell has not been located.

J. G. Riggle and wife, of Angus, are in White Oaks, visiting friends.

ABOUT NEW MEXICO

The Bonito Country.

Submitted For the Benefit of U. S. Senators Who Oppose Statehood.

CORRESPONDENCE.

Bonito Park is eight miles above the United States Marine Sanitarium. It is in one of the three beautiful valleys that run out of the east side of the White Mountain range. The altitude at my place is 7,100 feet. The narrow valley is deep set with precipitous walls, castellated with occasional projecting volcanic dykes. Mt. Blanco, the highest peak of the ranges, is claimed to tower 125 feet higher than the celebrated Pikes' Peak, of Colorado. The tops of these foot hills are gently undulating, dotted over with beautiful juniper, carpeted with a smooth lawn of gramma grass, free from underwood. This gives these beautiful high mesas the elegance of a well kept city park. These natural parks exhibit a far reaching vista of rugged mountain sides of great beauty that do not adorn the art made pleasure grounds of the cities.

The valleys are rich beyond comparison, their soil is made up of waste from the steep hillsides, is a decomposition of granite rock, volcanic ash and iron, a mineral soil similar to that of the celebrated fruit lands of the Mediterranean.

Vegetation is riotous and attains a quality that is unsurpassed. Apple orchards here have given large crops of fruit without the aid of irrigation. The pears I raised were the objects of surprise in Chicago and Kansas City, for their large size and exquisite flavor. The superiority of the fruits of this region I attribute largely to the soil, although the dry, sunny climate has much to do with their high coloring, rich flavor and smooth wax-like exterior, which is free from blemish.

Sheep and goats flourish here, and the business has been exceedingly profitable. There are, also, a large number of cattle on the range, which do well; the breeding branch of the industry is probably the most profitable, the young cattle being matured and finished in grain growing states.

The large development now going on in our mines for the precious metals warrant the assumption that the territory will be one of the largest producing states of gold, silver and other precious metals. Copper and iron ores abound in large quantities, as does marble and other valuable deposits. The large veins of coal are of good quality, and will find a ready market in the vast region south of us.

The eastern mountain range of the Rockies, bordering the plains, are well timbered. Mt. Blanco has a compact body of one hundred million feet of fine spruce, an excellent finishing and wood pulp timber.

This territory, unlike Oklahoma, is not purely agricultural, but its resources are varied and almost unlimited.

Some claim the territory to be the sanitarium of the continent, but from extensive observations in Vermont, Michigan and Missouri, I conclude this mountain region is also the great apple belt of this the great apple continent.

The senators from some of the New England states are wise in offering statehood to New Mexico, because if the people know the many advantages this region affords, they would be left without a constituency. I spent two years in the Green mountains at school, my forefathers are buried there, and I know whereof I speak.

Our fellow citizens of Spanish descent are called not so progressive nor as aggressive as Americans, so they give the community no trouble. They and their children are becoming better acquainted with American ideals and institutions. They are respectable, law-abiding citizens. Then, why should we longer be kept out of the union?

THE DOCTRINE OF PROTECTION.

Protection, as advocated by the republican party, means such a tax on goods and products imported from foreign countries, as will prohibit their coming into the United States and selling for less than such goods and products can be sold for by our own citizens at a fair profit. It does not mean as many suppose, such a tax placed on foreign goods and products as will prevent their importation entirely, for if it did, no revenue or taxes, to pay the expenses of the government could be raised from tariffs on such imported goods, and as the expenses of the government must be paid by such taxes and the taxes known as internal revenue, only such tariff taxes can be levied as will raise the price of imported goods and products, and not prohibit them entirely from coming into this country. Now, that this is the meaning of protection as applied in this country, is not susceptible of controversy. For instance, if a prohibitive tariff were placed on all foreign goods and products, none would be allowed into the United States, and we should have to raise money to defray the expenses of the government entirely by taxes on the articles from which our internal revenue is now derived, or by direct ad valorem taxes on all property, as state and county taxes are now levied. As the republican party has never advocated any other way of raising money to carry on expenses of the government than from tariff, and internal revenue taxes, it follows that what we have said as to the meaning of the doctrine of protection, is absolutely true. Then the protective principle correctly applied, means; first, such taxes placed on foreign goods and products as will raise the price to consumers in the United States, to a figure at which our producers can sell at a fair profit; second, the fixing of their tariff taxes so that we shall derive from them sufficient revenue, with what we collect, from internal revenue taxes; to pay the expenses of the government. So that the protective principle, as applied by the republican party, is not prohibitive; but is intended entirely to raise the price on articles competing in our markets with like articles produced by our own citizens; and if this principle were honestly and impartially applied, there would be no objection from any except those who favor the abolition of all duties, the "Free Traders," who compose a very small part of our population. The trouble is that republicans in applying the principle, give the lion's share of protection to large corporations that are abundantly able to compete with all countries without any aid from the government. They give aid where none is needed, simply because it is with them a fixed policy, and they seem incapable of changing it in any case, even after the cause for protection has ceased to exist. With the democratic party, the levying of tariff taxes is put on the ground, solely of raising revenue; but as any tariff tax on imported articles tends to raise the price of like articles in this country, a tariff for revenue acts just as does a protective tariff

