The Outlook

VOLUME I. WHITE OAKS, NEW MEXICO, THURSDAY OCTOBER 20, 1904. NUMBER 7.

THE OUTLOOK

A Weekly Newspaper Devoted to the Interest of White Oaks and Lincoln Co., N. M.

Published Every Thursday.

Leo H. Rudisille, Editor and Pub.

Entered as second-class matter, September 8th, 1901, at post office at White Oaks, New Mexico, under the Act of Congress of March 3d, 1879.

SUBSCRIPTION PRICE.

One Year (in Advance).....$1.00
If not paid inside 6 months.. 1.50

NATIONAL TICKET.
For President,
THEODORE ROOSEVELT,
of New York.
For Vice-President,
C. W. FAIRBANKS,
of Indiana.

CONGRESSIONAL TICKET.
For Delegate to Congress,
W. H. ANDREWS,
of Bernalillo County.
For Councilman—9th District,
A. J. TENKE,
of Luna County.
For Representative—16th District,
WILLIAM S. PRAGER,
of Chaves County.

COUNTY TICKET.
For Sheriff, Henry Lutz.
For Treasurer, John H. Canning.
For Probate Judge, Francisco Gomez.
For Probate Clerk, Romoldo Montano.
For School Superintendent, Leo H. Rudisille.
For Assessor, Robert A. Hurt.
For Commissioner 1st District, Estolano Sanchez.
For Commissioner 3d District, F. L. Krouse.

From reports coming from the the seat of war, General Kuropatkin does not show up well as a stand-patter.

Since it has gone the rounds Judge Parker's letter of acceptance has proven to be nothing but a dead letter after all.

How doth the busy candidate
Improve each shining hour,
And buzz the voters on the wing,
Through sunshine and in shower.

The democrats during this campaign seem to have a sort of revrential awe for the constitution, Teddy and his club. How about that hypnotic eye of Parker's.

Judging from the editorials in the democratic papers at this present time it would be hard to tell whether that party was running Rodey or Money for Delegate to Congress.

This week THE OUTLOOK publishes a very good half tone, as well as the letter of acceptance, of our candidate for Delegate to Congress. The one is an index to the other—both are strong and forceful and inspire confidence in the man who is to represent this growing territory for the next few years.

Two very important incidents seem to be left out of this present campaign. Grover Cleveland's ponderous platitudes in furtherance of the Parker boom, and Uncle Jerry Simpson's Money musk to the music sawed off by democratic nominee for Delegate to Congress.

It must be a peculiar kind of republican who this year can find all manner of fault with the candidates on that ticket and nothing but good words for those on the other side. And yet we have them among us. 'Pears like dar was a little nigger pokin' his haid outen de cohn shucks, an' somebody's goin' to craik it, shore.

The latest dispatches coming from the Russo-Japanese war is that General Kuropatkin, with 619 members of his staff and a detachment of the Okotsk regiment under General Skipoutaloffsky had about 87,000 Japanese surrounded in a redout on the Fun Shun Scout Shinny Kio road about midway between Taidiumowze and Shampintaidze and were planning a masterly horse du combat in order to throw themselves sooner die on the Japanese left flummix some 80 miles south of Mukden on the Schilli river.

William S. Prager was nominated by the republican convention held at Roswell October 1st, to represent this district in the lower house of the next territorial legislature. Mr. Prager has a wide acquaintance and has been in business at Lincoln and at Roswell for many years. He is one of the most reliable and well informed men of this district and if elected will do us good, honest service, putting the same kind of energy and work into legislative affairs that he has in his own private business. This section of New Mexico is badly in need of a wide-awake, energetic man in the territorial legislature and he would fill the bill.

General Baldwin, Commander of the Department of Colorado, wants to test the automobile as an engine of war. He being enthusiastic and courageous is willing to take the run from Denver to Washington city just to test the concern, provided the government will foot the bill of expenses, and pay all damages done to people and property along the line of travel. If the machine proves half as destructive in war as it has in the piping times of peace, its adoption might not be a bad idea. If it once got to going in the direction of a hostile line there would certainly be a stampede and a panic all in one. However, until its striking qualities are thoroughly tested would it not be better for the venturesome general to stick to the old reliable army mule.

Carl Schurz, who once had "General" tacked to his name, who was one time a member of the Hayes Cabinet, who was once upon a time Chairman of the National Republican Committee, way back in its infancy, who then went over to the Liberal-Republicans, then went back to the Republicans, then deserted to the Cleveland Democrats, then deserted to the Republicans to aid McKinley, whom he venomously deserted on the acquisition of the Philippines, is now "carrying the German-American vote in his pocket for the Democrats," so they do say. Well, he isn't. Mr. Schurz can't carry his own vote without wobbling, so it isn't at all likely that anybody is going to trust him with another vote. He'd lose both before he got to the polls.

G. F. Ellis, of Roosevelt county, has been nominated by the democrats to represent this Fifteenth Legislative District in the next Territorial Assembly. He is said to have made a talk in the convention which nominated him and in the course of his remarks, which were not many, that he had not lived just the right kind of life, but that he had resolved to reform. This may be something like the fellow that promised his sweetheart to reform if she would marry him, and then went out and got beastly drunk, celebrating the compact. Great Ceasar! The idea of sending a man to the territorial legislature, and above all, to Santa Fe, in order to reform him. Come to think of it there is one public reformatory institution at Santa Fe, outside the walls of the Capitol building, so the case is not so hopeless as it might seem.

An American citizen by the name of Platzek made a democratic speech in Tammany Hall not long since, during which, after accusing President Roosevelt of all manner of usurpations and misdemeanors, relieved himself of the following statement:

"All the money panics which have occurred since the birth of the Nation, were the result of republican inflation, legislation on the money question and the tariff."

This is so villainously raw that it reminds one of a conversation between two citizens who met the other day.

"Say, Tom. There goes a boy down the street who says he has five sisters at home and each sister has three brothers and none of those kids are brothers of his. How do you make that out?"

"Oh, that is easy enough Dick," replied the other. "The boy lied."

