THE TERRITORIAL CONVENTION.

The Territorial Convention met at Albuquerque on the 12th of this month and placed W. H. Andrews in nomination as Republican Delegate to Congress. This came as a great surprise to a large majority of the republicans of the territory, who all along had expected that Delegate B. S. Rodey would receive the unanimous endorsement of the convention.

These friends of the delegate had nothing but the kindest feelings for him and would gladly have given him their hearty support during the coming campaign if he had not allowed the chairman of the Territorial Central Committee to dig a pitfall into which they have both stepped together.

Chairman's Hubbell's methods had become so rotten and his looting of the school fund of Bernalillo county so apparent that it was found absolutely necessary, for the success of the party this fall, that he be set aside and some one with a clean record selected to manage the campaign. Mr. Rodey's friends weeks before had advised him of this and he was urged to free himself from all such base entanglements. When the convention met and it was found that Mr. Rodey had already not only identified himself with the Hubbell faction, but had actually determined to retain him as his campaign manager, there seemed to be nothing left for the convention to do but to place some other man in nomination who would more fully carry out the wishes of the people of the territory as expressed through their delegates. A decent respect for the feelings of mankind should be recognized in politics as well as in business and social relations, hence every good and self-

respecting citizen will rejoice in the retirement of Mr. Frank A. Hubbell, even though we may regret that his retirement carries with it that of Delegate Rodey, who has done valiant service for the territory in congress.

When W. H. Andrews was placed in nomination the stampede began and he was elected on the first ballot, 101½ to 60½ for Rodey. Thus ended one of the most remarkable conventions ever held in the territory.

THE REPUBLICAN PLATFORM.

Adopted by the Territorial Convention.

As it is impossible to give the full text of this platform in THE OUTLOOK, the main points only are here given:

The first section is a preamble and resolution in regard to the death of New Mexico's firm friend and eminent champion Hon. Matthew S. Quay.

Next is the unqualified endorsement of the National Republican Convention, held in Chicago, and the pledge to loyally support the declaration of principles therein set forth, also the action of that convention in placing the names of two such eminent statesmen as Roosevelt and Fairbanks on the national ticket.

This is followed by a clause endorsing the territorial administration, and citing the fact that when Gvo. Otero took the office there was a debt of \$1,249,800 hanging over the territory, much of it for deficiencies incurred in running expenses, during two democratic administrations, that during the time he has been in office the affairs of the territory have been so well administered that no deficiencies have occurred and the debt by wise economy, has been reduced until it is now only \$854,735, and this debt has been refunded at a much lower rate of interest than ever before.

The next is a vote of thanks to Hon. B. S. Rodey, our delegate in congress, for his untiring zeal and watchful care in guarding the interests of the territory on all occasions.

Then follows a resolution urging the passage of a bill introduced by our delegate in reference to granting school lands in lieu of sections covered by land grants throughout the territory amounting in all to about one million

acres. This is followed by the denunciation of the Culberson bill, the Stephens bill and all other measures seeking to deprive the territory of the free use of its water and favors the building of the Elephant Butte dam and other reservoirs along the Rio Grande and asking the government to encourage these improvements in every way possible.

Statehood is also endorsed and the admission of this territory as a state in the union under the present name and boundaries is demanded.

The next resolution is a vote of thanks to T. A. Hubbell for the manner in which he discharged his duties as chairman of the republican central committee during the past two campaigns, which in the opinion of THE OUTLOOK, was entirely superfluous and unnecessary considering the fact that his record as a county official has been proven to be anything but clean.

A bill creating another judicial district in the territory was recommended.

The concluding resolution is in regard to the rights of both capital and labor to the protection of the laws, without expressing any very decided opinion either way. In fact it is one of those kind of planks one is apt to see in a democratic platform that can be made to wiggle either way.

The platform is a reasonably good one and expresses all that was necessary to say at this time, seeing the issues between the parties are so well understood.

THE CANDIDATE.

The following is taken from a rather extended sketch of the republican candidate for Delegate to Congress, published in the Santa Fe New Mexican:

Senator W. H. Andrews, is a native of the state of Pennsylvania and about fifty-two years of age. He was educated in the public schools of his native state. His occupation might really be called that of a farmer, as he was always fond of agricultural pursuits, and is the owner of some extensive, well-conducted and profitable farms in Pennsylvania, although for a dozen years he conducted successfully large mercantile establishments at Titusville, Pa., Louisville, Ky., and St. Louis, Mo. Upon attaining his majority, being a strong republican, he immediately engaged in politics and attained much prominence. He served several terms as a member of the House of Representatives and of the Senate of the Keystone state and during this service was for the most of the time chairman of very important committees. For four years he served in the Senate, and during that term did very valuable and effective work for his constituents and for the people. He was always in favor of and supported progressive legislation, was a strong friend of public education and advocated the rights of the laboring man; at the same time recognizing that the rights of capital and capitalists should be respected and that even-handed justice should be meted out to all, regardless of station, rank or wealth. For many years he was a warm personal friend of the late Senator Matthew Stanley Quay, and held the position of chairman of the Republican State Central Committee, which he filled with great success and ability. He has had a thorough training for many years in legislative and political affairs. He came to New Mexico about ten years ago and engaged in mining at Andrews, Scurra county, where he still retains valuable mining interests.

El Paso-Northeastern Railway and the Chicago, Rock Island & Pacific Railroad, in eastern New Mexico, with Santa Fe, the capital of the territory, and with Albuquerque, would prove profitable and timely. He carefully examined the situation and became convinced that the plan was not only feasible, but, if carried out, would prove of vast benefit to Valencia, Santa Fe, Bernalillo and Lincoln counties, in particular and to the territory in general, in addition to becoming a source of profit to the capitalists who put up the money for the building of such a line. Two and a half millions of dollars were raised, surveys were made, active work pushed and the Santa Fe Central Railway, from Santa Fe to Torrance, in Lincoln county, a distance of 120 miles, is now an accomplished fact. This road has been in successful operation for over a year and its passenger and freight traffic is constantly on the increase. Within the past few months the Senator has arranged for sufficient funds to construct the Albuquerque Eastern Railroad from Moriarty Station on the Santa Fe Central to Albuquerque, a distance of forty-five miles. Fifteen miles of the grade of this line have been finished and steel rails are arriving for the track. The ties and bridge timber for the entire line are on the ground and the Albuquerque Eastern and the Hagan Branch, it is expected, will be in active operation by March 1, 1905. Senator Andrews is also president of that road, with headquarters in Albuquerque. He has by his endeavors and well directed efforts, brought more actual capital into the territory since he has become a citizen of it, than has any other man since New Mexico has been a political sub-division of Spain, Mexico and the United States. He is in a position to do still more in the future, and there are several great railroad and mining enterprises under consideration by him and associates, which before long will be resolved into realities and will become great factors in the up building and advancement of New Mexico.

He is in the prime of life, energetic, fearless, a man of affairs, a thoroughly posted politician and experienced legislator. He is a true and firm friend and an honorable man, who always keeps his word in politics as well as in business.

It is reported that there is a revival in one of the principal agricultural industries of Florida, which was practically abandoned when the orange culture became the craze in that region. This is alligator farming. They plant the seed-eggs in the sand about ten feet apart, five in a hill, and thin out to three when the young shoots are about a foot long. They till them with a pitch-fork and a palmetto club, and when the crop is ripe they gather it with a torpedo boat and a rapid fire gun. Only the husk is used as an article of commerce. This is manufactured into shoes, bolts and grips used by drummers. The latter are said to sometimes use it, though not often, to reinforce their check.

The editor of a Boston religious newspaper wrote a rebuke to a fashionable young belle of that city, on account of her "trousers" worn at a party, which cost \$25,000, and the printer got it "trousers." The good man has inaugurated a strike among his office forces.

In New York City alone seven-teen thousand five hundred and forty-six stray dogs were gobbled up by the dog catchers of that city last year. And yet, here in White

Hon. F. A. Manzaneros, twice a delegate in congress and one of the most prominent business men of the territory died at his home in Las Vegas on Sunday last.

William G. Rich, for six years secretary of the territory and much of that time acting governor, died at his home near Engle, on the 14th of this month. He held many prominent positions during his residence here, was president of the Educational Association Board of Emigration and made exhaustive researches in the early history of New Mexico. He was also a Mason of high standing, a Knight Templar and at one time was Grand Master of the order of Odd Fellows, of the territory. He was taken to Santa Fe for burial.