The only difference in the principle, as applied by the two parties being this: The democrats would levy no tariff on articles that no longer need any degree of protection, unless absolutely necessary to raise revenue to carry on the expenses of government. The democrats believe in placing tariff taxes only on articles that need protection, and on luxuries. The republican doctrine as applied, means government aid whether or not it is needed, because with them all are entitled to protection against competitors in other countries. The democratic doctrine as applied, means aid only to those who need it and taxes on those most able to pay, and that no taxes shall longer be levied where they are not necessary.

Now, all the taxes are burdensome. Why then should the masses of the people be taxed when there is no need for protection? And when revenue can be raised on articles the producers of which would be benefitted by the tariff? Why should we continue to help a beggar after he has grown rich and powerful? Why levy tariff taxes to add to the millions of the wealthy corporations and combines, the trusts, while they raise the price on the necessities of life?

This is what is being done by the republican party, as the party refuses to lower tariffs on articles that are controlled by the trusts, and thus by adhering to the protective principle, allow the masses of the people to be plundered and robbed. The democratic doctrine is right, and unless the republicans adopt it, we shall ere long see a democratic president in the White House, mark the prediction.

There is no issue of national interest more generally misunderstood than the tariff. The mass of voters form their opinions from the utterances of newspapers and speakers who are paid or expect benefits from those who are benefitted by class legislation. When a newspaper or speaker charges the democratic party with being in favor of "Free Trade," such paper or speaker either deliberately misrepresents facts from ignorance, or because some benefit is expected from republican favoritism. No democratic platform ever contained a declaration in favor of "Free Trade," and as the masses of the voters do not read platforms, republican newspapers and speakers, who talk for dollars and not from principle, deliberately lie about the democratic party, thinking they will not be caught up with, because voters, as a rule, are not advised as to such things. When a newspaper or speaker charges the democratic party with being for "Free Trade," remember such utterance is false and that the one making the statement is either ignorant or corrupt. For a correct statement of the position of the two parties on the tariff question, read the article, "The Doctrine of Protection," in this issue of the Eagle.

It is said by the statehood delegation, recently returned from Washington, that the "Omnibus Bill" will certainly pass the senate. May be so, but if it does the democrats in that body will come in for the lion's share of the honors, as they are all standing on the platform of the National democratic convention which declared for statehood for the territories, and will cast a solid vote for the passage of the bill. The rule of ruin policy of some republicans does not seem to control a single democratic senator. It matters not to them whether the new states will be democratic or republican, they will vote according to the declarations of the party. This is as it should be. A man has no business to stand for office on a party platform, and after election disregard it. If republicans had been consistent, the statehood bill would have passed at the first session of Congress; but many of them refuse to vote for the admission of the territories because they think democratic senators may be elected by some of them. With them it is republican states or none.

NEW MEXICO SCHOOL STATISTICS.

Taken From The Territorial Superintendent's Annual Report.

A study of the Eleventh Annual Report of New Mexico's public schools, compiled by Hon. J. Franco Chavez, Superintendent of Public Instruction, a copy from which the subjoined is taken, shows some surprising figures, particularly with reference to the receipts and expenditures of the various counties for school purposes and the sums invested in school property.

For instance, Lincoln hasn't a foot of railroad that is taxable and yet she expended \$18,835.74, and had a balance of cash on hand of \$4,235.61, showing the total receipts to have been \$23,071.36. Only four counties in the Territory received a greater sum, viz: Bernalillo, Colfax, Chaves and Grant, and Lincoln county's expenditures for the maintenance of schools exceeded those of Grant by over \$6,000.00. So, really, there are only three counties that are ahead of Lincoln in this respect.

In the percentage of average daily attendance, based on the enrollment, Lincoln county heads the list, with Luna second and Colfax and Otero struggling for third place. In the percentage of enrollment, based on the enumeration, Lincoln does not stand at the head, but is about midway the column; only about 50 per cent of the enumeration having been enrolled. In this particular Otero county is first, Valencia tails the bunch, with Santa Fe county frantically near said tail.

