Christian Endeavor Society at 7:00 p. m.

Preaching at 11 o'clock A. M. and on Sabbath evenings immediately after close of Christian Endeavor services.

H. G. MILLER, Pastor.

Methodist Church.

Preaching every fourth Sunday in the month.

Sabbath School each Sunday at 10 o'clock a. m.

Prayer Services every Wednesday evening at 7:30, also Sundays at 11

NOGAL ITEMS.

The Star Route from Nogal to Bonito by Parsons will be opened August 1st for a term of eleven months. The mail will reach Parsons and Bonito twenty-four hours ahead of the present time by Capitan.

Mr. J. H. James, who has been mining over in Church mountain this summer, has just returned from a trip to El Paso, and has resumed work on his mine, the Little Edna. We confidently expect a sensation from this source very shortly.

Rumor has it that the Vera Cruz mine, which is now working a full force, has a large body of high grade ore and will pay all accounts by the seventeenth inst., which report is generally believed by our people. L. R. Hunt, the efficient shift boss, is making things hum under the management of E. D. Rasmussen, general manager.

There are now quite a number of persons stopping in Nogal suffering with lung troubles, who seem to be gaining daily from the fine effects of the air of this country.

W. R. White, commonly called Sallie, a Mesa farmer, says if the rain comes shortly he will make large crops, but if not his name will be anything but Dennis.

Col. John M. Bico visited Nogal this week and paid up his old accounts, which placed a grin on the boys' faces a yard long. What a blessing it would be if others would do likewise. Wild cat mining has been a curse to this camp from an early day. May the promoters of such companies be sent where they don't shovel snow.

Our esteemed citizen Hon. J. H. Canning has just returned from a visit to his office in Lincoln, and judging from the amount of hilarity on his countenance, we suppose business under the management of Dr. Watson is running smoothly.

Mrs. W. A. McIvers is visiting her husband at the Jicarillas.

Ed. J. Coc, former school superintendent of the county paid the town a short visit a few days ago.

P. M. Johnson was so unfortunate as to lose a very fine team of horses a few days ago. One of them was tied by a long picket rope to a small tree while the other was turned loose to graze. Somehow they both became entangled in the rope and in their struggles both were choked to death.

CORONA'S CELEBRATION.

About three hundred good Americans, big and little, joined in a genuine, neighborly good time on the Fourth in the lovely Corona del Gallo.

The speaking and music were excellent, the barbecue dinner was just the right pinkness, the ice cream properly chilled and the address by Col. DuBois witty, eloquent and entertaining.

After dinner the boys had sports and races which entertained the company until sunset, when dancing was begun. At midnight everybody was tired enough to call the day finished, although it had been one of the most pleasant and enjoyable the country here has ever had.

John J. McCourt spent Sunday last with his family who are up from El Paso for the summer.

G. A. Hunt is here on business from his ranch north of the Capitan mountains.

Fresh candies just received at the Taliaferro Mercantile Co's.

Mrs. Dennie Roberts and Minnie Bowen, of Nogal, registered at Hotel Ozanne Monday.

John H. Canning, county treasurer and an all round business man, is at home for a day or two renewing acquaintance with his family.

FOR SALE.

Bedroom and kitchen furniture, sewing machine, extension table and ice cream freezers.

MES. WINGFIELD.

James Woodland has the contract for putting up the Molvers plant in the Jicarillas. Most of the machinery has arrived and the work will be pushed as rapidly as possible, and Jim is the fellow to do it.

Leslie Harmon has moved out to the Fewell ranch behind Patos, but intends to go to Roswell soon to hunt up a new location where beef cattle do not wear rubber necks nor run so much to soup bones and side meat.

The Taliaferro Mercantile and Trading Co. will have fresh fruits arrive every Wednesday and Saturday morning.

Our climate here for the past week has been rather peculiar. The weather clerk apparently took a trip up to Yukon for a day or two and then back to Yuma with several stops on the way, and not a drop of any thing but sunshine to liven things up.

Some of the young men who are managing the lease on the South Homestake mine took a trip to El Paso the latter part of the week. As they had just recently had a clean up at the mill it is presumed that they went with their pockets well lined and stirred up the animals some in the sandy city.

