

**LOCAL ROUNDUPS,**

New hats at—TALIAFERRO'S.

Mr. and Mrs. Dr. M. G. Paden entertained the teachers of our public school at dinner Sunday.

Miss Mayme Burnett, a teacher of deaf mutes at Olathe, Kan. and who spent the summer here two years ago died at Portland Oregon, April 8.

Dr. Mains is wrestling with a hard case of erysipelas which he caught from a patient he was attending.

LUMBER AT TALIAFERRO'S.

Wayne Van Schoyck came in Tuesday morning after a load of supplies. Reports sheep never doing better at this time of the year.

Mrs. Mc Ivers escorted Mack, this far on his way to Jicarilla the other day and then left him to find his way alone while she returned to Nogal in the afternoon.

**S. C. B. LEGHORN'S**

Eggs \$1.00 per setting of 15. From a yard of selected hens headed by high-bred imported cockerel.

M. G. PADEN.

There is a rumor that the North Homestake has been leased, and that this mine, on the discovery of which the town was founded, will be producing within a short time.

Mrs. Jennie O. Parker left yesterday for Santa Fe where she will be the guest of the Prichards for a few weeks, and take in the sights and the curios of the Ancient Pueblo.

Onion sets, Sorghum seed, and all kinds of Garden and Flower Seeds.

TALIAFERRO'S.

O. G. Handy and Thos. Stonerod, partners and prospectors of the Jicarilla mining camp were here stocking up with forage and other chuck this week ready for the spring campaign.

George Queen expects to make a trip to Tucumcari and other points in a few days, but the chances are that he will wind up in White Oaks after he has sampled about all the country from Hippyhunk to Highrolls.

Col. Geo. W. Prichard, of late a citizen of Santa Fe, came through here Tuesday on his way to the Jicarillas where he has certain mining interests. It is hinted there is a sale in the wind out there, and a capitalist behind about every other tree.

Mackerel, Pickles in brine, Barrel Sorghum made at Fritz ranch.

TALIAFERRO'S.

Mrs. A. H. Harvey, Mrs. Wm. Ellis and Mrs. Davis composed a trip of ladies from Carrizozo on a shopping tour to White Oaks last Saturday. The scribe could not quite determine whether they had their minds—not their feathers—on Easter eggs, or Easter hats. Presumably the former.

A. T. Roberts and Mrs. Annie Eaker were married at Capitan last Thursday noon by Justice John A. Haley. Soon after the ceremony they left for Carrizozo where they will make their future home. Here's hoping that Al. and his blushing bride will always enjoy Eakers of happiness and serene contentment.

**EASTER SERVICE.**

The members of the Congregational Sunday School extend a cordial invitation to the people of White Oaks to join them in their Easter service next Sunday at 10:30 A. M. Arrangements have been made for some special music and all the songs used will be appropriate to the day.

Don't forget the turkey dinner which will be served by Mrs. A. M. Brothers at Hotel Ozanne Sunday. Your measure will be taken at 1 o'clock.

Henry Lutz and D. W. Clean, two sheep magnates from over beyond Ancho, came in behind a span of high steppers Monday forenoon. They appeared to have considerable business with the Exchange Bank, while here.

**WANTED.**

To buy about 200 head of stock cattle for which a fair price will be paid. Any one having cattle for sale will please address this office within the next two weeks.

**THE OUTLOOK.**

Joe Ross, Mrs. Joe and Dellah were here hunting a doctor on Monday. Mrs. Ross has been having a very sore hand and was seeking reprieve through the medium of a pain extractor.

Professors Brown and Cridering will open a select school at Alamogordo to begin about April 23rd. They will make a special point to prepare young teachers for their work and would be glad to communicate with any one who contemplates taking a course of this kind.

G. A. Hunt, of Richardson, and J. M. Pawley, of Hondo, who were appointed on the finance committee at the tax payers meeting held at Capitan a few weeks ago, each write this paper requesting it to announce that they were not present at the meeting and decline to serve with the committee.

Those who knew Mrs. Stevens when she spent the season here with her sister, Mrs. Wallace Gumm, will be shocked to learn that her husband died at their Kansas City home quite recently. The family have the heartfelt sympathy of The Outlook and a large circle of friends in their sad bereavement.

Mrs. Dr. Jones, of Galena Kas., and a sister of H. B. Tompkins of this place, died at her home on April 2d. She made many friends while visiting her brother and family here about two years ago, all of whom will be very much grieved to learn of her death. Her relatives here feel her loss deeply, and have the sympathy of all.

The home of the Outlook scribe was very serenadively bombarded by a choir invisible for a brief period the other evening. At least the members of it were invisible when it was sought to form a more intimate acquaintance, and introduce the performers to some of the more sordid things of earth, given for the nourishment of ordinary mortals. For lo, they had vanished like a dream of the night and their whereabouts, whether amid the caves of the winds, or with the spooks that walk about in the darkness is unknown to the scribe to this day. Be it known however, that the thoughtful and friendly compliment was duly appreciated even if the authors of it are unrecognized and anonymous.