Monday, October 17, has been designated as New Mexico day at the St. Louis World's Fair by the board of managers. Speeches will be made by D. R. Francis, president of the Exposition, Charles A. Spiess, Chairman of the Territorial Board Gov. Otero, Judge John R. McFie and others. There will also be a reception and all the other frills usually considered necessary on such occasions. As to whether or not the Navajoes will be picketed out, the Igarotos caged or the ostriches muzzled, during these ceremonies, this paper is not informed. The people at the Fair, however, will continue to move right along.

Politics has side-tracked a greater part of our general matter this week. We will try and do better in the future.

NOGAL ITEMS.

Dr. T. H. Cooper and family left Wednesday last for Detroit, Mich., from where he expects to go to Canada to visit his relatives. The doctor has not improved much since his return from Colorado and wants to consult some Detroit specialists as to his condition.

I. S. Morris, an old timer in Lincoln county and a first class mechanic, who has been employed at Vera Cruz during the past summer, has returned to Alamogordo where his family resides at present.

The republican primary held on Thursday, Sept. 15, selected the

following delegates to attend the county convention: Clark Hust, M. M. Duke, W. R. White, Thos. J. Moon, Miles B. May, J. H. Canning and Lundy Mathias. The delegation go without any instructions whatever, but are favorable to R. D. Armstrong for sheriff.

Mrs. P. M. Johnson has been seriously ill for the past few days, but is now reported improving.

A very pretty wedding ceremony was performed at the parlors of the Brown Hotel on last Tuesday evening. The contracting parties were Mr. W. J. Bowen and Mrs. L. Moon of Capitan, Thos. J. Moon and wife were the witnesses, and the ceremony was performed by Rev. V. P. Moon, of Greenville, Mich. The bride was tastefully attired in a costume of white crepe du chine, with trimmings of white satin. In the evening the Nogal band serenaded the bridal couple for a short time, and rendered some very sweet music.

M. D. Gayler is reported to be very sick the past two weeks, suffering, we understand, from an attack of apendicitis.

W. J. Doering is contemplating moving to Alamogordo at an early date, he thinks the mountain country is rather lovely, especially since the days are growing shorter.

George U. Underwood, our popular Justice of the Peace, has left for Delta, Colorado, where he joined his family, who have been located there for some time. We trust the commissioners will appoint a good man for the vacancy.

LOOKOUT.

Call for Republican Representative Convention.

A Republican Delegate Convention for 16th Representative District of New Mexico, is hereby called to meet at the Court House in Roswell, New Mexico, at 8 o'clock p. m. on Saturday, October 1, 1904, for the purpose of nominating a candidate in the Thirty-sixth Legislature Assembly of New Mexico, for the election of a Representative District Committee, and to transact any business that may properly come before the convention.

Representation in said convention will be based upon the vote given for delegate to Congress at the general election of 1902, and the basis of representation will be one delegate for every fifty votes or fraction thereof over twenty-five, with a minimum of two delegates to every county, which for the various counties of this district will be as follows:

Lincoln county	15 delegates
Chaves county	6 delegates
Edley county	4 delegates
Kingman county	2 delegates

Proxies will be recognized when held by members of the delegation or by citizens of the county who are the delegate, conferring the proxies resides.

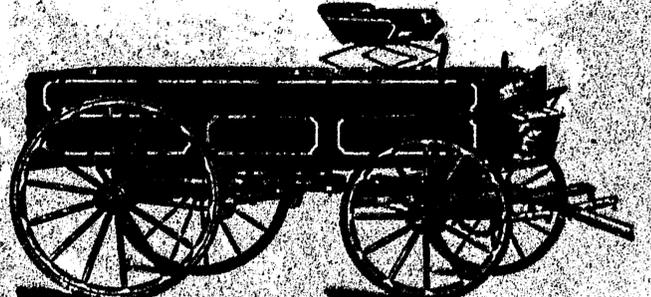

A. J. NISBET,
Chairman Legislative Com.
J. M. HERVEY, Secretary.

WHITE OAKS, NEW MEXICO.

What has become of all the people who used to come to discover the north pole?

Mrs. Gelfich's white ball wasn't advertised as a "society circus," but it was a real one.

The Hague tribunal is still shut down, but the Krupp gun works are going day and night.

An Orange, N. J., man has invented asbestos clothing. There's nothing like preparing for the future.

Haying one foot in Thibot, Mr. Bull may be depended upon to lose no time in inserting a shoulder.

Reports from Delaware are to the effect that the peach crop is splendid. This is indeed a remarkable summer.

Maybe the sultan acquired that habit of prostration in trying to postpone getting things demanded by his wives.

The ladies of Newport—not counting Harry Lehr—are said to be wearing \$6,000,000 worth of diamonds this season.

Mrs. Astor offers a reward for the return of a lost puppy. Several youths of the 400 are reported to have gone into hiding.

Patti will now make an autotour of the United States. Is this a new form of farewell that is about to be sprung on us?

While searching for "Kruger's millions" off the South African coast, 25 persons have been drowned. Are the millions worth it?

Red hair is now said to be a sign of degeneracy, but it has not yet been made clear to us where the proverbial gray horse comes in.

A Harvard professor has discovered on the moon a spot that is three miles across. Perhaps it's some moon farmer's potato patch.

Sir Thomas Lipton will indulge in another season of jolly fellowship in this country, accompanied by another slow but sure Shamrock.

If that no-hat fad could be extended so as to include the women before next Easter a large number of married men would adopt it with enthusiasm.

The population of the world, according to the latest estimate, is 1,607,419,333. But these figures were published before Col. Alexis Romanoff was born.

A late book of etiquette says biscuits should not be opened with the fingers. Some of 'em need to be opened with prayer and a stick of dynamite.

A man up in New Jersey has been so thoroughly done up by mosquitoes that he is now at death's door. When the door is closed the skeeters will let him alone.

Even a poor guesser can foresee what sort of report King Leopold will make after his investigation of his own administration of the misgoverned Congo Free State.

After having robbed a citizen of Connecticut of \$5,000 it was mean for confidence men to write their victim that he was an old fool. Even Wall street would not be so inconsiderate.

The old-fashioned daguerreotype is to be revived. The old-fashioned bloom that our grandmothers wore in the heyday of their youth and beauty should certainly be revived with it.

Pennsylvania barbers, it is said, will refuse to cut the hair of a man who shaves himself. This brings up the question, will a wife who truly loves her husband learn to cut his hair for him?

It is stated that 1,200 wires have been inclosed in a telephone cable two and one-half inches in diameter. Think of the sulphurous thoughts that might be engendered if all these lines were "busy" at once.

The Savannah Morning News recently bloomed forth in a little editorial essay on "How to Live on Smiles." That's one subject that the average newspaper man really knows something about.

A Chicago bank clerk left \$5,000 in an elevated car. Still, it must be admitted that in spite of the general prosperity we are enjoying there are people in Chicago who would not be likely to forget even \$5,000.

The London Lamp complains that modern educational systems do not give the girls proper instruction concerning the duties of motherhood. What's the use, since the fashion is to turn the duties of motherhood over to the nurses?

The Atlanta Constitution refers to that city's milk supply as "unholy milk." We can at least guarantee that our abundant milk supply is not so holy as the Atlanta Constitution suggests.

Andrew Carnegie's agent has wired that the \$10,000 is ready for the Roswell Carnegie Library. Work on the building will begin in the near future.

M. M. Kahn, ex-postmaster of Taos, was found guilty in the United States District Court at Santa Fe on the 9th inst. of embezzling \$75 of postal funds, and pending a motion for a new trial, was committed to the county jail.

Alexander Gundorf, an old Taos merchant, has sold his mercantile establishment in the town of Taos to a new firm which will do business under the name of Bond, Gundorf & McCarthy. The price paid was \$25,000. Alexander Gundorf, who will retire, has been a citizen and merchant of Taos for many years.

Lehman Spiegelberg, who died a few days ago at his home in New York, was a resident of Santa Fe for more than twenty years. He engaged in mercantile pursuits at first, and later was president of the Second National Bank of New Mexico. He was one of six brothers, all of whom were at one time residents of Santa Fe, and every one of whom amassed a fortune before leaving New Mexico.

A company of local capitalists is being organized at Las Vegas to build a new \$100,000 hotel. It is said that a large tract has been secured for a site in the very heart of the city. The San Miguel and First National banks, the electric light company, the water company and Gross, Kelly & Co. have each subscribed \$5,000 and enough has been assured to make the cash subscriptions \$60,000.

