MEMORIAL DAY PROGRAM.

Memorial Day will be observed in White Oaks this year as usual. A memorial sermon will be delivered by Doctor Miller next Sabbath evening at the Congregational church, to which all are cordially invited.

In the evening there will be public exercises at the Congregational church as usual on these occasions. There will be an address by Dr. Miller, plenty of patriotic music and a further program which will be announced at that time.

Cinnamon Rolls and Doughnuts always on hand and fresh on Saturdays, also Cakes and Pies, Oranges, Apples and Peaches the week. Fresh loaves for 25c.

Ziegler Bros. S. Wingfield.

club met last Thursday the enjoyment and life and opportunity. There was music to and a labyrinth. Mixed and legal Theses. Be present, because of her they. But the refreshment, and they until the hours that there wasn't and.

her, probably most energetic in the South from her Three Monday to do a and took after her. She reports evening down in that aspects of an ahun. It will be several years ago ranch to Monday the \$35,000 at time she has another place not fair to rival of. She has grape vines and apple and other already large or. present season. friends will be and to know of her continued success.

Frank Spence, former well known resident of this county, but now a prominent real estate agent in El Paso, is here visiting his brother Charlie. Incidentally it is inferred that he is quietly trying to induce Lincoln county people to invest their surplus shakels in town lots down in that thriving city in the big crook of the Rio Grande. He has already closed a large deal with a prominent citizen, and former merchant of Lincoln. It is expected that the passing of the E. P. & N. E. into the hands of the Phelps-Dodge interests will give that place a new lift and finally make it one of the great rail-

Mr. A. S. Mayes of Estey City paid our camp a visit last week.

L. M. Stubbs came in from the Jic's Saturday on business.

Ziegler Bros. will pay you the highest market price for hides and pelts.

A. C. Mills and Thomas McDonald were over from the San Andras last Tuesday.

Mr. D. Del Curto sold his wool to Gross, Kelley and Company of Albuquerque and received a gilt edge price.

Our genial friend Henry Lutz, former county treasurer, was in town Friday in the interest of wool. Sheep seem to have the call this season.

W. Hogan, representing the Continental Tobacco Company, and A. L. Gale, of Lesinsky's El Paso, "did the town" in their respective lines last week.

FOR SALE. Barbed wire. Special prices in quantities.

WELCH & TITTSWORTH, CAPITAN, NEW MEXICO.

Mrs. J. H. Canning has gone to El Paso on a trip of the most exciting pleasure. A first class dentist will furnish the entertainment in addition to that provided by her friends in that city.

Jones Taliaferro has gone to Roswell to witness the commencement exercises at the Institute, also to see how his namesake, Jones Jr., acquits himself after his year at the school.

Herman Huse, the representative of Gross, Kelley and Company of Albuquerque, visited the town in the interest of his firm Friday. He expressed himself as pleased with the business prospects.

WANTED. To buy a good reliable work team, either mares or horses, for cash. Must be cheap. Apply to E. H. B. Chew Sr. at ranch.

Hon. C. M. Foraker, U. S. Marshal for this territory, was in town last week, summoning members for the U. S. grand jury. The U. S. court meets at Alamogordo, Tuesday, May 23d. Charles D. Mayer and A. N. Price have been summoned on this jury.

The warehouse at the Block ranch burned a few nights ago during the absence of the manager, Mr. H. C. Scott. It was stored with grain, hardware and lumber, principally. The building and contents are a total loss. Supposed to have been the work of a fire bug.

Miss Maybel Hotzel, formerly of Kinsey, Kan., but who for the past few years has been making her home in Phoenix, Arizona, is here on an extended visit with her aunt, Mrs. A. M. Brothers of the Ozanne hotel. The young lady promises to be quite an addition to the society of the young people of this place during her stay.

The Women's Social Club was entertained by Mrs. John H. Canning last Thursday afternoon. About the usual program was carried out, although some of the contests were unique and especially interesting, while the prize winners were more than usually fortunate in the lately souvenirs which they captured. Several young ladies were present, adding very much to the enjoyment of the occasion. Miss Ella Young and Lorena Segor performed finely upon the piano. Cake and punch (strictly temperance) ended a delightful affair.

The latest reports from Estey City point to a revival of business over in that neighborhood. A test run was recently made on an average run of ore which gave thirty per cent. of copper as a result, and the company is now only waiting to recover their tools from the well in order to proceed.

One of the heaviest rains ever known in this part of the country occurred at Capitan Saturday evening last. Much damage by the floods is reported down the Bonito and Honda rivers in consequence. There is also a report that Tom McMurry, children and one of Davis Murray's were drowned while attempting to cross

Ziegler Brothers.

ARE WELL PREPARED TO SUPPLY YOUR WANTS.

Their Stock of General Merchandise is Complete. Dry Goods, Clothing, Groceries, Gents Furnishings. A COMPLETE STOCK of Boots and Shoes. Give Us a Chance and See How Cheap We Can! Sell You a Bill of Goods. Ziegler Bros.

Mrs. L. W. Stewart left Tuesday to join Mr. Stewart in Old Mexico for a visit of some length.

W. C. McDonald, manager of the Carrizosa cattle ranch, shipped 2000 head of steers from Ancho station last week. All were in excellent condition.

Ladies call and see the new stock of Millinery Goods just received at Ziegler Bros.

George Hyde, Fred Crosby and J. O. Nabours, cattle men from Three Rivers were up on business Saturday. Like all cattle and sheep men this season, their faces had a happy expression.

H. L. Payne and wife of Cleveland, Ohio, now sojourning out in the Jicarillas were in town Saturday. Mr. Payne is at present superintending the American Placer Company's work in Ancho Gulch.

Allen Hightower and family spent last Friday in town. They seemed to be in splendid spirits. Allen recently sold a hundred head of steers which were in as fine a condition as any ever shipped from this section, and he received a top notch price for them.

Hon. W. A. Molvers, our former representative in the legislature, spent a day in the camp last week. Mac is contemplating a trip to Denver for the purpose of interesting parties in the resources of this section. He purposes to take with him specimen ore for exhibition.

Dr. and Mrs. Padon have gone over to Roswell to attend the commencement exercises at the Military Institute. Brent Padon graduates this year, and Mel expects to step out of the Freshman into the Sophomore. The Doctor will return Thursday, bringing the boys with him.

THE EXCHANGE BANK!

WHITE OAKS, NEW MEXICO. Transacts a General Banking Business—Issues Drafts on all Principal Cities of the World—Accords to Borrowers every accommodation consistent with safety. Accounts solicited. INTEREST PAID ON TIME DEPOSITS.

NOGAL MERCANTILE CO

Sabbath School each Sunday at 10 o'clock a. m. Prayer Services every Wednesday evening at 7:30, also Sundays at 11 o'clock a. m. and 7:30 p. m., when there is no preaching. All are cordially invited to join in these services.

Plymouth Congregational Church.

Services every Sunday as follows: Sunday School at 10 a. m. Christian Endeavor Society at 7:00 p. m. Preaching at 11 o'clock A. M. and on Sabbath evenings immediately after close of Christian Endeavor services.

WHEAT OAKS - NEW MEXICO

One thing is certain. If hoops are coming into style, feminine golf is going out.

The proposed coffin trust is a very grave matter, that should at once receive the attention of the trust users.

Unlike President Roosevelt, Mr. Gates now feels that going out after bears is both dangerous and unprofitable.

Two coachmen have married rich women. They have demonstrated their ability to drive in double harness.

As a mild retort it would be just like Mr. Carnegie to set aside a small fund for the maintenance of decayed dukes.

There are some persons who never will believe that they cannot buy up all the wheat in the world until they have tried.

It has been discovered that women wear corsets as far back as 1600 B. C. Nevertheless the sex has managed to survive till now.

The St. Louis man who killed himself in order that his wife may be happy has not set an example that will be generally followed.

Forbes Robertson declares that Hamlet was not mad. Hamlet never saw himself portrayed on the stage by an amateur actor.

At the present rate of progress the chauffeur of the future will have to be a graduated physician, with a knowledge of embalming.

The son of a Pittsburgh millionaire has secretly married a kitchen girl, but if anybody, perhaps she may be the one to be commiserated.

Gabrielle d'Annunzio is said to be writing a tragedy based on the life of Nero. The fire scene, with the emperor violating, will be great.

How will the New York multimillionaire who was fined \$25 for breaking the automobile ordinance ever be able to bear up under the blow?

Sarah Bernhardt says crinolines are "infamous," but as she also obligates trousers and silk hats, we conclude she's only half right after all.

A New York landlord announces that he will not make trouble for people who have babies in his flats. Some men would risk almost anything for notoriety.

As they never wear up in Maine, the legislature of that state has imposed penalties on anyone "who vexes, harasses or annoys another over a telephone."

Certainly those two French doctors never had any reason to dream that they would ever have an opportunity to perform an autopsy on the body of John Paul Jones.

Our ungallant probate court has adjudged a woman insane just because she says she is growing younger as her successive birthdays roll around.—Ohio State Journal.

King Victor Emmanuel and Mr. J. Pierpont Morgan had a very pleasant chat. The American money king is decidedly persona grata to the other king since the Ascoli cope affair.

Harvard students have shown that there are fifty methods of working one's way through college, but the chances are that none of them is so satisfactory as working dad's check-book.

A dispatch from Cleveland says Mrs. Chadwick is not receiving visitors. It isn't necessary, however, for the doorkeeper to tell any fibs for the purpose of making callers think the lady is out.

In spite of that astrologer's horridly ing prediction about a coming earthquake that is going to destroy New York, we doubt if the Astor real estate will be advertised for sale at panic prices.

The April fool story printed in Berlin about the looting of Uncle Sam's treasury was taken seriously. The Scotch apparently are not the only people who need trepanning to get a joke into the brain cells.

It is announced that the American national game has made great progress in the land of the mikado. Seeing how the Japanese have been fighting all through the war, we thought that they could play baseball.

Profit in Lavender. Lavender oil is of medicinal value, and lavender buds and leaves of great value. Our total importations of this oil and leaves amount in value to over \$100,000. The lavender of commerce is raised in the country for private profit, and it should be...

Rival Railroad Interests.

A Santa Fe dispatch of May 13th says: The Denver & Rio Grande Railroad Company is restrained, by a temporary injunction granted to-day by Judge John R. McFie, from crossing or using the right of way of the Arizona & Colorado railway in La Plata county, Colorado, and San Juan county, New Mexico, the petition for the injunction being made by representatives of the Southern Pacific and Arizona & Colorado railways. The writ is returnable June 2d.

The Arizona & Colorado road has been surveyed from Durango, Colorado, to Cochise, Arizona, and Lordsburg, New Mexico, at each point to connect with the Southern Pacific and furnish it with coal from the coal fields in San Juan, Socorro and Valencia counties, New Mexico.

The Denver & Rio Grande railroad, after the Arizona & Colorado survey had been completed and the plans for its right of way filed, commenced to build a branch from Durango to Farmington, which crosses the Arizona & Colorado right of way seventeen times.

At Farmington, the Denver & Rio Grande is to connect with a branch to be built by the El Paso & Southwestern to a connection with the Santa Fe Pacific near Gallup. A traffic arrangement with the Santa Fe system is pending by which coal from the San Juan fields is to be carried from this Rio Grande and El Paso & Southwestern connection near Gallup over the Santa Fe to Deming, there to connect with the El Paso & Southwestern main line, which supplies the smelters at Clifton, Morenci, Bisbee, Nacozari and Douglas, controlled by the same financial interests as the El Paso & Southwestern.

Will Remain at Albuquerque.

An Albuquerque dispatch of May 11th gives an interview with E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railway Company.

Relative to a dispatch from Fort Worth, Texas, in which Mr. Ripley is credited with saying that when the Belen cutoff is completed and the road extended from Belen across the Rio Puerco to a junction with the Santa Fe Pacific, the big shops now at Albuquerque will be removed to Belen, he denied the article in toto.

Mr. Ripley stated that the Belen cutoff undoubtedly will be completed and in operation within a year and its construction simply means that it will take the overflow from the New Mexico division through Raton and the Gloriet mountains and furnish a line for a certain section of territory in the Southeast which is now reached now except by a long and tedious detour via Newton, Kansas.

As a further denial of the Fort Worth dispatch, Mr. Ripley stated positively that the New Mexico division will remain on the main line and instead of reducing or removing the shops from this city, the capacity of them will be greatly increased during the next year.