**CORONA CHRONICLES.**

We had a lovely rain last Friday.

Mr. Niles, night operator, has gone down the line to a station near El Paso.

C. D. Lincoln made a sale of an interest in his mining claim in the Gallinas district and has gone to England.

Mr. Gallagher, of Gallinas station, was acquitted of the charge of assault against him in Judge Trapp's court last Saturday.

The lovely twins, daughters of the landlord of the Torrance hotel, were in Corona calling on friends one evening last week.

Mr. Ortiz, book keeper at the Co. store, had the misfortune to injure his leg by the fall of a horse he was riding last Saturday. The animal turned a complete summersault and Mr. Ortiz was glad to escape with nothing more serious than a game leg.

Several ranchmen near this village are plowing up extensive tracts for cultivation. They found last season that it was profitable.

Mr. A. W. Colbaugh has just put out a large orchard of apple, pear and cherry trees and fixed up his ranch until it looks like a farm back in some of the older states.

H. L. Payne and wife, who for some time were residents of the Jicarillas, while Mr. Payne was connected with the American Placer company, are now in El Paso. They will soon start on an extended trip through Old Mexico visiting most of the mining camps, and other places of interest. They have employed Sabino Gonzales as guide and interpreter; and he has already joined them at the city on the border preparatory to making the trip.

Territorial Superintendent, Hiram Hadley has lately issued a circular letter to county superintendents and teachers in which he calls particular attention to the law in regard to teachers attending their county institutes. This law will be rigidly adhered to in future and no excuses will be approved in this county for non attendance except on positive knowledge that the reasons for asking the same are beyond question.

Professor Hadley concludes his letter in this manner:

"The people tax themselves to sustain these institutes for the purpose of giving teachers an opportunity to better prepare themselves for their work, and it is expected that they will avail themselves of this privilege and attend the full time. A teacher who will not attend cheerfully and contribute to the success of the institute should be accorded the privilege of remaining at home during the year.

Section 1613 says that excuses for non attendance must be approved by the territorial board of education. During the coming season I expect all excuses forwarded to this office for approval. My general policy will be to not approve an excuse, unless fully convinced that the individual could not have attended. Further, the attendance must be complete. Attendance a small fraction of the time will not count.

Let us follow the law and execute it. If the law is not right, let us cooperate and get a better one at next legislature.

Supt. of Public Instruction.

NEW MEXICO NEWS SUMMARY

M. E. Green attempted to drive a bull away from a threshing machine at the Harris ranch. He was attacked by the animal, trampled and gored and finally rescued more dead than alive by other men. It is believed he will recover, says a Las Vegas dispatch.

At Las Vegas April 20 five-year-old Sophia R. Marquez was accidentally killed by a rifle bullet fired by Manuel Silva, who in the absence of the parents of the little girl was demonstrating the work of a new gun which had been left standing in the room. The bullet entered the girl's abdomen, passing completely through and killing her almost instantly.

Howard Ringo, at Carlsbad, April 20 pleaded guilty to burglary, forgery, stealing a horse and saddle, and was sentenced to eight years in the penitentiary. Ringo was an expert bicycle rider and machinist and stood well at Carlsbad until he began to gamble. Several weeks ago he escaped from jail by making a leaden key from shavings left by plumbers, but was caught at Pecos, Texas.

On March 29th Sheriff Earnsworth and Deputy Blackman of Silver City brought to the territorial penitentiary at Santa Fe the following prisoners: M. Pena, aged thirty-six, sentenced to one year, charge, carrying and drawing dangerous weapons. Antonio Rippe, aged 33 years, sentenced to one year, assault with intent to kill. Miguel Parin, aged thirty-two years, sentenced to nine months for similar offense. G. W. Hobbess, aged thirty-three years, sentenced to seven months, drawing dangerous weapons.

Articles of incorporation have been filed at Santa Fe for the Santa Fe, Liberal & Englewood Railway Company by Frank E. Johnston, New York, and J. G. Northcutt, A. Watson McHendrie, C. B. Floyd, Jr., and Josephine McKnight, all of Trinidad, Colorado; capital stock, \$6,000,000, of which \$600,000 has been subscribed. The principal office will be at Taton, with John Morrow, principal agent. The western terminus of the road will be at Des Moines, Union county, and the eastern terminus at Englewood, Kansas.

A Roswell dispatch of March 31st says Frank B. Curtis, one of the most popular passenger conductors on the Pecos Valley line, was murdered on his train last night between this city and Portales by E. L. Price, the newsboy on the train. Price was said to have insulted two ladies, and Conductor Curtis censured him. This angered Price and he shot Curtis three times. The conductor died in ten minutes. The murderer was arrested and taken to Roosevelt county for a hearing. Price is from Madisonville, Kentucky. Curtis was an Elk, a member of the Conductors' brotherhood and was married.

On the night of March 30th, in the district east of Taton, known as the Chihuahua, Jose Trujillo was shot and killed and his old father was knocked on the head and it is believed fatally injured by two Arabians, says a Los Vegas dispatch. The Penitentes were holding a meeting and the Arabs applied for admittance. The elder Trujillo was doorkeeper and told them to go away. The hit him over the head, knocking him senseless. His twenty-one-year-old son rushed to pick him up. While he was bending over his father one of the Arabs shot and killed him. The two men were arrested and will be tried at the terms of court now on.

