HEWITT BLOCK. WHITE OAKS.

Last Monday was Labor day, and it was religiously observed by many.

White Oaks is always in line when the right thing is to be done.

Mrs. Dr. Paden with her two sons Brent and Melvin spent several days with Mrs. Ellis at the I-X ranch, last week, returning home on Friday.

Lloyd Hulbert, was over from Lincoln on Saturday, and after greeting a number friends passed on to Thee Rivers.

Mrs. S. E. Barber returned to her three Rivers Ranch last Saturday, she took with her one of White Oak's juveniles, Master Ellis Wingfeild.

SCHOOL BEGINS MONDAY.

Parents and Children remember, school opens Monday morning at nine o'clock.

Miss Carrie Covington, who proved her efficiency as a teacher last year in the conduct of the primary department, is to be the principal of the school this term. Miss Ruth Tompkins will have charge of the primary department.

C. B. Hatfield and Ed. Fox were visitors in town from the Jicarillas last Friday.

NEW SCHOOL HOUSE AT CORONA.

Public spirited people of the beautiful village of the Gallo have subscribed enough to build a commodious and comfortable new school house and the enterprising ladies of the town are giving a series of dancing parties to provide seating and other furniture for the building when completed. The first of these benefit balls was given last Friday night and the next is to be Friday night Sept. 15th. Everybody within a hundred miles is invited to come and take part in the dancing and partake of a bountiful supper all for the modest charge a dollar the couple, all of which goes to help furnish the Corona school house.

Presiding Elder French, of this district conference was expected here this week, to conduct the quarterly meeting of the M. E. Church. He was taken ill at Alamogordo and sent Rev. F. E. Singleton, pastor of the M. E. Church at Alamogordo in his stead. Mr. Singleton preached an excellent sermon Monday night. He is a bright broad guaged young man. White Oakes would gladly welcome a man like him to the Methodist pulpit should he be sent here.

The annual conference of the M. E. Church South, will be held at Demming next week.

Cabbage and Cucumbers fresh from the Fritz ranch, cheap.

Deputy Sheriff, M. H. Belomy was over from Lincoln last Friday greeting old friends, and attending to some business connected with the sheriff's office.

THE OUTLOOK is pleased to tell the many friends of Fred Pfingsten, that he is improving rapidly and that they may expect to see him not many weeks hence, again in the ring.

NOGAL ITEMS.

The campmeeting has adjourned, no casualties, many present.

Lin. Brannen is over from Coyote Canon buying steers, of which there seem to be many.

B. F. Brown, started a few days ago to go prospecting on south fork of the Rio Bonito.

The immense corn crop on the Mesa is beginning to harden, three weeks with out frost and will have matured.

The latest fad in Nogal is plowing up the streets and planting turnips.

Rumor says: The Vera Crisp mine will soon start up again with C. H. Flamboy as manager.

Uncle George Dillard has ten acres of Hubbard squash, they are supposed to be free for any person who comes for them.

WEDDING ECHOES.

Ed. J. Coe of Glencoe, former Superintendent of Schools for Lincoln county, took a trip to Roswell Sunday August 20th; where he found Miss Maud Evans, daughter of Judge Evans expecting his visit. Upon his arrival Rev. C. E. Lukens of that city was called, who made of the twain, one. The young couple took a train, and made a short wedding trip, returning to their home at the One ranch on the 26th. Their many friends extend to them warmest congratulations.

Irving Newton and M. H. Pries from the Jicarillas were visitors to town on Wednesday.

A group of Gypsies reached the town last Friday. Their appearance is far from clean or otherwise attractive. They look more like a bunch of "weary Willies", or degenerate Apaches than any thing else. It will need a very heavy down pour of rain to cleanse their camping place at the lower end of town, when they take up their tents and walk.

The gypsies left on Wednesday, and the sanitary squad have gone to the place of their late encampment with a ton of chloride of lime and a keghead of carbolic acid, "suff sed."

With this number THE OUTLOOK becomes a sportive yearling with head and heels high in the air of an unfenced range, with vigor and life, and freedom ahead, and no sorrows regrets to look back upon. During the year this paper has made no enemies that it cares to cull as such, but has gained many new friends. For the year to come it will follow the same even course marked out at the beginning. The publisher will endeavor to make this paper just what he thinks a large majority of its patrons want to be a record of the events and happenings in the county where published, while keeping in close touch with territorial affairs beyond that the world at large. While doing this the endeavor will be to put the news in such readable shape that its readers will always keep a sharp lookout for THE OUTLOOK.

THE WAR IS OVER. Japan has waived the disputed points in the interest of peace. The civilized world congratulates President Roosevelt for what he has accomplished. America is now the leading world power.