"The Santa Fe Railway Company," said Mr. Ripley, "has invested too much money in improvements of their shops and other property in Albuquerque to slight this town and the people of this city. The Rio Grande valley have no cause to worry over false and seemingly malicious stories instilled relative to the building of the Belen cutoff."

Memorial Day Order.

The following circular, No. 1, has just been issued from the office of A. P. Tarkington, adjutant general of the New Mexico National Guard, by order of Governor Otero:

"It has been customary for many years for organizations of the National Guard of New Mexico to participate in the Memorial day exercises at their home stations on May 30th of each year.

"It is urged that the present year be made no exception. No honor too great can be shown the dead, who gave up their lives in defense of the flag we all love, and who died that our country might live.

"Company commanders are requested to ascertain what exercises are to take place at their home stations on this day, and to offer the service of their organizations for parades or other ceremonies.

"In accordance with the United States army regulations, company commanders will arrange for the national colors to be displayed at half staff on all anniversaries, from sunrise to midday. At noon the flag will be hoisted to the top of the staff and will remain there until sunset."

New Mexican Dies in Mexico.

An Albuquerque dispatch of May 15th says: A telegram was received to-night by Mrs. Charles O'Connor Roberts announcing that her husband had died of heart failure at Mazatlan, Mexico. The deceased was a well-known mine and newspaper man and was located at Leadville, Colorado, in the boom days of that great mining camp. He came west first from Baltimore, where for years he was connected with the news department of the American...

"When not mining he was doing editorial and journalistic work on news papers, and was one of the pioneer reporters of this city. For the last few years he had mined with various success in this city, but went to Mexico a short time ago. Since coming West he had made several fortunes in mining, but being a true Bohemian, the money went as fast as it came."

A Roswell dispatch of May 15th says: Governor from Lincoln report that Rosario Melillo, a young Italian, had been convicted on the charge of killing Antonio Carillo, a young Mexican woman. The verdict of the jury was that Melillo was guilty and he was sentenced to hang. The Melillo family has been in the country for many years and has been successful in business.

Chenoweth Convicted.

Howard Chenoweth was on Saturday, the 8th inst., at Silver City, in the Third Judicial District Court for Grant county, convicted of murder in the second degree, the jury having returned the verdict after a deliberation of twenty-four hours. The case was heard before Judge Frank W. Parker, the territory being represented by District Attorney Turner of the Third Judicial district, and W. B. Childers of Albuquerque. The defense was conducted by Attorney James S. Fielder.

The crime for which Chenoweth was convicted occurred in Silver City on August 28, 1904. Howard Chenoweth and Mark Kennedy, two cowboys of the Diamond A outfit were engaged in a drunken brawl when the ranch foreman, Pat Nunn, interfered and got a severe bullet wound from Chenoweth as reward. When the bullets began to fly City Marshal James Kilbourne came running up to interfere and Chenoweth fired at him point blank. Constable Rodriguez was also badly wounded by Chenoweth who was so infuriated by liquor and passion that he was shooting at every man in sight. Deputy Sheriff Murray made his appearance as Kilbourne fell and as Chenoweth aimed his six-shooter at Murray the latter fired and Chenoweth dropped. He was painfully wounded and for weeks his fate hung in the balance.

Las Vegas Gets Sanitarium.

A Las Vegas dispatch of May 9th says: This city has been selected as the site for the National Fraternal Sanitarium. The magnificent Montezuma hotel, three stories in height, and containing 400 rooms, with the hot springs, grounds of 1,000 acres and the productive farm, a property which cost a million dollars, and which has been given by the Santa Fe company to the National Fraternal Sanitarium Company. Announcement is made to-day from St. Louis that the gift has been accepted and that the largest sanitarium in the world will be established.

Citizens of Las Vegas have given the company several hundred acres of land, and a score or more of cottages. The Las Vegas grant has presented thousands of acres of land surrounding the hotel grounds, so that the company will own and control a large area of land that cannot be used for commercial purposes.

The sanitarium company will expend \$50,000 in refurbishing the hotel, which will not be utilized for patients, but will be open to the public. The patients will be placed in tents and cottages.

The company has the assurance of the co-operation of many orders in the United States in its fight against tuberculosis. Former Governor Stevens will make the formal announcement of the selection of Las Vegas as the site for the sanitarium at a banquet at the Planters' hotel to-morrow evening.

Encouraging Crop Report.

The crop bulletin issued May 9th by the United States Weather Bureau in Santa Fe for New Mexico is very optimistic. It says that the soil continues in excellent condition for plowing, seeding, planting and the growth of crops. Practically all the available valley land is being brought under cultivation and moisture is abundant, the rivers and creeks and even arroyos running full and but little or no irrigation being required.

The early sown grain is growing finely, and in the southern valleys the first crop of alfalfa is being cut, while in other portions of the territory the crop is almost ready for cutting.

Range grasses are growing well, and cattle, horses, sheep and goats are generally in good condition, only in northeastern counties reporting poor range and losses of cattle and sheep.

Fruits continue very promising, apricots, peaches, cherries, plums and early apples setting fruit abundantly, with little or no apparent harm from the frost, although the daily average temperature has been 10 degrees below the normal during the past seven days, and the frosts extended as far south as the Pecos valley, but doing little damage.

New Incorporations.

Incorporation papers were filed with the territorial secretary at Santa Fe May 9th as follows:

Alameda Water Company of Roswell, capitalization, \$7,200; incorporators, William F. Wells of Los Angeles, William B. Gatewood, Wendall M. Reed, Carl M. Bird and John T. Carlton; directors, Carl M. Bird, Wendall M. Reed and William A. Gatewood.

Western Parent-Crude Rubber Company of Santa Fe, capitalization, \$100,000; incorporators and directors, Lehman Sparks, Harley Duvall, Morton C. Miller, John Howard Vaughn, A. B. Tenthunan and H. B. Cartwright of Santa Fe.

Winter Grocery Company of Santa Fe; capitalization, \$3,000; incorporators and directors, Thomas S. Winter, R. L. Winter and E. A. Mecke.

On the 11th incorporation papers were filed by the Roswell Canning Factory; the incorporators being Charles E. Tannehill, Joseph Morrison, J. W. Fox, W. B. Frazer and Lewis D. Fox of Roswell. The capitalization is \$10,000 and the headquarters Roswell. The directors are G. W. Medley, R. F. Barnes, R. F. Bean, W. B. Frazer, H. F. Smith, L. O. Carby, C. E. Tannehill, J. P. White and Lewis D. Fox.

Lieutenant General Adna R. Chaffee, United States Army, who has been on a tour of inspection of some of the military posts in New Mexico and Arizona, passed through New Mexico Thursday on his return to Washington. It is understood that upon his recommendation, Post No. 11, near Ft. Pecos, will be made a permanent post, that the garrison at Fort Wingate, near Prescott, Arizona, will be increased, that military preparations will be made at Fort Stanton, in this territory, and the strength of the garrison there be increased.

Lieutenant General Adna R. Chaffee, United States Army, who has been on a tour of inspection of some of the military posts in New Mexico and Arizona, passed through New Mexico Thursday on his return to Washington. It is understood that upon his recommendation, Post No. 11, near Ft. Pecos, will be made a permanent post, that the garrison at Fort Wingate, near Prescott, Arizona, will be increased, that military preparations will be made at Fort Stanton, in this territory, and the strength of the garrison there be increased.

Pecos, will be made a permanent post, that the garrison at Fort Wingate, near Prescott, Arizona, will be increased, that military preparations will be made at Fort Stanton, in this territory, and the strength of the garrison there be increased.

Care for Starving Stock.

C. E. Belden of Hopewell, New Mexico, has written the State Bureau of Child and Animal Protection some encouraging news. In the winter when the stock in Colorado along the New Mexico line was suffering Agent Harry B. Kerr, in investigating the situation, found that stock over the line in New Mexico was in a condition equally bad. He took the matter up with Governor Miguel A. Otero and Attorney General George W. Pritchard of New Mexico. This agitation resulted in arousing public sentiment, and nearly 200 horses were rescued and cared for by the citizens, although there was no law compelling them to take this action. Mr. Belden writes that the last of the stock so rescued has been sold and that the receipts paid the expense of keeping the entire lot. Some few were claimed by their owners, but in the majority of instances the horses were sold without claimants.—Denver News.

Inspecting the Forts.

Lieut. Gen. Adna R. Chaffee, chief of staff of the United States Army; Gen. C. F. Humphrey, quartermaster general, and Capt. Grote Hutcherson of the general staff, were at Albuquerque, May 11th, en route to Fort Riley, Kansas. General Chaffee has just completed a tour of inspection of the military posts of the Southwest and said: "Our tour has taken us to Whipple Barracks, Fort Bayard, Fort Bliss and Fort Wingate, and at every place we found the posts in splendid condition. At all I shall recommend improvements. At Fort Wingate a railway between Wingate station on the Santa Fe and the fort, ten miles distant, will be constructed at once at a cost of probably \$100,000. This will do away with heavy expense of freighting supplies overland to the military post."

A Roswell dispatch of May 9th says: Brakeman W. A. Gossett met with a railroad accident last night at Eldra to which one of his legs was cut off. Hopes are entertained for his recovery.

While attempting to cross the Rio Grande river at Fort Seldon a few days since, Denan Walters was drowned. His three companions recovered the body several miles down the river.

C. M. Kaadt, a Santa Fe business man who had resided there for many years, dropped dead on the 10th inst. in his place of business from a hemorrhage of the lungs. He is survived by a widow and daughter.

Thomas De Long, who died at Albuquerque on the 12th inst. at the age of sixty-two years, was quartermaster sergeant of Company A, First California cavalry, during the Civil war. He was a prominent citizen and well known Grand Army man.

The resignation of William C. Barnes of Las Vegas, as a member of the cattle sanitary board, was recently accepted by Governor Otero, and William C. McDonald of Carizozo, Lincoln county, was appointed to succeed him. Mr. Barnes will remain secretary.

W. A. Gossett, the Pecos Valley & Northwestern brakeman who had his leg amputated after a railroad accident at Eldra, died at Roswell May 14th from his injuries. He was the son of Warren J. Gossett, a passenger conductor on the south end of the Pecos Valley & Northeastern lines.

The Las Vegas Electric line, which extends ten miles into the Gallinas canon, was sold May 11th to W. H. Buddecke of St. Louis, who represents St. Louis capital. A. H. Duncan of St. Louis was the chief owner of the line. The new cars have been ordered and the line will be extended and improved.

The Rio Grande river has changed its bed near Las Cruces and inundated many acres of formerly valuable farming lands. The change in the course of the river was so great that a new ditch three miles long will have to be built before irrigation facilities will be up to their former standard. The present crop on several thousand acres will be ruined for lack of water.

Tremendous excitement prevailed among the Mexican population on the night of May 9th. The young son of Mr. and Mrs. Juan Slenos, who had been sent to take a burro to an arroyo near his home, failed to return and searching parties were sent in all directions. It was finally discovered that the little fellow was sound asleep at the house of a neighbor who had taken him in.

Rev. Henry Watson Ruffner was appointed chaplain of the First regiment of the militia by Governor Otero on the 13th inst. and First Lieut. Edward J. McWenke was appointed captain of the first squadron of cavalry. Resignations were accepted from and honorable discharges granted to Second Lieuts. Stuart C. McCrimmon of Santa Fe and Charles B. Merrill, who removed from the territory.

The annual commencement exercises of the University of New Mexico were held at Albuquerque May 12th in the Elks theater. Chancellor E. Benjamin Andrews of the University of Nebraska, delivered the baccalaureate address to a class of twelve graduates, one of whom, Thomas Bell, secured a Rhodes scholarship. The last year of the university has been the most successful in the history of that institution.

In the fourth annual territorial track and field meet at Albuquerque May 10th, in which teams from all the educational institutions in the territory participated, the College of Agriculture and Mechanical Arts at Las Cruces carried off the honors, scoring 55 out of 100 points. Several records were broken. The winners retain the silver cup permanently, having held it for two years in succession. The meet was largely attended and the most successful ever held.

A killing is reported to have taken place at San Marcel May 11th. A native named Donaciano Perez was drunk and boisterous, and was known to have a pistol in his hip pocket. One Peter Fallo attempted to arrest the man, but being unable to do so, he called Alameda Sheriff Morrison. Sheriff Morrison arrived at the scene and shot and killed Perez. The body was taken to the morgue and the sheriff is expected to return to the territory by train to-day.

BOARD OF PARDONS SO DECIDES

Two of the Murderers of Mrs. Youngblood to Be Hanged at An Early Date—One Reprived for Six Months.