Curtis Murder Case.

A Roswell dispatch of April 2d says: District Court convened to-day at Portales, Judge Pope presiding. The first case for the grand jury is that of E. L. Price, the news agent who shot and killed Passenger Conductor Frank B. Curtis Friday night on a southbound train. All witnesses and attorneys in the case left this morning for Portales.

When the train with the prisoner arrived at Portales there was a large crowd at the station and cries of "Lynch him" were heard. A cowboy rode up and produced his lariat, but the officers pushed through the crowd and quickly made their way to the jail. This demonstration did not in the least affect the prisoner. C. L. Price, a wealthy brother of the prisoner, wired from Madisonville, Ky., that he had left for Portales to assist his brother. Matthew Adkins, a Pullman porter on the train on which the tragedy occurred, was taken from the northbound train at Portales and is held as a witness. T. A. Parker of Goldthwaite, Texas, is also held as a witness.

The remains of Frank B. Curtis are still here. The widow is waiting for her brother, B. Sayre, of Silverton, Colorado, who is at Trinidad on his way here. The remains will be shipped Wednesday to Little Hocking, Ohio.

Boyd Clarke, a traveling salesman of St. Louis, who has known the late Frank B. Curtis for twenty-two years, offers to start a subscription list with \$100 to assist Roosevelt county in the prosecution. Clarke says Curtis has always conducted himself in a gentlemanly manner and was murdered for reprimanding the news agent for insulting female passengers.

Mounted Police Reorganized.

Former United States Deputy Marshal Fred Fornoff of Albuquerque was to-day commissioned captain of the mounted police in this territory by Governor Hagerman, and assumed charge, says a Santa Fe dispatch of April 2d. He began by establishing headquarters in the capitol building at Santa Fe instead of at Socorro, where it was maintained by Capt. J. F. Fullerton, who resigned at the governor's request.

Captain Fornoff began a reorganization of the force at once. He retained Lieutenant Cipriano Baca and Sgt. Robert Lewis. The only new appointment made thus far by Captain Fornoff is R. C. Huber of Santa Fe, commissioned as an officer. The force as it is now organized is as follows: Fred Fornoff, captain; Cipriano Baca, Socorro, lieutenant; R. W. Lewis, Socorro, sergeant; officers, R. C. Huber, Santa Fe; E. R. Stewart, Asteo; Ramon Gomez, Santa Fe; M. S. Arant, Lincoln; W. E. Dudley, Alamogordo.

Assessed Valuations.

Traveling Auditor of the Territory C. V. Safford, who returned to Santa Fe recently from an official trip through counties in the territory, said that there would be an increase in the total assessed valuation of property in New Mexico during the coming year of nearly \$4,000,000. In many counties the assessed valuation of town properties has been raised from 10 to 25 per cent. A number of new settlers and homeseekers who are taking up tracts of farming lands in many counties, aid in swelling the amount. In Union county, Mr. Safford says, the treasury now has \$10,000 on hand, in the general fund outside of all debts. This is enough to run the county a year and a half without additional collections. Other counties are similarly conditioned.

R. J. Putnam, Socorro; J. Myers, Estancia; J. J. Brophy, Lincoln.

Dry Farming Proposition.

J. L. Donahue, president of the Campbell System Dry Farming Association, headquarters at Denver, appeared before the board of trustees of the Las Vegas grant and the Commercial Club April 2d with the proposition for the establishment of a Campbell farm near the city. The board agreed to deed the association a section of land and the club agreed to raise \$2,500 to be loaned to the association to assist in carrying on the work. Hal a million acres of the grant will become highly valuable if the dry farming proves successful. There is an eighteen-inch precipitation yearly and the soil is the best possible for dry farming purposes. There is a lively demand for grant lands and the board entertained two propositions for the purchase of 50,000 acres.

CAPTAIN FULLERTON'S LETTER.

Thinks His Removal by the Governor is Unfair.

Following is, in part, the reply of Capt. John T. Fullerton to Governor Hagerman's letter requesting his resignation as captain of the New Mexico mounted police:

Socorro, N. M., March 26, 1906. To His Excellency, Herbert J. Hagerman, Governor of New Mexico, Santa Fe, N. M.

Sir: Replying to your communication dated March 13, 1906, stating in effect that you were not satisfied with the service of the mounted police, of which I have had the honor of being captain during the past twelve months, and that you intended making a change in the captaincy of said company on the first day of April, in this connection permit me to state that this company was organized less than a year ago; that for the first few months the matter of railroad transportation not being obtainable was a serious handicap to successful administration on account of long distances between points of operation and the extensive area to be covered. This was, however, remedied after a few months and the force equipped and organized for business. It naturally takes some little time for a force of this kind to become thoroughly familiar with conditions and be able to render efficient service. The compensation provided by law is extremely limited and less than the amount provided by other commonwealths for similar service, yet in spite of all these obstacles, I candidly believe that the mounted police have, during the past several months rendered valuable service to the public, and especially have they been of material assistance to the stock interests, namely, sheep, cattle and horses; considerable property has been restored to the rightful owners. Many law-breakers have been apprehended and many important arrests have been effected; much of the business of the mounted police has not been given publicity for the reason that, in the majority of cases, secrecy is absolutely essential to success.