Next week Denver will put her best foot forward. She will be dressed in holiday attire. The spirit of patriotism will be on the crest of the wave. The boys of '61 will crowd her streets, and sing the songs of the days when they followed Grant, Sherman, Sheridan and Thomas. Men's hearts will be stirred once more when they sing "We'll rally round the flag boys," and "We're coming Father Abraham." The big city of the Rockies will make the boys feel as they did when their step was quick and elastic, and the blood of youth was in their veins. Old battles will be fought over again, and stories of Shiloh and Atlanta, of Chicamagua and Antietam and Gettysburg, will be repeated for the hundredth time as the boys sit around the campfires face to face with the comrades of long ago. The occasion is the thirty-ninth annual encampment of the G. A. R.

The Alamogordo Journal winked out quietly and serenely last week, after a short but rather strenuous life. It went into a slow but insidious decline soon after the last November election, when Otero county very unexpectedly flipped over into the Republican ranks, thus depriving it of the home so necessary to the life of a successful newspaper. May it repose in peace along with the ghosts of so many journalistic ventures gone before here in New Mexico. Friend Wharton has our sincere condolence. He did his duty as he saw it and deserved better success.

The Alamogordo News is responsible for the statement that they will take the Journal's material, known as The Alamogordo News, to the Alamogordo News, and it will be published with G. M. Rudisill, Editor.

The Teacher's Institute of Lincoln and Otero counties, at Tularosa, closed with the examinations last Friday. Thirty-five teachers were present, of whom only twelve were from this county. A good deal of hard work was done and much interest manifested throughout. The tendency was all for the betterment of our public schools by raising the efficiency of the teacher by instruction in methods and school government. More attention was paid to instruction in primary work, the kind most needed, than heretofore.

Both Professor Hadley, Territorial Superintendent, and MacArthur of the Agricultural College were present on separate days, and each favored the Institute with a talk during the forenoon and a lecture in the evening. They were unstinted in their praise of the work being done. Prof. Hadley was good enough to say that no where in the territory had he found a better class of teachers, or such earnest, intelligent workers. It seemed to be the unanimous verdict that neither county could have done quite so well by holding separate institutes, and many very pleasant and congenial friendships were made among the teachers there assembled.

The quaint old town of Tularosa, with its adobe walls and broad shady avenues, was an ideal place for holding a meeting of this kind, and the fruit and melons everywhere in evidence will leave the memory of a lingering lusciousness on the lips for many days to come.

To those of our patrons who are in arrears there can be no better opportunity than the present to square accounts and begin even for another year. It is taken for granted they have had value received, or they would have notified this office to the effect long ago that they did not want to receive something for nothing. Should any of them claim, however, that they have not had the full value of their subscription during the past year, the paper will cheerfully discontinued upon proper notification of that fact and they will at once be relieved from any further obligation in the matter, and the paper discontinued.

The Standard Oil Co. declared a dividend of \$6.00 per share on the 15th. The total distribution is \$5,000,000, of which J. D. Rockefeller gets \$2,400,000. His entire dividends from the Standard Oil for 1905, are estimated at \$10,000,000 and his total income at \$26,000,000 per year. What will he do with it? Buy mules? That is what one prominent lobbyist said he did when he visited the legislature.

Judas betrayed his master for thirty pieces of silver. How many of our legislators and other officials, state and county, betray the interests of their constituents and sell their independence for a railroad pass? And how many of them charge their taxed constituents for the fare for which the railroad provided the pass.

Why can't some one put up a new hotel or lodging house at Carrizosa? The one now running there is simply playing a hold up game. People going or returning are compelled to wait at the depot for a portion of the night or go to this place and get skinned. Two dollars for a bed for a man and his wife, especially when it has just done duty for an outgoing passenger, is about the limit of ones temper and temper.

names from the registration list of a big city and not affect the population. Yet that piece of work has been done in Philadelphia. The padded lists of the machine have been squeezed with the above result.

A group of Gypsies reached the town last Friday. Their appearance is far from clean or otherwise attractive. They look more like a bunch of "neary Willie", or degenerate Apaches than any thing else. AERONAUT DYNAMITED

BLOWN TO PIECES IN MID-AIR

John E. Baldwin, an Indiana Aeronaut, Meets His Death While Giving a Public Exhibition at Greenville, Ohio.

Greenville, O., Sept. 1.—Professor Baldwin, a well known Indiana aeronaut, was blown to pieces high in the air yesterday while making a balloon ascension. His wife and children were in the great crowd which witnessed the accident.

Many of the 25,000 persons who went to the fair ground were attracted by the announcement that Professor Baldwin would make a balloon ascension and from the highest altitude let loose in the air a wonderful display of fireworks and dynamite bombs.