Denver, Colo., May 18.—After the hearing yesterday in the governor's office, the state board of pardons announced its decision in the case of the three Youngblood murderers, who sought a commutation of sentence from hanging to life imprisonment. The verdict was that Frederick Arnold and Newton Andrews must be hanged on the week beginning Sunday, May 21st. Charles O. Peters, whose sanity has been questioned, was granted a six months' reprieve, and will be hanged the week beginning November 19th.

All phases of the case were carefully considered by the board of pardons. A report submitted by the sanity commission, signed by three of the doctors, stated that all three of the murderers are sane. An additional report, signed by Dr. J. E. Courtney with regard to the mental condition of Charles O. Peters, indicated uncertainty, and this undoubtedly led to his reprieve.

It was a sad gathering in the governor's office. The members of the board of pardons were intent upon carrying out the law, and their final decision does so to the letter. The tears of mothers and relatives present were of no avail and neither were the pleas of attorneys for the youths.

Willis Elliott made a strong plea for clemency for the men. He does not believe in capital punishment and made a sincere and eloquent talk against it.

Col. J. M. Essington, Arnold's attorney, also spoke, asking clemency. Dr. Pierce S. Smith made a general argument against capital punishment.

Governor McDonald probably will approve the report of the board as he has stated he would be guided by its recommendation.

The following is the report of the sanity commission: "May 12, 1905.

"We have this day examined as to the mental condition of Charles O. Peters, No. 5974, Frederick Arnold and Newton Andrews, now confined in the state penitentiary under sentence for death. In our opinion, each of the said convicts is sane. Respectfully,

"HOWELL T. PERSHING, M. D.
"S. D. HOPKINS, M. D.
"F. N. CARRIER, M. D."

Dr. Courtney's report states that while there are many indications that Peters is feigning insanity, some of his symptoms are those of dementia, leaving a reasonable doubt as to his sanity.

Willis Elliott stated last night that if sufficient money can be raised for the purpose, the case of the Youngblood murderers will be taken on appeal to the United States Supreme Court, providing Governor McDonald will grant a stay of execution. It is estimated that it would cost between \$500 and \$600 to appeal the case. An appeal would be taken on behalf of some one member of the trio, which would have the effect of staying execution in all three, if the high court accepted the case.

DEPARTMENT ENCAMPMENT.

Annual Meeting of Colorado and Wyoming Veterans in Denver.

Denver, May 18.—With the reception at the depot of General Wilmon W. Blackmar, national commander-in-chief of the Grand Army of the Republic, opened its annual encampment yesterday morning. General Blackmar was accompanied by his adjutant general, John E. Gilman of Boston; Mrs. Gilman, Mrs. Blackmar and the latter's sister, Miss Jennie Brewer.

More than 300 veterans, with Col. Charles Wallace and his drum corps, were waiting at the depot at 10:30 o'clock yesterday morning to greet General Blackmar and party. The visitors were delighted with their reception and General Blackmar was particularly pleased at the announcement of Col. Harper M. Oranhood that former Mayor Wright's fine gray horse had been tendered to the general for his use during the national encampment in this city next September. It is the striking resemblance between General Blackmar and the former mayor that has caused such a friendship to spring up between them.

Following a brief reception at the hotel the several women's auxiliary bodies opened their business sessions at the places selected for their meetings, after which they adjourned to attend the open meeting of the G. A. R. encampment in Unity church.

At 2:30 in the afternoon, the department of Colorado and Wyoming formally opened its encampment in Unity church; addresses of welcome being made by Governor McDonald for the state, and Harry E. Insley, representing Mayor Speer, who welcomed the visitors to Denver. Department Commander T. J. Downen of Pueblo presided. Stinging addresses were given by General Blackmar and General Gilman, and their Commander Downen read his annual address, which is regarded as one of the ablest ever made by any commander since the department was organized.

Last evening there was a reception to General Blackmar and party at the Albany hotel. This morning the department will begin its business sessions at 9 o'clock at Unity church.

Grand Army Festival.

Denver, May 18.—A committee of the Memorial and Benevolent Association of the G. A. R. posts of Denver has closed a contract with Harold A. Bawa, manager of the Great Gaskill Bazaar, to give a fair and festival on the grounds at Weston, and Twenty-third streets in this city for nine days beginning June 1st. A share of the profits will be divided among the Grand Army posts to be used to satisfy necessary expenses pertaining to the national encampment to be held at the city of Washington, August 1st to 10th, 1905.

G. A. R. ENCAMPMENT

GREAT GATHERING AT DENVER

Department of Colorado and Wyoming and Allied Organizations in Annual Session.

Denver, Colo., May 19.—Yesterday's session of the encampment of the Department of Colorado and Wyoming, Grand Army of the Republic, was full of business, so full, in fact, that only five of the officers were elected, as follows: Department Commander—George W. Curfman, Denver. Senior Vice Commander—Stephen H. Seckner, Fort Collins. Junior Vice Commander—John H. Guilford, Trinidad. Chaplain—Rev. C. A. Brooks, Fort Morgan.

Medical Director—Dr. F. O. Burdick, Boulder. Other officers will be elected to-day. The numerous auxiliaries of the Grand Army also had a busy day, several of them choosing officers, besides laying plans for the national encampment, to be held in this city in September. They also received visits from Gen. Wilmon W. Blackmar, national commander in chief; his adjutant, Gen. John E. Gilman; Mrs. Blackmar, who is a national special aid of the Woman's Relief Corps; Mrs. Gilman, who is national aid and chief of staff of the same organization, and Gen. Harper M. Oranhood and Gen. George W. Cook, both of Denver. All members of the party were cordially received by the Women's Relief Corps and the Ladies of the G. A. R., and at each meeting they made short addresses.

Both the Relief Corps and the Ladies of the G. A. R. elected officers yesterday, the features of the meetings, besides the visits of the distinguished guests, being the presentation of diamond rings to the retiring presidents, Mrs. Olive A. Killin of the Woman's Relief Corps, and Mrs. Minnie M. Ditto of the Ladies of the G. A. R.

The Woman's Relief Corps elected the following officers: President, Mrs. Jennie McGill, Denver; senior vice president, Mrs. Jennie A. Knight, Cheyenne; junior vice president, Mrs. Ann St. Clair, Fort Collins; treasurer, Alice T. Smith, Cripple Creek; chaplain, Nellie P. Weston, Canon City; executive board, Edna E. Campbell of Denver, Eliza Peters of Golden, Lillie Inman of Pueblo, Maude Cochran of Denver, Mattie Hooper of Central City; delegate at large, Angie Grove of Denver; alternate at large, Ida Critchell of Denver; delegates, Maria Luca of Boulder, Emma Ormsby of Colorado Springs, Rosa Wright of Longmont; alternates, Mary Hader of Cheyenne, Jennie Woodruff of Creede; Lulu Devaion of Golden.

Officers were elected by the Ladies of the G. A. R., as follows: President, Mrs. Hattie Kinney, Rocky Ford; senior vice president, Rose Wade, Denver; junior vice president, Mrs. M. E. Gardner, Pueblo; treasurer, Alice K. Green, Rocky Ford; chaplain, Winnie McCunhill, Canon City; councilor, Mrs. Minnie M. Ditto, Canon City; council of administration, Grace Adams of Meeker, Lillie Smith of Salida, Melinda B. Gladden of Cripple Creek. The remainder of the board of officers will be elected to-day.

Over the campfire at Unity church last night the G. A. R. heard eloquent talks and interesting stories from their commander-in-chief, General Blackmar, and from Adjutant General Gilman, many of them stories of the war, which were of especial interest to the veterans. Speakers from the Woman's Relief Corps and Ladies of the G. A. R. took part in the entertainment, which was enlivened by songs from a quartet and a number of pieces by the Cook G. A. R. Band and Drum Corps—the "band that made Denver famous." After the camp fire General Blackmar left for Eastern points.

The great work of the encampment is preparation for the meeting of the National Encampment which opens September 4th.

Statement by Mrs. Chadwick.

Cleveland, Ohio, May 19.—Mrs. Cassie L. Chadwick made a statement last night concerning her affairs in which she said:

"Since January 1, 1901, I have had \$3,210,000. Of this amount I borrowed not over \$900,000, the remainder coming from a trust fund and some sales.

"In April or May, 1901, I owed only \$53,000. I paid that debt. I was then induced to make an investment which called for almost \$400,000. I took no security for this investment and the transaction, so far as I was concerned, never materialized. The investment was made upon the advice of a friend.

"In February, 1902, after my return from Europe, I was informed that my investment was a loss and that I was in debt \$400,000. Besides that sum there was an additional loss which I had incurred of \$200,000. In order to meet these obligations I made large loans, for which I paid heavy commissions.

"I have borrowed in all \$900,000. I obtained \$175,000 on my own note. A loan of \$240,000 was secured by men on the indorsement of a prominent New Yorker. The other \$485,000 I have mentioned before."

St. Louis Fair Expenses.

Denver, Colo., May 18.—Harry Casaday, treasurer of the St. Louis World's Fair Board for Colorado, has submitted his official report to Governor McDonald. The expenditures of the board, which were pretty thoroughly gone into as they occurred, and were criticized for their generosity, were as follows:

General expense department, \$12,123.94; educational department, \$11,831.36; forestry, fish and game department, \$5,229.10; agricultural department, \$15,526.95; horticultural department, \$13,581; mine department, \$20,153.04; general salary, \$5,937.27; Colorado board of world's fair commissioners, \$2,918.50; live stock, \$244.98; Paul Wilson, commissioner in charge, expense account, \$1,122.75; juvenile court, \$497; real account, \$2,983.27; building department, \$1,628.47; transportation department, \$289; cost of meals department, \$2,124.00; \$13,122; subject for 1905; subject for 1905.

Denver, May 18.—A committee of the Memorial and Benevolent Association of the G. A. R. posts of Denver has closed a contract with Harold A. Bawa, manager of the Great Gaskill Bazaar, to give a fair and festival on the grounds at Weston, and Twenty-third streets in this city for nine days beginning June 1st. A share of the profits will be divided among the Grand Army posts to be used to satisfy necessary expenses pertaining to the national encampment to be held at the city of Washington, August 1st to 10th, 1905.

DEATH IN TRAILING SKIRT

Danger That Lurks in Present Day Obedience to Fashion's Whim

The following short story from the Woman's Journal is very timely in the warning given against trailing skirts:

Only a little dust, almost imperceptible dust, caught on the rug on the floor of the handsome hall.

It was a Turkish rug, lying on the perfectly waxed, hardwood floor, in a hall where neatness seemed to reign along with all the appointments of wealth.

But there was that almost imperceptible dust. How did it come there? If you had ears that could hear its voices it would tell you. It would say that it had clutched a fold on the beautiful lady's gown and come in from the street.

It was a beautiful gown as well as a beautiful lady—a tailor-made gown, and its fashionable bias flounce trailed stylishly on the ground.

Everything was stylish about the lady, from her fair face, with rather deep circles below the eyes, to her slender and handsome walking shoes. She walked trailing her gown properly, dust or no dust? Indeed, she ignored the dust of the street; but will the dust ignore her?

Let us listen, if she will not, for this almost imperceptible dust moves and acts with fearful force, and if we listen possibly we may understand its language.

Soon after coming in on the beautiful lady's gown, other steps followed and other gowns helped to move the dust along farther into the house; but it had a fancy for the beautiful lady. Her frailness attracted it and it followed her to the bed chamber. Her feet had never trod the loathsome precincts whence it came, but it came to her on her gown.

Soon there came to the chamber a little child, a sweet, rosy cherub. In its romping it stirred the dust about. Then the dust began to be separated, being formed of many particles, and these talked among themselves. As they talked they danced back and forth, waltzing, swirling, capering, with every motion of the child and its mamma, the beautiful lady.

A scientist could have understood them if he had caught some of them under his microscope. He would have called them "germs." With what alarm he would have recognized the diphtheritic, and with what dismay would he have seen the tubercular germ approaching the frail lady.

Back and forth, dancing, capering, waltzing, the germs kept time while baby, in its mother's arms, said, as thousands of other little ones were saying—

"Now I lay me down to sleep, I pray the Lord my soul to keep; I should die before I wake, I pray the Lord my soul to take."

This baby was saying it for the last time. When night came again, thousands of little voices sent up the baby prayers, but this one was gasping out its little life on mamma's bosom—destroyed by a germ.

A yellow card at the front door warned all comers against diphtheria. The beautiful lady vainly sought health for a year or more, then found rest "beyond the sorrow and the parting."

"Broken hearted," it was said. "Found death in the dust of the street," said the microscope. A victim of the long skirt.