I recognize that you, perhaps, have the power of removal or substitution in my case, if arbitrarily exercised, yet the law creating the office of the captain of the mounted police failed to fix any definite period or term of office, but limited the authority of the executive to sixty days after the passage of the act creating the police force in which to appoint a captain (see section 2, page 3, Laws 1905), the evident intention of the Legislature being that no change of officers was contemplated, and the provision of the law for the enrollment of men being for one year seems to have referred to enlisted men only.

Scenic Highway.

The completion of the Scenic Highway in accordance with an act of the Thirty-sixth Legislative Assembly, should be had this year. On Monday next Superintendent Bursum will take a force of forty convicts on the location of the highway between this city and Monument Rock, a distance of about nine miles. This ought to be completed by the middle of July and thereafter work over the Macho divide to Las Vegas should be promptly and energetically continued. The completion of the Scenic Highway means a great deal for central New Mexico, and as soon as the beautiful mountain section through which it runs is properly advertised by the railroads, thousands and thousands of tourists yearly will visit the Pecos region and the Pecos forest reserve. There should be no lagging and the New Mexican believes that there will be none. The work done last year by the convicts on the project was of the best and there was a good deal of it. During the coming season it is expected the work can be completed and if it can it should be.—Santa Fe New Mexican.

TO ALL WHO GRUMBLE

You that only appear contented When you are grumbling about your lot. Mainly because of a much lamented absence of all that you haven't got. Listen to me, for I bring you healing— If you would scatter those moods away, If you would con me to that injured feeling. Listen to me, I say.

Years ago, for a certain season, I was a pessimist (strange but true). And as a matter of fact, with reason. Not for the fun of the thing, like you; All that I merited, looked for, but on seemed to be doomed to a fatal slump; Mine was the mental complaint which Milton Happily termed the Hump.

Came a night—and of all Decembers That was the vilest—I sat alone, Bitterly smoking before the embers, Mugging my grievance, and making moon.

Out in the open a biting blizzard, Whirling the gravel about like snow, Froze the marrow, and turned the gizzard Inside out, at a blow.

Then I said, this is something childish (Which was a fact), and I crossed the room, Flung up the blind, and with sour disbelief

Gazed for awhile on the rearing gloom; Till, on a sudden, my awe-struck glance Fell on a sentinel's head—'twas sent form, Driven, by pressure of circumstances, Out in that beastly storm.

High on a magazine, bleak and lonely, Nobly he paced his appointed beat. (Rather like Casablanca, only That little horror complained of heat), Deering an enemy's foot to touch on his Windy preserves, he was hurled about, Getting his spine well iced, not to mention his

Gizzard blown inside out, Long I gazed on the gusty fellow; Gazed, till mine uglier moods were spent; Gazed, till my whole soul seemed to melt— Into a chastened and bland content; And, as I blessed him, and drew the curtain,

Leaving him on his wind-swept mound; Life, I remarked, though a bit uncertain, Wasn't so bad, all round.

Grumbler, such is the Grand Idea; Surely the moral is plain to see; When you're in need of a patient, Think of the sentinel—think of me! Turn to Philosophy's consolation; Doubtless the gods may have used you ill; But—by a Merciful Dispensation— Others are worse off still! —London Punch.

SHORT CRY TO COLUMBUS

"Oh, that is a matter of tradition," said the man who had been doubting every statement made in the course of the luncheon, "and a story passes through too many people to be reliable when you get it a couple of hundred years late."

"Tradition!" said another man, "are you aware how few lives it takes to bridge over the centuries? For instance, the discovery of America seems a long time ago, and I suppose traditions concerning Columbus and his crowd you would consider of no reliability; yet, do you know, that only four lives intervene between me and a sailor of Christopher Columbus? Yes, sir, I am in possession of a story told by a sailor of the Santa Maria, which passed through only four people before it got to me, and yet it spanned the centuries from 1492 to the present time. The story was told me by Christopher Harnsworth, who died in 1885, at the age of 95—a clear headed old man with an excellent memory, especially for things he had learned in youth—like most old people.

"Now, Harnsworth was born, of course, in 1790, and when he was a boy 10 years old, in England—that is, in the year 1800—his great-grandfather, then a man of 85, used to take him on his knee and tell the story to him. The great-grandfather, as you will see, must have been born in 1715.

And the great-grandfather used to tell my friend Harnsworth that the Columbus story had been told to him when he was a boy of 9—that is in the year 1724—by an aged great-uncle of his who was nearly a hundred at the time, having been born in 1624. This great-uncle used to tell Harnsworth's great-grandfather that he had first heard the story when he was about 10 years old from the lips of one William Sutcliffe, a retired sailor, who was then in his 98th year, having been born in 1536. Sutcliffe went to sea when he was a boy of 12, shipping as cabin boy in a brig bound for Vigo, Spain, and there he fell in with an old sailor, 72 years of age, one Marco Guzman, who, as a lad of 16, had sailed with Columbus to discover the new world. And Marco, the sailor, told Sutcliffe the story.