THE LETTER OF ACCEPTANCE OF WM. H. ANDREWS.

SANTA FE, N. M., Sept. 17, 1904.

To the Notification Committee of the Republican Convention and the Voters of New Mexico:

In accepting the high honor of the nomination for Delegate to Congress from the republican party of New Mexico, I pledge myself firmly to the maintenance of the principles laid down by the platform adopted at the republican convention held at Albuquerque on September 12, 1904.

If elected I will have introduced and will work earnestly for the

SENATOR WM. H. ANDREWS.

passage by congress of a bill granting statehood to New Mexico, under its present name and within its present boundaries and donating to the territory a liberal amount of public land and money for its public schools, institutions and other public purposes.

Any effort to deprive the people of New Mexico of any right to the appropriated or unappropriated waters within the territory shall meet my determined opposition. On the other hand I will strive assiduously to obtain for New Mexico the aid of the reclamation service to the fullest extent possible in the building of irrigation works.

I will labor for the passage of a measure providing for the selection of lieu lands by the territory in place of school sections, lost by reason of their location within the limits of land grants and reservations.

A bill for the creation of a Seventh Judicial District with headquarters at Socorro, will receive my earliest attention and continued support.

Every measure for the furtherance of the industries, the interests and the welfare of the people of New Mexico shall have in me a warm friend and indefatigable advocate. I will be at the service of all my constituents, irrespective of party affiliations, race, creed or station, in any business they may have with the authorities at Washington, and they may at all times count upon my advice and active aid. Especially will I be interested in securing pensions for the veterans of the Indian wars, between 1850 and 1860, and thereafter in the campaigns against the Navajos and Apaches from 1860 to 1885, as well as the veterans of the Civil and the

diligently refute all attacks and slanders upon the territory and its people, and will proclaim upon every possible occasion its advantages, attractions and resources.

While not strictly within the line of legislative duty, I will continue to induce capital to come into New Mexico, to build railroads, to aid in the development of its wonderful resources, to give employment to its people and to establish permanently, prosperity in every county, city and town.

It is upon this brief declaration of principles that I seek the support of the voters of our grand, historic and glorious commonwealth.

Respectfully,
WM. H. ANDREWS.

MR. MONEY'S VISIT.

Mr. George P. Money, the democratic legal tender, whom the party organs are running for congress in this territory on the strength of his father's reputation, paid this county a short visit last week. He made a speech at Lincoln one night and repeated the performance at Capitan the next, besides dropping a few morsels of it from the upper side of a good republican dry goods box at Nogal the next morning, as he passed through. The burden of his complaint here, as well as elsewhere, was republican extravagance and high taxes as compared with democratic economy. This somehow had a sort of familiar sound to those who have listened to democratic speeches for the past twenty years or more, and one ought to expect it on all such occasions.

He showed how much more the Otero administration had disbursed than the preceeding democratic one, but forgot to tell his audience how much of that had been paid out to make good the deficiencies of the Thornton regime or meet the additional appropriations in aid of normal schools and colleges throughout the territory. This was positively Mr. Money's last engagement in this part of the country.

RODEY'S LATEST WRINKLE.

The Rodey boomlet does not seem to be making much headway, except through the democratic newspapers. No doubt Mr. Rodey feels very much flattered by the notoriety he is receiving through his attempted independent movement, but his real friends can feel nothing but sorrow and regret to see so good a man locate his own political graveyard.

The republicans of this territory took Mr. Rodey up when he was comparatively but little known, and gave him his opportunity. So long as he represented the wishes of a majority of the members of his party and the majority of the people of the territory, and kept himself free from questionable cliques and combinations, that long they continued him in office. But when he failed to interpret the wishes of the better part of his constituency, and chose for his chief fugleman a person whose methods were not only a brazen affront, to Mr. Rodey's own immediate bailwick but a stench to the whole territory, then the representatives of his party in convention assembled—many of them up to that time unaware of the true state of affairs—saw fit to set him aside, as well they might, as one who had been weighed and found wanting.

Should Mr. Rodey persevere in this attempt to disrupt his party because of disappointed ambition or personal revenge, then he will himself furnish ample proof that he was not deserving of the high trust confided to him, and that the convention acted with unerring judgment in setting him aside, for a man of Mr. Andrews' known integrity.

Kuropatkin found his Japs, William Jennings Bryan his St. Louis convention, and our delegate his statehood question. We all find our level when we're laid on the shelf.

Sic Semper, Rodey! Can't you be quiet?

Notice for Publication.

DEPARTMENT OF INTERIOR,
Land Office at Roswell, N. M., Oct. 10, 1904.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the U. S. Commissioner at his office in Lincoln, New Mexico, on November 29, 1904, viz: William E. Blanchard, upon Homestead Application No. 1142, for the S½ SW¼ and S½ SE¼ Sec. 24, T. 7 S., R. 12 E.

He names the following witnesses to prove his continuous residence upon the cultivation of said land, viz:

Robert Leslie, of White Oaks, N. M.
Robert Lesle, Jr., of White Oaks, N. M.
W. A. Yates, of Richardson, N. M.
William Miller, of Capitan, N. M.

Women are perfectly contented with their lot so long as they don't meet another woman who appears better off.

An Eastern magistrate says drunkenness is a disease. An occasional fine is not a bad remedy against a return of the malady.

From the number of exciting adventures he has one would think J. Pierpont Morgan was about to go on the vaudeville stage.

A St. Louis newspaper reporter left an estate of $79,944, but then he was a newsboy for some years before he became a reporter.

The death of "Monsieur de Paris" is a reminder that in France capital punishment still means the dexterous removal of the caput.

A St. Louis man paid a clairvoyant $1,000 to locate a buried treasure for him. As usual, the clairvoyant now has all the treasure in sight.

If the smart set in Newport gets to quarreling too bitterly it ought to be able to find a basis for compromise in another monkey dinner.

Arizona will not permit prize fights, but there is probably no objection to gentlemen still settling their little difficulties with a good pair of guns.

It must puzzle Abdul Hamid to understand why he is spoken of as "the unspeakable Turk" when no one talks about the unspeakable King Leopold.