Judge Frank W. Parker on the 6th inst., appointed William E. Martin of Socorro clerk of the Third judicial district, with headquarters at Las Cruces, to succeed J. P. Mitchell, resigned. The appointment becomes effective October 1st. The vacancy created by William E. Martin resigning the clerkship of the Fifth judicial district to accept that of the Third judicial district was filled by Judge William H. Pope appointing Carl M. Bird of Roswell to the vacancy. This appointment will take effect August 1st.

A Roswell dispatch of September 9th says: The Pecos Irrigation Company, which was protesting the building of the Hondo government reservoir, was left in mid air this afternoon at the conclusion of the hearing by the government board of commissioners. Facts and figures were submitted by W. M. Reed, a reclamation engineer, that upset all its claims and work likely will begin on the reservoir in the near future.

Colonel R. E. Twitchell, chairman of the executive committee of the New Mexico Irrigation Society, has received a letter from Hon. George H. Maxwell, president of the National Irrigation Association, to the effect that he will be in attendance at the session of the Congress at Albuquerque October 11th and 12th and will address the convention. Other speakers and irrigation workers of national note are expected to be heard at the Congress.

Governor Otero has made the following reappointments on boards of territorial institutions of members whose commissions have expired: O. L. Gregory of Las Vegas, member of board of trustees of the Territorial Insane Asylum at Las Vegas; Dr. J. H. Worth of Albuquerque, member of the board of regents of the University of New Mexico at Albuquerque; F. G. Bartlett of Magdalena, a member of the board of regents of the School of Mines at Socorro.

At Deming, on the 6th inst. Olga, the eight-year-old daughter of Mr. and Mrs. James Howlett, was accidentally killed while visiting the children of Fearce Rice. The latter were playing with a revolver, and a few seconds after Olga reached the Rice home a shot was accidentally fired, the bullet passing through the head of Olga. Mr. and Mrs. Rice were absent at the time, and when men who heard the shot reached the house the little girl was hanging across a chair dead. The children had no idea that the revolver was loaded. The funeral of the little victim was largely attended.

While excavating to place braces under the grand stand at the fair grounds in Albuquerque, workmen uncovered a human skeleton. The entire frame was taken from the earth, piece by piece, and laid out just south of the grand stand. It was the skeleton of an adult, whether native or white man none who saw it could tell. The skeleton may be that of some one who was the victim of a tragedy of the early days of old Albuquerque or only the bones of one of the many criminals executed in the old adobe county jail and buried in the valley near by. The remains were taken in charge by the proper authorities and given a decent burial.

M. Wright, the observer who has been assigned to take charge of the weather bureau office at Roswell, has completed arrangements by which he will take possession of the stone house on North Main street in that city now occupied by Captain Clark and family. This place will not only be the home of Mr. Wright and family, but will also be the Roswell Weather Bureau office. Mr. Wright will have a high tower erected on which his instruments will be placed. Many of the instruments are already at Roswell and Mr. Wright expects to have the station in operation before the end of the month. It is Mr. Wright's desire to have issued not only a daily printed report, but also a daily map.—Santa Fe News.

Arrangements are now under way, which, if carried out, will mean the building of a telephone line from Artesia to Alamogordo, a distance of 100 miles. The connection of Artesia with Alamogordo would mean that Roswell would have a long distance telephone connection with Santa Fe, Albuquerque, Las Alamos, Captain Crowcroft and all other important mountain towns. The line would also connect with El Paso, Dallas, Fort Worth, Galveston and many other important Texas towns. The parties who are engineering the scheme are enthusiastic about it, and the work will likely be started in the course of a few weeks. If this line is built it will put greatly on the telephone service of this part of the state.—New Mexican.

Juan Chavez, a pioneer citizen and the oldest Mexican in New Mexico, died at his home in Roswell on the 9th inst., at the age of 124 years. When he was born, which was near the place of his death, this region was a part of Mexico.

The Sheep Sanitary Board of New Mexico has appointed the following salaried inspectors to enforce the dipping regulations: M. W. Stone, Roswell; Ernest Johnson, Santa Rosa; Thomas Clements, Magdalena; H. F. Gosney, Las Vegas; J. B. Robertson, Chama.

The Amarillo extension through the Panhandle plains was what first gave the Pecos valley a chance, for it furnished an outlet to Colorado, Kansas City and eastern points. In 1900 the Chiam hog ranch, the Hagerman orchard and the Slaughter cattle ranch had attracted the attention of the Santa Fe officials and they bought the Hagerman line and extended it to a connection with their lines in Kansas, thereby making the development of the Pecos valley a certainty.

W. H. Andrews of Sierra county, president of the Albuquerque Eastern & Santa Fe Central railway, was nominated by the Republican convention at Albuquerque for delegate in Congress on the night of September 12th. He was placed in nomination by Col. W. H. Llewellyn of Las Cruces, and won in convention over B. S. Rodey, the former delegate, by a decisive vote. Mr. Andrews is a former lieutenant of Senator Quay of Pennsylvania, and was prominent in Pennsylvania politics. He is well known and influential at Washington.

A Las Vegas dispatch of September 6th says: Sheriff Cleofes Romero has arrived in the city, bringing with him Anastacio Rael, charged with being one of a party of white-cappers who cut fifteen miles of wire fence on the Beck grant, also cutting away the posts. The big grant, where formerly hundreds pastured their stock, has been fenced and leased to cattlemen. Several settlers have been fenced in. The small stockmen of the country are up in arms about the matter and threaten to cut every foot of fence. The court has instructed the officials to use the greatest vigilance to secure order.

An Albuquerque dispatch of September 7th says: Day before yesterday at Cook's Peak camp, south of this city, Herman Wallace and a man named Jose Delgado, got into a bitter controversy which resulted in Wallace pulling his revolver and shooting Delgado three times. Wallace drove to Deming, reported the shooting to the sheriff and gave himself up and has been placed in jail. Delgado is dead. Wallace is a contracting teamster and has been living at Cook's Peak the last twenty years. Delgado was in his employ. It is stated that both men were drunk and that Delgado threatened Wallace before the shooting.

A Mesilla Park correspondent says: This has been opening week for the Agricultural college at Mesilla Park and the college halls and grounds presented the usual scene of animation. With the close of the first day's business 117 students had regularly enrolled in the college. Many of these are new students coming from different outside points throughout the territory and the enrollment indicates an increase and more general interest in the work of the college by the territory at large. The government has recently detailed as new military instructor Col. Eaton E. Edwards of Washington, D. C., and his arrival is expected at an early date.

Col. W. H. Greer has given Silver City a suspension bridge. That is, he has given the cable to make one out of. They are going to build a cable foot-bridge across the big arroyo to take the place of the one that was washed out by the recent flood. The manager of the Victoria Land and Cattle Company has generously offered the city all the cable necessary to build the bridge from a large supply which is on the Southern Pacific siding at Separ. The cable was formerly used on the old Market street cable line in San Francisco, and was bought by the Victoria company to be separated into strands and used for fencing wire. Later it was found to be ill adapted for this purpose and was never used. The bridge as planned will be 100 feet long and will be erected by individual subscription.—Albuquerque Journal.

Golden Postmaster Shot.

A Santa Fe dispatch of September 6th says: Postmaster Robert M. Carley of Golden was fatally shot last night by an unknown assassin, who made good his escape. Three bullets from a Winchester rifle entered his body and he lived only about fifteen minutes. The coroner's jury is holding an inquest. The fact has been established that Postmaster Carley had had no words with anybody during the day or evening.

A posse was formed soon after the shooting to run down the murderer, but on account of the darkness nothing could be accomplished. The shooting undoubtedly was premeditated and it is probable that the enemy of Carley had been lying in wait for some time. The dead man was shot from behind on stepping from the top of a frame building, behind which it is believed, the assassin was standing.

This morning Sheriff H. C. Kirtel received a telegram from Carlisle notifying him of the shooting and asking a deputy to the point to assist in running down the guilty parties.

Severe Drouth in Europe.

Boston, Sept. 11.—A report of the American Missionary Board, from Rev. J. S. Porter, its missionary in Schenmel, Bohemia, states that the whole heart of Europe, particularly Bohemia, and Moravia, is suffering from the most severe drouth within the memory of any one living. Potatoes and many other crops are a failure. The wheat crop is so light that many wheat farmers will not be allowed this year. The drouth is so low that six weeks' rain would have been able to grow wheat and potatoes and other crops and thousands who would have died on all parts of Europe are now suffering from drouth.

