

**LOCAL ROUNDUPS.**

Watson, Hoyle and Cray are developing a claim up near the Little Mack.

Moth Bags and paper. TALIAFERRO'S.

Miss Nettie Lee came in Tuesday from up countryward and reports a jolly good time with friends up there.

Mrs. Clori, who is stopping at Hotel Ozanne, has been quite ill for the past few days, but fortunately is now on the mend.

H. C. Creamery Butter, none better. TALIAFERRO'S.

Frank Goff is up from the Coghlan ranch for a few days to keep from being weaned entirely from his old haunts.

Elmer Lindsey came up from Jarilla one day last week and went down to Lincoln later a witness in District Court.

Miss Ruth Tompkins, one of the Outlook force, returned from a short visit with relatives and friends in Santa Rosa, Sunday.

Will Doering, the Nogal merchant is now with the Carrizozo Mercantile Company at that thriving town on the railroad.

C. H. Browning and Chas. McMasters are conducting the Nogal Mercantile store during the absence of treasurer Canning at the county seat.

Postmaster John A. Brown had so far recovered as to appear on our streets Tuesday, the first time in many weeks.

We have taken more orders for Tailor made clothing this spring than ever before. It proves fit and quality, and the prices are right.

TALIAFERRO'S.

Mr. Chapman will occupy the Watson cottage on the south side for the summer. Arrangements for resuming work on the oil well are still under way.

Mrs. Wachoupe and three grand children are here from El Paso visiting her daughter Mrs. Chas. D. Mayer, and will remain for some time.

With the present style of button hole "bokays" it only takes about three girls to make a whole rose-bud garden of the dear creatures. They wear the whole bush, thorns and all.

Mrs. Ed Tompkins and that wonderful baby came down from Santa Rosa a few days ago and is stopping with relatives here. The family will move back to Alamogordo in a short time.

Mrs. Lee H. Radcliffe left on the early train Wednesday morning for Muscatine, Iowa, for a two month's visit among relatives and friends in that state and Oklahoma. A married woman, even the wives of newspaper men, always flatter themselves that they manage their husbands. If the readers of the Outlook, during this interim should detect anything erratic or wobbly about the course of this paper, just lay it to the absence of the management, please.

Back and Berry have lately been brought in off the range looking fat, fine and frisky and can be found at almost any time of the day around Dr. Eaden's drug store. For further particulars ask Gus or John.

A private letter from Tucumcari conveys the sad intelligence that Mrs. Stephenson is quite ill and that Miss Covington has been compelled to abandon her visit home this summer in order to care for her sister.

Loco weed is getting to be a menace to the ranges in many sections of this county. Can't some one contrive a plan to manufacture it into some sort of gun cotton that will knock the other fellows plumb crazy or simple?

Memorial day will be properly observed in White Oaks this year as usual, with good music and other appropriate exercises, at the Congregational church in the evening, following the decoration of graves, which will occur in the forenoon. An outline will be published next week.

Harry Gallacher had the misfortune to be stung on the lip by some postiverous insect while asleep, and his mouth for the past few days has taken on a sort of dormer window appearance with the curtains drawn down. At least it is not just the kind a fellow would want to take with him Sunday evenings when he goes out to call on his best girl. However this is not supposed to be the work of the kissing bug.

Now that the juries have all been impaneled and no probability of a special venire this term of court, some of our citizens who insist that ducks always hug the shore more closely this time of the year and that the trout pools need cleaning out, or the spring lamb crop needs their personal care, are slipping back to town in a quiet way and assuming their usual avocations.

While R. D. Armstrong was driving out in the country the other day, a large cedar tree swooped down upon his buggy and attempted to take it in. Of course R. D. fought the thing off but after the fracas that buggy top looked something like a posy garden after the hens have been turned in. As this is the second wreck that rig has been in he has about come to the conclusion it must have been put up at a hoodoo shop.

White Oaks has by far the most eligible sites for an irrigation scheme in this whole region of country. A dam thrown across between the high bluffs near the mouth of the canyon would store an immense body of water. The artificial section of this dam would be less than 200 feet in extent and would rest on a solid rock bottom. The water shed from which the supply would be drawn would be many miles in area and comprise the north side of Carizo, the west side of Patos, to the top of the divide, and the east sides of Lone and Baxter mountains together with the whole amphitheater thus inclosed, all of which produces an large flood annually to supply a reservoir. The country below is practically limitless and no better farming land can be found in the territory. Let us start this dam project and keep it moving. The scheme is a much more practical one than trying to cough up a tuberculous sanitarium.

**LINCOLN COUNTY TEACHER'S INSTITUTE.**

The Lincoln County Teacher's Institute will be held in White Oaks, beginning July 23rd and continuing two weeks with President Edmund J. Vert, of New Mexico Normal University, as conductor. Prof. Rora Brown, of Alamogordo, will instruct in the intermediate branches and Miss Carrie Covington will have a class of young pupils and the actual method of primary teaching will be illustrated by her.

Special attention will be given throughout the institute, to the correct use of the course of study adopted for New Mexico Rural schools by the Territorial Board of Education. Copies of these courses of study will be in the county superintendent's office a short time before the opening of the institute.

President Vert is one of the most practical and enthusiastic educators in New Mexico and will be sure to make the coming institute one of the most interesting and instructive ever held in Lincoln county.