If the Newport women keep on losing diamonds they might store them and wear the receipt with the cost price of the jewels written across its face.

Times change, and we change with them. A man who paid $34 for a Panama hat three years ago says that he is going to use it for a hen's nest this winter.

The police say that the women's fashion of carrying handbags is responsible for the many hold-ups. As in the days of Adam—the woman is to blame.

The newest wrinkle in golf is to put a drop of the oil of rhodium on the ball. When the ball is lost you turn a dog loose, and the animal finds it. Great idea.

The English have made a treaty at Lhasa. The British lion and the Thibetan lamb will now lie down together, in what relative positions no one needs to be told.

Workmen rebuilding Baltimore found a lot of wheat still burning on one of the wharves. And the "all out" signal was sounded more than seven months ago!

It was distressing that Mme. Melba was "overcome" after running over and killing a man with her automobile in Paris. The French peasants should be more careful.

The dirigible flying machine either won't fly or won't steer or won't do either. Persons holding railway securities may consider them a reasonably permanent investment.

The cabled intelligence from Europe that "drought blights Bohemia" is in the nature of a cross bracket. A prolonged drought would drive Bohemia to suicide—or water.

Dun's report says that "retail trade in fall lines of dry goods, clothing, millinery and nearly all wearing apparel shows a healthy growth," and this, O married man, is what it calls "prosperity!"

It is said that the cruiser Milwaukee, launched at San Francisco, "took to the water gracefully," but considering the name of the vessel we shall require confirmatory evidence before believing it.

Search the average married man's vest pockets and you will find from ten to thirty recipes clipped from the cooking columns of the papers. Possibly they cut out the recipes so their wives will not see them and try to follow them.

A speaker before the International Geographical Congress has been urging plainer weather reports. He has missed his cue. What most people want is an absolutely accurate prediction of the weather in their own front yard—about a month in advance.

NEW MEXICO NEWS SUMMARY

WRECK NEAR ALBUQUERQUE.

Believed to Have Been the Work of Criminal Gang.

The Albuquerque Journal of September 28th says:

"One of the luckiest wrecks in the history of the Santa Fe railway took place at about 2 o'clock this morning when passenger train No. 7, for the west, went into the ditch about three miles below this city. Spreading rails caused two baggage cars and a mail car and a tourist sleeper to leave the track and pile up along the embankment. The engine remained half on the track, and the four cars in the rear of the train did not leave the rails.

"The only loss of life was the death of a negro tramp who was riding between the first two baggage cars. He was caught between the ends of the cars as they came together and his body mashed to a pulp. It was impossible to secure his name this morning, and it was only after much work that his body was extricated from between the cars.

"The derailed cars were badly smashed up, the baggage and mail cars especially being splintered and torn.

"The most miraculous part of the whole accident is the fact that the crews of the engine, baggage cars and the mail car escaped almost without a scratch. They did not have time to jump, as the accident came entirely without warning and the cars were bowled over down the embankment before the men knew that anything was wrong."

The Journal of the 29th says:

"The officials of the Santa Fe Company in this city made the statement yesterday that they are certain that the disastrous wreck of passenger train No. 7 yesterday morning early was the result of the work of criminals who removed spikes and joints from the track at the place where the big train was ditched.

The company has accordingly offered a handsome reward for the apprehension of the guilty parties. The following notice was issued:

"'Five Hundred Dollars Reward—The Atchison, Topeka & Santa Fe Railway Company hereby offers a reward of $500 for the arrest and conviction, or information leading to the arrest and conviction, of each and every person who tampered with or removed spikes and bolts from the company's track on the night of September 27, 1904, near Abajo, New Mexico, (about four miles south of the city of Albuquerque), by reason of which passenger train No. 7 was derailed and wrecked about 1:40 a. m., September 28, 1904.—Atchison, Topeka & Santa Fe Railway Company; by A. G. Wells, General Manager.'

"Experts who examined the rails and the joints immediately after the accident say that they are absolutely positive that the track had been tampered with.

"The escapes of Postal Clerk W. L. Wade of this city and M. S. Harris, the Wells Fargo messenger, were most remarkable. Wade saved himself by hanging on to the metal rack on the side of the car. Harris was knocked around in a mix-up of trunks and boxes but was only slightly bruised. Both men were released by Engineer Rehder who came running back as soon as his engine stopped and broke open the doors. The porter of the Filipino sleeper was also busy helping liberate the imprisoned men when he plunged head first into the pool of mud and water which had escaped from the overturned engine tank, and was literally plastered from head to foot with mud.

"The Filipino soldiers were members of the first battalion of native scouts under the command of Lieutenant McCue and were returning to the islands after a visit of several months at the World's Fair, where they were among the objects of interest to visitors. They were a bunch of bright, agile little fellows who seemed to relish the excitement of the wreck and they swarmed in and out of the windows of the derailed sleeper like so many monkeys. None of them were injured, though they were thrown around pretty forcibly in the berths.

Flood at Roswell.

A Roswell dispatch of the 3d inst., to the Denver Republican says: "Roswell is a scene of desolation. The flood that started Thursday night has receded. The damage will be over $150,000. For three days it was impossible getting telegraphic communication with outside points. The electric light plant was flooded and the city was in darkness. Water was three feet deep in the main part of the city and ran in streams through residences and business houses. So far as known no lives were lost. The banks suspended business.

It was reported Saturday night that a wall of water ten feet high would reach the city at midnight and hundreds of people fled to the hills south and north of town. The report proved false. The Roswell opera house fell Saturday night at 11 o'clock. About fifteen business and residence houses collapsed.

The dyke that was erected by the city was washed out in ten minutes after the flood struck it. The Hondo reservoir, which will be erected by the government at a cost of $340,000, will save the city from any more floods. This was the worst flood in the history of the city.

There have been no trains either north or south since Thursday. The railroad bridges over the Pecos have been washed away.

Word reached the city to-night from Carlsbad, New Mexico, that the railroad bridge over the Pecos river there was swept away last night. Two road bridges were washed away. The headgates on the Six Mile dam burst and in less than ten minutes there was a sheet of water in the Pecos river twelve feet high.

