TWO SOULS, EACH WITH A SINGLE THOUGHT.

At The Jefferson Day banquet in Chicago, W. J. Bryan, twice a candidate on the Democratic ticket for president said:

"The democratic party is more nearly united today than it has been since 1893 and it is united on a radical platform."

Celebrating the same occasion in New York Judge Alton B. Parker took occasion to remark: "It is safe to state of a policy that if it is radical it is not democratic; if it is democratic it is not radical."

Tom Hughes, for so long connected with the editorial department of the Albuquerque Citizen, has had to give up newspaper work and has gone to Chicago to be operated on for cancer.

H. Rider Haggard complained that the bacon served to him at his meals up in Colorado cost him more than the same bacon laid down in England. The author of "King Solomon's Mines," etc. is learning the price of things when dished up at a western hotel.

Some of the leading women of Virginia have started a movement the object of which is to bring the dust of Pocahontas back to that state, and build a mausoleum over it. Come to think of it, this is a matter that does haunt us a little bit, and should be of especial interest to the Smiths

A strenuous fight is being made in New York over the modern method of giving instruction in the public schools, especially in the primary departments. The point is made that the new fads though in most points impressive and spectacular, do not succeed in impressing upon the minds of the young any permanent or beneficial results, and that children so taught never become familiar with the orthography of the language, and cannot write a letter of so much as ten words without blundering. The school commissioners want to drop all this and get back to the old a-b-ab methods. These fads in education are not confined alone to the eastern states, but have gained a footing even here in New Mexico.

Dr. Miller arrived last Monday morning looking wide awake and as natural as when he left White Oaks, about three years ago. He will again take charge of the Congregational Church at this place and fill the pulpit next Sunday morning and evening. He is around greeting his old friends in his usual hearty manner.

The S. S. S. Society was entertained by Miss Lorena Sager last Thursday evening in a most enjoyable manner. The exercises were both interesting and amusing, although some of those present were unable to tell a giraffe from an ostrich, and somebody got a grizzly mixed up with the bear side of a hippopotamus all owing to the fact that there were three times as many girls as boys in the tangle and they never could have got straightened out if the young hostess had not sent the girls to the piano and the rattled young gentlemen to the pool table. The society meets this evening with Miss Ella Young.

Jake Ziegler and S. M. Parker are out at the sheep camp rehearsing the good shepherd act this week. Their engagement may run for a month or more if the condensed milk holds out.

Tax schedules when filled out can be left at the Outlook office, or those who prefer to do so can come and have them filled out, or have the opportunity to fill them out themselves.

Ziegler Bros. will pay you the highest market price for hides and pelts.

The Congregational Sunday School will hold Easter services at the church next Sabbath from ten to eleven o'clock. Dr. Miller will begin regular church services at eleven. His Easter sermon will be on "Christ among the common things." All are cordially invited to attend.

Jap Clark had his hearing before Justice of the Peace Garnett, at Estancia on the 14th, for the killing of J. M. Chase at Torrance a few weeks ago, and was committed to jail without bond. W. A. McKean, Clark's accomplice, was also given a hearing at the same time and his bond fixed at \$10,000, which he and his friends were unable to procure at last accounts.

The meager news that comes to this office from Lincoln goes to show that the lawyers are helping the county spend its court fund without the beneficial results one has a right to expect. There is a general unpreparedness for trial in criminal cases, and the consequences are that these are being sidetracked for the civil side of the docket. The Leslie cases go to Otero county for trial at some future time entailing much additional expense to the county, while the Emilio affair goes over until the next term on account of some supposed evidence that the defence may take a year's time to hunt up and the county pays the board bill. If attorneys are allowed to dilly dally through a whole term of court without accomplishing anything but the most indifferent results people instinctively lose confidence in the courts and that in turn breeds disrespect for law. This principle is as old as law itself, besides it is human nature. Why can't there be a little strenuousness injected into the business methods of our courts, and a cut off lever attached to the wind jax of some of our lawyers?

