## THE EXTENSION OF THE SANTA FE CENTRAL.

Articles of incorporation have been filed in the office of the territorial secretary for a railroad to run from Torrance to the Gulf of Mexico by way of Roswell. This road is an extension of the Santa Fe Central, and will open up a new field now without railroad facilities, both in the territory and Texas. In New Mexico it will give an outlet to the fine grazing lands of Lincoln and Roosevelt Counties and be a potential factor in the development of the whole Pecos valley and especially to Roswell. It will give direct communication with the Capital of the territory, as well as furnish an outlet for their products both to the north and south.

Senator Andrews, while in White Oaks last fall expressed the belief that the contemplated line would run within twenty five miles of this place, and if no other road got in ahead of him he would build a line in to tap the large bodies of coal known to be here. Nothing is so badly needed at Roswell and the whole country south east of here as cheap fuel, and the building of this line will solve that problem without a doubt.

The building of this line by a company which comes here for the purpose of developing the resources of the territory through which the road runs will add millions to the wealth of the state of New Mexico.

It now really looks as if the bill admitting the territories of New Mexico and Arizona as one state, will pass the Senate of the United States early in January. As the bill will be amended in several particulars it will necessarily have to go back to the House for reconsideration by that body. Here it may be held up until near the close of the session, but there seems to be but little doubt as to its final passage. So far as the people of New Mexico, themselves, are concerned, they seem to have lost interest in the matter of joint Statehood, but will wake up all right when it comes to voting, on a proposition so vital to their interest, and so repugnant to their wishes as this measure seems to be.

The El Paso Herald is doing a grand work in that heretofore Sodomitic city, in its fight for the ascendancy of the better element in its municipal affairs. If the work of reform, advocated by that paper is continued a while longer it will be possible for an outsider, and a Cananite to visit that city without being

## MINNESOTA'S NEW GOVERNOR.

The new governor of Minnesota has a name as common as mud.

Hitched to him is a story that makes you feel like taking off your hat and cheering the common people, who have big hearts and a keen appreciation of justice.

John A. Johnson is a Swede, the son of a Swedish immigrant. He worked his way up in the world and was honored by his fellow men.

His candidacy for governorship made him a political target. He took his medicine like a man. Finally the statement was made that he allowed his mother to take in washing and that his father had died in the poorhouse.

That mean, low-down story was investigated to the limit and here is the truth of it.

At the age of ten John A. Johnson, a mere child left school to help his mother. She did take in washing. It required the united effort of the pair to keep the wolf from the door. The father would not work. He was a loafer. Love for his wife and boy failed to move him, and at last, friends of the family sent the man to the poorhouse, where he could no longer live on a woman and a child.

The boy kept on working. He ran errands; he did odd jobs. He wore patches. He carried a man's burden on his boy's shoulders and never complained. His one ambition then was to be able to support his mother, and he did not rest until it was accomplished.

That story reached the ears of the voters of Minnesota. As a campaign argument it was ten times as powerful as would have been a method of securing universal peace.

John A. Johnson is a democrat. He ran ahead of his ticket something like 140,000. The Johnson landslide ran neck and neck with the Roosevelt landslide. He is the new governor.

You can bank on this fact: At heart the people are all right, and they love courage, fidelity, affection and integrity, and they know a man when they see him.

Port Arthur capitulated on the 2nd, of this month after undergoing a siege of seven months the like of which has few parallels in history for stubborn resistance in the face of an unceasing and murderous fire, and the assaults of overwhelming numbers. On the other hand the Japanese have challenged the admiration of the world for their courage and persistence in hammering away at the seemingly impregnable fortress, when death laughed at every blow. The terms of surrender are such as would be considered by all civilized nations as liberal and just, the rank and file to be retained as prisoners in the hands of the victors, while the officers are to be paroled, and to retain their side arms. By the capture of this stronghold the tension is relieved, the world breathes easier, and the end of the war is in sight, although Russia may bluster and growl for a month or two longer, as she receives an occasional prod from her victorious adversary.

The newly elected officers were duly installed at Lincoln on last Monday, and the affairs of the county are running in about the same old way, except—

## ZIEGLER BROTHERS.

The coal oil that the Standard Oil Company is now furnishing to the people of New Mexico, burns with that subdued red and yellow light peculiar to that which sits through the stained glass windows presented by Mr. Rockefeller to the various churches of a certain denomination throughout the United States. As to quality for illuminating purposes, it is simply villainous, and the next territorial legislature should make it a misdemeanor or a crime for any company to sell oil below a certain test.

This criticism is by the Kansas City Journal: There seems to be very little progress in calendar making. An inspection of the calendars for next year shows that the weeks contain only seven days each, and the longest month has only thirty-one days. The year as a whole lacks one of having as many days as the present year, which is a net loss of twenty-four hours. It looks very much as if the calendar maker had got into a rut.