The following tables speak for themselves:

| COUNTY | RECEIPTS | EXPENDITURES | VAL. SCH. PROPERTY |
|------------|-------------|--------------|--------------------|
| Bernalillo | \$61,677.96 | \$55,109.75 | \$121,616.75 |
| Colfax | 23,489.51 | 18,904.44 | 59,830.00 |
| Chaves | 45,472.86 | 25,441.56 | 48,000.00 |
| Dona Ana | 11,483.86 | 8,495.90 | 7,800.00 |
| Eddy | 13,623.50 | 8,420.59 | 26,900.00 |
| Grant | 39,252.09 | 12,165.32 | 33,500.00 |
| Guadalupe | 6,542.57 | 2,171.77 | 3,000.00 |
| Lincoln | 23,071.35 | 18,835.74 | 30,000.00 |
| Luna | 9,634.30 | 6,875.00 | 27,000.00 |
| McKinley | 11,061.85 | 8,255.09 | 16,000.00 |
| Mora | 7,195.43 | 5,741.74 | 5,000.00 |
| Otero | 8,059.48 | 6,587.34 | 15,000.00 |
| Rio Arriba | 5,770.61 | 4,870.20 | 4,500.00 |
| Santa Fe | 20,084.31 | 16,308.62 | 25,000.00 |
| San Juan | 3,714.46 | 2,654.02 | 16,450.00 |
| S. Miguel | 22,398.88 | 15,424.38 | 98,600.00 |
| Sierra | 10,463.01 | 3,550.74 | 5,000.00 |
| Socorro | 11,653.19 | 7,595.07 | 37,400.00 |
| Taos | 12,142.13 | 4,025.70 | 4,000.00 |
| Union | 12,362.89 | 7,581.62 | 17,500.00 |
| Valencia | 4,449.94 | 3,407.58 | 3,000.00 |

ENROLLMENT, ATTENDANCE, ETC.

Watch It.....

The democratic party does not favor a sweeping and radical change in the present tariff laws. Radical changes, as was demonstrated a few years since, unsettle business; and therefore, all changes should be gradually made. The only need of tariff changes, at present, is to take the duty off of those articles controlled by the trusts. It is to be regretted that the president did not recommend this action in his message, but the republican party is so absolutely wedded to protection, that no relief can be expected from it in this direction, and even the president, though, no doubt, favoring it, did not have the hardihood to propose it.

Editor Thos. Hughes, of the Citizen, is fifty-five years old, yet Senator Dillingham referred to him as a young man. Well, Dillingham is right. People do not grow old in New Mexico. One young man, fifty-five years old, a resident of White Oaks, got married only a short time since; and we have plenty more that would do so, if they were not already matrimonially encumbered.

The Hague tribunal is to settle the Venezuelan controversy. This is a happy solution of a vexed question. Roosevelt bringling

WOMAN'S RELIEF

A really healthy woman has little pain or discomfort at the menstrual period. No woman needs to have any. Wine of Cardui will quickly relieve those smarting menstrual pains and the dragging head, back and side aches caused by falling of the womb and irregular menses.

WINE OF CARDUI

has brought permanent relief to 1,000,000 women who suffered every month. It makes the menstrual organs strong and healthy. It is the provision made by Nature to give women relief from the terrible aches and pains which blight so many homes.

GREENWOOD, La., Oct. 14, 1900.
I have been very sick for some time. I was taken with a severe pain in my side and could not get any relief until I tried a bottle of Wine of Cardui. Before I had taken all of it I was relieved. I feel it my duty to say that you have a wonderful medicine.

Mrs. William Hoyle Dead.

Mrs. William Hoyle, of this place, died Wednesday morning at 9:30 o'clock of heart failure. Mr. M. W. Hoyle, the only absent relation that could be reached by wire, has been notified. The funeral services will be conducted at the residence at 10 o'clock a. m. Friday.

Mr. and Mrs. Hoyle came to White Oaks several years ago, and Mrs. Hoyle, during those years, became generally known and was most highly esteemed by all. Her health was not good at any time, she being, as was supposed, a sufferer from tuberculosis; yet, she has ever borne herself with patience and fortitude, her gentle, loving disposition endearing her to all her acquaintances. The family in this time of bereavement has the sympathy of the entire community.

The fetters that bound are burst in twain,
And the gentle, loving spirit has flown,
To realms beyond where grief nor pain
Shall ever again, be felt or known.

Public Installation Postponed.

The public installation of officers of William McKinley Lodge, No. 25, K. of P., Nogal, has been postponed until the second Saturday evening in January.