FOR SALE.

Barbed wire. Special prices in quantities.

WELCH & TITTSWORTH.

CAPITAN, NEW MEXICO.

Dr. Miller's subject at the Congregational church next Sunday morning at eleven o'clock will be, "What Paul saw during his Career." Every body is cordially invited to attend this service. At night, there will be no service, it being the regular day for the Methodist minister, the congregation unites with the M. E. service.

Notice.

We have closed out our entire business, good will etc. to Mr. S. C. Wiener. We take this opportunity of thanking the people of White Oaks, and surrounding country for their patronage during the many years we have been in business, and we are sure that our successor will extend to you the same courtesy that we have always tried to extend.

H. N. Stone, a Kansas City stock buyer, has been here for the past few days negotiating for several car loads of fat goats for the eastern market. It is reported he will take the entire Collier herd in Coyote Canyon and a large bunch of the Ross lot in the Jicarillas, the prices offered being quite a temptation.

It is reported that our friend Treat and a yearling steer engaged in a roping contest last Tuesday evening, against the statutes of New Mexico, made and provided. From all accounts it was a show

The dance gotten up by some of the Club ladies, at Bonnell hall last Friday night, was a very brilliant social affair. The best of the season it was pronounced by those present.

Advertised Letter List.

The following is a list of unclaimed letters lying in the post office at White Oaks, N. M., for the month ending March 31st, 1905, which if not called for within 30 days will be sent to the dead letter office at Washington, D. C.
Fred Smith.

WHITE OAKS, - NEW MEXICO

The proposed duty of 3 cents a pound on coffee would stimulate the bean market.

The dancing masters have prepared a bill of 150 new dances. The public will have to foot it.

Wild Nature has been offered the last indignity, now that Alpine peaks are being sealed by autos.

A Winnebago student at Carlisle has married an heiress. He is no longer, Lo, the poor Indian.

The leader of the band that played "McGinty" in St. Petersburg last Sunday has been sent to Siberia in irons.

Russell Sage has a cousin who is "too proud to beg," and no doubt Uncle Russell considers him a model poor relation.

Korea is no longer to be considered a region for international exploit, but it is doubtful if Korea herself ever knows it.

It's a good thing for kings and rulers in Europe that the bomb-throwing fraternity know nothing of the game of baseball.

Cleveland is to have a \$1,000,000 art gallery and would like to hear of a few old masterpieces that have been found in junk-shops.

If the British submarines are as dangerous to the navies of other nations as they are to their own crews they're terrors.

Henry James' intelligent discussion of the habits of Americans suggests that it might be well for him to get acquainted with a few.

The sweet girl graduate may have an exaggerated idea of the knowledge she possesses, but this would be a sad old world without her.

There are more hump-backed people in Spain than anywhere else in the world. Sometimes we almost feel ashamed of having whipped Spain.

Doubtless King Edward gave King Alfonso much excellent counsel about the advisability of being serious and sober and oedate when one is young.

In New York the other day a bank clerk who had stolen \$35,000 was sent to a reformatory. It was a lucky thing for him that he took more than 75 cents.

Henry James says the newspapers use "loopy English." This is letting us down easy. We feared Henry might accuse some of us of "slinging bum grammar."

A Chicago professor announces the discovery that men were fish in prehistoric ages. Shouldn't wonder; there are many suckers among men in this age.

Chancellor von Bulow, who inherited \$1,375,000 and was made a prince on the same day, must have a feeling now that he is, after all, a favorite child of fortune.

Mput Bjelcaszta in Montenegro is reported to be showing signs of volcanic activity. If it ever throws up that name there will be some jagged rocks in Montenegro.

A Chicago woman thinks that children should be paid 5 cents a line for all the poetry they write. Wouldn't it be better to pay them 5 cents a line or all they don't write?

Savannah has invented a pretty good word, which the Morning News hastens to use in explaining the defeat of its local baseball team. It was "outlooked" by the victors.

It's a shame that the boat having on board the only woman that ventured to sail in the transatlantic race should have had such a hard time. Old Neptune certainly was not gallant.