## THAT MEANS US.

The year 1905 starts auspiciously for New Mexico. May the good outlook turn into prosperous reality.—New Mexican.

The territorial papers are advocating the passage of a "good roads" law by the coming legislature. That measure would have the unqualified endorsement of the people of Lincoln County, especially if we could have a detail of the able bodied road agents from the compulsory sanitarium at Santa Fe to perform the labor on our "Scenic Routes".

Some of the territorial papers are advocating the repeal of the law requiring all places of business to be closed on Sundays. People engaged in legitimate trade do not usually object to taking one day off every week. Even newspaper men can stand that much rest. Then why do they kick so strenuously about closing the "gilded palaces of vice" on that particular day. We usually have about all we can do to bear our own iniquities without whooping it up for the other fellows. Besides a man who takes his booze six days out of seven ought to have sufficient regard for his "innards" to give them a rest on Sunday.

New York is to have a bank that will keep open day and night. They don't find it necessary, however, to open up many of the churches in that town except on Sundays.

The St. Paul girl who laughed so hard over a funny story that she choked her jaw won't be happy again until she can tell her acquaintances precisely how it happened.

"I never indulge in gossip," said Mrs. Jane Goodridge Mansfield of Lynn, when asked how she came to live to be 103 years old. A remarkable woman in several ways.

The sultan says that he will protect the sale of the Bible in Turkey, but the world has discovered from long experience that it doesn't make much difference what the sultan says.

Justice Clark of New York's superior court has now decided that a sandwich is not a meal. Never mind. A banquet of baked beans and crisp pork and steaming hot brown bread is.

The increase in the public debt last month was \$2,453,265—but if your private debts haven't increased since the beginning of November, you really don't need to lie awake at night worrying.

"Jim Cummings," a famous train robber, died a natural death the other day at Leavesworth, Kan., where he had for a number of years been leading an honest life. His private winding will fortunately make it impossible to dramatize him.

One of the latest discoveries is that bits of earthworms from granite blast craters make a large proportion of the mass of granite. The moral is that you shouldn't believe your morning oatmeal, whether you miss the early train or not.

Fuente Indian Conference.

The result of the visit of the commission from the Pueblo Indians of New Mexico to the City of Mexico may result in the dissolution of the communal system by which the Pueblos have been governed from the time they were first known to the white man.

Remarkable Verdict.

In the District Court of Socorro county now in session at Socorro, Judge Frank W. Parker, presiding, James Grimes and Thomas Bauer, convicted at this term for robbery of the Santa Fe station at Magdalena last summer and blowing open the safe, were sentenced to a term of ten years in the territorial penitentiary at Santa Fe.

The evidence showed that the crime was committed at the close of day several months ago. Cullina was an American with a native wife and at the time of the murder it was alleged that Baeca was paying attention to Cullina's wife.

Survey for Proposed Railway.

The survey of the most difficult portion of the Durango extension of the El Paso & Southwestern railway, or as it is known, the El Paso & Durango railway, has been completed by Engineer J. L. Campbell, of the Pass City. If the road can not make traffic arrangements with some other road which will prevent building, work on the construction will be pushed very soon.

Need of Better Roads.

From practically every county in New Mexico the cry goes up every little while for better roads and better bridges. The Roswell Register demands these improvements for Chaves county, and it is probable that Chaves county will get them.

New Mexico Sanitarium.

New Mexico is to profit by the Louisiana Purchase Exposition in an indirect but pleasing way, in that it has been decided to remove what was known as the "Temple of Fraternity" on the exposition grounds and erect it at some point in New Mexico for the uses of the National Fraternal Sanitarium for Consumptives.

**DENVER EXPLORER.**

William Cooke Daniels Returning from Papua, New Guinea.

Twelve months on a cannibal island, the birthplace of leprosy, is the sacrifice of a Denver man in the interests of science. A letter has been received in this city by William F. Hillhouse of the Daniels & Fisher Stores Company, from Major William Cooke Daniels, telling of the success of a party of English scientists, of which Mr. Daniels is the leader, to the island of Papua, New Guinea, where exhaustive geographical and medical investigations were made. Mr. Daniels is now in Singapore and will return with his party to London before sailing for the United States.

Cambridge University, England, aided in the project, and scientists of renown volunteered their services. The men left London in August, 1903, in a brig belonging to Major Daniels, touching first at Sydney, Australia, and thence due north to the island. It is not probable that the entire island was explored, although it is safe to assume that no important territory was left unvisited. The Denver letter speaks of exhaustive data secured, which will be published in London. Thousands of photographs were taken, showing the natives and their conditions, pictures of animals and scenery, also cinematograph pictures of native dances and ceremonies, taken by A. H. Dunning, a professional photographer who had a large staff of assistants with him.