M. D. GAYLORD,
D. D. G. C.

The Old Abe mine will shut down for a few days for repairs on machinery, and the men will be put to work in the meantime on the concentrator plant and at the cyanide works.

The El Paso Northeastern System will make a rate of one fare for the round trip to El Paso and return account Midwinter Carnival. Tickets will be on sale January 11th to 17th, limited to January 18th, 1903 for return. Call on agents for particulars.

A. N. BROWN,
G. P. A.

Frank Crumb and daughter went to Lincoln Tuesday, returning Wednesday. Mr. Crumb went down to file on his homestead.

THE BIRD LEFT HIS NEST.

Tobe Long, who was in the town bastille awaiting transportation to Hotel de Owen at Lincoln, deftly removed some of the obstructions between himself and the outside world, and made his escape, not taking time to bid his friends farewell.

He had been given a hearing before Justice Norton, at Jicarilla, on the charge of stealing a horse, and was bound over in the sum of \$200 to await the action of the grand jury, and was temporarily placed in our local jail by Constable Langston and given an opportunity to give bond, but failing to find sureties, and disregarding lock and locksmiths, gave leg bail in the latest approved style, thus, for a time, at least, refusing to encroach upon the hospitality of Sheriff Owen.

The prisoner's breakfast was taken to him by Mr. Mayer this morning, Mr. Langston having gone to Carrizozo, and about 9 o'clock it was discovered that the prison was empty; the prisoner had taken French leave and had left for the sylvan shades of the forest, there, no doubt, to meditate

in solitude over "Man's inhumanity to man." Deputy Mayer and others immediately started in pursuit, and it is likely that Long will soon again be long for freedom.

Rev. G. G. Hamilton, the Methodist pastor, held an open air meeting on the streets Sunday, and preached to quite a crowd.

The election of justices of the peace and constables will take place Monday, January 12. So far White Oaks precinct has no candidate for either office.

The last editions of the Roswell Record and Roswell Journal are a credit to the management of those papers, and are in accord with the greatness of the great Pecos Valley, where they are domiciled. It would be difficult to improve such papers. The Register is not to be ignored, but the Record and Journal, in their latest editions, are all that could be desired.

"The Eagle earnestly wishes every friend a happy and prosperous Year."

Victims Die in Sleep From Strange Disease.

A London cablegram to the school of tropical medicine has issued a report on the sleeping sickness which is now devastating Uganda. Though it was discovered only a few years ago, it is computed that the disease has already killed from 20,000 to 30,000 persons, and is spreading to new areas with increasing virulence.

Scientific reports made on the spot describe the sleeping sickness as a complaint something like that of diseases known as meningitis, or inflammation of the brain. It begins insidiously with changes in the mental attitude of the patient. From that time the disease progresses, and the patient becomes stupid and restless, and, after other symptoms have passed, enters into a state of coma and dies. The duration of the complaint varies from a month in acute cases, to six months or more in chronic cases. The disease is invariably fatal, and although taking longer to cause death than hydrophobia, may be classed along with the latter. —El Paso Herald.

"He Looked so Natural."

In this life we pass through all of the shifting scenes of humor and pathos, of comedy and tragedy, from the laughter and dancing morning of youth to the solemn and shadowy evening of old age. The world applauds us if triumph; it despises us if we fail. Too often it gives the need of praise to its benefactors only when they are under the sod.

What a strange and cruel philosophy. What do words of praise avail to lift the shadows off our path no longer pressed by weary feet? What are songs worth to us that lie still in the songless dust? Why all the bands of the dead with flowers which we have withdrawn from the living, and then with tears bend over the pallid face and whisper, "he looks so natural?"

If you have love to give, give it to the living; if you have blessings bestow them on the living. None but God can bless the dead. Who would not rather have one smile, one tender word, today, than to know that a million roses would be heaped upon his coffin if he should die tomorrow? Who would not rather rejoice among the flowers of joy while he lives, than to sleep the dreamless sleep beneath the flowers?

God speed the day when the spirit of love shall fall upon the world like the light of morning until all nations shall burst into laughter and song.—Gov Bob Taylor.

An earthquake at Adijian, Asiatic Russia, destroyed the town and it is estimated that 1,000 people perished. The disturbance covered an area of about 200 miles. The Treasury Building, containing \$1,000,000 in gold, was wrecked and all the gold melted up. A strong guard is kept around the Treasury Building while excavations are being made to find the money.

W. Prude recently went to Brewster County, Texas, to look for an old silver mine said to have been worked by the Indians in the long ago. He took an old Indian chief from the Mescalero agency with him. Hope he found it, but it reminds us of the child and rainbow story we heard years ago. How about it, Buck?