Quite a number of teachers from outside the county have signified their intention of attending the institute here, which will make it all the more profitable by an exchange of ideas. In a late circular letter from Superintendent Hadley, he has this to say among other things:

"The people tax themselves to sustain these institutes for the purpose of giving teachers an opportunity to better prepare for their work, and it is expected that they will avail themselves of this privilege and attend the full time. A teacher who will not attend cheerfully and contribute to the success of the institute should be accorded the privilege of remaining at home during the year.

Section 1613 says that excuses for non-attendance must be approved by the Territorial Board of Education. This board has delegated that power to the Superintendent of Public Instruction. During the coming year I expect all excuses forwarded to this office for approval. My general policy will be not to approve any excuse unless fully convinced that the individual could not have attended. Further, the attendance must be complete. Attendance a small fraction of the time will not count."

Accommodations are better and terms are lower here than can be procured elsewhere in the county which is considered sufficient reason for holding the session at White Oaks.

Rooms with board can be had at the hotel for \$1.00 per day. Meals only, 25c each. Rooms outside the hotel can be had at very low rates for the term, also good accommodations for those who wish to do light housekeeping. Those who wish to secure lodging at the hotel should write Mrs. A. M. Brothers, proprietor. All others should address the county superintendent stating just what they desire, in the way of accommodations, and their wants will be promptly looked after.

Lee H. Radcliffe, Sup't of Schools.

It appears to be current news on the street that Arthur P. Green and S. C. Wiegner have merged themselves into a development company and have secured the contract to sink the Old Abe 210 further, which will put it down to the 1500 foot level. It is said work will begin in about ten days.

*Who's your Tailor?*

The most skillful cutters and tailors are to be found in the metropolitan cities.

This is one of the many reasons why we can give better values than the local tailor can—at a little more than half his price.

You'll appreciate what the *easy feel* is in one of our suits.

We'll show you an assortment of 500 styles of wools to select from.

Made to your measure—taken by us.

Judicial Repression.

Just why, in a country in which the vast majority of judges are elected by popular vote, there should be expressed in law such a superstitious terror lest a judge should give any expression of his own personality is puzzling in the extreme.

Defects of Criminal Law.

There are two reasons why criminal law reform is a pressing problem today. One is the repression by that reform of lynch law. The other is not less important. We need that reform.

Intellect in Sex.

The common impression that the average man is superior to the average woman intellectually at least in originality, inventiveness, reasoning power and the like is beyond doubt due to the common habit of judging each sex by its most superior representatives.

Decently dressed always and cheerful in manner, John S. Robinson, of San Francisco, veteran of the Mexican war and formerly a millionaire, allowed none of his friends to know for two years that he was living on his pension of \$13 a month and had no other resources.

Andrew D. White, ambassador, educator and author, declares: "Simply as a matter of fact the United States are, among all civilized nations of the world, the country in which the crime of murder is most frequently committed and least frequently punished."

A Pennsylvania man found a Kansas girl's name on an egg, made a scramble for her and is now in the matrimonial yolk. Egregiously, he says, it's a shell game, and nothing to cry over.

NEWS OF THE WEEK

Most Important Happenings of the Past Seven Days.

Interesting Items Gathered from All Parts of the World Condensed into Small Space for the Benefit of Our Readers.

San Francisco Earthquake. San Francisco proposes to ask the government to guarantee an issue of \$200,000,000 of municipal bonds for the purpose of rebuilding the devastated city.

President Benjamin Ide Wheeler is authority for the statement that the University of California is loser to the extent of \$1,500,000 by the recent earthquake.

Of 500 vaults recently opened in San Francisco the contents of 40 per cent of them were found to have been destroyed.

Fire recently entirely destroyed the laundry of the general hospital at the Presidio, San Francisco. By hard work the hospital buildings were saved.

Gen. Greeley has notified the war department that San Francisco has only ten days rations on hand. Further contributions from the country at large will be necessary.

Auditor Horton, of San Francisco, estimates that the expenditures for the coming fiscal year will amount to \$8,648,400.

Close estimates which have recently been compiled show that the actual property loss in San Francisco will approximate \$350,000,000.

The property loss at Santa Rosa, Cal., by the recent earthquake is officially reported at \$3,000,000.

The San Francisco clearing house reports that the business interests of the city will be able to rebuild the burned section without the aid of charity or untried methods of finance.

Miscellaneous.

The governor general of Ekaterinoblav has been assassinated by six unknown persons who fired volleys from revolvers at him and escaped.

The so-called "fundamental laws" recently announced in Russia and which it was thought had been withdrawn in the interests of peace have been published and made the permanent laws or constitution revokable only by the emperor's decree, thus greatly curtailing the power of the newly elected parliament.

Russia has decided in favor of the big ship policy and is planning the construction of a battleship of 18,500 tons.

A special grand jury has been empaneled in New York to investigate insurance matters and especially campaign contributions.

The case against H. M. Snyder, a Kansas City promoter, charged with bribery at St. Louis has been dismissed on account of the absence of the prosecuting witness.

Daniel O'Day, president of the Northwestern Oil & Natural Gas company, has joined the list of Standard Oil sick men, having succumbed to the strain of overwork. His physicians have ordered him to take a long rest.

The court of inquiry which investigated the fire on the battleship Kearsarge has reported the accident unavoidable and holds no one responsible.

The American Reserve Bond company, which has been thrown into the hands of a receiver, is estimated will pay back to its investors between 35 and 50 per cent.