The cotton gin, mill and electric light plant were swept down the Pecos by the flood.

The Eddy-Hagerman dam was not damaged and the town of Carlsbad suffered little loss.

Report of Flood Damage.

An Albuquerque dispatch of October 3d gives further particulars of the damages by flood:

"The dyke at Alameda which last June a year ago saved the city from a disastrous flood, withstood the waters without a break, but the smaller towns of Barelas, Los Cerrillos, Alameda, Peralta and Tome caught the force of the big rise and hundreds of adobe houses crumbled to the ground.

"Many had narrow escapes from drowning, but no lives are reported lost.

"Above the city as far north as Las Vegas the Santa Fe has an army of men at work repairing the breaks and it will be several days, probably another week, before any trains will reach this city direct from the East. Several big bridges, besides half a dozen smaller bridges, have gone out between here and Lamy Junction. At this place a passenger train of several hundred passengers is held and food is reported running scarce.

"Several passengers stranded at Lamy drove overland to this city, a distance of nearly sixty miles, and they report the country for many miles off the railroad and far from the streams, completely covered with water, showing that the rain must have come down in torrents north of here last Friday and Sunday.

"Yardmaster Teneyck, who had a gang of men at work at the Alameda washout, came in to-day and reports a sad case. One of his workmen, Ricardo Arias, fell to the ground in a faint and when he was lifted up to be carried out of the water he was found to be dead."

The Scenic Route Road.

Under the supervision of Superintendent H. O. Bursum of the Territorial Penitentiary, convicts are now constructing the Scenic Route road between this city and Las Vegas across the beautiful Pecos Forest Reserve. The work is being done in a most thorough, substantial and painstaking manner, and when completed it will be one of the finest mountain roads, not only in the United States, but also in Europe, where they have had hundreds of years of experience in the Alps, Apennines and Pyrenees and other mountain ranges on that continent. The scenic attractions which will be opened by this road are of the grandest and most sublime character. Tourists, pleasure seekers and those who want health, rest and recreation, will be able to reach this city or the city of Las Vegas from the head waters of the beautiful Pecos River, within a very few hours and that in a comfortable manner by vehicles and on horseback, riding bicycles or in automobiles. The cost of the construction is comparatively speaking insignificant, but were this done by private undertaking it would run into the hundreds of thousands of dollars. The territorial administration, which is doing this for the benefit of central New Mexico, is certainly to be commended, and that highly for its course in the matter. This territory cannot have too many attractions for tourists, and the Scenic Route Road when completed next year will prove one of the best drawing cards and efficient advertising measures for the territory and will draw crowds by the hundreds to the Pecos Forest Reserve and to the two towns most interested, namely Santa Fe and Las Vegas.—Santa Fe New Mexican.

Indians Making Money.

The general impression among the eastern people who regard the Indian as a spendthrift and idler, and one who seeks only repose and comfort, will undergo a radical change if the doubters will pay a visit to the Indian school at the World's Fair. The New Mexico Indians have proven themselves to be the most industrious careful and thrifty of all the Indian tribes. As a further tribute Superintendent McCowan states that experience and a close study of their habits justifies the assertion made by the United States Indian bureau that these tribes will and are rapidly developing into the most intelligent of all the tribes, and are daily becoming less and less dependent upon the government. As an evidence of their thrift and industry the following is cited:

In the three months that the Pueblos have been at the World's Fair Pedro Cajeto has saved $120 from the sales of pottery and bows and arrows. Other members of the tribe have saved from $90 to $120, after paying their way into various places of amusement at the Fair, purchasing keepsakes and sending money to their kinsmen to pay for their winter supplies and labor around their farms.

The Navajos, practicing their art of silversmithing, have averaged from $2 to $7 per day from the sale of their wares, the greater portion of which they have saved. Mr. McCowan, who is their banker, receives almost every day a portion of their earnings which he is instructed to keep for them until their return.—Albuquerque Journal.

Suicide at Albuquerque.

Archie G. Sweetland, a well known citizen of Albuquerque, committed suicide September 20th. He left home early in the morning, telling his wife that he wished to look at some plumbing being done in a storeroom where he intended opening a restaurant. His dead body was found in the rear of the storeroom by a plumber who chanced to look in the window in the afternoon. An investigation showed that two shots were fired, the second bullet passing into the left breast and through the heart. He was sixty-one years of age. Mrs. Sweetland can give no reason why her husband committed the rash act.

The deceased was born at South Thomaston, Maine, and came to New Mexico twenty-three years ago. For years he was in the restaurant business here, then a trader and merchant among the Navajo Indians, then in the general merchandise business at Needles, California, and finally in the restaurant business in Albuquerque. He leaves a widow and one son, Archie Sweetland, Jr., who is employed at Marian's confectionery store, 127 South Spring street, Los Angeles, and another son, George Sweetland, is foreman of the Alvarado hotel laundry department.

"No one at fault for this deed. I did it with my own hands. A loving farewell to my wife, two boys and family."

One son, Archie Sweetland, Jr., is employed at Marian's confectionery store, 127 South Spring street, Los Angeles, and another son, George Sweetland, is foreman of the Alvarado hotel laundry department.

Railway Wreck Near Albuquerque.

An Albuquerque dispatch of September 28th says: This morning at 3 o'clock, south of this city, Santa Fe passenger train No. 7, bound for California, was ditched. The spreading of rails caused the engine, mail car, combination baggage and express car, extra baggage car and a tourist sleeper to jump the track and roll down a ten-foot embankment.

Mail Clerk W. L. Wade of this city and Express Messenger S. M. Harris of Los Angeles were both slightly injured.

The first battalion of Philippine scouts in command of Second Lieutenant McCue, occupied the tourist sleeper, which went over the embankment, and several of the scouts received scalp wounds and bruises, but none serious injury. All the scouts were thrown from their berths.