Max Frost has again been made secretary of the Territorial Board of Immigration. This is undoubtedly the best selection that could have been made. The Editor of the New Mexican has been so long and creditably connected with this work that it would have crippled the usefulness of the Board seriously to have left him out. No man in the territory has so persistently and incessantly advertised the advantages and resources of New Mexico as Col. Max Frost. He deserves more honors and emoluments than he will ever receive for the good work he has done. Now don't any of you fellows kick but bring your indolent corporeities up close behind the vehicle and help him along in advertising the territory.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS of HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

Lion-head on every package. Save these Lion-heads for valuable premiums.

Officer's Wife Interested Letter From Philippines.
The wife of an army officer who recently went to the Philippines writes a glowing account of the journey, and, instead of discomforts, which one is supposed to encounter, seems to have found the experience altogether novel and interesting. Honolulu she describes as a wonderfully picturesque place, with its cocoanut palms, flowering trees and shrubs and hedges of night-blooming cereus. The sea bathing is excellent and the hotel as good as any in Washington. In Guam, she writes, the tropical growth is marvelous, but there are few flowers. They ride from the landing to the town, a station of marines, in a carabao cart, which she declares to be "not a swift means of locomotion, but safe and good for the liver," and adds: "The drive from the dock is the most beautiful I have ever seen; following the shore line is an avenue covered and shaded by immense cocoanut palms and beyond a tangle of tropical growth. The natives were without garments, save from their hips down, the women wearing trailing skirts in an effort to equalize their clothing."
She describes the passage through the San Bernardino straits, through reputed to be a dangerous one, as very delightful—mountains as large as the Alleghenies sloping up from the water's edge and green to their very tops. They wound in and out among the islands a day and a half, and so close to land that they could distinguish natives on the shore.
Like most others, she finds life in Manila very fascinating, but admits that her first introduction to a native bed was not calculated to make them lifelong friends. It has a cane-seat bottom, where springs usually set; on that is spread a thin pad and then a straw mat, or one made of palm leaves, upon which is laid the usual sheets, etc. She says the civil government people would like to have the entire army evacuate the islands, but that, in her opinion, the army will be needed for some time, and cites in that connection the fact that the priests take the school boys from the Luneta before "The Star Spangled Banner" is played, which is done at the close of every concert, and that the Spanish native element also leaves.

WHY OLIVES ARE PICKLED.

California Joke on Tenderfeet From the East.

"I have just returned from California," said the traveler, "and for your information, in case you ever wander thither, let me post you on one of the merry little jests which the inhabitants love to ring in on the innocent tenderfoot.
"About the first thing they'll run up against the California ripe olive. Ever eat them? You can hardly get them here because they won't stand shipment. And they're mighty good. Most real olive eaters prefer them to the ordinary green pickled olive. The ripe olives are pickled also, you understand, and come out of the brine jet black.
"After you have eaten and approved, they will lead you on by remarking: 'Well, if you like them that way you'll like them better fresh. Just stroll out to the orchard with me and we'll have one.'
"Then they will lead you out to one of their long lanes of olive trees. I pause to remark that you don't know what olive green and olive brown mean until you've seen those colors in that slim, graceful little tree.
"There are the fresh olives all right, hanging among the gray leaves and looking mighty tempting. You pick one with the confidence of the easy mark and bite into it.
"Whew! Bitter? I can taste it yet. It's all the quinine and rhubarb and wormwood in the world, combined in a nasty, haunting bitterness that hangs to you until you have eaten two meals. It is an oily bitterness that gets into the corners and cranies of your mouth and won't be washed out.
"When you recover a little they explain that the brine takes out the bitterness, and that's why olives are pickled."

In the Spring.

Lowndes, Mo., April 10th.—Mrs. H. C. Hartly of this place, says:—
"For years I was in very bad health. Every spring I would get so low that I was unable to do my own work. I seemed to be worse in the spring than any other time of the year. I was very weak and miserable and had much pain in my back and head. I saw Dodd's Kidney Pills advertised last spring and began treatment of them and they have certainly done me more good than anything I have ever used.
"I was all right last spring and felt better than I have for over ten years. I am fifty years of age and am stronger to-day than I have been for many years and I give Dodd's Kidney Pills credit for the wonderful improvement."
The statement of Mrs. Hartly is only one of a great many where Dodd's Kidney Pills have proven themselves to be the very best spring medicine. They are unsurpassed as a tonic and are the only medicine used in thousands of families.