The Olympic games at Athens were closed by the presentation of the prizes personally by King George to the successful contestants. The day ended with a dinner given to the winners and invited guests by the King.

Henry G. Goll, ex-cashier of the First National bank of Milwaukee Wis., who was indicted for misapplying funds, has been sentenced to ten years at Fort Leavenworth prison.

The Traders' insurance company of Chicago, one of the largest fire insurance companies in the west, has been placed in the hands of a receiver as the result of its heavy losses in San Francisco.

Another war cloud has arisen between Colombia and Venezuela as the result of the refusal of Vice President Gomez to receive Dr. Herrera, the Colombian minister.

The German steamship Soerabaya, a Russian blockade runner, which had been missing for a year and six months, has been found near Nicolaevalk, twenty-five miles up the Amur river. The vessel was encased in ice and the crew had been frozen to death.

Documents seized by the Paris police show that the Bonapartists contributed funds to help the recent labor demonstrations.

Eight men were recently taken unconscious from the McAduo tunnel under the Hudson river at New York, as the result of an explosion of gas.

A receiver has been appointed for the American Reserve Bond company of Chicago.

England has issued an ultimatum to Turkey demanding the complete withdrawal of troops from Egyptian territory.

The Chicago city hall has been condemned as unsafe and dangerous to the occupants.

The Isthmian canal commission has decided to ask for an appropriation of \$28,348,581 to continue the construction of the canal during the fiscal year ending June 30, 1907.

The appellate division of the supreme court of New York has decided that the officers and directors of the Equitable Insurance company must account to the policy holders for the funds wasted in recent years.

The federal grand jury at New York has returned indictments against the sugar trust and several eastern railroads on the charge of giving and accepting rebates on freight shipments.

A strike of the union cigar-makers of Boston has been declared. It is estimated that 1,200 men went out.

Walter Wellman has received the consent of Norway to the establishment of a wireless telegraph station at Hammerfest, in connection with his polar expedition.

It is announced that the United Pacific interests proposed to build a line from Topoka, Kan., to Denison, Tex., to create an outlet for that system direct to the gulf.

On the advice of President John Mitchell, the miners convention at Scranton, Pa., voted to accept the proposition of the operators and thus end the coal strike in the anthracite regions.

Bishop Jolly, head of the Mormon Settlement in Big Horn county, Wyo., has been arrested on the charge of sustaining polygamous relations with two wives.

Ten persons were killed and 25 injured in a collision on the Pennsylvania railroad near Atona, Pa. Two express trains came together while running at full speed.

John R. Walsh, former president of the defunct Chicago National bank has been held to the federal grand jury in bonds of \$50,000.

The international cotton conference at Washington adjourned after denouncing the reports of the agricultural department. No satisfactory scheme of remedy was, however, suggested.

The Kansas republican convention at Topeka recently held renominated Gov. Hoch for a second term by acclamation. The action of the convention was entirely harmonious and the ticket nominated is conceded to be a strong one.

In a recent interview Corporal Tanner, commander-in-chief of the G. A. R., stated that according to statistics compiled by himself the old veterans were dying at the rate of 5,000 a month.

In the Olympic games at Athens the Americans took 11 firsts, six seconds and five thirds out of 29 events.

Gov. Pardee has sent a petition to congress asking that the government pay the various claims of California now pending aggregating \$6,000,000.

Congressional.

President Roosevelt has sent to congress the report of the international waterways commission on the preservation of Niagara Falls.

Semi-official announcement is made that the senate committee will report adversely on Senator Newland's proposition to make a government loan to San Francisco.

The senate committee on privileges and elections has agreed to vote on the Smoot case on May 18.

An agreement has been reached by the senate on a court review amendment to the railroad rate bill. The amendment as agreed upon is satisfactory to the president. The early passage of the measure seems assured.

In a special message to congress President Roosevelt transmitted the report of Commissioner of Corporations Garfield regarding the relations of the oil industry to the railroads. The commissioner finds that the Standard Oil company profited to a large extent by secret rates and rebates.

In a recent speech in the senate Mr. Tillman of South Carolina made a vigorous attack on the federal judiciary, declaring that congress should 'clip their wings.'

Personal.

The London Daily Telegraph's St. Petersburg correspondent says it is reported that Count Witte may be appointed Russian ambassador to Paris.

Spencer Cannon's 70th birthday was made the occasion of a notable reception in his honor at Washington.

Eugene N. Foss of Boston, vice president of the Reciprocity League is in Berlin studying reciprocity with the German standpoint.

Mark Twain is ill in New York with an attack of bronchitis.

Sonator Allison is much improved from his recent illness and is attending the session of the senate.

The new American minister, John Biddle, has presented his credentials to King Peter of Serbia.

William F. Owen, an old time Shakespearean actor and a contemporary of Booth, McCullough and Forrest, died recently in New York aged 60 years.

Gen. Benjamin F. Hawkes, a veteran of the Mexican, Civil and Seminole wars, and one of the founders of the G. A. R., is dead in Washington aged 83 years.

King Victor Emmanuel gave a dinner in honor of the delegates to the international postal congress.

Senator Beveridge of Indiana has accepted the invitation to speak at the annual banquet of the American colony in Paris July 4.

It is officially announced that Maxim Gorky will be prosecuted again on a charge of fomenting an anti-Russian and revolutionary movement abroad.