The Denver News of September 6 says: In charge of Hydrographic Engineer M. C. Hinderlider of the United States Geological Survey, twenty expert federal engineers equipped with camping equipage for several months' work, will leave Denver this morning for San Juan county, New Mexico, where they will be engaged until the snow flies in making original surveys for the proposed La Plata government irrigation project. This new system for the reclamation of 50,000 formerly fertile acres of the richest agricultural lands in the West, contemplates the diversion by 100 miles of canals of water from the Animas river around the base of the Basin mountains of the great divide, into the now dry bed of the La Plata river.

After several preliminary trips to determine the general physical features of the country, Engineer Hinderlider found how the La Plata might be replenished. It is estimated that about 50,000 acres in the valley will come under the project when completed. To make certain that the land wanted for the canals, reservoir sites and related purposes will be available when wanted, the government has set aside 400,000 acres of the public domain. Three hundred and ten thousand acres of this land is in New Mexico. The remaining 90,000 acres is in Colorado, and some of this will be used for such reservoir sites as may be necessary.

The problem to be solved by the preliminary surveys which will commence immediately upon the arrival of the engineering party in New Mexico, is to determine the approximate cost of the project as outlined. To be acceptable, it must not exceed \$25 to \$30 an acre, or \$1,500,000 for the 50,000 acres to be benefited. The factors which will determine the cost are principally the physical difficulties encountered.

The necessity for the reclamation of the valley of La Plata was called to the attention of District Engineer A. L. Fellows through representations made at Washington by Delegate Rodey of New Mexico, who presented to Congress and to Chief Engineer F. H. Newell of the reclamation service lengthy petitions from the residents of northern New Mexico and southern Colorado in the vicinity of Durango.

The district which the proposed project will materially benefit, if found feasible, is but forty miles south of Durango. As it is shut off from the rest of New Mexico by high mountains, Durango is the natural outlet for the valley. These include all kinds of deciduous fruit, grain, alfalfa, vegetables and all varieties of agricultural products. During recent years, however, La Plata valley in Colorado has become settled and the water has been used up long before it reached New Mexico. As the water was used across the state line in Colorado, the inhabitants along its banks in New Mexico had no recourse in the courts.

Late Crop Bulletin.

The crop bulletin for New Mexico issued September 6th says: "Hall, with a heavy rain storm at White Oaks, did considerable damage to houses and destroyed gardens and fruits. As a whole the weather conditions have been very favorable and crops and grass continue in excellent condition. Cool nights have been quite common and some northern and higher altitude stations barely escape frosts.

"Grass on the ranges as a rule is fine and stock of all kinds is thrifty. A few localities, however, report dryness and short grass which is drying out rapidly and gives poor promise for winter feed, especially in parts of Colfax, San Miguel, Lincoln, Chaves, Otero and Grant counties.

"Haying continues and the harvest of the third crop of alfalfa is beginning in the northern counties, with a good yield. Dryness has caused some drying of late cane, corn and beans in parts of Lin county, but generally the crops are growing nicely. Corn is filling well and everywhere planted too late for ears will make an abundance of fodder.

Hearing Reservoir Protests.

A Roswell dispatch of September 8 says: The board of examiners to hear the protests filed by the Pecos Irrigation Company against the building of the Hondo government reservoir is in session in this city. The board consists of Assistant Chief Engineer A. P. Davis and Consulting Engineers B. M. Hall and W. H. Sanders of the Geological Survey.

The Pecos Irrigation Company is protesting, claiming prior rights to the flood waters of the Hondo, and the content has excited interest over the entire West.

The bids were opened last evening. The protest will not be decided until all the papers in the case are acted on at Washington. All of the bids will be examined here and the commission will recommend to the department the decision which will practically make disposition of the case. It is thought that the protest of the Pecos Irrigation Company will be disregarded.

The proposed cost of the reservoir is \$240,000. It will be erected twelve miles from the city and will reclaim about 15,000 acres of land. The work will be let in six sections and several firms have put in bids for the entire work.

The cause of the bid of DeBemer & Olson of Denver being \$37,000,50 is a mistake in the figuring. They figured iron construction at \$5 by mistake, when the other contractors figured all the way through at 2 cents.

Under its Branches Washington and Lafayette Centered. A gigantic chestnut tree, with a girth of about twenty-five feet, and under whose branches in 1777 Washington and Lafayette held a council of war and ate their meals while camping on the place when the American army was marching from Baltimore to Philadelphia, is one of the many objects of interest shown to visitors on the McCormick farm, near Baltimore. This is not a tradition, but a well authenticated fact, as is abundantly attested by the archives of the McCormick family.

The first owner of the old manor was George Councilman, who obtained possession of the farm through a grant from Lord Baltimore. The grant is in possession of Mr. McCormick, who prizes it as a precious heirloom. Mr. McCormick became a member of the Councilman family by marriage with Miss Martha Councilman, daughter of George Councilman, who recently died at the advanced age of 98 years. The grant is beautifully engrossed on parchment and is well preserved and perfectly legible. The place was named Mark Alexander's Rang in honor of Mark Alexander, Lord Baltimore's agent at that time. It is situated on the old Blue Hill road, a short distance east of Pokorny's Four mile house, on the Belair road.

A Difference of Dreams.

Two children by the easement sat. And dreamed the dreams of day. That scale so nimbly garden walls To wander, worlds away.

One dreamed him of the soldier lads That passed the door at noon— Oh, rhythm of hoofs and jangling steel! Who knows a blither tune?

His eyes pursued some grand dame's coach Upon the far highway. Or sought the bright'ning sky that Where some fair city lay.

The other watched the day pass through Beyond the western gates. And saw the evening star come out And beckon to her mates.

He watched the poplars stand groundless With restless shadow cast. And heard the gentle rustle Of pigeons in the nest.

Two brothers by the easement sat. Long long the hours went by. Come now, my dear, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

To see the world, my dear, To see the world, my dear, To see the world, my dear, To see the world, my dear.

LEWIS' SINGLE BINDER STRAIGHT & CIGAR \$5.600.000

Suffered. Agents from Kidney Dis-
eases Until Cured by Doan's Kidney
Pills.

George W. Renoff, of 1953 North
11th St., Philadelphia, Pa., a man of
good reputation and standing,
writes:

"Five years ago I was suffering so with
my back and kidneys that I often
had to lay off. The kidney secre-
tions were unnatural, my legs and
stomach were swollen, and I
had no appetite. When doctors failed
to help me I began using Doan's Kid-
ney Pills and improved until my back
was strong and my appetite returned.
During the four years since I stopped
using them I have enjoyed excellent
health. The cure was permanent."
(Signed) GEORGE W. RENOFF.

NEW DEVELOPMENTS EXPECTED

Japs Demand Surrender of the Fort-
ress.—Quiet Around Lico
Yang and Mukden.

St. Petersburg, Sept. 16.—A dispatch
from Lieutenant General Stoessel at
Fort Arthur says the Japanese are
actively constructing fortifications on
the Samon mountain and at other
points, and that they continue to bom-
bard the forts and harbor. September
2nd they threw 250 shells into the
town.

September 3rd the enemy received
reinforcements on the west front of
the fortress. During the bombardment
of September 2nd the Japanese squad-
ron remained the whole time in view
of the fortress.

The Japanese, the dispatch adds,
have issued a proclamation to the Rus-
sian troops, demanding their surren-
der.

The almost complete quiet prevail-
ing at Liao Yang and Mukden is ac-
cepted here as the natural and inevi-
table consequence of the ferocious
activity of the past three weeks. The
view taken at Mukden that there is
not likely to be a resumption of fight-
ing in that immediate locality for a
month is regarded here as most prob-
ably correct.

It can hardly be expected that such
actual news will develop in central
Manchuria for some time to come, and
attention is now turning toward Port
Arthur where, as General Stoessel's
latest report indicates, the Japanese
are gathering strength for another
spring at the fortress. It is taken for
granted here that there will soon be
news of importance from Port Arthur,
since the Japanese throughout the war
have seemed to alternate their atten-
tion between the beleaguered fortress
and the Russian army toward the
north. It thus appears that it is Port
Arthur's turn to keep up the excite-
ment.

The St. Louis Exposition is punctually
paying \$1,000,000 a month on its loan
of \$4,600,000 from the government. The
attendance, which has been large from
the first, is also constantly increasing.

John E. Redmond, the Irish leader,
said at Boston that in view of the present
complex political situation in Great
Britain and Irish Nationalist party is
in a fair way to control the next British
Parliament.

William Waldorf Astor arrived in
New York a few days ago on the
steamer Majestic. This is Mr. Astor's
first visit to the United States since he
became a naturalized citizen of Great
Britain in 1897.

The Klondike City sawmill, Yukon
Territory, owned by the North Ameri-
can Trading and Transportation Com-
pany, was completely destroyed by fire
September 6th. The loss is \$76,000,
with no insurance.