Professor Baldwin had been giving daily exhibitions at the fair grounds as he had done at other county fairs in Ohio and Indiana during the summer. Preparations for his ascension attracted great attention, and when his airship soared aloft the crowd cheered and every neck was craned to watch his performance. The balloon rose rapidly. When it had reached an altitude of about 1,600 feet a great cloud of smoke suddenly hid the airship from view.

There was a loud report as if all his bombs had exploded simultaneously and an instant later fragments of the balloon and the body of the aeronaut fell to the earth. Then a groan of horror rose from the multitude. The airship had vanished. Searchers immediately began looking for fragments of the wrecked airship.

A half mile away they found pieces of silk cloth and splinters of the basket-like framework on which the aeronaut had been perched. Scattered about a twenty-acre field were found fragments of Baldwin's body. The distance at which the airship fell was so great that the crowd had not seen the fragments fall. It is supposed that in igniting the fuse connected with the dynamite he fired the gas in the balloon and that it exploded, causing the dynamite to explode also.

Mrs. Baldwin, who with her children, was among the spectators, screamed when she saw the smoke and rushed in the direction in which the wind had carried her husband. Before the crowd realized what had happened she had fallen in a faint.

Professor Baldwin is said to have taken part in the Spanish-American war as a balloonist and his exhibition was supposed to illustrate how he manipulated his machine in battle. He carries twenty-five pounds of dynamite and explosives.

Professor Baldwin was about forty-five years old. He lived in Lousantville, Indiana, where his body will be taken for burial.

No trace has been found of a parrot and monkey which made the ascension with the aeronaut.

ARMISTICE AGREED UPON.

Oyama and Linevitch Instructed to Arrange Terms.

Portsmouth, N. H., Sept. 1.—Japan, through Baron Komura, has agreed to the immediate conclusion of an armistice. At 11 o'clock last night Mr. Takahira went to Baron de Rosen's room and explained that he and Baron Komura had received instructions to arrange terms of an armistice. Baron Rosen immediately communicated with M. Witte and it is probable that a meeting will be held to-morrow morning for the proclamation of a complete suspension of hostilities, preliminary to the arrangement of the details by the two generals upon the battlefield.

Rapid progress was made yesterday in the signing of a treaty of peace. Baron Komura, at M. Witte's request, to-morrow will probably fix a day for its signature.

Russia's consent to a suspension of hostilities reached M. Witte last night in a cablegram from Count Lamdorff, whom Emperor Nicholas has empowered to deal with the important phase of the negotiations.

General Linevitch has been informed of the practical conclusion of peace and directed to hold himself in readiness to open with Field Marshal Oyama negotiations for an armistice, and the order for the suspension of hostilities and the signing of the truce will now go forward from St. Petersburg, as M. Witte has been informed by Baron Komura that the Emperor of Japan has also given his consent and has empowered Marshal Oyama, to conduct the negotiations with the Russian commander in the field.

Having advised General Linevitch of the situation, Russia will not hold herself responsible for any clash which may occur before the notification of Japan's consent to an armistice. On this point, however, no serious anxiety is felt here.

So rapidly and well is Mr. de Martens, with Mr. Denison, performing his delicate and important task in drafting the treaty, that he was able to return from the navy yard tonight to report to M. Witte the practical completion of the articles of the treaty. It is expected that the treaty will consist of thirteen articles, exclusive of the preamble.

Would Punish Quantrell Raiders.

Lawrence, Kans., Sept. 1.—There is a movement here growing out of the annual reunion of Quantrell raid survivors in Independence, Missouri, and their inflammatory utterances, to have the men who were indicted for the raid brought here for trial. November 18, 1862, the grand jury returned twenty-three indictments against the raiders for murder in the first degree.

Under the law these indictments do not outlaw, and now many citizens of Lawrence want them revived. They want to put the question up to Governor Folk whether or not he will send the men back for trial.

The visit of the British channel fleet to German Baltic ports, beginning with Swinemunde, has been received with every show of courtesy and pleasure by the German naval authorities. The newspapers carefully avoid saying anything unpleasant, and there is evident determination to treat the visitors properly.

As the result of the conference between the President and J. P. Morgan at Oyster Bay, the Chinese Development Company held a meeting and ratified the sale of the Hankow railroad back to China. The plan was arranged at the meeting between the President and Mr. Morgan and is satisfactory to both of them.

By a terrific explosion of giant powder at Paris, fifty-one soldiers from Bakersfield, California, Mrs. A. W. McRae, wife of a prominent mining man, her son, George, and Oscar Ducloux, another mine owner, were instantly killed. Mr. McRae received injuries from which it is feared he will die, and at least three other men were badly hurt by the explosion.