"So you see, from the lips of that sailor of the Santa Maria to my ears the story came through only four persons—Sutcliffe, the great-uncle, the great-grandfather and my friend Harnsworth. A few years ago, when Harnsworth was living, he could have said that between him and a sailor of Columbus only three lives intervened. So, you see, after all tradition is a thing not to be lightly disregarded."

"And what was the story?" asked one of the party.

"Oh, I have forgotten just how it went now," said the statistician.

A COLD BROUGHT IT ON.

Severe Congestion of the Kidneys Soon Cured by Doan's Kidney Pills. Richard M. Pearce, a prominent business man of 281 So. Orange St., Newark, N. J., says: "Working nights during bad weather brought on a heavy cold, aching of the limbs and pain in the back and kidneys. Severe congestion of the kidneys followed. Besides the terrific aching there were whirling headaches, and I became exceedingly weak. My doctor could not help me, and I turned to Doan's Kidney Pills, with the result that the kidney congestion disappeared and, with it, all the other symptoms. What is more, the cure has lasted for eight years." Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

HIS FAITHFUL DOG.

Waits Day and Night for His Master.

A brown collie dog which showed considerable intelligence and much devotion to his master was the center of attraction among attaches of the city hall yesterday, says the Denver Republican, and when its story became known the faithful animal held a veritable reception at the entrance to Mayor Speer's office.

L. R. Johnson paid a visit to the jail at the city hall on Tuesday on a matter of business, accompanied by his dog, and later went up to the first floor of the city hall to call on one of the taxassessors. The dog studied himself with satisfying his curiosity concerning the sights to be seen at the seat of the city government, and in the flurry of the moment lost track of his master, who had in the meantime departed, thinking his pet had gone into the street.

All day long the dog stood at the spot where he had last seen his master, but no one paid any attention to him. The porters and janitors and elevator man coaxed him and cajoled him to leave the building at night, but the canine refused to budge and there he stood all night.

He frisked his tail and looked with friendly eyes on Colonel John S. Irby, the mayor's secretary, yesterday morning, when the latter came to "work," but preferred to stay out in the corridor when invited into the sanctum.

All day long he wistfully watched the front door, looking for the reappearance of Mr. Johnson. "No one paid much attention to him until the elevator operator began telling how the dog refused to move from the place where he alternately lay down and paced slowly back and forth. Finally somebody got the dog something to eat and drink. Neither would the animal touch.

About 4 o'clock in the afternoon callers in Mayor Speer's office and nearby city employes heard a glad-some chorus of barks and yelps and saw a dog shoot like a streak toward the front doors of the hall. L. R. Johnson had come back for his dog.

The Coffee Debate.

The published statements of a number of coffee importers and roasters indicate a "waspy" feeling towards us for daring to say that coffee is harmful to a percentage of the people.

A frank public discussion of the subject is quite agreeable to us and can certainly do no harm; on the contrary when all the facts on both sides of any question are spread before the people they can thereupon decide and act intelligently.

Give the people plain facts and they will take care of themselves.

We demand facts in this coffee discussion and propose to see that the facts are brought clearly before the people.

A number of coffee importers and roasters have joined a movement to boom coffee and stop the use of Postum Food Coffee and in their newspaper statements undertake to deceive by false assertions.

Their first is that coffee is not harmful.

We assert that one in every three coffee users has some form of incipient or chronic disease; realize for one moment what a terrible menace to a nation of civilized people, when one kind of beverage cripples the energies and health of one-third the people who use it.

We make the assertion advisedly and suggest that the reader secure his own proof by personal inquiry among coffee users.

Ask your coffee drinking friends if they keep free from any sort of aches and ails. You will be startled at the percentage and will very naturally seek to place the cause of disorder on something aside from coffee, whether food, inherited tendencies or something else.

Go deeper in your search for facts. If your friend admits occasional neuralgia, rheumatism, heart weakness, stomach or bowel trouble, kidney complaint, weak eyes or approaching nervous prostration induce him or her to make the experiment of leaving off coffee for 10 days and using Postum Food Coffee, and observe the result. It will startle you and give your friend something to think of. Of course, if the person is one of the weak ones

and says "I can't quit" you will have discovered one of the slaves of the coffee importer. Treat such kindly, for they seem absolutely powerless to stop the gradual but sure destruction of body and health.

Nature has a way of destroying a part of the people to make room for the stronger. It is the old law of "the survival of the fittest" at work, and the victims are many.

We repeat the assertion that coffee does harm many people, not all, but an army large enough to appal the investigator and searcher for facts.

The next pervarication of the coffee importers and roasters is their statement that Postum Food Coffee is made of roasted peas, beans or corn, and mixed with a low grade of coffee and that it contains no nourishment.