Four of the crew of the Italian third-
class cruiser Puglia were killed in the
harbor of Chemulpo and sixteen others
rendered ill by the fumes of bursting
shells. The actual explosion of the
shells did but little damage.

The Treasury Department is sending
out checks to the officers and men of
Admiral Dewey's fleet in payment for
the awards of prize money made for
the American fleet at Manila bay. The
check to Admiral Dewey is for \$18,-
515.

President Palma of Cuba has decreed
that payment of one-half of the amounts
due revolutionary veterans shall begin
on October 1st. The proceeds of the
\$35,000,000 loan will pay one-half of
the recorded claims, with \$4,000,000 to
spare.

The Red Men of the United States, at
their convention at St. Joseph, Mis-
souri, revised the laws of the order so
as to exclude liquor dealers and to for-
bid Sunday picnics. Gift enterprises,
lotteries and games of chance are
banned.

In a runaway accident at Cincinnati
on the 9th inst., Bishop J. M. Walden
of the Methodist Church and his wife
were seriously hurt. Mrs. Walden's
arm was broken and the bishop was
badly bruised. Both were taken to the
hospital.

Reports of the apple crop received at
New York by large dealers indicate
that the American yield will be about
thirty per cent. larger than last year and
fourteen per cent. above the average
for the last ten years. Some dealers
estimate the output at 70,000,000 bar-
rels.

The Norwegian steamer, Vircola, now
at Hammerfest, Norway, reports that
she met the Ziegler relief expedition
steamer, Frithjof, August 27th, in lat-
tude seventy-nine north and longitude
fifty-two east. The Frithjof up to that
time had been unable to reach Franz
Josef land.

All attendance records of the Louisi-
ana Purchase Exposition were broken
on Labor Day, when 207,454 persons
passed through the gates. This num-
ber, it is stated, exceeded the atten-
dance Labor Day at the Columbian Ex-
position, when 198,858 visitors were
registered by the turnstiles.

At Pomeroy, Ohio, on the 9th inst.,
two youthful strangers entered the
county treasurer's office, covered Treas-
urer Chase with revolvers and after se-
curing \$23,000, locked Chase in the
vault and made their escape. Mr. Chase
was locked in nearly three hours be-
fore being found and released.

The Allan, Dominion and Canadian
Pacific lines have reduced their steerage
rates from London or Liverpool to
Quebec from \$15 to \$10. The new rate,
which will become effective in October,
is regarded as an indication of the
probable failure of peace negotiations
between the Cunard and the Continental
lines.

In the United States Circuit Court
at Los Angeles, Judge Wellborn has de-
cided that the arbitrary routing of
citrus fruit shipments by initial lines
is opposed to the provisions of the In-
terstate Commerce Commission act in
that it destroys competition and places
the shipper at the mercy of the rail-
road company.

News has been received from Ger-
man New Guinea saying that natives
attacked the Catholic mission and
murdered Fathers Raschen and Ruttar,
Brothers Bley, Parschaert and Schelle-
kens, and Sisters Sofia, Agatha, Annie,
Agnes and Angella. Thirty-six natives
were captured and ten of them were
executed for the crime. The design of
the natives was to murder all the
whites, but this was frustrated.

The Navy Department has a cable-
gram from Lieut. N. A. McCully, dated
at Mukden, saying that he is leaving
there immediately for Vladivostok.
Lieutenant McCully has been at Port
Arthur almost constantly since the out-
break of the war. That he is going to
Vladivostok leads to the supposition
that he expects the Japanese to
turn their attention to that port in the
event of the fall of Port Arthur.

Progresso, Mexico, had a million-dollar
fire on the 8th inst.

The town of Warren, Idaho, was al-
most entirely destroyed by fire on the
8th inst., the loss being estimated at
\$100,000.

The circumstantial report of the es-
cape of Samsouff, the murderer of
Minister von Plow, is denied by the
Russian authorities.

Major Delmar only succeeded in tie-
ing the world's trotting record of 2:02 1/2
without a wind shield in his attempt
at the New York State Fair.

Two thousand men have been killed
and 4,000 wounded in a battle, lasting
three days, between the Uruguayan
government forces and the revolution-
ists.

Sir Thomas Lipton leaves England
the end of September for St. Louis,
where he probably will be the guests of
David R. Francis, president of the
Exposition.

Five bandits held up a train on the
Rock Island railroad six miles out of
Muscatine, Iowa, on the 13th inst.,
blew open the express safe and escaped
with the contents.

It is reported that March 22d next
has been selected for the date of the
marriage of Duchess Cecelia of Meck-
lenburg-Schwerin to Crown Prince
Frederick William.

The St. Louis Exposition is punctually
paying \$1,000,000 a month on its loan
of \$4,600,000 from the government. The
attendance, which has been large from
the first, is also constantly increasing.

break of the war. That he is going to
Vladivostok leads to the supposition
that he expects the Japanese to
turn their attention to that port in the
event of the fall of Port Arthur.

Estimates now being prepared at
the Postoffice Department showing
the probable cost of maintaining the
rural free delivery service during the
fiscal year 1905-1906, and upon which
the appropriations made at the com-
ing session of Congress will be based,
indicate that the delivery in operation
at the end of next June will cost about
\$20,000,000 a year to maintain. It is
stated that in order that the service
may be extended in conformity with
the present plans of the department
and what are believed to be the
wishes of both houses of Congress, an
additional sum of \$6,000,000 will be
necessary. The present plans contem-
plate a gradual and reasonable ad-
vance in the expenditures each year
until the grand total of \$40,000,000 is
reached. It is believed that eventually
practically the entire country can be
covered with a network of rural routes
in operation for this annual expendi-
ture.

Forty millions of dollars is a gener-
ous sum, but in no other way, perhaps,
could the money be more advantage-
ously and beneficially expended than
in giving to the rural communities
throughout the country as rapidly as
circumstances make it practicable, an
efficient free delivery service.—Omaha
Bee.

Man and Wife.

Buxton, N. Dak., Sept. 12 (Special).
—Mr. B. L. Skriveth of this place
has been added to the steadily grow-
ing following that "Dodd's Kidney
Pills" have in this part of the country.

Mr. Skriveth gives two reasons
for his faith in the Great American
Kidney Cure. The first is that they
cured his wife and the second is that
they cured himself.

"I must say," says Mr. Skriveth,
"that Dodd's Kidney Pills are the
best remedy for Kidney Trouble I
ever knew. My wife had Kidney Dis-
ease for years and she tried all kinds
of medicine from doctors but it did
not help her any. An advertisement
led her to try Dodd's Kidney Pills.
The first box helped her so much
that she took eight boxes more and
now she is cured."

"I also took three boxes myself
and they made me feel better and
stronger in every way."

Dodd's Kidney Pills have never yet
failed to cure any kidney disease
from Backache to Rheumatism, Dia-
betes or Bright's Disease.

Close of the Service.

Mrs. Fugh—Our minister says he is
going to change the last part of the
service.

Mrs. Knave—Does he think he can
improve it?

Mrs. Fugh—No; but he thinks it's
necessary. Instead of saying: "Let us
sing the Doxology," he is going to say
"Let us adjust our clothes, slip on our
gloves, grab our hats, forget all about
the Lord and be dismissed."

TEA

Tea thoughts are like dream
thoughts, not tied to our
cares and sorrows.

May Keep Mountain Goat.

The troubles of Charles Heinz of
Creede, Colorado, and the little moun-
tain goat which he picked up one day
near his ranch, are now settled. This
fact is a great relief to the goat and
Mr. Heinz and the World's Fair Board
of Colorado, particularly the latter, as
that institution caused the trouble.

A few months ago Mr. Heinz discov-
ered a little goat in the mountains
near Creede. The animal had fallen
somehow from the cliffs above and
injured its nose. Mr. Heinz became
moved with sympathy and took the
animal home to raise as a pet.

Time passed and the goat matured
to a size which enabled it to "butt"
into the public eye with considerable
ease. In the course of time the
World's Fair board learned of its ex-
istence and made known its desire
to send the goat to the exposition. To
this Mr. Heinz acquiesced, little
dreaming of the trouble that was to
follow.

The goat was shipped to Denver to
be turned over to the World's Fair
board. When it arrived here one of
the ubiquitous wardens of the game
commissioner's office discovered it and
seized Mr. Goat. The animal was after-
ward turned over to the city park au-
thorities and has been there ever
since.