Dr. C. G. Sellman, a noted cancer specialist, accompanied the party to make a special study of that disease. The trip was suggested by Major Daniels and the idea readily found favor with the Geographical Society of London, the Royal Anthropological Society and individual English scientists. The latter organization endowed the Denver man with an honorary membership.—Denver News.

Miss Rose Hennessy, well known as a poetess and elocutionist, of Lexington, Ky., tells how she was cured of uterine inflammation and ovaritis by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have been so blessedly helped through the use of Lydia E. Pinkham's Vegetable Compound that I feel it but just to acknowledge it, hoping that it may help some other woman suffering as I did. For years I enjoyed the best of health and thought that I would always do so. I attended parties and receptions thinly clad, and would be suddenly chilled, but I did not think of the results. I caught a bad cold eighteen months ago while menstruating, and this caused inflammation of the womb and congested ovaries. I suffered excruciating pains and kept getting worse. My attention was called to your Vegetable Compound and the wonderful cures it had performed, and I made up my mind to try it for two months and see what it would do for me. Within one month I felt much better, and at the close of the second I was entirely well. I have advised a number of my lady friends to use it, and all express themselves as well satisfied with the results as I was."—Miss Rose Nora Hennessy, 418 1/2 Broadway, Lexington, Ky.

The experience and testimony of some of the most noted women of America go to prove beyond a question that Lydia E. Pinkham's Vegetable Compound will correct all such trouble and at once, by removing the cause, and restoring the organs to a normal and healthy condition.

"DEAR MRS. PINKHAM:—About two years ago I consulted a physician about my health which had become so wretched that I was no longer able to be about. I had severe backache, bearing-down pains, pains across the abdomen, was very nervous and irritable, and this trouble grew worse each month. The physician prescribed for me, but I soon discovered that he was unable to help me, and I then decided to try Lydia E. Pinkham's Vegetable Compound, and soon found that it was doing me good. My appetite was returning, the pains disappearing, and the general benefits were well marked. You cannot realize how pleased I was, and after taking the medicine for only three months, I found that I was completely cured of my trouble, and have been well and hearty ever since, and no more fear the monthly period, as it now passes without pain to me. Yours very truly, Miss Pearl Ackens, 327 North Summer St., Nashville, Tenn."

When a medicine has been successful in restoring to health more than a million women, you cannot well say without trying it, "I do not believe it will help me." If you are ill, do not hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound and write Mrs. Pinkham at Lynn, Mass., for special advice. Her advice is free and helpful. Write-to-day. Delay may be fatal.

—That a sure cure for Backache would be a priceless boon to the people, and especially the women of America, is admitted by all interested in medical matters, and Mrs. Sus Williams of this place is certain she has found in Dodd's Kidney Pills the long-sought-for cure.

"I am 38 years old," Mrs. Williams says, "and I have suffered with the Backache very much for three or four years. I have been treated by good physicians and got no relief, but thanks to God, I have found a cure at last and it is Dodd's Kidney Pills. I have taken only one box and it has done me more good than all the doctors in three or four years. I want all sufferers from Backache to know that they can get Dodd's Kidney Pills and get well."

## THE SORRY CONDITION OF OUR ROADS.

The roads of Lincoln County today are in a worse condition than they have been since roads were evolved from cattle trails.

The torrential rains of last fall cut them into gutters and ruts from three to ten inches deep, making travel anything but safe and pleasant.

Of course in a sparsely settled country like ours where there are vast reaches of country as yet uninhabited, and but little money to make repairs, this condition is in a great measure unavoidable. But it is quite noticeable that in the places where the country is comparatively thickly settled, the roads are no better, for here the public thoroughfares are confined to a very limited space, which prevents the traveler from picking his way on the side, in order to save himself and his vehicle from total wreck.

People have lived along these rocky highways since the fore part of last September, when the road were literally clogged with stones and debris without so much as turning their hands to clear a passage for their own convenience, much less for the suffering public. No wonder the people are beginning to inquire: "Is the office of road supervisor merely a subsidy or a sinecure. Added to this is the fact that our County Commissioners seem to have allowed the fencing of public highways with impunity, compelling people to travel miles out of a direct way, and often over rocky hills and well nigh impassable gulches.

Take for example the road leading from White Oaks to Lincoln, the county seat. For the first six or eight miles after leaving town the wayfarer meets with no serious impediment. Then without a note of warning or knowing why, he runs spang up against the corner of a barbed wire fence which seems to have grown up since the last show.