Fashion and Consumption.

In all American cities and most of the larger towns promiscuous expectation is prohibited. There are ordinances and rules against spitting in public conveyances, on the floors of assembly halls and on the sidewalks. Of necessity, however, this cannot be prevented in the gutters and on the pavements.

By educating the tubercular patient himself in regard to his duty to his fellow citizen much more can be done. A careful consumptive is a good citizen; a careless consumptive is an enemy to society and the state.

Even with the civil and self-imposed precautions, the dust of the highway and crossings is teeming with various disease germs. It is practically impossible to eliminate these beds of filth. In the cleanest streets such colonies of germs are present.

The use of long, dragging skirts on the average highway is the height of folly. It is worse. It is absolutely dangerous. The sweeping cloth picks up dust and dampened particles carrying tubercular germs. They are thus transported into the very household. In this simply yet sadly effective way, the children, so carefully guarded, are exposed to the dreaded plague. The entire family, satisfied with their fancied security, are stricken when tuberculosis claims one of their loved ones.

every woman should wear sensible skirts entirely clearing the ground. This will entirely eliminate this great avenue of tubercular invasion.

The American Heart.

We have heard much about the American stomach and the American nerves, but we are just awakening to a discovery that there is being rapidly developed a form of heart disease which, if not peculiar to America, may at least be said to be more prevalent in this country than in any other part of the world. The heart-weakness resulting from the use of tobacco and alcohol and from a sedentary life on the one hand, and extremely violent exertion on the other hand, is no longer a rare condition, but has come to be one of the most common affections with which the physician has to deal. A large proportion of the men rejected in the army examinations are refused on account of heart weakness. A large proportion of the public men who die suddenly die as a result of the failure of the heart. The same may be said also of many of the cases in which the cause of death is reported to be pneumonia, typhoid fever and other affections in which special strain is brought to bear upon the heart, and in which the failure of the organ to meet the emergency is one of the most common causes of death. The cigar, the cigarette and the pipe are probably the most common cause of this growing frequency of cardiac affections; but the neglect of physical exercise, overeating, the use of condiments and excesses of all sorts are also to a large degree responsible for the rapid increase of this grave malady.

SOME WHOLESOME RECIPES.

Vegetable Soup.

Simmer together slowly for three or four hours, in five quarts of water, a quart of split peas, a slice of carrot, a slice of white turnip, one cup of canned tomatoes and two stalks of celery cut into small bits. When done, rub through a colander, add milk to make of proper consistency, reheat, season with salt and cream, and serve.

Roast Imperial.

Mix together one-half cup of lentil pulp (prepared by rubbing well-cooked lentils through a colander), one-half cup of pea pulp, one-half cup of English walnuts, and season to taste with sage and salt. Line an oiled baking dish one-half inch deep with the mixture. Pack in loosely a dressing made from the following ingredients: Four slices of zwieback, steamed until softened, one-half cup of hot cream, sage and salt to taste, and one well-beaten egg. Mix together lightly with a fork. Cover closely with peas, lentil and nut mixture. Spread over the top thick cream, bake in a moderate oven until firm enough to cut into slices. Serve with cranberry sauce or fruit jelly.

Scalloped Potatoes.

Pare the potatoes and slice thin; put them in layers in an earthen pudding dish, dredging each layer lightly with flour, add salt, and pour over all enough good, rich milk to cover well. Cover, and bake rather slowly till tender, removing the cover just long enough before the potatoes are done, to brown nicely. If preferred, a little less milk may be used, and a cup of thin cream added when the potatoes are nearly done.

Chopped Cabbage.

Take one pint of finely chopped cabbage; pour over it a dressing made of three tablespoonfuls of lemon juice, two tablespoonfuls of sugar, and a half cup of whipped cream, thoroughly beaten together in the order named. This is also nice served simply with sugar and diluted lemon juice.

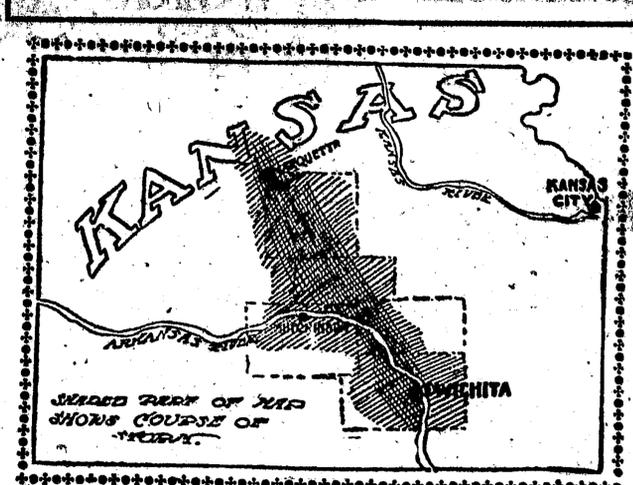

Macaroni With Tomato Sauce.

Break macaroni into inch lengths, enough to make one cup, and drop into boiling water. Let it boil until perfectly tender. In the meantime, prepare the sauce by rubbing a pint of stewed or canned tomatoes through a colander to remove all seeds and fragments. Heat to boiling, thicken with a little flour; a tablespoonful to the pint will be about the requisite proportion. Add a half cup of very thin sweet cream and one teaspoonful of salt. Dish the macaroni in individual dishes, and serve with a small quantity of the sauce poured over each dish.

Steamed Fig Pudding.

Moisten two cupfuls of finely grated Graham bread crumbs with half a cup of thin sweet cream. Mix into it a heaping cupful of finely chopped fresh figs, and a quarter of a cup of sugar. Add lastly a cup of sweet milk. Turn all into a pudding dish, and steam about two and one-half hours. Serve as soon as done with a lemon sauce prepared as follows: Heat to boiling in a double boiler a pint of water in which are two slices of lemon, and stir into it a dessert spoonful of cornstarch; cook four or five minutes, or until it thickens. Squeeze the juice from one large lemon, and mix it with two-thirds of a cup of sugar. Add this to the cornstarch mixture, and allow the whole to boil up once, stirring constantly; then take from the fire. Leave in the double boiler, surrounded by the hot water, for ten minutes. Cool to blood heat before serving.

PROSPEROUS SECTION OF KANSAS SWEEP BY DEADLY TORNADO

Marquette, Kan., suffered the worst from the storm. In the town and immediate vicinity twenty-nine were killed and more than 100 more or less injured. The tornado threw the town into a panic, wrecked scores of buildings and did much damage in the country near by. Many of the victims were killed as they lay asleep; others

THE PACE THAT KILLS.

Physician's Arraignment of Our Modern Society.

Physicians in New York have been startled by the alarming increase in the number of sudden deaths due chiefly to heart disease. Dr. Girdner, author of "New Yorkitis," makes a short-cut to the real cause of this mortality when he says: "New Yorkers are driving themselves like beasts of burden. They are working like dynamos all day, and playing like idiots at night." To use an old phrase, they are going "the pace that kills."

We cannot lead the strenuous life without paying for it. We may work too hard, eat too fast, play irrationally, sleep too little if we wish; but nature demands its equivalent. Nervous strain means a weakened heart and other organic troubles—often a sudden death. And all for what? Merely to excel someone else in money getting or in climbing the social ladder.

If a man must work like a dynamo all day he ought not to be an idiot at night. And if he plays the idiot socially he should not be a business dynamo. He may stand one or the other and die from old age; but if he tries them both it won't be long before something will break. The dynamo may burn out or the idiot become permanent.

The fact that we are living too fast—for New York has no monopoly on the strenuous life—is not deduced from sudden deaths alone. Nervous strain means accidents, suicide, sometimes even murder.

Is the game worth the candle? Is any fortune or social position that man can attain compensation for a combination of dynamo and idiot? "What shall it profit a man if he gain the whole world and lose his own soul?"—Chicago Post.

HEAD OF IMPORTANT BUREAU

Recent Appointment is Promotion for William C. Fox.

The appointment of William C. Fox to the directorship of the bureau of American republics, to fill the vacancy made by the appointment of W. W. Rockhill as United States minister to China, has been announced. Mr. Fox has been with the bureau since 1898, prior to which time he was consul at

WILLIAM C. FOX

Brunswick, Germany, for thirteen years, being appointed by President Grant.

Nurses Worn-Out Heroes.

The princess of Wied, who is a prominent figure in the court circle at Berlin and whose husband is in the line of succession to the throne of Holland, has developed a curious but human hobby, in which only one of her great wealth could indulge. She has all the latest fashions that come to her notice and gives them the benefit of a stay in her well-appointed stables. A period of rest and kind treatment usually restores the unfortunate animals to good condition and they are in working order again. Her stables of broken-down horses have enjoyed the princess' hospitality and have left the equine sanitarium as good as new.

awoke, maimed and bleeding, to find themselves buried in the ruins of their homes.

Rescuers worked with lanterns for several hours, caring for the sufferers. The storm swept a clean swath 100 yards wide through the town, destroying the Methodist and Lutheran churches the opera house and many dwellings.

BRANDEGEE GOES TO SENATE

Successor to Late O. H. Platt of Connecticut.

Congressman Frank B. Brandegee, who has been chosen to succeed the late Senator O. H. Platt in the United States senate, represents the Third Connecticut district in the national house of representatives. He is a Yale graduate, and while at Yale pulled the bow oar in the varsity boat crew. He was elected to the legislature twelve years ago, and in 1899

FRANK B. BRANDEGEE

was chosen speaker of the Connecticut house. His father had held the same office in the legislature and was congressman during the civil war.

Indifference to War's Horrors.

It would take a psychologist to explain why all the world shudders at the blotting out of St. Pierre or the drowning out of a Johnstown—and gladly puts its hand in its purse in order to aid the survivors, while today it regards the far greater loss of life in Manchuria with comparative equanimity—the excuse for a few banal remarks. Let natural forces but triumph over and destroy a few thousand human beings and everybody groans. But if your supposedly civilized nations set their hundreds of thousands to smashing of skulls, blowing each other to pieces and wholesale maiming we merely speculate as to whether the losses are proportionately greater than in other battles, or whether this is the largest slaughter of men on record, and even bet on the exact date when Harbin is likely to fall. Why this distinction when it comes to the taking of human life en masse.—New York Evening Post.

Children of the Slums.

Their chances of existence are small in the midst of the unsanitary horrors of the slums; their chances of a happy, healthy childhood and a successful, honorable future are almost nil. But they are coming into the world by thousands; the parents who have the most excuse for their suicide have ever the least inclination toward it. In the slums the children swarm; they die like flies or live worse than beasts, shut up in festering hotbeds of misery, disease and crime. And their great, generous acres, where they might thrive and grow well and sweet and beautiful and strong, lie barren and deserted in the sunshine, often held by land-grabbers, who gained them by fraud. To bring them together—these homeless children and these childless lands—would be a work to immortalize any millionaire alive.—Cleveland Leader.

Soldiers of Various Nations.

Of all great nations the United States of America have in their peacetime standing army the smallest number of soldiers in proportion to extent of population, namely, one soldier to every 1,000 citizens. The opposite extreme, curiously enough, is reached by the republic—France—which has one soldier for every seventy-two of the population. Italy has one soldier to every 100 subjects; Germany, one to 67; Austro-Hungary, one to 125; Great Britain, one soldier to every 100 subjects. Belgium, having a population of not more than 7,000,000, has one soldier to every 100 inhabitants. Russia has one soldier to every 140 of its subjects; Japan, one to 250.

MOTHERHOOD

Actual Sterility in Women Is Very Rare—Healthy Mothers and Children Make Happy Homes.

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Woman's Association, of 614 Grove Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham— "I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I

try Lydia E. Pinkham's Vegetable Compound; this I did, and I improved steadily in health, and in less than two years a beautiful child came to bless our home. Now we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound."

Mrs. Mae P. Wharry, Secretary of the North Shore Oratorical Society, The Norman, Milwaukee, Wis., writes:

Dear Mrs. Pinkham— "I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within three months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I bless Lydia E. Pinkham's Vegetable Compound for the light, health and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period.

Women suffering with irregular or painful menstruation, leucorrhoea, displacement, ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills, and accept no substitute.

Many Women Have Been Benefitted by Mrs. Pinkham's Advice and Medicine.

WOODWORTH-WALLACE COLLEGES

TEA

Give thought to the tea you buy.

Your grocer returns your money if you don't like Shilling's Best.

"Rolling pin? Yes, sir; here's one made of glass; the latest thing out." "But, good lord, man! that thing would probably break and cut my head all to pieces!"