Yesterday Register Mark Woodruff
of the State Land Board succeeded in
procuring a park license for Mr. Heinz
for Antler's park, which the Creede
gentleman owns. The goat, therefore,
can be kept in the park and will be
forwarded there immediately from the
city park in Denver.—Denver Repub-
lican.

WHAT'S THE USE

To Keep a "Coffee Complexion."
A lady says: "Postum has helped
my complexion so much that my
friends say I am growing young again.
My complexion used to be coffee col-
ored, muddy and yellow but it is now
clear and rosy as when I was a girl.
I was induced to try Postum by a
friend who had suffered just as I had
suffered from terrible indigestion, pal-
pitation of the heart and sinking
spells."

"After I had used Postum a week
I was so much better that I was
afraid it would not last. But now
two years have passed and I am a
well woman. I owe it all to leaving
off coffee and drinking Postum in its
place."

"I had drunk coffee all my life. I
suspected that it was the cause of my
trouble, but it was not until I actually
quit coffee and started to try Postum
that I became certain; then all my
troubles ceased and I am now well
and strong again." Name furnished
by Postum Co., Battle Creek, Mich.

There's a reason.

Ripans Tablets are the best dys-
pepsia medicine ever made. A
hundred millions of them have
been sold in the United States in
a single year. Constipation, heart-
burn, sick headache, distress, bad
breath, sore throat, and every ill-
ness arising from a disordered
stomach are relieved or cured by Ripans Tablets.
One will generally give relief within twenty min-
utes. The direct package is enough for ordinary
occasions. All druggists sell them.

Patented Agents from Kidney Diseases...
George W. Renoff, of 1953 North 11th St., Philadelphia, Pa., a man of good reputation and standing.

Writes: "Five years ago I was suffering so with my back and kidneys that I often had to lay off. The kidney secretions were unnatural, my legs and stomach were swollen, and I had no appetite. When doctors failed to help me I began using Doan's Kidney Pills and improved until my back was strong and my appetite returned. During the four years since I stopped using them I have enjoyed excellent health. The cure was permanent."
(Signed) GEORGE W. RENOFF.

A TRIAL FREE—Address Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price, 50 cts.

A poor excuse is better than none when the assessor comes around.

TEA

We are not a tea-drinking people; we should be steadier, we were.

Some bootblacks are destined to shine in the best society.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 1/2-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

"Did you see the Igorrotes at St. Louis?" "No, but I saw a good many low-necked dresses."

FITS permanently cured. No pain or inconvenience after first day's use. Doan's Backache Kidney Pills. Sent for FREE on trial bottle and treated. Dr. E. H. Kline, 121 Arch Street, Philadelphia, Pa.

Some people build better than they know, but the average contractor knows better than he builds.

Superior quality and extra quantity must win. This is why Defiance Starch is taking the place of all others.

Said the haughty girl to her shoe-maker suitor, "I wouldn't marry you to save my soul."

RIGHT NOW

Is the time for the man who is ranting, or who is tired of hall and alkali, rust and iron, to get to work to earn about Rome, where all the land is close to railway, where there is no alkali, no hall, good water rights, and where potatoes pay BIG MONEY, in large terms and low prices to experienced Colorado farmers this season. The Colorado Land and Investment Company, 416 Majestic Building, Denver, Colo.

It frequently happens that when one talks to children the major part of his audience is composed of minors.

TEA

We look through your grocer to you, beyond, but through your grocer, to you.

Your grocer returns your money if you don't like Schilling's Best.

The doctor—"It is a shame to tell—in spite of all his skill, though he may know you very well, prefers to know you ill."

THE WORLD'S FAIR—ST. LOUIS. Hotel Epworth, three blocks from the Administration and Convention entrances, is a safe, permanent brick building of over 500 rooms. It costs no more to stay at Hotel Epworth than at the temporary stand and frame hotels. Rates \$1.00 a day and up. European plan. First-class dining hall, reasonable prices. Every convenience. Headquarters Eastern National Congress. Rooms may be reserved. (Delmar Garden car on Olive.) Hotel Epworth, 3603 Washington Ave., St. Louis, Mo.

Bread may be the staff of life, but money is a pretty good substitute as dough.

More Flexible and Lasting, won't shake out or blow out; by using Defiance Starch you obtain better results than possible with any other brand and one-third more for same money.

People who live in glass houses should be careful, how they cast reflections.

I am sure Pilo's Cure for Consumption saved my life three years ago. Geo. T. Ross, Boston, Mass. Street, Norwich, N. Y., Feb. 17, 1906.

Remember that whatever you saw, that also shall you reap. "But suppose your neighbor keeps chickens?"

TEA

We stand or fall by our tea—Schilling's Best—and we're not going down.

Your grocer returns your money if you don't like it.

It's absolute proof to a woman that she is a good mother to her children when she is smiling. Her children tell her she is smiling.

Insist on Getting It. Some grocers say they don't keep Defiance Starch because they have a stock in hand of 12 oz. brands, which they know cannot be sold to a customer who has once used the 16 oz. pkg. Defiance Starch for same money.

Never tell a girl you love the ground she walks on unless she says the real thing.

What a good man has been made to be. The best of the world is in the hands of a few.

NEW DEVELOPMENTS EXPECTED

Japs Demand Surrender of the Forts.—Quiet Around Liao Yang and Mukden.

St. Petersburg, Sept. 16.—A dispatch from Lieutenant General Stoessel at Port Arthur says the Japanese are actively constructing fortifications on the Samhon mountain and at other points, and that they continue to bombard the forts and harbor. September 2nd they threw 250 shells into the town.

September 3rd the enemy received reinforcements on the west front of the fortress. During the bombardment of September 2nd the Japanese squadron remained the whole time in view of the fortress.

The Japanese, the dispatch adds, have issued a proclamation to the Russian troops, demanding their surrender.

The almost complete, quiet prevailing at Liao Yang and Mukden is accepted here as the natural and inevitable consequence of the ferocious activity of the past three weeks. The view taken at Mukden that there is not likely to be a resumption of fighting in that immediate locality for a month is regarded here as most probably correct.

It can hardly be expected that such actual news will develop in central Manchuria for some time to come, and attention is now turning toward Port Arthur where, as General Stoessel's latest report indicates, the Japanese are gathering strength for another spring at the fortress. It is taken for granted here that there will soon be news of importance from Port Arthur, since the Japanese throughout the war have seemed to alternate their attention between the beleaguered fortress and the Russian army toward the north. It thus appears that it is Port Arthur's turn to keep up the excitement while Field Marshal Oyama is preparing for the fall campaign.

Grand Duke Alexander Michaelovitch, head of the Russian mercantile marine, has gone to Libau to inspect the converted cruisers there, before they depart for foreign waters.

The Baltic fleet remains at Libau, awaiting orders.

General Kurapatkin telegraphs that there was no fighting Wednesday. The general says strong detachments of Japanese infantry have advanced three miles north of Yental station.

SOCIALISTS CONTROL

State Federation of Labor Convention at Pueblo.

Pueblo, Colo., Sept. 16.—Officers were elected at yesterday's session of the State Federation of Labor and this election showed a complete victory for the radical or Socialistic element. The officers chosen are as follows:

President, J. C. Sullivan, Victor; first vice president, James D. Davis, Denver; second vice president, H. M. Good, Trinidad; third vice president, Mrs. Eme Laur, Denver; fourth vice president, J. E. Hubbard, Colorado Springs; fifth vice president, Bart Lynch, Sunlight; secretary-treasurer, H. B. Waters, Denver. These officers constitute the executive board of the federation. Telluride was selected as the next meeting place for the annual convention.

President Moyer of the Western Federation of Miners is given the credit for the victory of the Socialists, as it was assumed that the conservatives were in the majority before the arrival of President Moyer and his adherents at the convention yesterday.

The report of Vice President Croskey was finally disposed of by being laid on the table. The trouble arose over a recommendation to prevent more than one member of one craft serving on the executive committee. This amendment was adopted yesterday and the only way to kill it was to withdraw the report and lay it on the table. This action is conceded to be another victory for the Socialistic element.

The most important action thus taken by the State Federation of Labor convention was the adoption this morning of a constitution embodying the amendments which had been presented. The most radical changes were the division of the state into districts and the apportionment of delegates geographically, also the requirement that delegates must be members of some organization affiliated with the federation and must be known as desirable delegates.

A feature of the convention proceedings yesterday was the official recognition and approval of the work of the ways and means committee during the past year in starting the Liberty League movement, which is intended to organize the laboring forces in a political organization to fight the Republican state ticket.

Legislative Candidates.