NEW MEXICO NEWS SUMMARY

A plentiful supply of water was struck on the Campbell dry farm, near Las Vegas, at a depth of fifteen feet.

Frost last week killed apricots, nectarines, sweet cherries and Jap plums in nearly every orchard in the Espanola valley.

The Eden Canal Company, with headquarters at Aztec, states it will put its project through. The new canal will cover about 20,000 acres of fine land along the Animas river.

Governor Hagerman has appointed A. E. Temke, a lawyer of Deming, superintendent of schools of Luna county, in place of U. F. Duff, killed in a duel at Deming a few days ago.

The trial of Chester L. Tallmadge, B. H. Tallmadge, E. R. Tallmadge, Carl C. Young and John H. McGinstry on the charge of land fraud will not come up at the present term of the United States court at Roswell.

A. B. Renehan et al. have brought suit in the District Court at Santa Fe against Territorial Irrigation Engineer D. M. White for \$5,000 damages for unlawfully entering upon a tract of land in Santa Fe.

Capt. Fred P. Norforn of the New Mexico rangers announces that in the arrest, after a month's chase, of John Fife and Tom Darlington, near Ende, by Mounted Policeman Putnam, the boldest gang of rustlers in eastern New Mexico has been broken up.

After the exchange of hot words on the streets of Roswell late Saturday night, Grovener Clark, son of General Clarkson, who is there investigating alleged land frauds, as the special agent of the Interior Department, was badly beaten by William Overstreet.

Milton Mason has been arrested near Portales on the charge of cattle stealing. Mason is the third member of a bold gang operating in eastern New Mexico who has been arrested, and the rangers have information which will lead to the capture of the others. The gang makes its headquarters along the New Mexico-Texas line.

Cattle shipments from Grant and Luna counties have already commenced and the shipments from the entire territory will reach a very high number. The demand for feeding purposes for New Mexico cattle is not only from the western and northwestern states, but is also now from Arizona and California, and is increasing steadily.

While dynamiting stumps in the garden patch of the Pecos Copper Company at Cowles, twenty miles north-east of Santa Fe, Frank Wheeler, who had charge of the blasting, was fatally injured and Thomas Dougherty and C. Rotterman were terribly hurt. Four other men standing beside them escaped comparatively unhurt. It is expected that the injured men will recover.

The United States Indian Industrial school at Santa Fe held its commencement May 2d, there being five graduates. Governor Hagerman presented diplomas and made an address. Addresses were also made by Attorney General G. W. Pritchard; Superintendent of Public Instruction Hiram Hadley and Supt. C. J. Crandall. The 350 pupils of the school attended the exercises.

Gov. H. J. Hagerman on the 3d inst. appointed J. W. Collier of Silver City and R. W. Birch of Las Cruces, members of the New Mexico mounted police, to be stationed in the southern part of the territory. He also appointed R. E. Twichell of Las Vegas as delegate to the dry farming convention at Las Vegas. Superintendent Treford of the penitentiary has appointed T. Breen, a rough rider, assistant cellhouse keeper; M. Ortego, gardener, and P. Archuleta, guard.

Carlbad, by a vote of 152 to 47, at a special election, decided to grant a franchise to the Public Utilities Company, which will furnish water for domestic and irrigation purposes. The company promises to give the town a fire pressure of sixty pounds to the inch and will take over the present system, remodel it and extend the water mains in every direction. The water is to be obtained from an old well on Greene's Heights. Pumps will be installed at once and standpipes erected.

The completion of the Canon road to its connection with the Scenic Highway on the Dalton divide, or rather as a part of this Scenic Highway, will give Santa Fe a drawing card that ought to capture ninety per cent. of the tourist travel that passes Lamy on its way to California. All that is needed is judicious advertising of the fact that the Scenic Highway alone is worth a transcontinental trip and that it is only one of the features for sight-seers that Santa Fe has to offer.—Santa Fe New Mexican.

At a mass meeting held at the court house in Santa Fe May 1st, it was decided to build a direct wagon road from Santa Fe to the 20,000 caves and cliff dwellings in the Pajarito parks, twenty miles northwest of Santa Fe. Prof. Edgar L. Hewett of the Smithsonian institute, Frank Dibert, A. B. Raycroft, Dr. W. E. Carrison, Professor Butler, H. H. Harris, H. B. Borman, who with a party of Santa Clara and San Ildefonso Indians, who spent five days laying out the road, made a report favoring its construction and assuring help from the federal government.

Governor Hagerman, during his stay in the national capital last week, succeeded in securing from the House committee on public lands a favorable report upon a bill to amend the United States statute of 1893, making certain grants of public land of the territory of New Mexico for its public institutions and which limited the area that could be leased by the territory to individuals, firms or associations to 640 acres each, the amendment providing that a larger area may be leased "when in the opinion of the secretary of the interior the leasing of a larger area is deemed advisable." The passage of this bill will enable the territory to secure revenue from 400,000 and more acres of territorial lands which otherwise, in greater part, would lie for many years as public lands from which no revenue could be derived.

Attorney General George W. Pritchard has rendered an opinion that, although the Pueblo Indians are citizens of the United States and liable for territorial taxes, they are not entitled to vote, according to an old statute on the New Mexico statute books. It is believed, however, that if the statute were tested in the courts it would be declared unconstitutional.