The mutilated body of an unknown white tramp was dug from under the wreckage this afternoon. At first it was thought to be a negro, so black and dirty were the face and hands, but investigation proved him to be a white man. A negro tramp was with him at the time of the crash, but escaped injury.

The track, which was badly torn up, was cleared of wreckage and repaired late this afternoon, when five delayed trains here proceeded. It is presumed heavy rains in the past few days are responsible for the accident.

Investigating Judge Baker.

An Albuquerque dispatch says: Some time ago the Good Government League drew up several columns of charges against Hon. Benjamin S. Baker, associate justice of the territorial supreme court and judge of this judicial district, and sent them to the attorney general at Washington.

The complaint was signed by J. F. Sulzer, chairman, and Thomas J. Curran, secretary, and the charges are to the effect that the judge wilfully decided cases which affected the personal or political fortunes of friends in accordance with their wishes, whether right or wrong. He is accused of resorting to the public press to show friendship for corrupt officials and of shielding and protecting alleged dishonest office holders.

As soon as Judge Baker heard of these charges he at once requested an investigation at the hands of the government, and G. E. Husted, a special agent for the attorney general, has been here the past few days investigating. Judge Baker denies the truth of all the charges made by the so-called Good Government League.

Rodey Will Not Run.

An Albuquerque dispatch of September 28th says: It is given out to-night that Hon. B. S. Rodey, delegate to Congress, will not make the race for delegate to Congress as an Independent Republican candidate, although he virtually announced yesterday that he would. Friends to-day assured him that it would be impossible to elect him, but that his running would be disastrous to the Republican party. The cause of the independent ticket was his defeat for a renomination, the successful candidate being Hon. W. H. Andrews.

The Santa Fe Railway Company has filed a declaration of intention to build a branch line in McKinley county connecting with the main line near Gallup. The line will be three and a quarter miles long and will connect a coal mine with the Thatcher spur.

Funds full sufficient to discharge and liquidate all obligations of the American Consolidated Copper Company have been raised, in addition to funds for the erection of a treating plant at Lordsburg. This means the immediate resumption on the company's mines in Grant county.

The Monero Coal Company has filed papers changing its principal place of business from Colorado Springs, Colorado, to Monero, Rio Arriba county, and appointing Patrick Fischer as its New Mexico agent. The Treasure Mining and Reduction Company has appointed E. G. McDermott of Graham, Socorro county, its New Mexico agent, to succeed E. H. Cullom.

A Mexican boy named Cerilio Montoya was arrested at the Albuquerque postoffice charged with opening some of the boxes and purloining letters. He opened the box of the Hudson Bill Posting Company, and, taking a letter containing a check, attempted to have the check cashed. A description of the boy was given to Postmaster Hopkins, who captured the lad at the postoffice. The case has been turned over to the United States authorities.

The Lawrence Plaster Company has filed incorporation papers at Santa Fe, the incorporators being Charles Hall, Wheeler Morris, P. Brewer and Walter H. Wheeler. The capitalization is $1,200,000 and the principal place of business in Roswell, Chaves county. A business office will be maintained at Minneapolis, Minnesota. The directors are: Norris P. Brewer, Charles Hall Wheeler, Walter H. Wheeler, David M. Scribner of Minneapolis; Fred Hunt and Wendel V. M. Reed of Roswell.

Govenor Otero has appointed the following delegates to the Transmissisippi Commercial Congress at St. Louis: Martin, Lohman, Las Cruces; W. H. Bucher, Hillsboro; C. J. Gavin, W. C. Wrigley and C. M. Bayne, Raton; Frank Springer, Jacob Gross and E. J. Vert, Las Vegas; Thomas H. Jencks and Thomas J. Curran, Albuquerque; R. J. Palen, Santa Fe; Herbert J. Hagerman and W. H. Atkinson, Roswell; W. B. Walton, Silver City; J. J. Corbett, Deming; J. O. Cameron and A. N. Pratt, Carlsbad; Joseph Pruitt, Aztec; Luther Foster, Mesilla Park; Dan R. Kelsey, Lordsburg.

Prof. Max Weber of Holland for months has been making geological charts of the northern part of Java, cables the Academy of Sciences at Amsterdam that he feels certain that he has discovered the long-looked-for missing link. He does not claim the honor of the discovery himself, but says that some weeks ago he was informed by a Dutch merchant, Van Heuren, that he had discovered a new species of monkeys in a dense forest in which he had lost his way.

The professor started out to look into the discovery of the merchant, and while watching for the animals to appear he heard a peculiar half human voice. Looking up, he saw an enormous nest and two ape-like animals looking down upon him.

The natives of that part of the island have long known the presence of these apes, which they call "Ash Penrizi." Unlike any other apes, they bathe frequently and the females wear strange necklaces of twigs and red berries and nurse their young, singing half-articulated words. They have, in fact, a language, but it consists of very few words.

A wise man doesn't encourage indolence in others by doing their work.

The ladder's top isn't easily attained, but the view is worth the effort.

THOUGHT SHE WOULD DIE.

Mrs. S. W. Marine, of Colorado Springs, Began to Fear the Worst. Doan's Kidney Pills Saved Her.

Mrs. Sarah Marine, of 428 St. Urain St., Colorado Springs, Colo., President of the Glen Eyrie Club, writes:

"I suffered for three years with severe backache. The doctors told me my kidneys were affected and prescribed medicines for me, but I found it was only a waste of time and money to take them, and began to fear that I would never get well. A friend advised me to try Doan's Kidney Pills. Within a week after I began using them I was so much better that I decided to keep up the treatment, and when I had used a little over two boxes I was entirely well. I have now enjoyed the best of health for more than four months, and words can but poorly express my gratitude."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.

When an Alaska Indian first saw and heard a phonograph he said: "Huh! him canned white man."

TEA

The soul is let loose by tea; it wanders far and forgets its prison.

This would be a dreary old world if there were no fools in it to make things lively.

A Wonderful Tracklayer.