Denver, Sept. 16.—State senators and representatives were yesterday nominated by the Republican convention from all the counties with which Denver is affiliated.

Four nominees for the State Senate, to serve four years, and fifteen candidates for the lower house of the Fifteenth General Assembly were placed in nomination. The outside counties were awarded five of the representative votes.

Following is the list of candidates: From first senatorial district—Fred W. Parks, Dr. William M. Robertson, Milton L. Aufenger.

From twenty-second senatorial district—William W. Booth.

For representatives first district—William H. Dickson, Joseph Sterling, John A. McIntyre, O. E. A. Hanson, William A. Smith, A. D. Radinsky, Frank M. Keezer, Theodore H. Thomas, Willbur F. Cannon, John L. Feizer, Emmet A. Bromley.

Second representative district—Ottway C. Zing, Phillipa county.

Third representative district—M. F. Vance, Washington county.

Fourth representative district—Newton L. Gleason, Elbert county.

Fifth representative district—M. D. Watkins, Boulder county.

Progresso, Mexico, had a million dollar fire on the 8th inst.

The town of Warren, Idaho, was almost entirely destroyed by fire on the 8th inst., the loss being estimated at \$100,000.

The circumstantial report of the escape of Samsonoff, the murderer of Minister von Phlyve, is denied by the Russian authorities.

Major Delmar only succeeded in tying the world's trotting record of 2:02 1/2 without a wind shield in his attempt at the New York State Fair.

Two thousand men have been killed and 4,000 wounded in a battle, lasting three days, between the Uruguayan government forces and the revolutionists.

Sir Thomas Lipton leaves gland oaks, where he probably will be the guest of David R. Francis, president of the Exposition.

Five bandits held up a train on the Rock Island railroad six miles out of Muscatine, Iowa, on the 18th inst., blew open the express safe and escaped with the contents.

It is reported that March 22d next has been selected for the date of the marriage of Duchess Cecilia of Mecklenburg-Schwerin to Crown Prince Frederick William.

The St. Louis Exposition is punctually paying \$1,000,000 a month on its loan of \$4,600,000 from the government. The attendance, which has been large from the first, is also constantly increasing.

John E. Redmond, the Irish leader, said at Boston that in view of the present complex political situation in Great Britain and Irish Nationalist party is in a fair way to control the next British Parliament.

William Waldorf Astor arrived in New York a few days ago on the steamer Majestic. This is Mr. Astor's first visit to the United States since he became a naturalized citizen of Great Britain in 1897.

The Klondike City sawmill, Yukon Territory, owned by the North American Trading and Transportation Company, was completely destroyed by fire September 6th. The loss is \$76,000, with no insurance.

Four of the crew of the Italian third-class cruiser Puglia were killed in the harbor of Chemulpo and sixteen others rendered ill by the fumes of bursting shells. The actual explosion of the shells did but little damage.

The Treasury Department is sending out checks to the officers and men of Admiral Dewey's fleet in payment for the awards of prize money made for the American fleet at Manila bay. The check to Admiral Dewey is for \$18,515.

President Palma of Cuba has decreed that payment of one-half of the amounts due revolutionary veterans shall begin on October 1st. The proceeds of the \$25,000,000 loan will pay one-half of the recorded claims, with \$4,000,000 to spare.

The Red Men of the United States, at their convention at St. Joseph, Missouri, revised the laws of the order so as to exclude liquor dealers and to forbid Sunday picnics. Gift enterprises, lotteries and games of chance are banned.

In a runaway accident at Cincinnati on the 9th inst., Bishop J. M. Walden of the Methodist Church and his wife were seriously hurt. Mrs. Walden's arm was broken and the bishop was badly bruised. Both were taken to the hospital.

Reports of the apple crop received at New York by large dealers indicate that the American yield will be about thirty per cent. larger than last year and fourteen per cent. above the average for the last ten years. Some dealers estimate the output at 70,000,000 barrels.

The Norwegian steamer, Vircola, now at Hammerfest, Norway, reports that she met the Ziegler relief expedition steamer, Frithjof, August 27th, in latitude seventy-nine north and longitude fifty-two east. The Frithjof up to that time had been unable to reach Franz Josef land.

All attendance records of the Louisiana Purchase Exposition were broken on Labor Day, when 207,454 persons passed through the gates. This number, it is stated, exceeded the attendance Labor Day at the Columbian Exposition, when 198,858 visitors were registered by the turnstiles.

At Pomeroy, Ohio, on the 9th inst., two youthful strangers entered the county treasurer's office, covered Treasurer Chase with revolvers and after securing \$14,000, locked Chase in the vault and made their escape. Mr. Chase was locked in nearly three hours before being found and released.

The Allan, Dominion and Canadian Pacific lines have reduced their steamer rates from London or Liverpool to Quebec from \$15 to \$10. The new rate, which will become effective in October, is regarded as an indication of the probable failure of peace negotiations between the Cunard and the Continental lines.

In the United States Circuit Court at Los Angeles, Judge Wellborn has decided that the arbitrary routing of citrus fruit shipments by initial lines is opposed to the provisions of the Interstate Commerce Commission act in that it destroys competition and places the shipper at the mercy of the railroad company.

News has been received from German New Guinea saying that natives attacked the Catholic mission and murdered Fathers Raschen and Ruttler, Brothers Bley, Piaraschert and Schellkens, and Sisters Sofia, Agatha, Annie, Agnes and Angella. Thirty-six natives were captured and ten of them were executed for the crime. The design of the natives was to murder all the whites, but this was frustrated.

The Navy Department has a cablegram from Lieut. N. A. McCully, dated at Mukden, saying that he is leaving there immediately for Vladivostok. Lieutenant McCully has been at Port Arthur almost constantly since the outbreak of the war. That he is going to Vladivostok leads to the supposition here that he expects the Japanese to turn their attention to that port in the event of the fall of Port Arthur.

Estimates now being prepared at the Postoffice Department showing the probable cost of maintaining the rural free delivery service during the fiscal year 1905-1906; and upon which the appropriations made at the coming session of Congress will be based, indicate that the delivery in operation, at the end of next June will cost about \$20,000,000 a year to maintain. It is stated that in order that the service may be extended in conformity with the present plans of the department and what are believed to be the wishes of both houses of Congress, an additional sum of \$6,000,000 will be necessary. The present plans contemplate a gradual and reasonable advance in the expenditures each year until the grand total of \$40,000,000 is reached. It is believed that eventually practically the entire country can be covered with a network of rural routes in operation for this annual expenditure.

Forty millions of dollars is a generous sum, but in no other way, perhaps, could the money be more advantageously and beneficially expended than in giving to the rural communities throughout the country as rapidly as circumstances make it practicable, an efficient free delivery service.—Omaha Bee.

Man and Wife.

Buxton, N. Dak., Sept. 12 (Special).—Mr. E. L. Skrivseth of this place has been added to the steadily growing following that Dodd's Kidney Pills have in this part of the country.

Mr. Skrivseth gives two reasons for his faith in the Great American Kidney Cure. The first is that they cured his wife and the second is that they cured himself.

"I must say," says Mr. Skrivseth, "that Dodd's Kidney Pills are the best remedy for Kidney Trouble I ever knew. My wife had Kidney Disease for years and she tried all kinds of medicine from doctors but it did not help her any. An advertisement led her to try Dodd's Kidney Pills. The first box helped her so much that she took eight boxes more and now she is cured."

"I also took three boxes myself and they made me feel better and stronger in every way."

Dodd's Kidney Pills have never yet failed to cure any kidney disease from Backache to Rheumatism, Diabetes or Bright's Disease.

Close of the Service.

Mrs. Pugh—Our minister says he is going to change the last part of the service.

Mrs. Knave—Does he think he can improve it?

Mrs. Pugh—No; but he thinks it's necessary. Instead of saying: "Let us sing the Doxology," he is going to say "Let us adjust our clothes, slip on our gloves, grab our hats, forget all about the Lord and be dismissed."

TEA

Tea thoughts are like dream thoughts, not tied to our cares and sorrows.

May Keep Mountain Goat.

The troubles of Charles Heinz of Creede, Colorado, and the little mountain goat which he picked up one day near his ranch, are now settled. This fact is a great relief to the goat and Mr. Heinz and the World's Fair Board of Colorado, particularly the latter, as that institution caused the trouble.

A few months ago Mr. Heinz discovered a little goat in the mountains near Creede. The animal had fallen somehow from the cliffs above and injured its nose. Mr. Heinz became moved with sympathy and took the animal home to raise as a pet.