Within ninety days' time \$80,000 will have been raised by the Modern Woodmen of America and several thousand dollars more by the other fraternal societies belonging to the Congress of Fraternal Societies of America for the construction of the most modern and largest sanitarium in the world near Las Vegas, New Mexico. The sanitarium will be used as a health resort for the consumptive members of the societies. Low rates will be charged, and in many cases the entire expense will be borne by the association. The site for the sanitarium is near Las Vegas, New Mexico. It consists of 11,000 acres of land donated by the Santa Fe Railroad Company. Much of the property is already improved by large, commodious, well-ventilated buildings erected by the railroad company for the purpose to which they will be applied.

The Pastoral Navajos.

The Navajos are a pastoral, patriarchal, semi-nomadic people, writes E. S. Curtis in "Vanishing Indian Types—Tribes of the Southwest." Their whole culture and development centers in their flocks. Their reservation of 12,000 square miles is desert, broken with mountain and mesa. On the mesa and low mountains there are considerable areas of pinon and cedar, and on the higher mountains a limited area of beautiful pine forests. Over this region the Navajos drive their flocks. At the season when the slight rainfall gives even a scant pasturage on the desert plains, the flocks are pastured there. As the pasturage on the lower levels is both burned with the hot, scorching sun and exhausted with pasturing, the flocks are taken up into the higher mountains, where there is more moisture. Again as the deep winter snows come on the sheep must be taken down out of the mountains to escape them. During this time they are kept on the wooded mesa, where there is less snow, and a plentiful supply of wood, of which there is none on the plains below. Year in and year out the Navajo flocks are driven back and forth from plain to mountain top, mesa and foothills.

While the Navajo's life is a wandering one, he is not what could be called a true nomad. His zone of wandering is limited; on the same grounds his father and father's father have kept their flocks. The average Navajo could not guide you a distance to exceed fifty miles. Last season the writer had with him two Navajo men of middle age, who had lived their lives within a day's ride of the mouth of Canyon de Chelly, and this was the first time they had traveled the entire length of the canon. This seems strange, from the fact that it is a most remarkably scenic spot, and the larger part of the great wealth of Navajo legendary lore centers in this canon.

The Navajo family usually has three homes, the location of which is determined by the necessities of their life. One is the summer home, where they grow their small crops of corn and vegetables. This farming they do in the narrow sand washes, where, by planting to a great depth, they get sufficient moisture to mature the crops. In a few limited areas they have irrigated farms. In Canyon de Chelly, which may be termed the "garden of the reservation," there are tiny irrigated farms and splendid peach orchards.

Students Expelled.

Mutiny and disobedience to orders was the charge that was brought against forty cadets of the New Mexico Military Institute May 2d by the faculty and board of regents. All were placed under arrest and were offered the choice of being expelled at once or comply with the following conditions:

Remain on the inclosures of the grounds under arrest until the close of the present session, obey all future orders, apologize to the faculty and walk twenty penalty tours. Thirty-one agreed to comply with the conditions and nine were expelled. Those expelled were J. M. Arrington and G. S. Connell, Canadian, Texas; Cadet Dunn, Mobeattie, Texas; Cadet McComas, Colorado, Texas; D. M. Miller, Lake Valley, New Mexico; H. H. Moore, Socorro, New Mexico; Paul Bird, Roswell, New Mexico; George Myers, Hillsboro, New Mexico; W. H. Mackenzie, Denver.

Tanner at Albuquerque.

Corporal James Tanner, commander-in-chief of the G. A. R., and wife, spent the day here, says an Albuquerque dispatch of May 3d, en route from the territorial encampment at Las Cruces to Los Angeles, where Commander Tanner will address an encampment May 7th.

Corporal Tanner made the astounding statement that, according to statistics compiled by himself the old veterans were dying at the rate of 5,000 a month.

Corporal Tanner addressed the twenty-third annual territorial encampment at Las Cruces yesterday, while seated in a chair, owing to weakness, and was cheered to an echo.

The territorial encampment closed this afternoon by electing W. D. Brunton of Las Vegas, territorial commander, and the other officers.

University Faculty.

At a meeting of the board of regents of the University of New Mexico the following of the faculty were elected for the coming year: W. G. Tight, president; Josephine S. Parsons, principal; Charles E. Hodgins, dean; the remainder of the old professors being re-elected. The board also let contracts for furnishing new dormitories. Two new professors were chosen; D. M. Richards of Las Cruces, professor of history, and John Nelson Cady of Wilkes, Wisconsin, professor of engineering.

AN EVERY-DAY STRUGGLE.

Men and Women of Every Occupation Suffer Miserably from Kidney Complaint.

J. C. Lightner, 703 So. Cedar St., Abilene, Kansas, is one of the thousands who suffer from kidney troubles brought on by daily work. "I first noticed it eight or ten years ago," said Mr. Lightner. "The dull pain in the back fairly made me sick. It was hard to get up or down, hard to straighten, hard to do any work that brought a strain on the back. I had frequent attacks of gravel and the urine was passed too often and with pain. When I used Doan's Kidney Pills, however, all traces of the trouble disappeared and have not returned. I am certainly grateful."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Its a good thing for the average man that he has more sense than his appearance would seem to indicate.

Garfield Tea cures sick-headache, bilious attacks, liver trouble and constipation.

Every man has his double—and the contortionist has several.

Lewis' Single Binder Cigar has a rich taste. Your dealer or Lewis' Factory, Peoria, Ill.