A great ocean liner slowing down in midvoyage in order that an operation might be performed in the ship's hospital on one of the stewards is a pleasing instance of novelty and humanity.

Evidently the sultan of Morocco knows a good thing when he sees it. He is making use of this interval when the powers are vying for his good will to negotiate a trading treaty of \$22,000,000.

American girls will be likely to decide that Crown Princess Cecile is very old-fashioned in spite of the stories that have been cabled over. She didn't insist on having the "obey" clause left out.

Choate has stung New York. He says it reminds him of London because of its subway, and New York, which was just beginning to feel like the only submarine in the fleet, is putting paper in the sweat-leather of its hat.

Albany, recently appointed a general in the British Army, in the first instance thought that even set feet in England. It will come over here.

Death of a Pioneer Editor.

An Albuquerque dispatch of June 30th says: How Thomas Hughes, one of the pioneer newspaper publishers and editors of New Mexico, died at 12:10 to-day after a lingering illness of four months' duration, in which his sufferings were great. Death was the result of a malignant cancerous growth on the pancreas.

The deceased was fifty-seven years old on January 1st, and he came to this city from Marysville, Kansas, in February, 1881, when the town consisted of a few tents.

In the centennial year of 1876 he was a presidential elector from the First district in Kansas on the Hayes ticket. From 1882 to 1885 he served as postmaster of Albuquerque and in 1886, 1890, 1898 and 1900 was elected to represent the people of Bernalillo county in the Council of the Legislative Assembly.

He also served two years as a member of the Territorial Board of Equalization. The official positions he held were filled by him most creditably and efficiently and to the satisfaction of the people. He was the originator and founder of the New Mexico Fair Association at Albuquerque, and for twenty-one years did hard and energetic work for the success of the fair association, and of the annual fairs held at Albuquerque during those years. Through the medium of the papers of which he was editor and through his own individual efforts he did more than any other agency for the popularity and importance of the association.

During the session of the Thirty-fourth Legislative Assembly he was appointed a member of the board of commissioners from New Mexico to the Louisiana Purchase Exposition to be held in St. Louis, and all through the formal organization of the commission and during the year kept busy and hard at work to make the labors of the commission a success.

On his first coming to New Mexico he bought the old Albuquerque Journal and moved the plant to New Albuquerque, thus establishing the first newspaper in that city, which at that time gave scant promise of its present prosperity and importance. In 1886 he established the Daily Citizen. W. T. McCroight was taken into partnership in 1891 and continued with it until last April, when he sold out on account of sickness.

He was a great lodge man, belonging to the Masons, Knights of Pythias, Eagles and Red Men and an honorary member of the Typographical Union. He leaves a wife, four daughters and three sons. Funeral will occur Sunday afternoon and it will probably be the largest ever held in this city.

Horse Thieves at Albuquerque.

An Albuquerque dispatch of June 29th says: Claude Doane, only recently released from the Territorial Penitentiary at Santa Fe, is believed by the officers to be the leader of a gang of horse thieves who last night raided the outlying precincts of this city and drove off ten head of fine horses.

Immediately after the raid Sheriff Thomas B. Hubbell, accompanied by one deputy, procured a buggy and went in pursuit.

They overtook the gang early this morning at Las Padillas, New Mexico, ten miles south of here. The gang were eating breakfast in a Mexican adobe. The officer got within 200 yards of the house, when the bandits sent word that they would shoot if they came any nearer.

As there were only two officers they dared not attempt to capture the fortified thieves. After they finished breakfast the bandits mounted their horses and made a dash for a canon near by, leaving the stolen horses behind.

These were recovered by the sheriff and brought to this city. A posse was at once organized, headed by Capt. H. S. Fullerton of the New Mexico mounted police, and it has gone after the rustlers.

The gang consists of a number of bad men. Doane, who is also suspected by the officers of murdering a school teacher at Ramah, McKinley county, last week, is the leader. He is known as a very desperate man and a dead shot.

The horse thieves are all heavily armed and are expected to put up a hard fight when overtaken.

Railroad Must Give Bond.