A detachment of marines and sailors from the German cruiser "Bussard" surprised about 1,000 insurgent natives, half of whom were armed with rifles, near Kowon, German East Africa, August 25th. The Germans killed seventy-three of the insurgents and drove many others into the River-Riji, where they were drowned. No German casualties have been reported.

The will of the late Wilmon W. Blackmar, commander-in-chief of the Grand Army of the Republic, provides for a legacy of \$3,000 to Nancy T. Creel of Louisville, Kentucky, whose mother served as nurse to Mr. Blackmar after he had been wounded in the Civil War. The bequest leaves to the United States government the chair in which General Grant sat when arranging the surrender of General Lee of the Confederate army at Appomattox.

ARIZONA HOTELS.

Chink Waiters and All Outdoors for a Bedroom.

A visit to southern Arizona in August will convince one that Lieutenant Peary's expedition is no where near. The atmosphere seems to be set on fire, and the earth feels like a hot brick kiln. Everything seems to have retired from view; people are scarcely seen during the day and even the animals betake themselves to some quiet nook in the shade.

If you get to one of the better towns, you will only meet the people in the evening and the shops have the appearance of undertaking establishments.

You eat your meals at a Chink restaurant. The pig-tailed waiter asks you if you will have "legs slaut lup, ham or slake, kloffee or klee." You say "yes" and get a fairly good meal. The legs of the table sit in tomato cans filled with kerosene; this is so that the ants will run up your legs, and not the table legs.

You put up at what is called a "hotel" pay \$1 for a room and occupy space out in the yard on a cot; you will drop to sleep in time, but not before you have heard the distant yelp and kl-k of a pack of coyotes and the bray of the patient burro. About daylight you awaken and find yourself in a bed room as large as Arizona, and wonder for a moment if you have not passed the "divide" and woke up in the next world; you take a tumble, wrap the sheets about you and scud for the room. Before dressing you must shake each garment thoroughly. If you have several, turn your shoes upside down and shake them in order to rid your clothing of scorpions.

For Preserving Timber.

A process for preserving timber, patented by an Englishman, consists in injecting it with a light syrup of raw sugar from the cane or so-called beet root, raised to boiling point in a closed chamber. When the timber is dried in a current of hot air the sugar becomes crystallized in the pores, and the inventor asserts that timber so treated can not decay, split or warp, while being protected from destructive fungi.

Lesson for Women.

Jersey Shore, Pa., Aug. 28th (Special).—"Dodd's Kidney Pills have done worlds of good for me." That's what Mrs. C. B. Earnest of this place has to say of the Great American Kidney Remedy.

"I was laid up sick," Mrs. Earnest continues, "and had not been out of bed for five weeks. Then I began to use Dodd's Kidney Pills and now I am so I can work and go to town without suffering any. I would not be without Dodd's Kidney Pills. I have good reason to praise them everywhere."

Women who suffer should learn a lesson from this, and that lesson is "cure the kidneys with Dodd's Kidney Pills and your suffering will cease." Woman's health depends almost entirely on her kidneys. Dodd's Kidney Pills have never yet failed to make healthy kidneys.

The average village points with pride to its oldest inhabitant; but he rarely never does anything but grow old, and it takes him a long time to do that.

CUTICURA GROWS HAIR.

Scalp Cleared of Dandruff and Hair Restored by One Box of Cuticura and One Cake of Cuticura Soap.

A. W. Taft of Independence, Va., writing under date of Sept. 15, 1904, says: "I have had falling hair and dandruff for twelve years and could get nothing to help me. Finally I bought one box of Cuticura Ointment and one cake of Cuticura Soap, and they cleared my scalp of the dandruff and stopped the hair falling. Now my hair is growing; as well as ever. I am highly pleased with Cuticura Soap as a toilet soap. (Signed) A. W. Taft, Independence, Va."

"You say you think your girl is going back on you? What leads you to such a supposition—did she snub you?" "No, but she called her little sister into the parlor last night and had her recite to me."

TEA

TEA

Where tea and spirit are right, there is little danger of going astray in the business.

If water sold for 10 cents a glass it would be more popular with some men.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 1/2-pound packages; and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

The harder a man can laugh at the mishaps of others the harder he can get mad at the man who laughs at him.

The Celebrated Corn Roast. At Loveland, Thursday, Sept. 7th, in connection with Grand Circuit Race Meet on 7th, 8th and 9th September 7th, trains v. C. & S. will leave Denver at 8:15 and 10:10 a. m. and Loveland returning at 7:30 p. m. and the round trip rate will be \$1.50. There will be one fare rates on September 7th, 8th, and 9th, with limit of 10th as races will be continued on 8th and 9th.

If one half of the world doesn't know how the other half lives more of us mind our own business than we have any idea of.

When You Buy Starch buy Defiance and get the best, 16 oz. for 10 cents. Once used, always used.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private ills to a woman; this has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."