You'll never become a millionaire on the money you make in your mind.

THREE FACTS For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed on women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

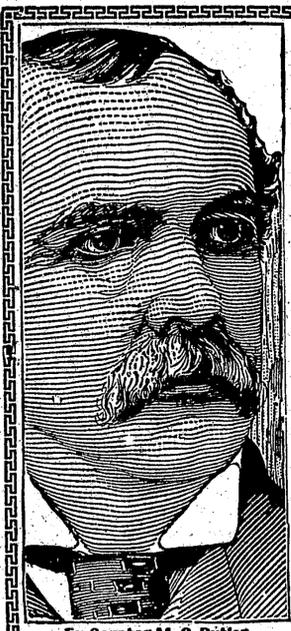

W. L. DOUGLAS \$3.50 & \$3.00 SHOES

W. L. Douglas \$4.00 Gilt Edge Line cannot be equalled at any price.

W. L. DOUGLAS MAKES & SELLS SHOES at Brockton, Mass., and shows you the initials with which every pair of shoes is made, you would realize why W. L. Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoes. W. L. Douglas \$3.50 shoes are made for \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00, \$5.50, \$6.00, \$6.50, \$7.00, \$7.50, \$8.00, \$8.50, \$9.00, \$9.50, \$10.00. CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine without his name and initials stamped on bottom. Part Color Eggs used, they will not wear through. Write for Illustrated Catalog. W. L. DOUGLAS, Brockton, Mass. Ask Your Dealer for the H. A. & K. Shirt. WANTED Local managers: good men and women to represent us in this and adjoining states. We take schemes, cash and expense daily. Will pay \$1000.00 per year. Write for terms. 1015 Broadway, New York, N. Y.

**UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.**

Ex-Senator M. C. Butler.

*Dyspepsia Is Often Caused by Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy for Dyspepsia.*

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina, for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia as stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catarrh must be eradicated. Only an internal catarrh remedy, such as Peruna, is available. Peruna exactly meets the indications.

**Revised Formula.**  
"For a number of years requests have come to me from a multitude of grateful friends, urging that Peruna be given a slight laxative quality. I have been experimenting with a laxative addition for quite a length of time, and now feel gratified to announce to the friends of Peruna that I have incorporated such a quality in the medicine which, in my opinion, can only enhance its well-known beneficial character."  
"S. B. HARTMAN, M. D."

**When you buy WET WEATHER CLOTHING you want complete protection and long service.**  
These and many other good points are combined in TOWER'S FISH BRAND OILED CLOTHING. You can't afford to buy any other.

AL TOWER CO. BOSTON U.S.A. TOWER BROS. CO. N.Y.

**Japanese in Pueblo.**  
A reception was tendered last night in the annex of the Northern Avenue M. E. church to the Japanese members of the night school, by the Young People's League of the church. Rev. C. W. Hewitt, who has been giving a number of lectures on Japan was present and met the Japs in a social way. He also made a short and interesting talk, during which he spoke in both languages.

Some of the Japs then sang a number of love and war songs of their native land as well as their national anthem. The members of the league then served light refreshments and the evening was a delightful one.

A plan is being perfected to secure the regular service of a noted teacher for the Japs. About fifty members of the local colony last night entered a club, which will perfect plans to secure this teacher, who is now in San Francisco.—Pueblo Chieftain.

**Salt From Sea Water.**  
A great California industry is the manufacture of salt from sea water. In Alameda county 100,000 tons were produced last year. Only a few years ago the state imported all its salt. Now it produces enough for its own use—which is enormous, owing to the fisheries and packing houses—and exports large quantities as well.

**DODD'S KIDNEY PILLS**  
FOR ALL KINDS OF KIDNEY DISEASES  
GOUT, RHEUMATISM, BRUISES, DIABETES, GRAVEL, CALCULI, NEURALGIA, MIGRAINE, HEADACHE, AND ALL THE PAINFUL AFFECTIONS OF THE URINARY TRACT.

**STOP PAYING RENT.**  
We will buy \$1,000 to \$5,000 homes. You pay only \$7.50 PER MONTH on each \$1,000 with 5 PER CENT SIMPLE INTEREST per annum, payable monthly. ADDRESS THE STANDARD REAL ESTATE LOAN COMPANY, Washington, D.C.

**WILL PAY PROMPTLY.**

San Francisco Encouraged by Announcement of Insurance Companies.

San Francisco.—Financial interest to-day centered in the announcement made by the insurance companies that they would soon pay losses of the fire sufferers. It is believed that most of the money will be put into general circulation and when it is distributed will relieve the people of San Francisco as no other means could.

This news was welcome, not only to the policy holders, but also to the banks that have been doing their best for the public with the resources at their immediate command necessarily limited. It was official to the extent that it was given to the sub-committee of the citizens' general committee and duly reported at the general committee's daily meeting. The announcement was received with applause, news from the insurance interests having been awaited with much anxiety.

With their announcement that losses will soon be paid the insurance interests have made the concession that salvage operations on property saved from the flames can be proceeded with with safety.

Policy holders may save anything they can find without fear of risking the loss of their claims for insurance. To a great extent the work of demolishing walls and clearing away debris has been postponed because of the doubt regarding the attitude the insurance companies would take. The insurance in the burned district is estimated by the underwriters at \$200,000,000.