The Arizona & Colorado Railroad Company gained a victory in the Supreme Court of the territory on the 27th ult., the court deciding that:

"Unless the Denver & Rio Grande Railroad Company within ten days enter into a bond in the sum of \$50,000 in favor of the appellant, the Colorado & Arizona Railroad Company, conditioned to indemnify the appellant and to restore to it the right of way between Durango, Colorado, and Farmington, New Mexico, in the same condition in which it was at the time the preliminary injunction was granted, the appellant may give a like bond and have a new injunction restoring and keeping in force the old injunction, restraining the Denver & Rio Grande company from being permitted to cross the surveyed right of way of the Colorado & Arizona."

Road to Be Finished.

An Albuquerque dispatch of July 3d says: Col. W. S. Hopewell, the general manager of the Albuquerque Eastern railway, returned to-day from New York, where he has been the last three weeks on business connected with the financing of the Albuquerque Eastern railway. He stated to newspaper reporters that the bonds had been secured for the completion of the road and that the Eastern had been merged with the Santa Fe Central and both would be operated as one road. The board of directors of both roads has been reorganized and the completion of the Eastern will be pushed.

The Territorial Cattle Sanitary Board met at Santa Fe June 28th and was called to order by the chairman, Capt. E. G. Austen, of Las Vegas. There were present W. C. McDonald of Carrizozo and W. H. Jack of Silver City, members, and W. C. Barnes of Dorsey, secretary.

The question of the dipping of cattle throughout the territory was taken up. After considerable discussion it was thought by the members of the board that the best way to secure this safeguard would be for the members to visit the various cattle raising sections and talk personally to the cattlemen, explaining to them the advisability and legality of the required dipping. The committee thought that it could build one tank in some infected district for demonstration purposes, but this was found to be impracticable by reason of the fact that if the committee built one it would have to build many more, and the funds were not sufficient. The committee hopes to be able to induce cattle raisers to join in what would be known as a community dipping tank, which would not be expensive on any one cattlemans and would be of great value to all.

The committee then called upon the governor, secretary of the territory, and territorial auditor, recommending the levy of two and one-half mills, which the auditor was ordered to place on the assessment rolls.

Progress at Las Vegas.

The Santa Fe New Mexican of June 27th says: George W. Ward, steward of the New Mexico Insane Hospital, who was a visitor in the capital city yesterday, is enthusiastic over the outlook for Las Vegas. In the first place, not in years have the surrounding ranges and fields been in as fine condition or giving promise of such fruitful harvest and fat stock. For many miles around the city lands that have been sere or fallow for years are green and productive; corn and oats and root crops being in a thriving condition without irrigation.

The city is feeling considerable impetus as a result of the establishment of the Fraternal City near ar borders. Although the sanitarium management does not take possession of the Montezuma property until August 1st, a great many people have already come to the city as a consequence of the liberal advertising that the section has received. All the private sanitarium in the vicinity are full to overflowing and quite a building boom is on in the city itself. At the present time at least twenty private residences and business blocks are going up and the Las Vegas Improvement Company has had plans drawn for six new cottages to rent, none of which will have a value less than \$4,000.

A new cement block works has been operation and it is likely that a large part of the material for the new residences will be secured from the cement block factory, which is operated entirely by local capital.

The probability of the construction of a system of government irrigation works, which will reclaim from 12,000 to 15,000 acres of land, arouses great expectations in the minds of Las Vegas. Thus far every report has been favorable. The department has investigated the quantity of water, the amount of land that can be brought under ditch, the matter of title, the condition of the local markets, and has expressed its conviction that every test will be met fully. Also, the government Board of Reclamation engineers has made a favorable report. It is hoped and believed that actual construction work will begin next year.

Mr. Ward says the Las Vegas end of the scenic highway is progressing rapidly and that the borders of the Pecos reserve will be reached before the summer is far gone.

Despite the increased accommodations provided at the Hospital for the Insane, Mr. Ward admits that the institution is again crowded almost to its limit and says that additional accommodations must be provided very soon.

To Extend Cattle Dipping.