We have previously offered to wager \$100,000.00 with them that their statements are absolutely false.

They have not accepted our wager and they will not.

We will gladly make a present of \$25,000.00 to any roaster or importer of old-fashioned coffee who will accept that wager.

Free inspection of our factories and methods is made by thousands of people each month and the coffee importers themselves are cordially invited. Both Postum and Grape-Nuts are absolutely pure and made exactly as stated.

The formula of Postum and the analysis made by one of the foremost chemists of Boston has been printed on every package for many years and is absolutely accurate.

Now as to the food value of Postum. It contains the parts of the wheat berry which carry the elemental salts, such as lime, iron, potash, silica, etc., used by the life forces to rebuild the cellular tissue, and this is particularly true of the phosphate of potash, also found in Grape-Nuts, which combines in the human body with albumen and this combination, together with water, rebuilds the worn-out gray matter in the delicate nerve centers all over the body and throughout the brain and solar plexus.

Ordinary coffee stimulates in an unnatural way, but with many people it slowly and surely destroys and does not rebuild this gray substance so vitally important to the well being of every human being.

These are eternal facts, proven, well authenticated and known to every properly educated physician, chemist and food expert.

Please remember we never say ordinary coffee hurts everyone.

Some people use it regularly and seem strong enough to withstand its attacks, but there is misery and disease in store for the man or woman who persists in its use when nature protests, by heart weakness, stomach and bowel troubles, kidney disease, weak eyes or general nervous prostration. The remedy is obvious. The drug caffeine, contained in all ordinary coffee, must be discontinued absolutely or the disease will continue in spite of any medicine and will grow worse.

It is easy to leave off the old-fashioned coffee by adopting Postum Food Coffee, for in it one finds a pleasing hot breakfast or dinner beverage that has the deep seal brown color, changing to a rich golden brown when good cream is added. When boiled long enough (15 minutes) the flavor is not that of rank Rio coffee but very like the milder, smooth and high-grade Java, but entirely lacking the drug effect of ordinary coffee.

Anyone suffering from disorders set up by coffee drinking (and there is an extensive variety) can absolutely depend upon some measure of relief by quitting coffee and using Postum Food Coffee.

If the disease has not become too strongly rooted, one can with good reason expect it to disappear entirely in a reasonable time after the active cause of the trouble is removed and the cellular tissue has time to naturally rebuild with the elements furnished by Postum and good food.

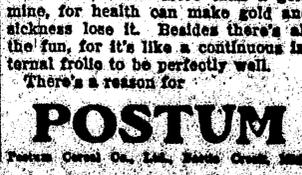

It's only just plain old common sense.

Now, with the exact facts before the reader, he or she can decide the wise course, looking to health and the power to do things.

If you have any doubt as to the cause of any ache or all you may have, remember the far-reaching telegrams of a hurt nervous system travel from heel to head, and it may be well worth your while to make the experiment of leaving off coffee entirely for ten days and using Postum in its place.

You will probably gather some good solid facts, worth more than a gold mine, for health can make gold and sickness lose it. Besides there's all the fun, for it's like a continuous internal frolic to be perfectly well.

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately connected to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or the "Vie's dance," and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and pleasant qualities.

Your druggist sells the "Favorite Prescription" and also that famous alternative, blood purifier and stomach tonic, the "Golden Medical Discovery." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as a confidential and without charge for correspondence. Address him at Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

"COFFEE JAGS." The Doctor Named Them Correctly. Some one said "Coffee never hurts any one." Enquire of your friends and note their experiences.

"Coffee agreed well enough for a time, but for a number of years I have known that it was doing me great harm, but, like the rum toper, I thought I could not get along without it. It made me nervous, disordered my digestion, destroyed my sleep and brought on frequent and very distressing headaches.

"When I got what the doctor called a 'coffee jag' on, I would give up drinking it for a few days till my stomach regained a little strength, but I was always fretful and worried and nervous till I was able to resume the use of the drug.

"About a year ago I was persuaded to try Postum, but as I got it in restaurants it was nothing but a sloppy mess, sometimes cold, and always weak, and of course I didn't like it. Finally I prepared some myself, at home, following the directions carefully, and found it delicious. I persevered in its use, quitting the old coffee entirely, and feeling better and better each day, till I found at last, to my great joy, that my ailments had all disappeared and my longing for coffee had come to an end.

"I have heretofore suffered intensely from utter exhaustion, besides the other ailments and troubles, but this summer, using Postum, I have felt fine." Name given by Postum Co., Battle Creek, Mich. There's a reason. Restaurant cooks rarely prepare Postum Coffee properly. They do not let it boil long enough.

A CURE FOR DEBILITY

Dr. Williams' Pink Pills A Reliable Remedy for the Weak, Ailing and Bloodless.

When the body is weak and the blood thin it is sometimes difficult to find the cause unless a wasting illness has preceded, or the sufferer happens to be a girl on the verge of womanhood.

Obscure influences, something unhealthful in one's surroundings or work, may lead to a slow impoverishment of the blood and an enfeeblement of the whole body. When a serious stage has been reached there seems to be nothing that will account for it.