FOREST DEPREDATIONS.

Government Will Have Inspectors To Indicate What Trees Shall Be Cut.

I. B. Hanna, superintendent of forest reserves, has completed his inspection of the Lincoln forest reserve. He says there is great abuse of the timber on the reserve and the government will take steps to stop it. Where the people have been allowed to gather the trees at will, there has been indiscriminate cutting. The government will have inspectors indicate the trees that are to be cut. It is not the intention to deprive Roswell of wood, but to regulate that which shall be cut.—New Mexican.

Willing to Make Amen:

An amusing street incident happened lately. A young wife left her husband's side to look in a window. On leaving it she took, as she thought her husband's arm, and continued her conversation.

"You see," she said, "you don't even look at anything I want you to see. You never care how I am dressed; you no longer love me. Why, you have not even kissed me for a week, and—" "Madam, I am sorry, but that's my misfortune, not my fault," said the man turning round.

The lady looked at him and gasped. She had taken the arm of the wrong man.—London Spare Moments.

Fun.

Tommy's First Day at School.

Mamma—Well Tommy, what did you learn today?

Tommy—Didn't learn anything.

Mamma—What did you do?

Tommy—Didn't do anything. There was a woman there wanted to know how to spell cat and I told her.—Exchange.

"I've got an idea," he said, "that the governor is going to make me a full col."

"Well," replied his wife, "if he makes you much fuller than you are now he will have to ship you a whole distillery."

The contest cases of Socorro have been argued and submitted to the court. The Chieftain says Judge McMillan's rulings in the case have been fair and impartial. A decision is expected in a few days as the matter was taken under advisement by the court. It seems the whole fight was as to whether the vote of certain precincts should be counted or thrown out all together. Some of the contestants were beaten over three hundred votes.

Local and Personal.

Wm. Reily went to Nogal Tuesday.

Go to Welch & Titsworth for Wool Sacks.

A. C. Storms, of Hondo, is in town today.

John Owen was up from Lincoln Tuesday.

Flem Bingham was in town last Wednesday.

Miss Sallie Coapland, of Angus, is reported very sick.

Gordon Gray went out to the Block ranch Thursday.

Henry D. ...

sons and went directly there from Carrizozo.

Mrs. J. L. McCorkle has put a partition in the store room and will hereafter use one half for a dining room.

Sidney M. Parker came through Capitan from White Oaks Wednesday on his way to the county seat on business.

The weather man tried to give us rain, snow and sleet Wednesday morning but failed on the whole proposition.

W. W. Woodward, secretary of the New Mexico Oil and Development company, was in town from Carrizozo Wednesday.

M. English, who was here in April and has mining interests in the Bonito and Parsons districts, came in today.

J. Pridemore and George ... from the Block ranch, were in town Wednesday. They were on their way to Lincoln.

Sammett Barton, fireman at No. ... mine is suffering from a bad hand—the result of an accident this week.

The 2x4 subscribers paid their subscription by refusing to take paper out of postoffice after waiting for three years.

Some of the well-to-do people remember the printer-man ... day day comes around ... editor could eat more.

The five horse power, Webber Engine, only in use a few months—guaranteed A 1—apply at this office.

Latham employed by the sanitary board as hide inspector here inspecting hides.

Canon seems to have attracted some of our young people all look healthy, why do they seek a sanatorium?

Employing an employe at the mine for some time, yesterday morning by ... No one else injured.

Letters have been sent out from the office lately. If they expect we want to hear from the others,

Sammett, representing the firm of El Paso, paper and ware dealers, was in town Tuesday interviewing our merchants.

T. C. Hill will take charge of the Mercantile company's business here, while H. S. Wallace will go to Alamogordo and be employed as a traveling man.

We are sorry to lose Mr. Wallace, as his friends in this country are legion.

W. L. Hughes of Roswell, an old timer in New Mexico as well as an expert in the buying and selling of horses, was in town

Tuesday and returned home Wednesday.

Frank Coe was in town Sunday and kindly took out some job work from the Progress office for his nephew, School Superintendent Ed. J. Coe.

Mr. Chittendon, an old timer of Lincoln, passed through town on his way to White Oaks this week with a load of fine onions grown in the Bonito valley.

The Progress thanks those subscribers who have responded promptly to bills for subscription. There are yet a few who have not responded at all. They will be given another chance.

Wm. Ellis of Lincoln came over this week and brought his family with him. He left his wife with her father, Judge Freidrich, at North Capitan for a few days.

L. Chernis, the rustling drummer of Bargman Overall company, was in the city this week. He makes Lincoln, Richardson, Angus, Alto and Nogal from this point.