Mrs. Sarah Marine of 428 St. Urain street, Colorado Springs, Colo., President of the Glen Eyrie Club, writes:
"I suffered for three years with severe backache. The doctors told me my kidneys were affected and prescribed medicine for me, but I found that it was only a waste of time and money to take them, and began to fear that I would never get well. A friend advised me to try Doan's Kidney Pills. Within a week after I began using them I was so much better that I decided to keep up the treatment, and when I had used a little over two boxes I was entirely well. I have now enjoyed the best of health for more than four months, and words can but poorly express my gratitude."

TEA

If weary, tea is rest; good tea. If wakeful, sleep. If dull, animation. If silent, talk.

There are men who never pay anything they owe except grudges.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 8-ounce packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Men who do nothing but take up room in the world usually overdo the thing.

FARMS GIVEN AWAY.
16,000 farms of 160 acres each, situated in the Uintah Indian Reservation in Utah, will be open for occupancy very shortly. Don't you want to homestead one and make yourself a home? TEA

The bulk of people prefer to be humbugged yet; we suppose they will always.

Your grocer returns your money if you don't like Schilling's Best.

Most people would rather preach half a day than practice half an hour.

OBSTINATE CASES

Of leucorrhoea, excessive flowing, painful periods, prolapsus, or falling of womb, attended by weak back, bearing-down sensations, ulceration of womb, pain

and tenderness of ovaries, are almost always cured by a fairly persistent use of Dr. Pierce's Favorite Prescription. If in any case it should, in due time, not seem quite adequate to meet every phase of some complicated case, Dr. Pierce always stands ready to offer valuable suggestions based upon years of varied experience which often prove of inestimable value. This he does entirely free of charge to those using his medicines. Address Dr. R. V. Pierce, 683 Main Street, Buffalo, N. Y.

Dr. R. V. Pierce, Buffalo, N. Y.:
"Dear Sir—Once thought I should never enjoy good health again. What I suffered with womb disease words cannot express. Had distressing bearing-down pains, painful monthly sickness, backache, constipation, also cold hands and feet at all times. Was all run-down and there was nothing left of me but a shadow. After I had taken eight bottles Dr. Pierce's Favorite Prescription, two of his Compound Extract of Sarsaparilla, and also some of Dr. Pierce's Pleasant Pellets, I was entirely cured. I always keep the remedies on hand now, and recommend them to all my friends."
Yours truly,
Mrs. J. M. Brown.

Alabastine Your Walls

Just ask the doctor if there isn't danger of disease in your wall. Don't take out word for it—ask him. Make him tell you.

There is only one perfectly sanitary and hygienic wall covering. That is Alabastine—made from Alabaster rock—then colored with mineral colorings.

Alabastine is cleanly, because it is made from pure rock—Alabaster rock and pure water. It is not stuck on with sour paste nor smelly glue.

When your walls need covering, you don't need to wash ALABASTINE off. Just add another coat, for ALABASTINE is antiseptic as well as beautiful. The most beautiful decorations are possible with Alabastine.

Any decorator or painter can put it on. You could do it yourself. Insist on Alabastine being delivered in the original package. If you see any advertisement against substitution of worthless imitations. Write for beautiful tint card and free literature.

If your dealer can't supply you, send us his name and we will see that you have Alabastine.

A SCHEME THAT FAILED.

There is a little story going the rounds that the Outlook has never been published in reference to the inside history of that coal oil inspection law.