Time passed and the goat matured to a size which enabled it to "butt" into the public eye with considerable ease. In the course of time the World's Fair board learned of its existence and made known its desire to send the goat to the exposition. To this Mr. Heinz acquiesced, little dreaming of the trouble that was to follow.

The goat was shipped to Denver to be turned over to the World's Fair board. When it arrived here one of the "bigfoot" wardens of the game commissioner's office discovered it and seized Mr. Goat. The animal was afterward turned over to the city park authorities and has been there ever since.

Yesterday Register Mark Woodruff of the State Land Board succeeded in procuring a park license for Mr. Heinz for Antler's park, which the Creede gentleman owns. The goat, therefore, can be kept in the park and will be forwarded there immediately from the city park in Denver.—Denver Republican.

WHAT'S THE USE

To Keep a "Coffee Complexion."

A lady says: "Postum has helped my complexion so much that my friends say I am growing young again. My complexion used to be coffee colored, muddy and yellow but it is now clear and rosy as when I was a girl. I was induced to try Postum by a friend who had suffered just as I had suffered from terrible indigestion, palpitation of the heart and sinking spells."

"After I had used Postum a week I was so much better that I was afraid it would not last. But now two years have passed and I am a well woman. I owe it all to leaving off coffee and drinking Postum in its place."

"I had drunk coffee all my life. I suspected that it was the cause of my trouble, but it was not until I actually quit coffee and started to try Postum that I became certain; then all my troubles ceased and I am now well and strong again." Name furnished by Postum Co., Battle Creek, Mich.

There's a reason. Look in each package for a copy of the famous little book, "The Road to Well-Being."

SUMMER BARGAINS!

We are at present offering our entire stock of Summer Dress Goods, such as

Lawns, Sateens, Percales and all fancy Mercerized Gingham, Etc., Etc.,

at actually eastern cost, in order to make room for Fall Goods. A good many Remnants at your own price, as we are determined to close out every article of Summer Goods. Yours for Low Prices,

ZEIGLER BROTHERS White Oaks, N. M.

Dr. M. G. Paden is the first man in White Oaks to show sufficient enterprise to prepare a race track. It is kite shaped, one-half mile around, and is getting to be in fairly good condition. Doc is out training some of his trotting stock almost every fine evening these days.

The twenty months' old daughter of our townsman Dick Young, is quite a musical prodigy. She can readily sing more than a half dozen hymns and songs, carrying the tunes perfectly and liping the words with correct distinctness. The most wonderful feature of her unusual baby accomplishment is that she will start each tune without aid when the name is suggested to her.

ANGUS NOTES.

Mr. Riggle gave a farewell dance to the youngsters of Angus Saturday night.

Mr. Riggle has secured employment at Capitan and moved his family there last Monday. We are sorry to lose them from our community and hope they may prosper in their new home.

Rowland Box has moved into Angus and will have charge of the farm work at Petors'.

Jerry Dalton came over from Nogal Tuesday.

George Hagle moved his family up from Roswell and will make his future home on Little Creek.

Mrs. H. C. Harper commenced her school at Parsons the first of the week.

Prof. Harper reports a large enrollment in the Angus school, with the usual good attendance.

Patton Box is expected home from Texas in the near future.

Attention Parents!

You will confer a favor on the school management of the public schools of White Oaks by lending your assistance in enforcing the following regulations:

Please do not allow the children to leave home for school until the first bell is rung. It is against the rules for pupils to be on or about the buildings or grounds before the first bell. It is the earnest wish of teachers and school officers that pupils return home immediately on being dismissed at four p. m. If a pupil is detained on special duty, the parent will be notified.

The reasons for the first rule are obvious. If children are allowed to start to school too early, they collect on the corners, get into quarrels, fights and engage in a great number of things that look bad and sound worse.

The same may be said of children returning from school. They should be required by the parent to come home immediately, that their whereabouts may be known to the parent. It would be a great benefit to pupil and school to have them do a reasonable amount of home study. Give them just enough help to keep them encouraged, but please do not do the work for them. D. STEPHENSON, Principal.

This item weighs just a fraction less than ten pounds and was brought by the fabled stork to Mr. and Mrs. Glenn about eight o'clock Monday evening. It is an exact copy in embryo of its mother. Will says it hasn't waked up yet, but thinks it will do so later on and let them know it belongs right in the family.

ANGUS, NEW MEXICO.

Many of the teachers of the county have requested the publication of the list of examination questions published by the Territorial Board. So it is thought best to run them through this column from time to time as space will admit until all are published. This week will be given the questions in grammar and arithmetic, for examination held August 26, 1904.

ARITHMETIC FIRST GRADE

- In counting show that the child may or may not have the conception of number.
- State four fundamental principles involved in teaching primary arithmetic?
- How many thirds in seven sixteenths?
- If I buy stock at 25 per cent discount and sell it at 5 per cent premium, what rate per cent do I gain?
- For what sum must a ninety day note be drawn to yield \$1,000 when discounted at 6 per cent per annum?
- I wish to make a mixture of tea with an average of 60 cents per pound from teas worth 55 cents and 75 cents respectively. How much of the 55 cent tea must be taken to balance one pound of the 75 cent tea?
- .0562 : .124; reduce to common fractions, 62 and 124 being repetends?
- Twenty-five per cent of three-fifths of an article is how many per cent of five-eighths of it? Analyze.

- If one-third of an inch of rain falls, how many gallons will be caught on a roof 15x18 feet? How many barrels?

CONTINUED NEXT WEEK

John Y. and Mrs. Hewitt returned from Oho Caliente last Friday. Mrs. Hewitt's health is somewhat improved. John Y. claims that they doped him with forty kinds of hot water—each kind having a little more caustic and unseemly smelling salts mixed into it than the other—until he felt just like an old leath ball glove looks. He says that he had to go a mile from the springs to get a drink of fresh water, and that had to be floated over to him across a bar, and looked and tasted, for all the world, like what they sell in White Oaks for beer.

Mrs. J. E. Wharton came in from Alamogordo Tuesday, in response to a telegram and will remain until her daughter, Mrs. Will Glenn, recovers from her illness.

Mineral Application No. 20.

U. S. Land Office, Roswell, New Mexico, September 15, 1904.

Notice is hereby given that M. G. Paden, George W. Prichard and Adin H. Whitmore whose postoffice address is White Oaks, New Mexico, have this day filed their application for patent for the whole of the surface ground of the Ancho Placer Claim bearing gold, situated in the Jicarilla Mining District, Lincoln county, New Mexico, and described by the field notes and plat on file in this office, as mineral survey No. 1185, No. T. 5 S. R. 12 E., unsurveyed, said survey No. 1185, being described as follows:

Mineral Application No. 21.

United States Land Office, Roswell, New Mexico, September 15, 1904.
Notice is hereby given that M. G. Paden and George W. Prichard, whose postoffice address is White Oaks, New Mexico, have this day filed their application for patent to the surface ground of the South Ancho Placer Claim bearing gold, situated in the Jicarilla Mining District, Lincoln county, New Mexico, and described by the field notes and plat on file in this office, as mineral survey No. 1135 in T 5 S R 12 E unsurveyed. Said survey being described as follows: Beginning at cor No 1 a porphyry stone 24x20 x4 set 12 inches in the ground, with mound of stone chiseled 1-1135. Whence the 1st cor on S of sec 34 T 5 S R 12 E bears S 3 deg 4 min W Va 12 deg 26 min E 1397.4 ft to cor No 2. Thence N 50 deg W Va 11 deg 19 min E 42 ft to cor No 3. Thence N 36 deg 35 min E Va 11 deg 19 min E 34.3 ft to cor No 4. Thence N 12 deg 13 min W Va 11 deg 10 min E 1097.4 ft to cor No 5. Thence N 89 deg 4 min W Va 12 deg 41 min E 411.5 ft to cor No 6. Thence S 12 deg 13 min E Va 12 deg 16 min E 2557.6 ft to cor No 7. Thence S 89 deg 49 min E Va 12 deg 26 min E 410.1 ft to cor No 1, and the place of beginning. Area, 23 4/5 acres. Adjoining claims so far as known: On the north the Ancho Placer Claim of the survey, Paden, Prichard et als claimants. On the east mineral survey 1144, Argonaut lode, Peters and Price claimants. On the northeast El Oro Placer Claim, unsurveyed, American Placer Company, claimants. Any and all persons claiming adversely, any portion of said surface ground, are required to file their adverse claims with the Register of the United States Land Office, at Roswell, in the Territory of New Mexico, during the sixty days, the period of publication hereof, or they will be barred by virtue of the provisions of the Statute.

HOWARD LELAND,
Register.