Mr. O. E. Legg, of Tipton, W. Va., has found a successful method of treating weakness and bloodlessness. He says: "I used Dr. Williams' Pink Pills for weakness caused by a lingering malarial fever that began in the spring of 1895. The worst effects of this were indigestion and a bad state of my blood. I was unable, as the doctors say, to get blood enough, or that I didn't have the right kind of blood; mine was too thin. My kidneys and liver were out of order. I was badly annoyed by sour risings from my stomach. There was a good deal of pain, too, in my back and under my right shoulder blade."

"How long did these troubles last?" "For over two years. For four months of that time I was under the care of a physician, but his medicine did me no good. Meanwhile I learned of the cures that had been wrought by Dr. Williams' Pink Pills."

"You owe your cure to these pills?" "I certainly do, and I also know that they are helping others to whom I have recommended them. They have real merit and I know of nothing that would take their place."

TERRIBLE SCALP HUMOR.

Badly Affected With Sores and Crusts—Extended Down Behind the Ears—Another Cure by Cuticura.

"About ten years ago my scalp became badly affected with sores and itching humors, crusts, etc., and extended down behind the ears. My hair came out in places, also. I was greatly troubled; understood it was eczema. Tried various remedies so called, without effect. Saw your Cuticura advertisement, and got the Cuticura Remedies at once. Applied them as to directions, etc., and after two weeks I think, of use, was clear as a whistle. I have to state also that late last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skillful treatment of my doctor, combined with Cuticura Soap and Cuticura Ointment, I found myself cured. H. M. F. Wells, Rosemond, Christian Co., Ill., Aug. 31, 1905."

HOW ANIMALS PLAY.

They Are as Sportive as the Children of Men. The sense of humor in animals awakens very early. A ferret will play with her kittens, a cat with her dog with her puppies. A mare will play with her foal, though perhaps seldom or never has any one seen a cow trying to amuse her calf nor any birds their young. If their mothers do not amuse them the young ones invent games of their own.

A flock of ewes and lambs was once observed in adjoining fields, separated by a fence with several gaps in it. "Follow my leader" was the game most in favor with this flock, the biggest lamb leading around the field and then jumping the gap, with all the others following in single file; any lamb that took the leap unusually well would give two or three more enthusiastic jumps or exuberant happiness when it reached the other side.

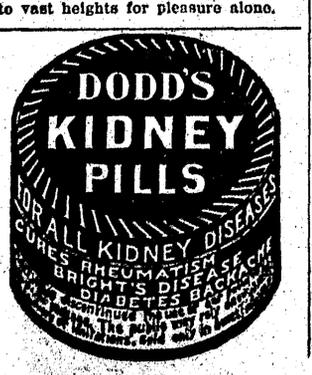

Pawns play a sort of cross touch from one side to the other, the "touch" in each case being by the nose. Little pigs are also great at combined play, which generally takes the form of races. Emulation seems to form part of their amusement, for their races always seem to have the winning of the first place for their object, and are quite different from those combined rushes for food or causeless stampedes in which little pigs are wont to indulge.

Racing is an amusement natural to some animals, and being soon taught by others, becomes one of the most exciting pastimes. Many horses and all racing dogs learn to be as keen at winning as schoolboys.

Birds delight in the free and fanciful use of their wings. There is all the difference possible between the flight of birds for "business" and pleasure, and many kinds on fine days will soar to vast heights for pleasure alone.

Where Life is Held Cheap.

A New York contractor of prominence, according to Josiah Strong, recently told him that the killing of working men was cheaper than protecting them. The statement created a stir when made by Dr. Strong, who is president of the American Institute of Social Service, at the municipal art dinner.

"Nine men are killed every day in New York," he continued, "in accidents which are for the most part avoidable. Our city is becoming a veritable human shambles." Coal mines and railroads, he said, were slaughter houses for the laboring men. Last year there were 2,500 accidents to laboring men that the public knew nothing about.

The internal revenue commissioner has decided that Per-na as now manufactured is exempt from internal revenue license.

The highest medical and pharmaceutical authorities in the United States have passed upon the product. It must be highly gratifying to the many friends of Per-na and the local commercial world that the product which has carried Columbus' name into all continents, again enjoys the same fixed status as any other recognized medicine.—Columbus' Dispatch.

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures made by Lydia E. Finckham's Vegetable Compound.