A new railway track layer, with a crew of forty men, will lay two miles of track a day. The track layer has a huge crane sixty feet long, which projects forward over the road and hauls behind it a train of sixteen flat cars loaded with ties and rails. A continuous double line of the latter move constantly over rollers and carry the ties with it. Both rails and ties are seized at the proper time by the machinery and placed on the road in front of the train, where they shortly form part of the track over which it passes. This device is said to be the most expeditious as well as economical track layer in the world.

IN GREAT DISTRESS

VOMITING SPELLS LONG RESISTED EVERY EFFORT TO CHECK.

Mrs. Brooks Became So Weak She Thinks She Would Have Died But For Dr. Williams' Pink Pills.

Mrs. Sarah L. Brooks, of No. 45 Lincoln Park, Chicago, Illinois, gives the following account of her cure from distressing spells of vomiting:

"For five years off and on I was treated in vain by different doctors for relief from a stomach trouble which showed itself in frequent and trying spells of vomiting. Part of the time I was able to work, and again I would be confined to bed for three or four days in succession.

"My stomach was at times so delicate that it would not retain even plain water. The spells would sometimes occur at intervals of half an hour, and would leave me so weak that I would be compelled to lie down between them. I would have several of them during the night following a day of such attacks. Finally I became so weakened that I had to give up working altogether. I weighed only ninety-four pounds.

"Last January I read about Dr. Williams' Pink Pills for Pale People in one of the Chicago daily papers and bought a box and began to use them. After I had used half a box I found that I could keep on my stomach the food I ate. I was encouraged by this and kept on using the pills for four months. At the end of that time the vomiting spells had ceased altogether and my weight went up to 142 pounds and is still growing.

"I think I surely would have died if it had not been for Dr. Williams' Pink Pills, for I sometimes vomited clear blood, and for three or four days at a time I could not eat a bite of anything. One doctor said I had chronic inflammation of the stomach, and another said my difficulty was a cancer, but none of their medicines did me any good at all. Finally I concluded that I did not have blood enough to digest my food, and I began the treatment that has cured me. I can eat anything now, and have strength for all kinds of work. I always keep Dr. Williams' Pink Pills on hand, and I recommend them to my friends because I know they cured me."

Dr. Williams' Pink Pills agree with the most delicate stomachs and strengthen the digestive organs until they do their work perfectly. They are sold by all druggists.

People would meet with fewer disappointments if they didn't expect more than they deserve.

TEA

Do you think you know all there is in those three letters, t-e-a?

Your grocer returns your money if you don't like Schilling's Best.

Many a young man marries in haste and repents at his father-in-law's.

World's Fair Visitors.

Persons attending the great Exposition at St. Louis should secure a room close to the Fair and in a safe brick building. Hotel Epworth has all the conveniences of a first-class modern hotel, within four minutes' walk of Convention and Administration entrance. Rates $1.00 per day and up for lodging. Meals at reasonable prices. From Union Station, go to Olive street, take Delmar Garden car, going west to 6000. Our boys meet all cars.

What is one man's automobile is another man's juggernaut.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave. N., Minneapolis, Minn., Jan. 6, 1900.

One man who never did anything by halves has been arrested for making counterfeit dollars.

Mrs. Winslow's Soothing Syrup.
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Russia and Japan both apparently agree that facts are contraband of war.

TEA

You can see how much your confidence in us is worth. It is the making of us.

Your grocer returns your money if you don't like Schilling's Best.

It takes a lot of runs to enable a baseball team to win in a walk.

Census of Animals.

The census bulletin published at Washington gives the average age of the various domestic or domesticated animals. Among the larger species there is some uniformity. For the horse and the ass the extreme limit is thirty-five years, and for the horned cattle about thirty. For the dog it is given at twenty-five, while sheep, goats, pigs and cats are grouped at fifteen. But there are stranger disparities among the birds. While a goose may live thirty years and a sparrow twenty-five, a crow as many as a hundred; ducks, poultry and turkeys die of old age at twelve. The palm for longevity is divided between the elephant and the parrot, for both pass the century.

A Gigantic Belt.

A gutta percha and rubber manufacturing company of Toronto has made a belt for the grain elevator of the International railway, at St. John, which is one of the largest ever produced. It is of rubber and measures 3,250 feet. Its weight is nine tons.

Sure Cure at Last.

Monticello, Miss., Oct 3 (Special)—Lawrence County is almost daily in receipt of fresh evidence that a sure cure for all Kidney Troubles has at last been found, and that cure is Dodd's Kidney Pills.

Among those who have reason to bless the Great American Kidney Remedy is Mrs. L. E. Baggett of this place. Mrs. Baggett had Dropsy. Dodd's Kidney Pills cured her.

"I was troubled with my kidneys," Mrs. Baggett says in recommending Dodd's Kidney Pills to her friends, "my urine would hardly pass. The doctors said I had Dropsy. I have taken Dodd's Kidney Pills as directed and am now a well woman."

Dodd's Kidney Pills cure the kidneys. Cured Kidneys strain all the impurities out of the blood. That means pure blood and a sound energetic body. Dodd's Kidney Pills are the greatest tonic the world has ever known.

Duke Would Seek the Pole.

The Duke of Orleans has asked permission of the government of Norway to hire the Arctic steamer Fram, in which Dr. Nansen made his voyage to the Arctic regions, for the purpose of an Arctic expedition in 1905.

It is understood the admiralty will require that Captain Otto Sverdrup, former commander of the Fram, shall command the vessel if the government agrees to the proposition of the duke. The plan of the expedition has been submitted for the approval of the Norwegian authorities, and the University of Christiana will reap the benefit of at least a part of the scientific results of the expedition.

Don't Propose on Slight Acquaintance.

It is a bad plan for a man to ask a girl to be his wife on a very slight acquaintance, and a still worse plan for her to accept him under these circumstances. If they keep their heads it is surely not a very hard thing for them to conclude to wait until they know one another a trifle better before they decide that they are the two persons out of the whole world who are best fitted to live each with the other. When they have made this perfectly clear to their own minds, and not until then, should they become engaged, and announce the fact to the world at large; and, when they are engaged, they should understand the responsibilities of their position and not seek to evade them.—Success.

Ask a man to describe a gentleman and he will invariably describe himself.