It is well known that the governor has political aspirations as well as some other people. One of the themes in his political brain has been Don Romero, of Las Vegas who has never been an enthusiastic admirer of the governor's political bee. During the late session of the legislature, which was along there in a corner with the territorial administration, a little scheme was arranged between the governor and John S. Clark, president of the council, to make all things solid in San Miguel county. It was decided to summon Don Romero to a secret council. At that meeting, it is so reported, the proposition was made that the Don should smother his opposition, let bygones be bygones and all pull together in peace and harmony so long as the dove of peace rested up the Otero crest. In return for this surcease from friction there was to be a deal in oil. It is true Don Romero already held, by the votes of his constituents, an office about as fat as a block of New Mexico oil stock—that of treasurer and collector of San Miguel county but the role off in the coal oil business could be made a sufficient inducement to resign that, and Mr. Clark could be induced to look after the collection of the taxes by appointment of the governor, seeing the law prohibited him from holding down that of inspector, as he was a member of the legislature which was to create the office. This latter proposition, however, not being mentioned just at this time.

Don Romero smiled a good deal, looked interested, and little but thought the plan looked feasible, and asked for a few hours to consider the matter. He finally concluded to accept the office but made no definite promises. Within a few days thereafter the first part of the agreement was carried out. The office was created, Romero was appointed and confirmed.

When the legislature adjourned about a week later, and the Hon. John S. Clark went back to Las Vegas he found Don Romero holding down one fat job by election and one by the grace of the governor and his legislature. When it was suggested to him that he let go a moiety of the perquisites he merely waved his hands, smiled slyly and said his friends objected to his resigning. This seemed to settle the matter, but it isn't safe to mention the subject to the Hon. John S. Will the Romero crowd help the governor out?

It seems the head of the government has some rights that even the average newspaper reporter is bound to respect. President Roosevelt told the newspaper men of Colorado the other day that he came there to stay, and if not allowed to do so he would be compelled to cut his trip short and pull back to Washington.

WHAT THE LEGISLATURE DID.

And What the People Pay For Being Governed.

(Continued.)

A Very brief synopsis of the more important measures passed by the late territorial legislature will be given in this column from time to time so that all can govern themselves accordingly. These laws, however, will be of small importance to the general public outside of the effect it may have on their pocket books.

Council Bill No. 68 changing the wild animal bounty law was passed. This act authorizes boards of County Commissioners to levy a tax not exceeding eight mills on horses, burros, mules, cattle, sheep and goats during the years 1905 and 1906 and after that not to exceed four mills, to pay bounty on wild animals killed. Coyote, wild cat and lynx \$1.00, panther or mountain lion \$10.00 each. Applicants for bounty must present the entire hide, and the bounty certificate is to mark such animals cancelled without signing it.

Then comes the infamous coal oil inspection act by which the retail dealers and consumers are made into paying \$10,000 a year to the support of a graft, pure and simple, for the oil furnished the people will burn with that dim uncertain light that characterized it before, this superfluous incubus placed his stamp upon it.

This is followed by the bone doctor bill allowing Osteopathic physicians to practise the laying on of hands in the territory of New Mexico. This law seems to have been enacted, primarily for the purpose of collecting a license fee of \$25.00 from the applicants for a license to practise their arts with \$1.50 additional to the probate clerks for recording the license.

Then they passed an act creating a bond issue of \$107,000 to increase the capacity of the asylum for insane people and imbeciles at Las Vegas. Members of the legislature ineligible for admission. These gentry are now turned loose upon the people but without the power, hapily, to do their constituents any more harm in a public capacity.

The act creating a Superintendent of Insurance is the next opening wedge in the statute books, and was about as necessary as a double tail to a bob cat.

A law was also passed authorizing the Territorial Board of Education to issue five-year teachers' certificates to persons whom it may deem qualified and whose scholarly attainments are at least equal to those of a graduate of either of the two New Mexico normal schools; the certificate to entitle the holder to teach in any public school without further examination provided the holder also has a certificate of attendance at some city county or summer normal school. The act authorizes the expenditure of not to exceed \$50 for holding teachers' institutes in counties of the third and fourth class. The act authorizes the superintendent of public instruction to issue temporary permits to teach, to applicants before the annual examination for teachers' certificates. County superintendents are authorized to appoint as conductor of normal institutes any person of good moral character who possesses a first-class teachers' certificate. The act also provides for the examination of applicants for third grade teachers' certificates in January.