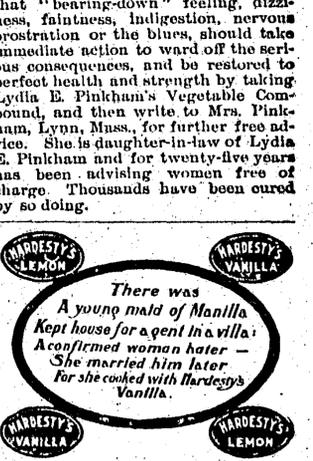

How many women realize that it is not the plan of nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Finckham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Miss Irene Crosby, of 313 Charlton Street, East Savannah, Ga., writes: "Lydia E. Finckham's Vegetable Compound is a true friend to women. It has been of great benefit to me, curing me of irregular and painful periods when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Finckham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Finckham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

New Mexico Department G. A. R.  
is called for May 24 and 31 at  
Las Cruces. James Tanner,  
Commander in chief will be pres-

soldiers is expected. Military  
parades, campfires and business

ly about the state of the weather.  
It is presumed that the next ship-  
ment of coal oil will have some  
slight attention aside from fixing

Two new industries have start-  
ed up in the central part of Lin-

the leasing of land under the so-  
called forest reserve by a certain  
class of our citizens, and the other  
is, the removal of a much larger  
number from under the shade  
of the reserve blanket, be-  
cause they find it of less expense  
and inconvenience to abandon  
their homes entirely than to herd  
their small bunches of stock on  
their own homesteads, or pay the  
government price for allowing  
them to run on the public domain,  
which has always been free to  
first settlers, from the founda-  
tion of the government up to the

ploye of the Agricultural Depart-  
ment.

## AN ANCIENT MATTER.

Our ancient and more or less  
esteemed contemporary, the Cap-  
itan News, in attempting to set  
itself right before the people of  
the county, in its last issue, in  
regard to the county printing  
makes the truthful assertion  
that the contract under which  
it is doing the work was let be-  
fore this paper was born.

THE OUTLOOK being a very  
healthy, and withal a very rea-  
sonable infant, is perfectly willing  
to admit that this job is "ancient  
history"—so ancient, in fact, that  
it smells to heaven and the odor  
of it is an offense to the nostrils  
even down to the present day.  
What is more, the News man  
claims to have inherited it from  
the defunct Eagle printing com-  
pany.

Let us all be charitable and  
allow that he did, seeing the hard

of county commissioners becomes  
a new board every two years and  
cannot let a legal contract for a  
longer period than its own life,  
thus rendering this printing con-  
tract valid only through inheri-  
tance.

Let me THE OUTLOOK, at the  
time of the last reorganization of  
the board put in a proposal to do  
the county printing at a much  
lower figure than it is now being  
done for, but got most unceremon-  
iously turned down just as it  
expected to be, as its politics is  
not of the peculiar brand, as is  
that of the majority of the board,  
and it has since been taking the  
matter very serenely. If the  
people of Lincoln county wish to  
pay for their politics as expressed  
by their board of county commis-  
sioners what right has THE OUT-  
LOOK to complain?

It is presumed the people are  
getting what they pay for. It is  
merely another case of, "You throw  
rocks at our pup. Now you can't  
come and slide on our collar door."

## THE ROCK ISLAND AND THE DEVELOPMENT OF THE SOUTHWEST.

(Published in the Herald of Mar. 25th.)  
The three groups of railroads  
representing the Northwest, the  
South east and the Southwest are  
engaged on a three cornered war  
over homeseekers' excursions.

Final was added to the flames  
yesterday by a proposition which  
the Rock Island submitted to  
make homeseekers' rates effec-  
tive to the Southwest territory  
every Tuesday in the month.  
The plan is negatived by the  
Western Passenger association  
lines, independent action will be  
taken by the Rock Island. John  
Sebastian, speaking for the latter  
road yesterday, said:

"The Rock Island and Frisco  
systems stand badly for the de-  
velopment of the Southwest, into  
which territory a heavy immigra-  
tion has been induced by spend-  
ing a large amount of money and  
by a liberality which has had  
injurious results in the way of  
colonizing. We believe the loca-  
tion of settlers is vastly more im-  
portant than the loss of a few  
dollars through the manipulation  
of cheap rate tickets. The lines I  
represent have no objection to  
any basis of homeseekers' rates  
which may be inaugurated into  
other territories, but so far as the  
Southwest is concerned we shall  
insist upon protecting the terri-  
tory by as liberal inducements as  
are offered by the lines in any  
other territory.

The trouble which has grown  
serious, had its origin several  
years ago when the Rock Island  
and other lines began to put in  
low rates in the interest of develop-  
ing the S. W. For years the west-  
ern roads had accepted tenders  
of low rates made by the south-  
eastern roads with a view to col-  
onizing the South and Southeast.  
When the western lines tendered  
low rates in the interest of their  
territory the southeastern roads  
demurred and have ever since  
been calling for a conference.

Such a conference was held in  
St. Louis last week, at which the  
southeastern interests asked the  
southwestern roads to take out  
their low rates, applying from  
Memphis territory. Objection  
was especially made to the round  
trip rate of 75 per cent of the one  
way fare which is put into effect  
during the fall months. All  
roads except the Rock Island ex-  
pressed a willingness to raise the  
rates.

In the meantime the north-  
western lines had given notice that  
they would run homeseekers' ex-  
cursions every Tuesday in the  
month instead of every third  
Tuesday, and the Rock Island  
declared it would not permit the  
Southwest to be sidetracked for  
any other territory. It is rum-  
ored the Rock Island's next  
move will be to extend its cheap  
rates to the Birmingham terri-  
tory, which it has refrained from  
doing hitherto in consideration  
of the southeastern situation.