Mr. Abe May and wife have gone to Nogal. They were called to see Richard Shanklin, the son of Mrs. May who has been very sick with pneumonia. Dick was getting along nicely at last accounts.

Some of the children know how to enjoy themselves. A small wagon hitched to a burro driven by a little girl—a boy on another burro and more following caused amusement for spectators the first of the week.

Lin Branum, from Coyote Canon, northwest of White Oaks, was in town Thursday. Had been to Lincoln to investigate county seat affairs. By the way, he had three scalps from mountain lions which are worth \$20 each.

Tuesday the train was late—that is, later than usual. Then Wednesday, no train. Thursday we were still waiting for mail, and today we can't hear a thing. Two wrecks are reported—one below Alamogordo and the other between Carrizozo and Santa Rosa on the Rock Island. No one killed and no serious damage done so far as we could learn.

U. D. Long came in Thursday of last week. Mr. Long is an old timer in New Mexico, having prospected from A to Izzard. He was on his way to the White Mountain country, where he has claims, and was incidentally representing the Industrial and Mining Record of El Paso.

Thursday of last week constable J. P. C. Langston of White Oaks left us needed material from his town. He was on his way to Lincoln with Tobe Long, who was under arrest in White Oaks

for horse stealing, made his escape and was recognized and recaptured during the carnival at El Paso by Paul Mayer.

F. C. Matteson is in Tucumcari this week.

Cliff Hulbert was seen on the streets today.

Walter Hyde, of Hondo, was in the city Tuesday.

Jim Burleson, Lincoln, was a Capitan visitor this week.

H. A. Crouch, well known and well liked here, was in town this morning talking to old friends.

Miss Minnie Craig has returned from a visit to her parents at Albuquerque to her Lincoln school.

J. H. Buckalew, a prominent ranchman of the Capitan mountains, was in the city Tuesday.

Sam Craig, the new manager of Henry Pfaff's business at North Capitan, was down to us the first of this week.

Harry Kendall, of Nogal, representing Union Mutual and Life association, was in the city Wednesday.

Messrs. Pugh ... were in town ... Bonito district ... man they had ... with.

The horse ... over on the ... Wednesday night, Mr. Brown being away from home at the time. He had recently moved to the place and the fire is supposed to be of incendiary origin.

Johnnie Harkey of Bonito was running his horse last Sunday when the animal fell with him, bruising him considerably, hurting his shoulder and the side of his head. It is thought he may lose one eye from the injuries.

A disaster ... Wednesday morning ... some children ... matches, and ... Pridemore's ... Pridemore had ... at ... right time and get ... stop the fire, he, however, hand slightly burned.

John C. Wharton, of the firm of M. A. Wharton of Hondo, was in town ... settling up a deal with ... son-Galbraith Co., for lumber they have used in their new building at Hondo. They used 10,000 feet and now have a fine building, glass front, 60x20, which will be completed by the 15th prox. and be stocked with a general merchandise assortment. By March 1st the firm will be doing business, and as they have a good location in the center of a farming and fruit country—good business is certain.

Victims Die in Sleep From Strange Disease.

A London cablegram to the school of tropical medicine has issued a report on the sleeping sickness which is now devastating Uganda. Though it was discovered only a few years ago, it is computed that the disease has already killed from 20,000 to 30,000 persons, and is spreading to new areas with increasing virulence.

Scientific reports made on the spot describe the sleeping sickness as a complaint something like that of diseases known as meningitis, or inflammation of the brain. It begins insidiously with changes in the mental attitude of the patient. From that time the disease progresses, and the patient becomes stupid and restless, and, after other symptoms have passed, enters into a state of coma and dies. The duration of the complaint varies from a month in acute cases, to six months or more in chronic cases. The disease is invariably fatal, and although taking longer to cause death than hydrophobia, may be classed along with the latter. El Paso Herald.

"He Looked Natural."

In this life we pass through all of the shifting scenes of humor and pathos, of comedy and tragedy, from the laughter and dancing morning of youth to the solemn and shadowy evening of old age. The world applauds us if triumph; it despises us if we fail. Too often it gives the need of praise to its benefactors only when they are under the sod.

What a strange and cruel philosophy. What do words of praise avail to lift the shadows off our path no longer pressed by weary feet? What are songs worth to us that lie still in the songless dust? Why fill the hands of the dead with flowers which we have withdrawn from the living, and then with tears bend over the pallid face and whisper, "he looks so natural?"