In a Pinch, Use ALLEN'S FOOT-EASE. A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all druggists, 25c. Trial package FREE. Address A. S. Olmsted, La Roy, N. Y.

They tell us that we eat too fast; The danger is but small. It trusts hold out until the last. We may not eat at all.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is blocked, and the sound cannot reach the hearing nerve, and when it is completely closed, deafness is the result, and it is not until the inflammation has been removed that hearing can be restored. We have a cure for this, which is nothing but a natural remedy, and it is the only one that has ever been known to cure deafness. It is called "Dr. Williams' Pink Pills for Pale People," and it is sold by all druggists.

When two become one it sometimes happens that the missing one will never be missed.

To the housewife who has not yet become acquainted with the new things of everyday life in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not because it is guaranteed by the manufacturer to be superior to any other brand, but because each 10c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

As the inventors of strenuous games (it's queer the Romans overlooked football).

"How did she happen to marry that woman?" "How was it?" "Why, she can't speak a word. She's a mute." "Well!"

TEA

"Wasn't it dreadful?"

"Yes."

"Did she know it?"

"Probably not."

WHAT SHE CAN DO.

For all this talk of man's liberty and woman's slavery she can do some things he can't do. She can wear her hat on one ear without being suspected of a convivial disposition. She can say a thing one day and contradict it the next, and no one will call her a prevaricator. She can shed tears on the slightest provocation, which will merely prove to people that she is tender-hearted and sympathetic. She can be as inconsistent as an April sky, and her instability will be thought charming. She can look openly into every mirror she passes without being accused of more than a natural feminine interest in her appearance. She can spend a good deal of time considering her clothes and prinking up her person, and who shall say that it is not a proper attribute of her sex to be beautiful? She can wheedle a man into more anything by artful methods, and never lose her reputation for artless sincerity. She can succumb to all the little weaknesses of womankind, such as coquettishness, jealousy, vanity, trickery, inconsistency and infantility—and all these things will be smiled at and condoned as enhancing her femininity. Whereas if a man did any of these things he would be spelled in capital letters as Frivolous, Unstable, Weak, Vain, Untruthful, Foppish, Hypocritical, Flirtatious, Mean, Fake and Billy. Oh, femininity, what a curious thing thou art, that thou shouldst be accounted as covering such a multitude of sins! Philadelphia Bulletin.

BY THE STAGE MANAGER.

An "angel" and his money are soon parted. Evil associations corrupt good in genius. The proof of the lying is in the press agent. A word to the wise leading lady is a dangerous thing. It's a wise musical comedy that knows its own father. The course of the true "deadhead" never did run smooth. A play in the prompter's hand is worth twice in the author's. Where there's a polite box office treasurer there's a treasure. A matinee idol is known by the mash-notes he doesn't answer. Actors are born, not made. And when they can't be borne they star. It's better to have "starred" and failed than never to have starred at all. Where there's a manager's will there's a prima donna's way to break it.—New York Press.

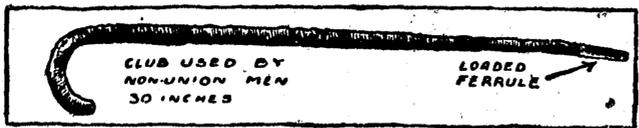

POINTED PARAGRAPHS.

A woman who has no diamonds considers them vulgar. An artificial kiss is the kind one woman inflicts on another. Even poor advice is legal tender when handed out by a lawyer. A judge charges the jury, but the other fellow pays the freight. The business of the successful trust promoter is founded upon the "rocks." Don't get too close to your friends or they might accidentally step on you. A woman who attempts to cook according to her husband's ideas is apt to make a mess of it.—Chicago News. FROM THE PENCIL'S POINT. Love may be blind—but marriage is a fine oculist. Men sow wild oats—but some women are apt to reap them. The hand that rocks the cradle is too often the hand that rocks the boat. Money-making may be a mere habit, but it is in no danger of being "broken" at all events. Friends are like umbrellas—usually best kept in open air, and generally missing on a rainy day.

RIOTING IN STREETS OF CHICAGO DURING STRIKE

RIOT AT SOUTH WATER STREET AND MICHIGAN AVENUE. CURRY DIRECTING NON-UNIONISTS FROM TOP OF TRUCK.

The contest at Chicago between the Employers' Association and the striking Teamsters' union has been marked by much violence. Our illustration depicts a scene at one of the principal street crossings of the city, where a caravan of wagons driven by imported negroes is interfered with by the union men on strike. Public opinion condemns the importation of negroes.

ALL DONE BY "MACHINE."

Progress of Race Determined by the Number and Efficiency. Civilization from its very inception has been "machine-made," says David Graham Phillips in the Reader Magazine. It began when our remote ancestor snatched the bough of a tree and decided thenceforth to walk erect, using the bough as staff and club—that is, as a machine. Every tool of every kind has been a machine, and the progress of the race has been determined by the number and efficiency of its machines, both those designed to compel peace and those designed to further the arts of peace. If you wish to measure the actual value of any civilization—value in producing healthy minds in healthy bodies—you need only inquire into the kind and number and efficiency of its machines. Why? Because the machine represents the effort of man to adjust himself to his environment, his environment to himself. It gives power to him, whoever he may be; that learns to use it; it leaves him, who does not avail himself of its aid, whether through idleness or ignorance or intemperance or incapacity, about where he would have been—certainly no worse off than he would have been—had mankind remained in the helpless, machineless "state of nature."

Consignment of "Volunteers."

During one of the frequent revolutions in Hayti the commander of the government forces at port au Prince made a requisition on the authorities at Cape Haytien for men to aid in putting down the uprising. After a somewhat rough experience of two or three days the authorities got together the required number of men and loaded them on board ship. Then the following message was sent: "Commander Government Forces, Port au Prince—Sir: I send you per steamer Sagitaw today 100 volunteers. Please return the ropes with which they are tied. Commander at Port Haytien."

Why Italians Stay in Cities.

One impelling reason for the settlement of Italians and other immigrants from Europe in New York and other large cities of the east is that when they reach this country they are compelled to find work at once, and the daily wage offered being so much in excess of anything they have known they settle easily in the rut, adding to the congestion. If given an opportunity to reach other parts of the country, and especially if given the opportunity to own land they would gladly seek fields more promising and better for the country as well as for themselves.—Atlanta Constitution.

Consul Gowdy Coming Home.

When Consul from Paris that John K. Gowdy, American consul general at the French capital, is happy in the thought of returning to his Indiana home next fall. Mr. Gowdy is showing signs of age, but he continues very active and enthusiastic in the affairs of his country.

MANCHURIA AFTER THE WAR.

Writing of the probable developments in Manchuria when the present war in the east shall have closed, a critic says: "First of all, Manchuria, with its vast capacity, is but sparsely populated. Therefore, the immigration of Chinese into Manchuria, too long discouraged by Pekin, will be utilized to create a mighty barrier against future aggression from the Amur, in the shape of multitudes of stalwart yellow men. Had this been done long ago Russia, in place of deserts, empty steppes and great, lonely rivers, would have been met by a teeming population, which would have made it impossible for it to push southward to Fort Arthur. "Japan's future policy is to see that these vast solitudes of virgin soil are thickly colonized by Chinese, with a judicious leaven of her own people, officials, soldiers, advisers and traders. Under these conditions the future of Manchuria should be a magnificent one. "In a few years it might easily become the greatest wheat-producing country in the east, the greatest lumber field, the greatest gold mining center."

Queen Has Eye for Beauty.

Queen Helena of Italy is essentially feminine and loves to see her children in pretty though simple attire. She has a special fondness for what an American woman would be likely to term "quinning" effects. Her little daughter, Princess Yolanda, has a cart and pair of pure white Sardinian donkeys, the whole turnout being pretty as a picture. Wearing an immense sunbonnet, the princess, though less than three years old, drives her little carriage very well, though carefully watched by a groom, who walks alongside. Yolanda always wants him to go away, and when her entreaties fail she tries to whip up her steeds. Her blows are no more than caresses, of course.

State Highway Commissioner.

Paul D. Bargent has been appointed highway commissioner for the state of Maine by Gov. Cobb. Mr. Bargent is a civil engineer and is to receive \$2,500 a year, with \$1,000 for an assistant or clerk hire and not exceeding \$1,500 for expenses. His duty will be to inculcate correct principles of road-building throughout the state, and he will be consulted by county and city and town authorities as such as they wish. Commissioner Bargent, aided by the county commissioners, must hold each year one good roads meeting in every county of the state.

Jail for "Auto" Spenders.

"Big Bill" Dorey, formerly chief of police of New York, tells fellows himself regarding auto spenders: "Them people that's got enough dough to own autos don't care no more for a fine than they do for a spot of gin. Like on their pants. Them thing of theirs, when they come out, is bound to be a sight to see."

FOR WORK AND REST The Sundry Service BY EARL YERBETT

"The conditions of success in life are the possession of judgment, experience, initiative and character." "There is nothing so kingly as kindness, and nothing so royal as truth." "The secret of life is not to do what one likes, but to try to like what one has to do." "Miss Three-year-old telephoned her father for a pound of candy because her mother had spanked her." "Industry is cheap. It is laziness that costs. It has cost many a person a bright career." "The ability to turn stumbling-blocks into stepping stones is often worth more in a pinch than a fat purse." "Be happy over something every day, for the brain is a thing of habit." "Remember, life must needs be undergone, and cannot be expressed save in the living."

"Look for the best in others, and that will bring out the best in yourself." "A laugh is worth a hundred groans on any market." "There is no bondage like the bondage to self, none other that so enslaves." "If love is life and hate is death, how can spite benefit? It is easier to mar than to mend." "People who make it a business to kill time are allowing time to kill them." "It is only in our prosperity that we throw our friends overboard." "Sleep—that knits up the ravel'd sleeve of care." "The death of each day's life, tired labor's bath, Balm of hurt minds, great nature's second course, Chief nourisher in life's feast."

CHANGED COLOR OF SNOW.

Incident Shows Resourcefulness of Henry Irving. Two actors were dining together in a New York restaurant. They had ordered, for their salad course, artichokes. The waiter came and said: "Gentlemen, I regret that we are out of artichokes." "Then snow brown," said one of the actors. In other words, send to the market and get some artichokes for us.

The waiter bowed and withdrew and the other actor asked: "What did you mean my 'snowing brown'? You told the waiter to snow brown. What did you mean by it?" "I meant 'don't give up. Persevere. Don't fail. Do something or other,'" said the first actor. "Snow brown" has meant that ever since the first year of Sir Henry Irving's management of the Lyceum Theater. "Sir Henry was producing a drama that demanded, in one scene, large quantities of snow. White paper, cut and packed in a great number of little bags of brown paper, was given to two men perched up aloft and they were told to snow hard and fast from the scene's beginning till the curtain dropped.

"The men obeyed this order too well. They snowed too hard and fast. Before the scene's end they found their white paper running out. So their snowstorm became feebler and feebler and finally it ceased altogether. "The hero's next speech was: "I cannot see your face, dear heart, for these blinding flakes of snow." "And no snow, not a drop, was falling. "Sir Henry rushed like the wind to the two supers. "Where's your snow?" he demanded. "We have no more white paper," they answered. "Then snow brown, you fools! Snow brown!" cried Sir Henry.

TO PREVENT BURIAL ALIVE.

There is One Simple but Certain Test to Prove Death. No reasonable person doubts that burial alive is common, if not frequent, says the New York Press. The United States patent office attests the fact, for our inventive geniuses are on record as having tried most sedulously to construct devices that would indicate beyond the possibility of doubt the certain end of all. There are various methods of testing the presence of the dread destroyer, such as holding a mirror to the nose or mouth, feeling the pulse, setting a vessel of water on the chest, placing the ear to the heart (or the stethoscope), scorching the sole of the foot with a hot iron, opening a vein, looking at the glazed eye, taking the temperature at the palate, etc. Setting putrefaction aside, the only safe and sure test of death is a greenish or bluish coloration of the abdominal parietes, the wall of the abdomen. This sign is never absent in any case of true death and is constantly wanting in those in which death is only apparent. Every other sign may or may not be present, but this one never fails, and may be perfectly relied on.

The Too Genial Barber.

"Never again that barber for me," grumbled the steady patron as he paid his check and deliberately ignored the customary tip to the "cosmopolitan artist" who had just finished shaving him. The "artist" in question was a new man, and the proprietor was naturally solicitous. "Razor too dull?" he queried anxiously. "Nope." "Any irritation?" "Quite the contrary." "Rough treatment?" "No, long as it's just the trim. He's no genius. Treated me as though I were a baby. Hardly felt the touch of the razor on my face, and he got on the boy run and toilet water so though I were made of some delicate fabric. "When I got shaved I want to feel that I'm being shaved. This dandy, featherweight business doesn't go for me particularly, when I've been out the best in a wide game of jaw-throwing to get the head shaved."