One of the hardest things to find in this world is a friend who isn't hard up at the same time you are.

"I hear that Blowhard is in the soup." "Good! It is a consomme devoutly to be wished."

CAN DRINK TROUBLE.

That's one way to get it.

Although they won't admit it many people who suffer from sick headaches and other ills get them straight from the coffee they drink, and it is easily proved if they're not afraid to leave it to a test as in the case of a lady in Connellsville.

"I had been a sufferer from sick headaches for twenty-five years and anyone who has ever had a bad sick headache knows what I suffered. Sometimes three days in the week I would have to remain in bed, at other times I couldn't lie down the pain would be so great. My life was a torture and if I went away from home for a day I always came back more dead than alive.

"One day I was telling a woman my troubles and she told me she knew that it was probably coffee caused it. She said she had been cured by stopping coffee and using Postum Food Coffee and urged me to try this food drink.

"That's how I came to send out and get some Postum and from that time I've never been without it for it suits my taste and has entirely cured all of my old troubles. All I did was to leave off the coffee and tea and drink well-made Postum in its place. This change has done me more good than everything else put together.

"Our house was like a drug store for my husband bought everything he heard of to help me without doing any good, but when I began on the Postum my headaches ceased and the other troubles quickly disappeared. I have a friend who had an experience just like mine and Postum cured her just as it did me.

"Postum not only cured the headaches, but my general health has been improved, and I am much stronger than before. I now enjoy delicious Postum more than I ever did coffee." Name given by Postum Co., Battle Creek, Mich.

"There's a reason" and it's worth finding out.

First Assistant Postmaster General Wynne has returned from a vacation of several weeks in Europe.

Frederick August Bartholdi, sculptor of the statue of Liberty in New York bay, died at Paris, October 6th of tuberculosis.

The Massachusetts Socialists have placed a state ticket in nomination headed by John Quincy Adams of Amesburg for governor.

Mrs. Duncan Thompson, wife of the actor and author of the "Old Homestead," died at her home in West Swansey, New Hampshire, October 2d.

In a boxing match at West Bergen, New Jersey, October 2d, John C. Peters was almost instantly killed by a knockout blow in the fourth round and died in the ring.

Alderman John Pound, chairman of the London General Omnibus Company, Limited, has been chosen lord mayor of London for the ensuing year. He was born in 1829.

Several Mexican fiscal guards were killed in a battle with bandits a few days ago in the Sierra Madras, west of Cases Grandes. Two bandits were wounded and captured.

Twenty thousand dollars to establish a home for drunkards' wives in Iowa is one of the bequests of the late James Callanan, the eccentric philanthropic millionaire of Des Moines.

The new battleship Ohio was placed in commission at San Francisco on the 4th inst. under the command of Captain Logan. A battle flag was given the ship by the Ohio Society.

President Roosevelt has appointed Julius G. Lay as consul general at Canton in succession to Robert M. McWade, removed. Mr. Lay was formerly American consul at Barcelona.

After careful consideration of the international points involved, the State Department at Washington has decided to issue a temporary exequatur to Geronimo Ossa as consul of Chile in the canal zone.

The minister of agriculture estimates the wheat yield of France at 104,522,453 hectolitres, against 128,385,530 last year. The official estimate settles the controversy growing out of the recent unofficial estimates of the National Association of Millers.

The new Uintah railway in Utah will be open for traffic at once, and will shorten the haul of the Duchesne and Vernal country over the present route to Price by fifty miles. All army supplies are to go in and out of Duchesne by the new line.

A father may thrash his son until stripes are raised without being liable to arrest for assault, provided the boy is not old enough to have his dignity injured, according to a decision of Judge Kirwin in the Circuit Court at Sheboygan, Wisconsin.

Professor Koch, it is said, will go to German East Africa during the winter for the purpose of continuing his bacteriological investigations, particularly in connection with diseases of cattle, a study of which he began during his recent sojourn in Rhodesia.

Complete legislative nominations have been made at Honolulu by the Republican, Democratic and Home Rule conventions. There is a preponderance of natives on the Republican and Democratic tickets. The candidates of the Home Rule country are all natives.

A strong shock of earthquake was experienced October 2nd in the south of Italy, accompanied by floods of rain. The greatest force of the earthquake was felt at Calabria. Three houses fell at Soylla and many others were rendered unsafe. Fortunately no one was hurt.

The matter of the arrest of Secretary Gurney of the British embassy, at Lee, Massachusetts, for fast automobile driving, has been settled to the satisfaction of Sir Mortimer Durand, the British ambassador. The fine was remitted and a satisfactory apology tendered.

Mrs. Annie E. Hall Greenewald, the only woman forecast official employed by the United States government, died at Hanover, Pennsylvania, October 5th, aged fifty-seven. Mrs. Greenewald was president of the National Science Club of Washington and editor of a scientific journal.

It seems to be the practice of certain French specialists to fleece rich Americans. George Crocker of New York has begun a suit in Paris to recover $20,000 paid to Professor Deyn for attending his wife in that city. Mrs. Crocker had suffered for a long time from a cancerous tumor and died in Newport, Rhode Island, at the end of July last.

Surveyors are now in the field running a line from Dragon to Fort Duchesne and Vernal, Utah, which is to be completed next year, and is expected to connect with the Moffat road to the Ashley Valley country, which is one of the most prosperous sections of eastern Utah. Dragon is on the Rio Grande Western in Colorado close to the Utah line.

The administrator's report on the estate of Wilson Waddingham, the ranch owner who died in the West a few years ago, has been presented in the Probate Court at Norwich, Connecticut. There is $29,000 in hand to pay claims approximately $500 000. Not many years ago Waddingham was rated to be worth from $7,000,000 to $10,000,000.

The only Parker and Davis banner in Esopus, New York, Judge Parker's home, came near being wrecked by a terrific windstorm. Half the population turned out to save the banner, which was rescued by Rev. Charles M Hall, Parker's son-in-law, after W. C. Pullman had fallen from a building and broken a leg and County Supervisor Long had fallen from a tree into a pickerel pond.