The Territorial Cattle Sanitary Board met at Santa Fe June 28th and was called to order by the chairman, Capt. E. G. Austen, of Las Vegas. There were present W. C. McDonald of Carrizozo and W. H. Jack of Silver City, members, and W. C. Barnes of Dorsey, secretary.

The question of the dipping of cattle throughout the territory was taken up. After considerable discussion it was thought by the members of the board that the best way to secure this safeguard would be for the members to visit the various cattle raising sections and talk personally to the cattlemen, explaining to them the advisability and legality of the required dipping. The committee thought that it could build one tank in some infected district for demonstration purposes, but this was found to be impracticable by reason of the fact that if the committee built one it would have to build many more, and the funds were not sufficient. The committee hopes to be able to induce cattle raisers to join in what would be known as a community dipping tank, which would not be expensive on any one cattlemans and would be of great value to all.

The committee then called upon the governor, secretary of the territory, and territorial auditor, recommending the levy of two and one-half mills, which the auditor was ordered to place on the assessment rolls.

Artesian Basin at Las Vegas.

A Las Vegas dispatch of June 29th says: What is believed to be a strong flow of artesian water was encountered to-day in a well that had been sunk for 600 feet on the grounds of the New Mexico Insane Asylum here. The water rose in a strong and steady stream to within twenty-four feet of the surface. As the well was sunk on a hill more than a hundred feet above the valley, it is beyond question that the water will flow over the top in the lower lands.

The underflow is believed to underlie the entire valley and other wells will be sunk at once. The well brought in is big enough to supply the asylum with water and irrigate ten acres of land besides.

Charles D. Kaye, a Guadalupe county ranchman, has sold his ranch and sheep to W. D. Long of Chaves county for \$80,000. Delivery will be made at once.

The Southern Manufacturing and Supply Company of Roswell, which will manufacture railroad cars and rice milling machinery, has been incorporated by Houston and Beaumont, Texas, parties with a capitalization of \$100,000.

At Las Vegas Teodoro Martinez has been appointed guardian of Fernando Martinez, whose mother is a patient in the asylum for the insane. Nicholas Sanzaval has been appointed guardian of Juanita and Candido Sanchez. C. F. Rudolph and Jacinto Redarte have been named administrators of the estate of Juan Rafael Martinez, deceased.

The Territorial Supreme Court before adjourning June 28th, decided that despite a statute passed by the last Legislature authorizing Territorial judges to sit on the bench of the Territorial Supreme Court, the judges of the Territorial Supreme Court shall sit on the bench of the Territorial Supreme Court.

Trout for Rio Santa Fe.

Frank Owen, manager of the Santa Fe Water and Light Company, has stocked the pool in the Santa Fe river just above the large reservoir with 900 rainbow trout, some of which will eventually attain a weight of twelve pounds. Mr. Owen will also make an effort to hatch fish with which to stock the Santa Fe river above the first narrows. Mr. Owen having learned this morning that the Santa Fe railway intends to stock New Mexico streams along its lines with several million trout and that Las Vegas will make application for trout in the Gallinas, immediately made application to the railway authorities for several hundred thousand trout for the Santa Fe river. He will also make a similar request to the United States Fish Commission. Mr. Owen also plans, if proper permission can be secured, to remove the beaver colony on the Rio Frijoles in Taos county to the Santa Fe canon, where the beavers would build a dam that would make a fine lake and many pools and would help to conserve the water supply of the city, besides proving an attraction to visitors, as beaver dams are few and far between in the west. Mr. Owen figures that trout serve to keep the water pure by eating insects and algae and that trout streams proverbially carry the purest water.—Santa Fe New Mexican.

The Doherty Mercantile Company of Folsom, Union county, was incorporated June 30th, with a capitalization of \$40,000. The incorporators and directors are Joseph Doherty, Annie Doherty, James Doherty and Joseph A. Doherty of Folsom.

F. W. Clancy, district attorney of the Second judicial district and one of the leading attorneys of the territory, was quite badly injured at Albuquerque July 1st by being thrown from a horse. He suffered several broken bones, but the doctors say he will recover unless he has been injured internally.