If you have love to give, give it to the living; if you have blessings, bestow them on the living. None but God can bless the dead. Who would not rather have one smile, one tender word, today, than to know that a million roses would be heaped upon his coffin if he should die tomorrow? Who would not rather rejoice among the flowers of love while he lives, than to sleep the dreamless sleep beneath the flowers?

God speed the day when the spirit of love shall fall upon the world like the light of morning until all nations shall burst into laughter and song.—Gov Bob Taylor.

An earthquake at Auldjan, Asiatic Russia, destroyed the town and it is estimated that 500 people perished. The disturbance covered an area of about 300 miles. The Treasury Building, containing \$1,000,000 in gold, was wrecked and all the gold piled up. A strong guard is kept and the Treasury Building while excavations are being made to find the money.

W. Prude recently went to Brewster county, Texas, to look for an old silver mine said to have been worked by the Indians in the long ago. He took an old Indian chief from the Mescalero agency with him. Hops he found it, but it reminds us of the child and rainbow story we heard years ago. How about it Buck?

FOREST DEPREDATIONS.

Government Will Have Inspectors To Indicate What Trees Shall Be Cut.

I. B. Hanna, superintendent of forest reserves, has completed his inspection of the Lincoln forest reserve. He says there is great abuse of the timber on the reserve and the government will take steps to stop it. Where the people have been allowed to gather the trees at will, there has been indiscriminate cutting. The government will have inspectors indicate the trees that are to be cut. It is not the intention to deprive Roswell of wood, but to regulate that which shall be cut.—New Mexican.

Willing to Make Amen!

An amusing street incident happened lately. A young wife left her husband's side to look in a window. On leaving it she took, as she thought her husband's arm, and continued her conversation.

"You see," she said, "you don't even look at anything I want you to see. You never care how I am dressed; you no longer love me. Why, you have not even kissed me for a week, and—" "Madam, I am sorry, but that's my misfortune, not my fault," said the man turning round.

The lady looked at him and gasped. She had taken the arm of the wrong man.—London Spare Moments.

Sam Craig, the new manager of Henry Pfaff's business North Capitan, was down to us the first of this week.

Harry Kendall, of Nogal, representing Union Mutual and Life association, was in the city Wednesday.

Messrs. Pugh and Co. were in town Wednesday. Bonito district man they had with them.

The horse which was over on the road, was killed Wednesday night, Mr. Brown being away from home at the time. He had recently moved to the place and the fire is supposed to be of incendiary origin.

Johnnie Harkey of Bonito was running his horse last Sunday when the animal fell with him, bruising him considerably, hurting his shoulder and the side of his head. It is thought he may lose one eye as a result of the injuries.

A disaster occurred at the Bonito district on Wednesday morning. Some children were playing with matches, and started a fire. Mr. Pridemore's house was burned. Mr. Pridemore had just at that time and get stop the fire, he, however, had his hand slightly burned.

John C. Wharton, of the firm of M. A. Wharton & Co. of Hondo, was in town Wednesday settling up a deal with the son-Galbraith Co., for lumber they have used in their new building at Hondo. They used 10,000 feet and now have a fine building, glass front, 60x20, which will be completed by the 15th prox. and be stocked with a general merchandise assortment. By March 1st the firm will be doing business, and as they have a good location in the center of a farming and fruit country, good business is certain.

Short of Fuel.

A special to the Denver Rocky Mountain News from Phoenix, Arizona, says:

"Following the extinguishing of the fire which has raged in the workings of the United Verde mine for nearly three months, throwing out of employment near 1500 men, comes the news that on account of a shortage in the coke supply the company has been forced to suspend operations. Up to that time two blast furnaces were in operation. There is no announcement to indicate when work will be resumed.

"At present the smelting plant, consisting of six furnaces, is capable of reducing 1500 tons of ore daily. These furnaces will be replaced by 500-ton furnaces, thus increasing the capacity from 1500 tons daily. It is understood that two of the replaced furnaces will be moved five miles to the King mine; an improvement developed in the past few years.

It consists of iron and copper. The heavy feel the Iron producer it why fill it with which we then with property of the district to declare a dividend."

A Scientific Discovery.

Kodal does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodal supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodal digests what you eat and the stomach and digests it all food.

An earthquake destroyed the Sultan's intention to expose his collection by a native was erroneously said in January 19 that the Sultan had died of cholera. It was his mother.

of Chamberlain's Cough Remedy Warranted. I will refund the money to a person who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for coughs, colds, croup and pneumonia. It prevents the tendency of a cold to result in pneumonia. Robert Hurt, druggist.

Glenn Court Martial.

Manila, Jan. 24.—The arguments in the trial by court martial of Major Edwin F. Glenn,

charged with unlawfully killing prisoners of war, were heard today. The judge delivered a verdict which was believed to be an acquittal, although the finding was not announced.