ONE OF LABOR'S HEROES.

How Timothy Quinlan Gave Up His Life For Others. While discussing a proposed law of Congress to provide for the recognition of acts of heroism, Edward A. Moseley, secretary of the Interstate Commerce Commission, paid a high tribute to the bravery of employes in the railway train service. Among railway employes examples of heroism of the highest type are of almost daily occurrence. A few lines in the newspaper and then they are forgotten. The following extract from Mr. Moseley's address illustrates the point: "Who remembers the heroic deed of the humble switchman, Timothy Quinlan, who gave up his life on Feb. 27, 1904, in saving the Lake Shore Limited and its cargo of human freight from destruction? The train was bearing down upon an open switch at lightning speed; an awful catastrophe seemed inevitable; Quinlan saw the danger, and while there was not one chance in a thousand that he would be able to avert the impending catastrophe without sacrificing his own life, he hesitated not an instant. He reached the open switch and threw it fairly under the pilot of the onrushing engine. "The train, with its precious human cargo, rushed on in safety, but what of brave Timothy Quinlan? The momentum of the train was so great that it picked up his body and fairly threw it onto an adjoining track directly in front of a moving engine, and in an instant all that remained of brave Timothy Quinlan was a mangled, bleeding mass of human flesh and bones."

NO CONTRACTING FOR HIM.

Too Many Things to Think Of, Says the Man Who Watched. Over on the east side of the federal building a whistle blew, says the Kansas City Journal, one man started a noisy little engine, another on the ground pulled a rope, still another on the annex roof pulled another line, a mason stood on the corner of an unfinished tower and wig-wagged, and three other workmen got from under while the big crane swung in a fifty-foot radius with a small slab of sawed stone hanging at the end of its ninety-foot cable. Finally the stone was in place and the man who had been watching the operation hunted up an audience and unbosomed himself. "No general contracting in mine," he said. "I don't see how they can make any money and keep out of the violent ward. Look at the things they've got to think about. Take this man over there with the federal contract. How's he going to know six men will be idle ten minutes while that fellow gets his rope and tongs adjusted? How does he know the wind's going to be in the southwest and keep them that much longer? That's two hours' work for one man gone. Then the water boy fall down and got his clothes wet. He's got to figure that boy's time for the rest of the day while he dries himself. "It takes brains to get a little old two-by-four piece of work in place without losing money."

She Knew How.

Darky help in the despair of every Southern matron. But of all the darky help in Dixie, Billy was the worst. Tell him on Monday to do a chore, and the following Monday he would reply that he "done been speakin'" about it. Mrs. Bronson, who gave him his board and wage in return for hypothetical work, had vowed many a time that she "jes wouldn't have that lazy sinner around if she knew where she could get another." But somehow Billy stayed. At last, after the advent of a new girl in the kitchen, Mrs. Bronson noticed a reformation in her pet trial. She could not account for it until, being in the yard one day, she heard the cook calling him from the kitchen. Billy was in the barn. "Say, yo' worthless trash," the cook was calling, "did you ever like a real black called lazy?" Billy raised his head and grinned. "I reckon I did so," he answered. "Well, see, when you done took in an amount of wood I's gone to give you a chance to kiss another."

EVERY SUFFERER WANTS THE VERY QUICKEST CURE.

Mr. Donovan Thinks the Remedy Used by Him with Such Remarkable Success the Best—Cured by Five Boxes. "Men who have to do difficult and dangerous work on electric lines at any hour of day or night, can't afford to have anything the matter with their health," said Mr. Donovan. "You can imagine, therefore, how much I was alarmed one winter's day in 1902, when I was seized by a pain just behind my right hip that made it difficult for me to walk home. It was so bad by the time I reached the house that I was obliged to go straight to bed." "Did that relieve you?" "No, the pain grew more severe and kept extending downward along my leg. I sent for a physician, and he soon decided that I had sciatica. In a few days the whole nerve was affected, and the least movement brought on terrible agony." "Did your condition improve under the doctor's treatment?" "Quite the contrary. At the end of two months I wasn't a bit better, and at times I feared that I would never be able to leave my bed." "How did you get out again?" "When I was lying in bed, unable to move and wasting away in flesh, a friend visited me and told me about the wonderful cures brought about by a great blood and nerve remedy, Dr. Williams' Pink Pills. He strongly urged me to try them, and I luckily had sense enough to take his advice." "Did you mend quickly?" "Yes, that was the astonishing thing. I noticed a slight improvement before I had quite finished the first box of the pills, I could get out of bed while I was on the third box, and I was entirely cured by the time I had taken five boxes." Mr. Joseph A. Donovan is living at Plalstow, New Hampshire, and is line inspector for the Haverhill, Newton and Plalstow Electric Street Railway. Dr. Williams' Pink Pills are the remedy to use when the blood is thin, as in anemia; or impure, as in rheumatism; or when the nerves are weak, as in neuralgia; or lifeless, as in partial paralysis; or when the body as a whole is ill-nourished, as in general debility. They are sold by all druggists.

Record of Voices.

The British museum, London, has decided to collect and keep gramophone records of the voices of the most eminent singers and publicists. They will be for the use of posterity. The "master records" will be of nickel and practically indestructible. From these playing records can be stamped at will.

ITCHING SCALP HUMOR.

Lady Suffered Tortures Until Cured by Cuticura—Scratched Day and Night.

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of the Ointment and one cake of Cuticura Soap cured me. Now my hair is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since, and shall never be without it. (Signed) Ada C. Smith, 309 Grand St., Jersey City, N. J."

The men who won't respect gray hairs Oh, how we do despise 'em! He most of all, who won't respect His own gray hairs, but dyes 'em.

Private Car Lines.

The railroads seem very willing to have the private car lines brought under the jurisdiction of the Interstate Commerce Commission. A railroad president is authority for the statement that lines are paid mileage, without discrimination, and the question of excessive charges is a matter for the shipper to settle with the car lines, so long as there is no law to govern their rates. Car mileage paying has been decided to be as legal as the payment of rental for property.

Miss Fifty—Your Husband tried to kiss me last night.

Miss Fifty—Your husband tried to kiss me last night. Mrs. Dash—Ah! Well, he's not particular when he's been drinking.

Many Children Are Sickly.

Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, Cures Feverishness, Headache, Stomach Troubles, Teething Disorders, Break-up Colds and Destructive Worms. All Druggists, 25c. Sample mailed FREE. Address: Allen S. Olmsted, Le Roy, N. Y.

Bless his little heart!

"Bless his little heart!" exclaimed the fond mother, as the quivering baby rolled on the floor; "Molly, run out and kill a rattlesnake and get a rattle for him!"

Lewis' "Single Binder" straight razor.

The highest price is paid to the dealer and the highest quality for the razor. Lewis' Factory, Peoria, Ill.

Self-love is the root of most people's discontent.

File a Car cannot be too highly spoken of as a rough cure.—J. W. O'Shea, 30 Third Ave., N. Y. N. Y. Jan. 8, 1905.

Only a soft man has any pleasure in spreading himself.

Mr. Whitaker's Scotchman's Sprag. For aches and pains, remove the pins, rub on the Scotchman's Sprag, remove the pins, rub on the Scotchman's Sprag, remove the pins, rub on the Scotchman's Sprag.

TEA

Isn't it queer that Solomon

IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

Cold Affected Head and Throat—Attack Was Severe.

Chas. W. Bowman, 1st Lieut. and Adj. 4th M. S. M. Cav. Vols., writes from Latham, Md., as follows: "Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peruna."

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use, according to directions. I use it as a preventive whenever threatened with an attack."

"Members of my family also use it for like ailments. We are recommending it to our friends."—C. W. Bowman.

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. It can be used any length of time without acquiring a drug habit.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, for free medical advice. All correspondence held strictly confidential.

No woman can reform a husband by the continuous lecture process.

TEA

Tasting tea is a whole occupation; coffee another. The taster picks out your tea and puts the price on it.

In every package of Schilling's Best Tea is a booklet: How to Make Good Tea.

The young man parts his hair, but the bald man has parted from his.

NATURE'S ESSENCE.

Extracted From Forest Plants

Nature's laws are perfect if we obey them, but disease follows disobedience. Straight to nature for the cure, to the forest, there are mysteries here that we can learn for you. Take the bark of the wild cherry tree, the root of the snake root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work and experimentation to make this extract and alterative of the greatest efficiency.

Just the sort of spring remedy you need to make rich, red blood, and cure that headache and feeling of nerve exhaustion.

Dr. Pierce's Golden Medical Discovery bears the stamp of Pottsville, Pa., and has sold more largely in the past forty years than any other blood purifier and stomachic.

The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the starchy rubbish which has accumulated.

Dr. Pierce's Pellets Cure Constipation.

Dr. Pierce's Golden Medical Discovery is the most perfect of all blood purifiers and stomachics.

Dr. Pierce's Golden Medical Discovery is the most perfect of all blood purifiers and stomachics.

Dr. Pierce's Golden Medical Discovery is the most perfect of all blood purifiers and stomachics.

Dr. Pierce's Golden Medical Discovery is the most perfect of all blood purifiers and stomachics.

Estimate of the Wealth of American Multi-Millionaires.

Henry Clews has made an estimate of the wealth of a number of millionaire capitalists of the United States, in which he places John D. Rockefeller first, and Andrew Carnegie second. This is the table he has promulgated: John D. Rockefeller, \$500,000,000; Andrew Carnegie, \$115,000,000; given away, leaving \$250,000,000; William Waldorf Astor, chiefly in real estate, \$200,000,000; John Jacob Astor, \$175,000,000; Gould family, of which George Gould's personal fortune represents \$85,000,000, \$150,000,000; Marshall Field, \$100,000,000; Blair estate, \$100,000,000; W. K. Vanderbilt, \$80,000,000; Russell Sage, \$80,000,000; D. C. Mills, \$75,000,000; William Rockefeller, \$75,000,000; J. Pierpont Morgan, \$60,000,000; James J. Hill, \$60,000,000; Henry E. Rogers, \$60,000,000; Henry Phillips, \$45,000,000; John D. Archibald, \$40,000,000; Henry M. Flagler, \$40,000,000; James B. Haggis, \$40,000,000; James Smith, \$35,000,000; W. H. T. Ford, \$20,000,000; James Stillman, \$15,000,000; George F. Baker, \$15,000,000.

Mr. Clews admits that his list is by no means complete, but says that it undoubtedly contains the names of the very richest men in the country.

Prominent among the well known capitalists who are not included are the members of the so-called Rock Island "crowd"—William H. and J. H. Moore and D. G. Reid and W. B. Leeds—nor does the name of Senator W. A. Clark, Henry C. Frick, John W. Gates, Norman B. Ream, the William C. Whitney estate, P. A. B. Widener, the younger Vanderbilts, Mrs. Hettie Green, nor any of the other notably rich women of the country.

New York's Building Boom.

With plans for new buildings valued at more than \$2,000,000 filed April 26th, all records of the kind for New York City were broken except in a few instances, when plans for a great hotel or office building were recorded. Of the sum mentioned the most expensive building reaches the figure of only \$300,000, and the plans include twenty-two six-story brick apartment houses and tenements.

So far this year plans have been recorded in Manhattan alone for 645 buildings, valued at \$33,732,732. A year ago at the corresponding time plans had been filed for only 343 buildings, valued at \$18,677,010.

TEA

is good for a too-busy man; it makes him forget his business.

He who started the report that matches are made in heaven will probably never get a hair on his crown.

Try me just once and I am sure to come again. Defiance Starch.

The girl who catches a man never does it by running after him, but by running away from him.

laid during the winter. Doctor R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an alterative extract of roots, herbs and barks, with a PATENT OF ALCOHOL OR NARCOTICS, which purified the blood and tones up the stomach and the entire system in Nature's own way. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution, the stomach is apt to be out of kilter after a long, hard winter; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. If you take this NATURAL BLOOD PURIFIER AND TONIC you will assist your system in manufacturing each day a pint of rich, arterial blood, that is stimulating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery cures all blood humors as well as being a tonic that makes one vigorous, strong and content. Dr. Pierce's Golden Medical Discovery, STAYS ALONE as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which cures in nature's own way; not only does it STAY ALONE in respect to its ingredients but also is the only spring tonic and reconstructive which absolutely contains no alcohol.