The last rail of the fifty-mile road of the Uintah railway in Utah was laid October 5th, connecting the gilsonite mines of the St. Louis Gilsonite Company with the main line of the Rio Grande system at Mack, Colorado. It is fifty miles in length and a narrow gauge, but is later to be widened to standard gauge. The present terminus is Dragon, Colorado, four miles across the Utah-Colorado line.

"Do you know, Grumpey, that half of the world never knows what the other half is doing?" "Women do."

TEA

Good tea doesn't have to be fine; if fine, all the better. There is but one degree of goodness; there are twenty of fineness.

One day as a certain schoolmaster, with aspect fierce and cane upraised, was about to punish one of his pupils, the little fellow said, quite innocently, and doubtless with some vague recollection of a visit to the dentist, "Please, sir, may—may I have gas?"

It's impossible to love your neighbor as he loves himself.

THE WORLD'S FAIR—ST. LOUIS.

Hotel Epworth, three blocks from the Administration and Convention entrances, is a safe, permanent brick building of over 500 rooms. It costs no more to stop at Hotel Epworth than at the temporary staff and frame hotels. Rates $1.00 a day and up. European plan. First-class dining hall—reasonable prices. Every convenience. Headquarters Farmers National Congress. Rooms may be reserved. (Delmar Garden car on Olive.) Hotel Epworth, 6009 Washington Ave., St. Louis, Mo.

A baseball team would get rich quick if it could persuade the home manager to settle with it according to the paid attendance in the newspapers.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

Your grocer returns your money if you don't like Schilling's Best.

Any man's salary would be large if it were not for his expenses.

Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:—I suffered with stomach complaint for years. I got so bad that I could not carry my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got me to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman."—Mrs. Frank Beyer, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham:—I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak, nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, you must have a host of friends, for every day I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my home. Sincerely yours, Mrs. Max P. Wharry, Flat 31, The Norman, Milwaukee, Wis."

Actual sterility in woman is very rare. If any woman thinks she is sterile let her write to Mrs. Pinkham at Lynn, Mass., whose advice is given free to all would-be and expectant mothers.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

Strawberry and Vegetable Dealers.

The Passenger Department of the Illinois Central Railroad Company have recently issued a publication known as Circular No. 13,14 which is described the

best territory in this country

for the growing of early strawberries and early vegetables. Every dealer in such products should address a postal card to the undersigned at Dubuque, Iowa, requesting a copy of "Circular No. 13,14."

ZEIGLER BROS.

R. C Reynard and wife came in Sunday evening from Hillsboro, this territory to visit their home people, Mr. and Mrs. Frank Crumb. They are both old time residents of White Oaks, Mrs. Reynard having spent about all the fore part of her life here, and her husband was an operator in the mines here for several years before their marriage. Their visit will probably be extended through the winter.

It is a safe estimate to say that fully ninety-five per cent of the children of school age in White Oaks are attending the public schools this present term. Prof. Stephenson and Miss Covington seem to be having the work thoroughly in hand and the pupils are making very rapid advancement in their studies. One thing is particularly noticable and that is the almost entire absence of hoodlum predisposition so conspicuous in former years. Teachers as well as the board of directors deserve great credit for the present large attendance and the good decipline in our schools.

The republican candidates who have been making a tour of the county, getting acquainted with the people, numbering the voters and naming all the fables who had thus far gone without names, reached White Oaks Tuesday evening. Being somewhat tired they decided to lay over here yesterday for a rest. Last evening a rally and ball was given at the town hall. A large gathering was there to receive them. The meeting was presided over by Mr. Wm. Watson, who made a short preliminary talk and then introduced each candidate present, who in turn made his bow, a few timely and appropriate remarks and then retired in good order and as full of fight as a Japanese battillion before an overwhelming Russian advance. The persons composing the party were: Henry Lutz, Robert Hurt, Reinaldo Montano, John H. Canning, P. L. Krouse and William Brady—the latter as interpreter. After the business meeting was over the hall was cleared and one of the most enjoyable dances of the season was put in full swing which lasted until a late, or rather an early hour. There was no doubt in the minds of those present that republicans know how to do things and do them well.

Colonel and Mrs. George W. Prichard left Tuesday morning. Mrs. Prichard goes to make an extended visit with friends in California and the Colonel business in El Paso and elsewhere.

NOGAL ITEMS.

Miss Mary Sligh leaves in a few days to attend school at Mansfield, La.

Dr. L. H. Sawyer, who has been attending to the dental wants of the people of this section, left last Saturday for Parral, Mexico.

W. S. Bourne, Robt. Bourne and J. T. Cochran are doing some development work for the Old Governor Mining Co., in the San Andres Mountains.

P. G. Peters passed through here Saturday enroute to Carrizozo, where he went to meet some relatives from the east.

Thomas J. Moore contemplates putting a livery and feed stable here to supply a "long felt want."

Col. George W. Prichard and L. H. Rudisille paid a flying visit to Nogal and Vera Cruz last Friday.

Hon. George P. Money, democratic candidate for Delegate to Congress, made a short address to the faithful in front of the post office Wednesday last. He argued his hearers to vote for him as delegate, on the grounds that his father would like to see him in congress, and that Senator Andrews would have the territory overrun with railroads if he should be elected.

The political situation is beginning to liven up, and candidates are getting rather numerous, and from now on until Nov. 8, we expect to have considerable hand-shaking, free cigars, dances, etc.

Chas. A. Stevens went over to Shelerville Tuesday, to move his furniture to Bonito. Charlie will occupy the Grafton homestead this winter, while his children attend the Parsons school. He reports everything lovely on Turkey Creek. LOOKOUT.

To The Public.

I wish to emphatically contradict the rumor that is being persistently circulated around the county, that I am connected in business with the democratic candidate for treasurer.

I severed my connections with the Taliaferro Mercantile Co., of White Oaks, on February 1, 1902, and since that time have not been directly or indirectly interested in any kind of business with Mr. Taliaferro. I make this public announcement in view of the fact that it is currently reported that we are business partners. J. H. CANNING.