The high license on saloons went into effect at Roswell July 1st. The license is now \$2,000 city, \$400 territorial, \$25 county, all payable in advance, and making a total of \$2,425 per annum. This does not include any gambling licenses, which is \$251, one-half in advance per each device, per annum. Seven saloons will stay open under the high license. There were fourteen before.

A Santa Fe dispatch of July 2d says: This afternoon Es-Vargas Day was celebrated in this city by the annual procession to the chapel adjoining the National cemetery built in commemoration of the victory of Diego Vargas in 1692 over the rebellious Pueblo Indians who had captured and held the city for twelve years. In accordance with the vow made then, this has been the annual feast day by Santa Fe ever since. About 2,000 people were in the day's processions.

An Albuquerque dispatch of June 27th says: The preliminary hearing of Amelio McClure, a negro charged with the murder of Nicholas Sanchez and Carmel Baca, wealthy sheepmen of Valencia county, was held in this city to-day and the defendant was held for the grand jury without bail. Evidence was introduced to prove that McClure murdered the men in cold blood. The feeling is high against the prisoner, but no violence is feared, as he is now safely guarded in the county jail.

Incorporation papers were filed at Santa Fe June 27th by the Las Animas Sheep Company, the incorporators and directors being William H. Hahn, George A. Kasaman and John C. Ross of Albuquerque, which is the headquarters. The capitalization is \$50,000. Stern, Schloss & Co. incorporated at the same time, the incorporators being Jacob Stern of Denver, Simon Schloss and Edward L. Medler of Albuquerque. The principal place of business is Albuquerque, and Simon Schloss is the New Mexico agent. The capitalization is \$40,000.

A Roswell dispatch of June 27th says: It has been stated that the arrest of B. H. Tallmadge on the charge of subornation of perjury would greatly injure the land business in the Pecos valley of New Mexico. It was given out to-day by the highest authority that this arrest would not injure the land business in the valley. The investigations are being pushed quietly at the land office and so far there have been no more arrests. W. H. H. Lewellyn of Las Cruces will arrive Saturday to conduct the prosecution in the Tallmadge preliminary hearing.

Prof. Hiram Hadley, superintendent of public instruction, and his wife left to-day for the East. They will stop for a few days in St. Louis, going from there to Indianapolis, Indiana, where they will visit for a short time. From there they will go to Asbury Park, New Jersey, where on July 3d the National Educational Association begins its forty-fourth annual convention and which Professor Hadley will attend as representative from New Mexico. From Asbury Park Professor and Mrs. Hadley will go to Boston to visit for awhile with his children.—Santa Fe New Mexican.

An Albuquerque dispatch of June 27th says: Andres Trujillo, a well-known Mexican liquor dealer of this city, has been arrested charged with assault on a four-year-old girl, daughter of Mrs. Celestina Apodaca Candelario. The crime is alleged to have been committed at Los Lentos, Valencia county, a small village near this city, ten days ago. The child is in a serious condition. Trujillo was arrested and tried before a Mexican justice of the peace at Rancho de Alamo, but the case was dismissed. The territorial authorities have now taken up the case.

A Santa Fe dispatch of June 30th says: Orson F. Farry, an old timer of this section, died to-day at the age of seventy-five years. He was the owner of several good mining properties and a ranch on Santa Fe river, nine miles above Santa Fe. Mr. Farry was a native of Ohio and before the Civil war was a soldier in the merchant marine. He served during the entire war in an Ohio regiment and in 1855 came to Santa Fe, where he remained for the rest of his life.

Baby Born Every Five Minutes.

A recent press dispatch from New York City says: Births in this city at the rate of one ever five minutes are recorded by the health department for the past week, during which period 2,011 were reported. It was announced at the department that the birth rate of New York has risen to about 31 per 1,000, and is higher than any other city in the United States.

Five or six years ago, when there was so much talk about race suicide, the birth rate here was only 26 per 1,000. Last year the rate was 30 per 1,000. The prospect is now that in 1906 it will be 32.

Long in Building.

At Troyes, in France, last month, was solemnly dedicated a church which has taken sixteen centuries to build, for it was begun in the third century and was completed but recently. This is St. Urban's church, built by order of Pope Urbanus IV., on the site of the house in which he was born.