At the meeting of the reconstruction committee to-day a resolution was adopted declaring that the wages for public and private employment at ordinary and unskilled labor should be \$2.50 for nine hours. The resolution was adopted. This rate has been fixed by the Building Trades council.

"Employers, pay your men something at least daily, so that they may be able to pay for their meals." Is the request made to-day by General Greeley.

**AFTER THE DRUGGISTS.**

**Federal Action Against Another Great Trust.**  
Washington.—The attorney general has made public the following statement:

"The government has to-day filed in the Circuit Court of the United States for the district of Indiana, a petition for an injunction against certain associations, corporations and individuals, comprising what is commonly known as the 'drug trust' of the United States. The parties defendant specifically named in the bill have voluntarily combined the better to control the prices at which proprietary medicines and drugs shall be sold to the consumer through the retail druggists, in violation of the Sherman anti-trust law. "The parties to the combination include the Proprietary Association of America, the National Wholesale Druggists' Association and the National Association of Retail Druggists."

The bill charges in substance that these associations, their officers, delegates and members are all engaged in a common understanding, buying and selling patent medicines and rugs and proprietary articles throughout the United States. That these associations and the members thereof have entered into a conspiracy to arbitrarily fix and regulate the price at which such articles shall be sold to the consumer and that they have established rules and regulations to enforce such an unlawful agreement by restricting the purchase and sale of such commodities to those members of the several associations who shall live up to the agreement.

The suit is only another step in the comprehensive program of the administration to bring to their senses and within the law, business men who are steadily extending monopolistic practices to every branch of trade. The Department of Justice now has under way or in contemplation suits against at least ten classes of monopolies and out of them hundreds of suits may grow.

**NO SUNDAY SHAVES.**

**Supreme Court Upholds Sunday Closing Law.**

Denver.—No barber shop in Denver may keep open on Sunday. The city ordinance providing for the closure shop on this day has been declared valid by the State Supreme Court in a decision written by Chief Justice Gabbert, which affirms a judgment in the lower court.

Concurring in every respect with the chief justice was Justice Campbell, Justices Gunter, Goddard, Maxwell and Bailey concurred in the affirmation, but are of the opinion that 1370 1st M. A. S. of the laws of 1893 quoted in the opinion, are not involved, and, therefore, expressed no opinion as to the construction of such law. In their judgment, however, the ordinance is not subject to objection as class legislation.

The Journeymen Barbers' Union No. 205 of this city is pleased with the decision, and expresses thanks to the ministers and the Law Enforcement League for their efforts to have this decision sustained. The news has spread throughout the country, and the local officers have received telegrams from the national executive officers and the unions in all the large towns of Colorado congratulating them on their victory.

**To Repair Government Buildings.**

Washington.—Secretary Shaw has submitted estimates to the House today of amounts necessary to be appropriated to repair the government buildings in California wrecked by the earthquake. The House committee on appropriations has planned to take this matter up and bring in a special appropriation bill, covering the items.

The estimates include \$10,000 for the appraiser's stores building; \$30,000 for the sub-treasury, the lower story and roof of which is damaged; \$65,000 for the mint; \$500,000 for the postoffice, court house, etc.; \$5,000 for the revenue cutter store house, which was totally destroyed, making in all \$611,000 for San Francisco.

**WORST CASE OF ECZEMA.**

Spread Rapidly Over Body—Limbs and Arms Had to Be Bandaged—Marvelous Cure by Cuticura.

"My son, who is now twenty-two years of age, when he was four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. We had all the doctors around us, and some from larger places, but no one helped him a particle. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I had to bandage his limbs and arms; his scalp was just dreadful. A friend teased me to try Cuticura, and I began to use all three of the Cuticura Remedies. He was better in two months; and in six months he was well. Mrs. R. L. Risley, Piermont, N. H., Oct. 24, 1905."

**Her Way**

"When a young man tries to kiss you, you should give him a good smack on the ear."  
"Charlie tried it last evening, mamma, and I gave him a good smack on the mouth; at least, I think it was a good one, because he teased me for another."—Houston Post.

**In a Pinch, Use ALLEN'S FOOT-EASE.**  
A powder. It cures painful, smarting, scurvy feet and ingrowing nails. It is the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all druggists, 25c. Trial package, FREE. Address A. S. Olmsted, Le Roy, N. Y.

**German Canaries.**

The canaries of Germany excel all other canaries as singers. One has been recorded to continue a single trill for one and a quarter minutes, with 20 changes of notes.

**\$100 Reward, \$100.**

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh of the Urinary Tract. It is the only positive cure now known to the medical fraternity. Catarrh being contracted by the use of a common toilet article, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Size for constipation.

**Convincing Growing Wealthy.**

Griffith J. Griffith is now serving the last months of a two-year sentence in San Quentin prison, California, for shooting his wife. His large investments in land in Los Angeles and vicinity, made since his imprisonment began, have increased in value to such an extent that they are now said to be worth upward of \$1,000,000.

Try Garfield Tea! It purifies the blood, cleanses the system, brings good health.

**PLAGUE OF CATS.**

**The Paris Police Adopt Stringent Measures.**

Cats in London are often a nuisance to the householder when they fight upon the roof in the middle of the night, but in Paris, especially near the Halles Centrales, they are said to have become a public danger. It appears that these animals swarm in thousands over the markets, and as most of them are many and otherwise diseased, it is feared that they will contaminate the goods set out for sale, so the police have issued an edict that all the stray cats are to be captured and put into a lethal chamber, and as a consequence the kind-hearted market women have adopted many of the cats and now claim them as their own property. Bus M. Guichard, the police inspector in charge of the markets, will hear of no mercy, and the offending animals are to be slaughtered without delay. The police are to surround the market and to carry sacks in which to put the captured cats. What is to be done if the cats escape on to the roofs is not stated.