"I was taken with a severe cough, weakness in my back, a shiver over the eyes, had a bad breath and stomach was out of order."—W. H. Giddis, of 1223 South Tenth St., Philadelphia, Pa. He bought a bottle of Dr. Pierce's Golden Medical Discovery, and after taking it for a few days, he felt better. He bought a second bottle, and before he had taken all of one bottle he felt better. If any doubt the truth of this, he writes: "I am now well and strong."

Dr. Pierce's Pellets Cure Constipation.

HAVE YOU COWS?

If you have cream to separate, a good Cream Separator is the most profitable investment you can possibly make. Delay means daily waste of time, labor and product.

DE LAVAL CREAM SEPARATORS save \$10.00 per cow per year over any other separator.

The well-known Lindell Hotel at St. Louis, is to be torn down to make way for a big department store.

Secretary Tamm has postponed until November 1st next the date for the opening of the bids for the construction of railroads in the Philippines.

The Japanese steamer Kinko, of 1,175 tons capacity, struck a mine and sank off Port Arthur on the night of May 11th. The crew was rescued and taken to Osaka.

The Mexican government has forbidden banks to hold silver bars as a basis of note issue, bars being no longer at the option of holders capable of conversion into pesos.

It is officially announced that King Edward has appointed King Alfonso of Spain a general in the British army. The appointment dates from May 17th, the birthday of the Spanish king.

Count Von Tattenbach-Ashold, the head of the German mission to arrange a special commercial treaty between Germany and Morocco, arrived at Fez on May 11th, where he was received with much ceremony.

Hiram Cronk, the only surviving soldier of the war of 1812, died at Ava, New York, May 13th, at the age of 105 years. He enlisted when but fifteen years old, and served about 100 days at Sackett's Harbor.

The London Chronicle claims that it has good authority to assert that the government has decided to postpone the dissolution of Parliament until the fall of 1906, and that this means the death blow to tariff reform.

William M. Morton, an aeronaut, was severely injured and had a narrow escape from death at Chutes Park, Los Angeles, on the 15th inst., by being dashed against a telegraph pole as his balloon rose from the ground.

General Maximo Gomez is dangerously ill at Santiago de Cuba with neuritis. The general's extreme age and the results of the many wounds he received in his campaigns for the liberation of Cuba complicate his trouble.

A statue of the Confederate lieutenant-general, Nathan B. Forrest, was unveiled at Memphis, May 16th. Little Miss Bradley, a great-granddaughter of General Forrest, pulled the cord which exposed to view the monument.

After his opening address at the Lewis and Clarke Exposition at Portland, Vice President Fairbanks will go to his farm in Illinois for the summer and work in the fields during haying and harvesting, as is said to be his custom.

The American bark, Martha Davis, caught fire in Hilo harbor, Hawaii May 14th, and was totally destroyed. The portion of her cargo consigned to Hilo had mostly been discharged, but that intended for the island plantations was lost.

In a recent interview, Secretary of the Navy Morton, stated that he had no present intention of resigning from the Cabinet. He said, however, that it was thoroughly understood between the President and himself, that he should leave the Cabinet next fall.

L. P. Ohliger, ex-president of the closed Wooster, Ohio, national bank, pleaded guilty to a count on one of the indictments charging him with having issued a draft when there were no funds in the bank to meet it. Judge Taylor sentenced Ohliger to eight years' imprisonment in the Ohio penitentiary.

General Nogi, the hero of Port Arthur, has written a card to Colonel W. H. Knauss of Columbus, in which he returns his thanks for the numerous kind expressions received from the American people, and in particular expresses his appreciation of a small American flag sent to him by Colonel Knauss.

The Beneficial Life Insurance Company has been formed at Salt Lake City by leading Mormons. Joseph F. Smith is president, Governor John C. Cutler is first vice president, and the other officers are prominent in the church. The company, which will do an "old line" business, has a capital stock of \$100,000, all paid in.

The Russian press is considerably exercised over the reports of Emperor Williams' recent speech at Strassburg, Alsace-Lorraine, criticizing the Russian officers at the front on account of drunkenness, and the German ambassador, Count Von Alvensleben, has taken pains to issue an official denial of the accuracy of the reports.

Secretary Paul Morton will resign from the Cabinet in October, according to a report circulated in financial circles, to take the presidency of the Washash railway. He will succeed Joseph Ramsey, Jr., who has been voted a long vacation, at the end of which he will retire permanently from connection with the Gould system.

The steamer Terra Nova sailed from London May 16th, for Tromsøe, Norway, whence she will go to Franz Josef Land, in search of the expedition, headed by Anthony Peary of Brooklyn, New York, on the steamer America, fitted out by William Ziegler of New York for the purpose of attempting the north pole by way of Franz Josef Land.

A committee of the House of Commons has commenced consideration of a bill providing for the installation in London of electric light and pneumatic tube systems, similar to those in use in America. J. P. Morgan is among the promoters of the company, which has a capital of \$20,000,000. Ninety-five miles of double tubing and 172 stations are proposed.

The New York Confederate Camp, whose invitation by Grant Post to participate in the Memorial day parade in Brooklyn, led to adverse criticism, has written to the Memorial day committee declining to join in the parade. The camp announces its intention to accompany Grant Post after the parade to the tomb of General Grant, and there take part in the ceremonies.

The Supreme Court of the United States has upheld the validity of the Utah state law, holding that water for irrigation and mining is available for public use. The decision was in the case of Clark, Evans and Carleton against M. J. Park, and affirmed the ruling of the United States Circuit Court of the District of Utah in that case.

LONG RANGE PREDICTIONS MADE

No. Legitimate Basis for Estimates Based on the Moon's Phases or Position of the Planets.

The chief of the Weather Bureau has recently placed before the public a pamphlet entitled Long Range Weather Forecasts, by Prof. E. B. Garriott, that is full of interesting things to one who is a seeker after the truth regarding these delusions. A great many things in it are worthy of further publication but we wish, at this time, simply to give its conclusions:

1. That systems of long range weather forecasting that depend upon planetary meteorology; moon phases, cycles, positions, or movements; stellar influences, or star divinations; indications afforded by observations of animals, birds, and plants, and estimates based upon days, months, seasons, and years have no legitimate basis.

2. That meteorologists have made exhaustive examinations and comparisons for the purpose of associating the weather with the various phases and positions of the moon in an earnest endeavor to make advances in the science along the line of practical forecasting, and have found that while the moon, and perhaps the planets, exert some influence upon atmospheric tides, the influence is too slight and obscure to justify a consideration of lunar and planetary effects in the actual work of weather forecasting.

3. That the stars have no appreciable influence upon the weather.

4. That animals, birds, and plants show by their condition the character of past weather, and by their actions the influence of present weather and the character of weather changes that may occur within a few hours.

5. That the weather of days, months, seasons, and years affords no indications of future weather further than showing present abnormal conditions that the future may adjust.

6. That six and seven-day weather periods are too ill-defined and irregular to be applicable to the actual work of forecasting.

7. That advances in the period and accuracy of weather forecasts depend upon a more exact study and understanding of atmospheric pressure over great areas and a determination of the influences, probably solar, that are responsible for normal and abnormal distributions of atmospheric pressure over the earth's surface.

8. That meteorologists are not antagonistic to honest, well directed efforts to solve the problem of long range forecasting; that, on the contrary, they encourage all work in this field and condemn only those who, for notoriety or profit or through misguided zeal and unwarranted assumptions, bring the science of meteorology into disrepute.

9. That meteorologists appreciate the importance to the world at large of advances in the period of forecasting and are inclined to believe that the twentieth century will mark the beginning of another period in meteorological science.

Very Moderate Wages.

An advertiser in the Wimbledon (Eng.) Gazette wants "a lad about twenty; must be a churchman, of good education, who can drive a horse and cart, assist in the stable and garden (onions and cucumbers), milk cows and understand pigs; must be accustomed to wait at table and of gentlemanly appearance; early riser and temperate; good references required." The wage of this person is to be \$50 a year, but he must lodge out and furnish his own meals, except dinner.

Opening of the Uintah Indian Reservation.

The Uintah Indian Reservation in Utah, containing 2,425,000 acres of arable land, to be opened up for settlement on September 1, 1905, is described in a pamphlet just issued by the passenger department of the Denver & Rio Grande Railroad company. A valuable map, showing the country to be opened up and the various routes by which it can be reached, is published for the first time in this pamphlet, which may be obtained by addressing General Passenger Agent S. K. Hooper at Denver.

The biscuits mother used to make. Their virtues, we can never doubt them; And yet we can't forget the things That father used to say about them.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 4-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

The Extreme Penalty.

Justice David J. Brewer made an address not long ago at Haverford. After the address there was an informal little reception and very interesting it was to hear the justice talk. A Haverford boy said to the learned man during the lull in conversation: "Will you please tell me, sir, what is the extreme penalty for bigamy?" Justice Brewer smiled and answered: "Two mothers-in-law."

If you would make your money last you must earn it first.

ing heavy loads are now so much used in England that their operation is closely guarded by government supervision. United States Consul Mahlin at Nottingham has made a report on the subject. "Eltherton," says he, "the legal weight limit of an empty motor car has been three tons. Now it is raised to five, with an increase in the legal joint weight (unladen) of a motor car and trailer from four to six tons. Heretofore there has been no legal weight limit to the load on a motor car, but the new regulations aim to prevent excessive loading. The total weight of car and load is limited to twelve tons. The weight borne on any axle shall not exceed eight tons."

The Homeless of London.

A census of the homeless of London, made on a recent night, revealed a total of 2,481 in the streets, on staircases and under arches. Of these, 2,169 were men and 312 women. In the common lodging houses and shelters that night there were 26,690 persons, of whom 21,254 were single men, 1,688 single women, 357 married couples and thirty-four children under ten years of age.

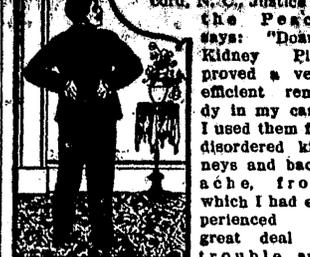

Were Good for Both.

Paulding, Miss., May 15th.—(Special)—In this neighborhood men and women alike are telling of the great benefit they have received from the use of Dadd's Kidney Pills and it frequently happens they are the means of curing members of both sexes in the same family. Take the case of Mr. and Mrs. F. Erby. The latter voices the sentiment of both when she says:

"My lips cannot express too much praise for Dadd's Kidney Pills. I suffered with Backache and Female weakness for four or five years and I feel that I have been wonderfully helped by Dadd's Kidney Pills. My husband, too, was a sufferer for five years from a weak bladder and they also cured him."

"Dadd's Kidney Pills make healthy kidneys. Healthy kidneys mean pure blood and good health all over the body. No woman with healthy kidneys ever had female weakness."

Teacher—Johnnie, can you give us a sentence including the words, "bitter end?" Johnnie—Our cat ran under the porch and the dog bit 'er end.

cord, N. C. Justice of the Peace, says: "Dadd's Kidney Pills proved a very efficient remedy in my case. I used them for disordered kidneys and backache, from which I had experienced a great deal of trouble and pain. The kidney secretions were very irregular, dark colored and full of sediment. The Pills cleared it all up and I have not had an ache in my back since taking the last dose. My health generally is improved a great deal."

FOSTER-MILBURN CO., Buffalo, N. Y. For sale by all dealers, price 50 cents per box.

The amputated leg of a Denver man has started to grow again, and the Denver Post man asks, "What do you think of that?" Frankly, we think it's a lie.—Washington Post.

TEA

There's plenty of money to smooth the little difficulties that happen; they do happen.

Your grocer returns your money if you don't like Schilling's Best.

Father—You must consider every penny. College Boy—I will; here are twelve letters asking for money; you can take them now and save the postage.

"Dr. David Kennedy's Favorite Remedy saved my life! I had dyspepsia and kidney disease."—Senator Albert Merritt, Park Place, N. Y. 61a bottle.

Many a fellow sidesteps a banana skin only to be tripped up on a lie.

When Your Grocer Says he does not have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12 oz. packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 16 oz. to the package and sells for same money as 12 oz. brands.

Advertisement for Castoria, featuring a bottle illustration and text: "900 DROPS CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of Dr. J. C. Ayer & Co. In Use For Over Thirty Years CASTORIA. EXACT COPY OF WRAPPER."

Advertisement for Castoria, featuring a large signature and text: "CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of Dr. J. C. Ayer & Co. In Use For Over Thirty Years CASTORIA. THE CANTON COMPANY, NEW YORK CITY."