Only the foundations were laid during Pope Urbanus' lifetime and though the building has long been consecrated, the last remaining stones were laid this year. The church is a gem of Gothic architecture.

Proved Beyond a Doubt.

Middlesex, N. Y., July 3.—(Special)—That Rheumatism can be cured has been proved beyond a doubt by Mrs. Betsey A. Clawson, well known here. That Mrs. Clawson had Rheumatism and had it bad, all her acquaintances know. They all know she is now cured. Dadd's Kidney Pills did it. Mrs. Clawson tells the story of her cure as follows:

"I was an invalid for most five years caused by Inflammatory Rheumatism, helpless two-thirds of the time. The first year I could not do as much as a baby could do, then I rallied a little bit and then a relapse. Then a year ago the gout set in my hands and feet. I suffered untold agony and in August, 1903, when my husband died I could not ride to the grave.

"I only took two boxes of Dadd's Kidney Pills and in two weeks I could wait on myself and saw my own wood. I dug my own potatoes and gathered my own garden last fall. Dadd's Kidney Pills cured me."

Rheumatism is caused by uric acid in the blood. Dadd's Kidney Pills put the Kidneys in shape to take all the uric acid out of the blood.

Drum is Drummed Out.

M. Maurice Berteaux, the minister of war, intends to suppress drums in the French army. The decision meets the support of such eminent military authorities as General Faure-Bibuet, former military governor of Paris, who says drummers are useless in battle, since they carry only revolvers, whereas buglers are armed with rifles, which they can use in a fray. He adds that the drum, in modern armies, is an anachronism and should be abolished. In spite of the sentimental pang its disappearance may cause, it is interesting to recall how much the late General Boulanger's popularity arose from his re-establishing the use of the drum, which a preceding minister of war had abolished.

Heroine to Be Educated.

An Asheville, North Carolina, dispatch says that for saving the lives of a score of passengers and preventing a wreck by flagging a train with her red petticoat, Nannie Gibson, eleven years old, a bare-footed mountain girl, has received a reward from the Southern railway, and it is just what Nannie had said that she wanted most, an education.

She has received a letter from the company, agreeing to give her a college education and to see that she is well provided for.

Nannie lives in a little mountain hut with her father and mother in the Black mountains. A big slide occurred on the mountain while she was at home alone. She ran down the railroad track, waving her red petticoat. A heavy train was stopped by her ten feet from where the mountain had caved in. Below was an abyss several thousand feet deep.

IN COLONEL'S TOWN

Things Happen.

From the home of the famous "Key-land Kesayarth of Carterville," away down South, comes an enthusiastic letter about Postum:

"I was in very delicate health, suffering from indigestion and a nervous trouble so severe that I could hardly sleep. The doctor ordered me to discontinue the use of the old kind of coffee, which was like poison to me, producing such extreme disturbance that I could not control myself. But such was my love for it that I could not get my own consent to give it up for some time, and continued to suffer, till my father one day brought some package of Postum Food Coffee.

"I had the new food drink carefully prepared according to directions, and gave it a fair trial. It proved to have a rich flavor and made a healthy, wholesome and delightful drink. To my taste the addition of cream greatly improves it.

"My health began to improve as soon as the drug effect of the old coffee was removed and the Postum Food Coffee had time to make its influence felt. My nervous troubles were speedily relieved and the sleep which the old coffee drove from my pillow always came to dole and strengthen me after I had drunk Postum—in a very short time I began to sleep better than I had for years before. I have now used Postum Food Coffee for several years and like it better and find it more wholesome than when I first began. It is an unspeakable joy to be relieved of the old distress and sickness." Name given by Postum Company, Battle Creek, Mich.

There's a reason. Read the little book, "The Good of Postum."

MILLIONS USE

THE WORLD'S FAVORITE

For Preserving, Purifying and Beautifying the Skin, Scalp, Hair, and Hands.

Colicuta Soap combines delicate medicinal and essential properties derived from Quinine, the great Sida Chura, with the purest of cleansing ingredients and the most refreshing of flower odors.