Major Glenn read an extended argument devoted to the conditions of Samar and justification of the measures taken to end the insurrection.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Melard F. Craig, of Middlegrove, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by Robert Hurt, druggist.

Raw Egg for a Tonic.

A raw egg is an excellent tonic and is very strengthening. If prepared in the following way it is really a delicious drink, says the Philadelphia Press. Put the yolk of an egg into a dish with a teaspoonful of white sugar and a teaspoonful of orange or lemon juice, and beat lightly together with a fork. Put the white on a plate and add a pinch of salt; then with a broad bladed knife beat to a stiff froth. Now, as lightly as possible, mix all together in the dish, then lightly transfer to a clean tumbler, which it will nearly fill if properly made. It must not stand in a warm place, as it soon becomes liquid and loses its snowy look. Any fruit juice may be used in place of orange or lemon.

Croup.

The peculiar cough which indicates croup is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Robert Hurt, druggist.

Rodey Gets Back at Nelson.

The New York Herald says that during the speech of the Minnesota senator, Nelson, against the admission of Oklahoma, New Mexico and Arizona to statehood, he stated that 50 per cent of New Mexico's population is Spanish and Mexican.

Delegate Rodey of New Mexico who was listening to the speech, scribbled a note and sent it to the senator. It said:

"Dear Senator—I recently had occasion to inquire into the matter, and much to my surprise I find that 57 per cent of the population of Minnesota is Norwegian. How on earth did that state get in?"

Short of Fuel.

A special to the Denver Rocky Mountain News from Phoenix, Arizona, says:

"Following the extinguishing of the fire which has raged in the workings of the United Verde mine for nearly three months, throwing out of employment near 1500 men, comes the news that on account of a shortage in the coke supply the company has been forced to suspend operations. Up to that time two blast furnaces were in operation. There is no announcement to indicate when work will be resumed.

"At present the smelting plant, consisting of six furnaces, is capable of reducing 1500 tons of ore daily. These furnaces will be replaced by 500-ton furnaces, thus increasing the capacity from 1500 to 10 tons daily. It is understood that two of the replaced furnaces will be moved five miles to the King mine; an improvement which Senator developed in the past few years.

The mine consists of iron, copper, and shadows of the ore. The weary feel the Iron ore producer it. Why fill the mine of the which was property of the district to declare a dividend."

A Scientific Discovery.

Kodal does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodal supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodal digests what you eat and the stomach and digests all food.

An earthquake destroyed the Sultan's intention to hold his international exposition in St. Louis by a native of the city. It is erroneously said that the Sultan died of cholera. It was his mother, the Sultan's mother, who died of cholera.

Chamberlain's Cough Remedy Warranted. Between every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for all coughs, colds, croup, whooping cough and is pleasant to take. It prevents the tendency of a cold to result in pneumonia. Robert Hurt, druggist.

Glenn Court Martial.

Manila, Jan. 24.—The arguments in the trial by court martial of Major Edwin F. Glenn,

charged with unlawfully killing prisoners of war, were heard today. The judge delivered a verdict which was believed to be an acquittal, although the finding was not announced.

Major Glenn read an extended argument devoted to the conditions of Samar and justification of the measures taken to end the insurrection.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Melard F. Craig, of Middlegrove, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by Robert Hurt, druggist.

Raw Egg for a Tonic.

A raw egg is an excellent tonic and is very strengthening. If prepared in the following way it is really a delicious drink, says the Philadelphia Press. Put the yolk of an egg into a dish with a teaspoonful of white sugar and a teaspoonful of orange or lemon juice, and beat lightly together with a fork. Put the white on a plate and add a pinch of salt; then with a broad bladed knife beat to a stiff froth. Now, as lightly as possible, mix all together in the dish, then lightly transfer to a clean tumbler, which it will nearly fill if properly made. It must not stand in a warm place as it soon becomes liquid and loses its snowy look. Any fruit juice may be used in place of orange or lemon.

Croup.

The peculiar cough which indicates croup is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Robert Hurt, druggist.

Rodey Gets Back at Nelson.

The New York Herald says that during the speech of the Minnesota senator, Nelson, against the admission of Oklahoma, New Mexico and Arizona to statehood, he stated that 50 per cent of New Mexico's population is Spanish and Mexican.

Delegate Rodey of New Mexico who was listening to the speech, scribbled a note and sent it to the senator. It said:

"Dear Senator—I recently had occasion to inquire into the matter, and much to my surprise I find that 57 per cent of the population of Minnesota is Norwegian. How on earth did that state get in?"