Advertisement for Lion Coffee, featuring a lion illustration and text: "Truths that Strike Home. Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality? LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes. LION COFFEE is carefully packed in our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or wooden hands. In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.) (Have the Lion-head for valuable premiums.) SOLD BY GROCERS EVERYWHERE. WOOLSON & SONS CO., Toledo, Ohio."

PRESIDENT'S WESTERN TRIP AWAKENS CORPORATIONS TO THE SOUTHWEST BEHIND HIM.

President Roosevelt's return to Washington, after his emphatic utterances upon the railroad rate question, has stirred the members of the Railroad Congress to a full sense of the conflict in which they are engaged with the Administration and the strong public sentiment which supports the President. Railroad men declare that, so far as the coming session of congress is concerned, they have the President beaten. They are encouraged in this opinion by the attitude of the Senate Committee on Interstate Commerce and the promise of the other railroad Senators to hold both the President and the House of Representatives in check when the time comes to pass a rate bill. But railroad men are not blind to the fact that even the Senate may have to give way before the attitude of the President and the overwhelming public demand for legislative action. It is known that the House will stand with the President, and when a bill representing his views on railroad rate regulation has been sent to the Senate, it may require a very hardy set of men to defy public feeling by resisting the passage. Secretary Taft's strong and open advocacy of rate legislation has given new significance to the fact that he is to preside this month at the Ohio State Republican convention, and that his friends expect his return for the presidency in 1908 to begin then. Any warm indorsement of Taft must be an indorsement also of the President's policy. If there is such a strong Taft sentiment in the state as has been reported, a split in the convention is not improbable, and the defeat of the Dick machine not unlikely. The politics of the year is already turning on the rate question, and the first battle is to be fought in Ohio.

A NEW MINING COMPANY FOR EASTERN SUCORRO COUNTY.

Last Friday Paul Mayer, the White Oaks liveryman, received word by telephone to send conveyances for a party of about ten men to Oscura, a station on the El Paso and Northeastern below Carrizozo. These rigs were accordingly sent out in charge of George S. Treat of this place, who met the party next morning as arranged and took them across the Mal Pais to a point near the north end of the San Andrea mountains.

These gentlemen were the members of the Old Copper Mining and Smelting Company, and were to make an examination of the properties owned by them at this point, being piloted by J. S. Lenox of Roswell, and W. S. Bourne of Nogal, the latter, the original locator of the claims.

In addition to the persons named the following other gentlemen were with the party:

Dr. J. A. Ryan, Capt. J. W. Graves, W. B. Armour, J. Frank Stanford, and J. A. Cherry, of Oklahoma City, Oklahoma; M. D. Burns, H. L. Holm, Royce, N. M.; and H. Wallace Stevens of Louisa, Ky.

Upon a thorough examination of the properties the members of

fund of \$10,000 was at once raised as a starter, and Mr. Lenox was instructed to proceed at once to El Paso and make arrangements for a smelter to be placed upon the ground as soon as the material could be procured.

Abundance of water has been secured at a depth of 300 feet, and everything starts out under the most favorable circumstances, with 300 tons of high grade copper ore on the dump and an abundance in sight.

This rich copper field as well as that at Esley City, in the same vicinity, is naturally tributary to this section of the country and the El Paso and Northeastern railway, and will contribute but another factor to the resources of this wonderfully resourceful country.

PHELPS-DODGE ROAD ACQUIRES ENTIRE NORTHEASTERN SYSTEM.

Through the issuance Friday of a circular announcing the appointment of H. J. Simmons, general superintendent of the El Paso and Southwestern, as general manager of the El Paso-Northeastern system, the first intimation was given that the Phelps-Dodge company has secured control of the Northeastern lines.

C. B. Eddy, president of the Northeastern, who has returned from New York, announced that the sale of the El Paso-Northeastern system to the Phelps-Dodge company was consummated in New York last week.

Under date of May 11th, the appointment of H. J. Simmons as general manager of the following roads is announced: The El Paso & Northeastern Railway company, the El Paso & Northeastern Railway company, the El Paso and Rock Island Railway company, the Dawson Railway company, and the Alamogordo and Sacramento Mountain Railway company. The circular is dated at New York, and signed by C. B. Eddy, president.

Under date of May 12th, also at New York, the appointment of H. J. Simmons as general manager of the El Paso-Southwestern is announced, the circular being signed by James Douglas, president of the Southwestern. Mr. Simmons has hitherto held the title of general superintendent. The company has had no general manager.

The transfer of the Northeastern properties to the Southwestern company is regarded as throwing light on the Durango road question. The Southwestern has long been attempting to secure more adequate means of communication with sufficiently extensive coal fields to supply the smelters of the Phelps-Dodge company. It was with this view that the El Paso-Durango surveys have been made. Since the Northeastern system will place the Dawson coal fields at the disposal of the Phelps-Dodge company, that company may decide to abandon the Durango project.

The mileage of the Northeastern system is 452 miles divided as follows:

- El Paso & Northeastern Ry... 169
- El Paso & Rock Island Ry... 128
- Alamogordo & Sacramento Mountain Ry... 33
- Dawson Ry... 132

The Rock Island railway has a traffic agreement with the Northeastern for operating its trains into El Paso over that line and, since the Southwestern will thus come into close touch with the Rock Island, in acquiring this property, there may be future developments between the two companies that will lead to the extension of another line to the Pacific coast from here.

There has been a good deal of talk of the Rock Island securing control either by purchase or a traffic arrangement, of the Southwestern over which to run trains to the proposed line projected

the purchase of the Northeastern by the Southwestern and the consequent close alliance of the two roads, will have some bearing on the future operations of the Rock Island in reaching the Pacific coast.

The Outlook copies the above item from the El Paso Herald. Its readers are interested in railroad news that touch their industrial interests. This section abounds in coal of the very best quality. It makes splendid coke. We have iron, building stone, indications of oil and apart from these an abundance of water to gladden the heart of the average railroad manager whose line runs through these arid sections, of the miner and smelter men who are dependent upon it for their work. Perhaps the new management of the E, P, & N. E. may find something to their good even in White Oaks.

"Can any good thing come out of Nazareth?" was a question once asked, and the best of its kind the world has seen was found there. Perhaps something genuinely good may be found in White Oaks. Let us invite the Phelps-Dodge people to come and see. What says the White Oaks Commercial club?

The beef trust might possibly make good its plea of innocence, were it not for the fact that it has been "caught with the goods." No amount of juggling or mixing of figures will make Commissioner Garfield's report a clean, straight forward statement. There is a discrepancy of 5,000,000 cattle reported slaughtered by the trust, and the actual number slaughtered. To increase the expenses of the trust and cut down the profits, all the cattle arriving at the stock yards in Chicago, Kansas City and other points, were included in the number slaughtered, notwithstanding the fact that thousands of them were received in the stock yards, reshipped to feeding points and again shipped to the stock yards. And the number of actually slaughtered animals at the packing house points fall short 5,000,000 of the number reported in that "clean bill of health," given to the trust by the commissioner. Those bag-barrows of the trust understand how to manage most of the government officials. "Old Boss Tweed" said to the investigating committee when they confronted him with the charges made against the ring, "Gentlemen, there are the figures, figures can't lie." Oh, but they can lie, and lie outrageously; and in this age of trusts and graft, that which is made to appear as if it were not. As long as the trust manipulates the beef market, so long that the price to the producer is shoved down to the minimum, and the price to the consumer forced up almost to the prohibitive, you may rest assured that the gang that hoodwinked the commissioner, are still robbing the people at both ends of the line.

NOTICE

Last Will and Testament of Thomas H. Greig, Territory of New Mexico, County of Lincoln.

In the Probate Court, To whom it may concern:

Notice is hereby given that a paper purporting to be the last will and testament of Thomas H. Greig, late of said County, deceased, has been filed in said Court and that the same will be proved at the term thereof to be begun and held at Lincoln in said County on the first Monday in July, 1904. All persons having objections to the probating of said last will and testament will be heard at such time and place.

Dated the 20th day of April, 1904.

CALIFORNIA ORANGE CROP IN DANGER.

Word comes from San Bernardino, Cal., that a horde of cut worms have made their appearance in that valley during the past weeks and are destroying the orange orchards. The orange growers are alarmed. The worms have attacked the green fruit and buds, boring through the rind of the fruit and devouring the pulp. Some trees have been entirely cleaned of fruit. Thousands of acres of the finest groves in southern California are threatened.

Remember that one week from next Monday is the time for electing school directors in the several districts throughout the county. The people should take much more interest in this matter than they have been in the habit of doing in late years, and elect the very best men possible to serve on their school boards, men, who when elected, will take an active, energetic interest in building up the schools in their districts, and see to it that none but competent teachers are employed, and when so employed give them all the encouragement possible. Also rigidly enforce the law against non attendance.

Notice for Publication.

DEPARTMENT OF THE INTERIOR.

Land Office at Roswell, N. Mex., May 6, 1904. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the U. S. Commissioner at his office in Lincoln, New Mexico, on June 23, 1904, viz: David C. Kerr, upon Homestead Application No. 4623, for the North east Quarter of Section 5, T. 1 S., R. 13 E.

He claims the following witnesses to prove his continuous residence upon and cultivation of said land, viz: J. A. Simpson, of Corona, N. M.; R. L. Owens, of Corona, N. M.; P. G. Hill of Corona, N. M.; Thos. M. Ingle, of Corona, N. M.

HOWARD LELAND, Register.

\$300.

For Letters About the Southwest.

The Western Trail Magazine offers six prizes aggregating in value \$300 in railroad transportation, for letters from residents of Arkansas, Eastern Colorado, Missouri, Kansas, Indian Territory, Oklahoma, Texas and New Mexico.

It wants letters that will induce energetic and ambitious men and women to settle in the great and growing Southwest, and there engage in farming, cattle raising, dairying, fruit growing and similar pursuits.

To accomplish the purpose which it has in view the Western Trail offers the following prizes in railroad transportation for the six letters which in the opinion of a competent judge shall be deemed best suited to its requirements.

1st Prize, \$100 in RR Transportation.	75 " "
2nd " 50 " "	50 " "
3rd " 30 " "	30 " "
4th " 25 " "	25 " "
5th " 20 " "	20 " "
6th " 15 " "	15 " "

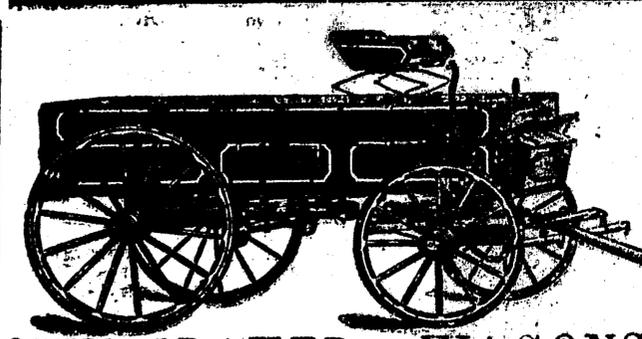

THE CONDITIONS ARE EASY.

Letters should deal with the writer's experience since he settled in the Southwest. They should tell how much money he had when he arrived, what he did when he first came, what measure of success has since crowned his efforts and what he thinks of that portion of the country in which he is located. Letters should not be more than 1500 nor less than 300 words in length and will be used for advertising the Southwest. Letters are desired not only from farmers and farmers' wives but also from merchants, school teachers, clergymen and from every one who has a story to tell and who knows how to tell it. Poetical contributions are not wanted.

All cannot win prizes but by their contributions they can assist the Western Trail in its efforts to colonize and populate the Southwest.

Copies come June 23, 1904. Prizes will be awarded as soon thereafter as possible and be delivered

O. F. D. \$4.00
Old Fashioned Distilled Hand Made Sour Mash BOURBON
Is the best product of OLD KENTUCKY. It is made in the OLD FASHIONED way, from selected grain and limestone water, milled by hand in tubs and distilled in the OLD TIME Worm Still. Aged in oak barrels for eight years in a U. S. Government Bonded Warehouse.
The result is a rich and mellow whiskey, stimulating and nourishing. A whiskey peculiarly adapted to those suffering from liver and throat troubles.
We will send you FOUR FULL QUART bottles (one gallon) of this whiskey, packed in a plain box without brand or marks, express charges PREPAID, upon the receipt of Four Dollars.
Send Express Money Order, Post Office Money Order, Draft or Check on any of the four banks in El Paso, Texas. DO NOT SEND CURRENCY BY MAIL.