Then follows the Martin Relief Bill, so called, but which is now tied up in the courts at Santa Fe, an injunction having been served against the issue by the Hon. T. B. Catron. Another law is for building armories in all the principal towns of the territory, carrying with it another large appropriation. The ornamental utility of this is app-

ness. As Max Frost would put it: "Score another good point for the legislature."

"The sun never sets on Missouri mule," said Governor Folk in his New York speech. The Governor put it very modestly. The fact is that neither the sun nor any of God's creatures under the sun ever "sets" on the Missouri mule. This statement is made under stress of strong conviction born of bitter experience. Socorro Chieftan.

After the present term of court the new law fixes the terms for the 6th Judicial District as follows: Alamogordo, first Monday in March and September; Santa Rosa, first Monday in April and October; Tucuman, fourth Monday in April and October; Lincoln, first Monday in May and November. This will hold good until the meeting of the next territorial legislature when the time will probably be changed as usual.

GOLDEN STATE LIMITED.

The Most Perfectly Appointed Train in America.

In view of the increased popularity of trains numbered No. 43 and 44, more familiarly known as the Golden State Limited, it has been decided to continue the train in transcontinental service throughout the season, instead of discontinuing the same with the close of Winter tourist travel as formerly. This train, consisting of buffet parlor car, standard and tourist sleepers, between Chicago, Los Angeles, Santa Barbara and San Francisco, will be operated daily, on the same schedule as effective during the winter months. It will be noted that those schedules afford the quickest time between points in California, Arizona, New Mexico, Texas and the entire Southwest, and Kansas City, St. Louis, Chicago, Cincinnati, Pittsburgh, Buffalo, Washington, Philadelphia, New York, Boston, and all points East.

Your liberal patronage the last few months has assured the popularity of this train, and in an endeavor to further serve you it has been decided to not discontinue this service as has been customary.

Soliciting a continuance of your patronage, I am
Very truly yours,

melifluous legislature to prevent persons from riding bicycles on the sidewalks in unincorporated towns of the territory. This would indicate that the majority of the members of the late lamented had led a secluded life, far from the maddening crowd, as any one acquainted with the conditions in our smaller towns, knows that their sidewalks are about the rockiest place over which a wheel could run.

\$300.

For Letters About the Southwest.

The Western Trail Magazine offers six prizes aggregating in value \$300 in railroad transportation, for letters from residents of Arkansas, Eastern Colorado, Missouri, Kansas, Indian Territory, Oklahoma, Texas and New Mexico.

It wants letters that will induce energetic and ambitious men and women to settle in the great and growing Southwest, and there engage in farming, cattle raising, dairying fruit growing and similar pursuits.

To accomplish the purpose which it has in view the Western Trail offers the following prizes in railroad transportation by the six letters which in the opinion of a competent judge shall be deemed best suited to its requirements.

1st Prize, \$100 in RR Transportation.	75 "	"
2nd "	50 "	"
3rd "	50 "	"
4th "	25 "	"
5th "	25 "	"
6th "	25 "	"

THE CONDITIONS ARE EASY.

Letters should deal with the writer's experience since he settled in the Southwest. They should tell how much money he had when he arrived; what he did when he first came; what measure of success has since crowned his efforts and what he thinks of that portion of the country in which he is located. Letters should not be more than 1500 nor less than 300 words in length, and will be used for advertising the Southwest. Letters are desired not only from farmers and farmers' wives but also from merchants school teachers clergyman and from every one who has a story to tell and who knows how to tell it. Poetical contributions are not wanted.

All cannot win prizes but by their contributions they can assist The Western Trail in its efforts to colonize and upbuild the Southwest.

Contest closes June 30th 1905. Prizes will be awarded as soon thereafter as results can be determined. Address The Western Trail 736-144 Van Buren Street Chicago Ill.