On recovering from the shock, his mind reaches out for the "Sword of Bunker Hill". Then he O's, for a wire cutter that he never bought, but not having either of these implements of wrath and ready relief along with him he begins to consider whether it is better to climb a half mile up the mountain side, to the right hand or the same distance through cactus brush and across sunken gulches to the left. Just as he decides to climb, as the most feasible way out, he spies in a neglected nook near by, an object about a foot high which at first he is unable to determine whether it be a symbol marking the last resting place of some defunct native, or a sign to, "keep off the grass". Upon closer inspection he finds it inscribed with the legend, "To Captain or Lincoln". As this has a slight leaning toward the left he decides him to count fence posts that way. Chee-wunk, chee-wuk, kor-chunk he goes over ruts, gulches and cavernous washouts, down one canyon for a mile to find a crossing, and up another to find a place that his rig will leap without getting all wheels in at the same time, and so over the hills and far away until he again strikes into the main road, which he knows has been travelled unharmed and untraced about as long as that coming from Jerusalem down to Jerico with this story.

The selfishness of his race, saw fit, for the benefit of a few paltry acres of adobe soil, to cause all this trouble and hardship.

And yet this is what is being done all over Lincoln County today, apparently unquestioned by, if not with the connivance, of our honorable board of County Commissioners.

"The public be d--d".

Geo. S. Treat is universally known as a man with a joking propensity, but there are things principally of a personal nature comes up sometimes trivial in themselves, which he fails to classify as humorous. A case in point. He was, up to within a few days the proud possessor of a pair of Tom-lous or dry land geese. No blameworthy of feign is, the lure of his customers flourished in his face in huge chunks, nor his own longings for a holiday fast could tempt him to part with them. Yesterday, without compunction or protest, apparently, he boxed them up, scattered a few crumbs at their feet and shipped them out of the country. He avoided all explanation as to this unwarranted proceeding, and to all inquiries turned a deaf ear. If he had one. But a little bird much smaller than a goose, has whispered it to the pine trees and the trees have murmured to the Outlook man, that after the late antics of another kind of fowl in this town he came to the conclusion he had made a mistake, and hereafter he will raise nothing but storks.

When you want Patent medicines, remember you get a dollar bottle for 90 cents at Taliaferro's.

As an offset to the Leap Year ball given by the young ladies of the town the week before, the young men played a return game with the girls, by giving a New Year dance and concert at the same place last Monday night, which was equally enjoyable, except that the novelty and the imminent risk of a proposal point blank and persuasive was lacking.

Justice H. B. Tompkins wishes it announced that he will be a candidate for reelection to that office on the second Monday in January. He has made a conscientious and efficient officer, and should be continued in his judicial capacity.

A very pleasant party met at the residence of William Hoyle Wednesday evening.

Mrs. M. A. Brothers will take charge of Hotel Ozama next Monday.

A stork seems to have been following in the wake of Santa Claus last week. It visited the homes of three families of this town in about as many hours and left a reminder of its visit in each, in the shape of dainty and femininity. The call was made at Elmer Linsey's and Bob Taylor's about the same hour, which almost makes them twin buds on separate stalks, while the visit at the home of A. B. Clayton came a short time later. The families so unexpectedly favored are a little prouder and are up more hours now than they were. If this unequal balance of power is kept up, it would look as if White Oaks was about to settle down to an era of universal peace and sisterhood, at least her troubles will be domestic rather than international.

We will positively compete and will not be undersold on all lines of groceries, flour, grain, etc., and can save you money on a bill of supplies. ZIEGLER BROS.

John Rairio, an old-time resident of the Bonito, but now a dweller on the Pecos flats, made this piece a friendly call yesterday. Mr. Rairio has been up doing the annual assessment work on some mining claims he still owns near Parsons. He reports that the whole Pecos valley excited over prospective railroads, reservoirs and the like. Work is actually in progress on the Hondo reservoir and the government surveyors have been running levels for the one they propose to construct in the Pecos valley, above the city, and by which, it is claimed, 300,000 acres of arable land will be brought under cultivation.

Liquid Ozone at Taliaferro's.

Elmer Linsey wishes it announced that he will be a candidate, for the office of constable at the election next Monday the 9th. As he is the only candidate thus far mentioned, it looks as if he would have a walkover.

The young people of White Oaks gave Willie Gallacher a very agreeable surprise party before leaving for Mesilla Park to resume his studies at the Agricultural College. From the number present it could readily be seen that Willie's friends include about every body in town.

All Patent medicines 10 per cent discount, at Taliaferro's.

A report comes from the Hop-fal mine, at Parsons, that a late run on the new mill at that point was encouraging beyond all expectations. This will be good news to the people of that camp, who have waited for many years for some practical test of the gold ore so abundant in that section.

John Gumma has returned and is now running the cyanide plant at Old Abe mine.

Advised Letter List. The following is a list of unclaimed letters lying in the post office at White Oaks, New Mexico for the month ending Dec. 30th, 1904, which if not called for within thirty days will be sent to the dead letter office, Washington D. C.