**Course in Agriculture.**

While Massachusetts is disposed to pay increasing attention to technical education, Vermont is planning to make elementary study of the general subject of agriculture a part of the regular public school course. The state superintendent of education is in charge of the movement, and a series of meetings to be held in different parts of the state will serve to awaken general interest in the plan. The main point in view is the general advance of useful education.

**REPAIRING BRAIN**

**A Certain Way by Food.**  
Every minister, lawyer, journalist, physician, author or business man is forced under pressure of modern conditions to the active and sometimes overactive use of the brain. Analysis of the excreta thrown out by the pores shows that brain work breaks down the phosphate of potash, separating it from its heavier companion, albumen, and plain common sense teaches that this elemental principle must be introduced into the body anew each day. If we would replace the loss and rebuild the brain tissue. We know that the phosphate of potash, as presented in certain field grains, has an affinity for albumen and that is the only way gray matter in the brain can be built. It will not answer to take the crude phosphate of potash of the drug shop, for nature rejects it. The elemental mineral must be presented through food directly from nature's laboratory.

These facts have been made use of in the manufacture of Grape-Nuts, and any brain worker can prove the value of the proper selection of food by making free use of Grape-Nuts for ten days or two weeks. Sold by grocers everywhere (and in immense quantities). Manufactured by the Postum Co., East Lake, Mich.

**LACK OF LABORERS.**

Leave Work in the Country for Idleness in the City.

In other countries the growth of discontent is chiefly, if not wholly, due to the excessive supply of labor, says the Chicago Journal. But in the United States the demand for labor greatly exceeds the supply. The difficulty is that labor crowds into the already congested cities and will not even in extreme necessity go into the country, where it is lacking.

President Hill of the Great Northern railroad says that "in the West prosperity is everywhere in evidence. The only drawback is a scarcity of labor. As a matter of fact, labor is so scarce that many farmers are selling a portion of their land because enough labor cannot be obtained to carry on operations on a large scale."

We hear the same complaint every year. Throughout the fertile and prosperous West crops go to waste in great measure because labor enough to care for them cannot be had at any price. Meanwhile cities like Chicago are overflowing with unskilled laborers, who have nothing to do but grumble and talk of that new millennium they call Socialism.

During all the years since the war the urban population of the country has been growing at the expense of the rural population. Though of late the farmer's life has been relieved of most of the loneliness and discomforts that used to make it less desirable than city life in those respects and he now has free delivery of letters and newspapers, telephone connection and rapid transit by trolley lines almost everywhere, yet most farmers' sons head for the cities as soon as possible and the cities receive by far the largest proportion of immigrants.

Aside from the inconvenience and distress this tendency produces, it is not a good omen for the Nation's moral or physical health. The lure of the city is not so much a lure for unwholesome desires—the desire to get rich quickly, to procure enervating and demoralizing luxuries, to enjoy those dissipation which thrive wherever great numbers of men and women are huddled together.

Send to Garfield Tea Co., Brooklyn, N. Y., for free package of Garfield Tea, the herb cure for constipation and liver trouble.

Because the air is raw, we scold; For sorrow man is booked; When fierce July its woes unfold, We'll scold because it's cooked.

**Embalm Doctors Praise Its Ingredients.**

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE LANCET MEDICAL REVIEW says of Oneiroon root (Helonias Dioica) which is one of the chief ingredients of the "Favorite Prescription":  
"A remedy which invariably acts as a uterine invigorator... makes for normal activity of the entire reproductive system." He continues: "Helonias we have analyzed, and which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women, Helonias is a leading indication for Helonias (Oneiroon) root. Pain or aching in the back, with leucorrhoea; stonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding) due to a weakened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods) or irregular or accompanying an abnormal condition of the digestive organs and anemia (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."  
If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Helonias root, or Helonias, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions... and general enfeeblement, it is useful."  
Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilities."  
Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)."  
Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

"Can you suggest an appropriate name for our new lawyers' club room?" asked a prominent attorney of a leading citizen. "Certainly," was the reply. "Cow would Cave of the Winds do?"

**Wm. Winslow's Soothing Syrup.**  
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

**CLASSICAL MUSIC.**  
Life Tells Why Great Orchestras Lose Money.  
A series of great concerts in Boston net a loss of \$1,800. The Pittsburgh Symphony orchestra falls behind its expenses in the sum of \$40,000. In Chicago the fine organization founded and trained by Theodore Thomas is able to pay its way only with the bourgeois help of "rentals," says Life. It is about everywhere and still the purveyors of music do not learn that ordinary mortals creep before they walk and walk before they fly.

Whatever symphonies may be to the adept, they are noise to the general and only now and then some adventitious circumstance, some occasional fad or fable will put the general in the mind to buy out their good money to be bored. The music which hath charms to separate the savage from his coin is the music which he esteems as such and with precisely that sort of thing will they have to begin who would lift him to higher levels.

## A GIANTIC JOLT.

The earthquake has jerked us! We are in a state of collapse! Carry the news to Gillie, he of the gilded age, now far away across the navy blue sea.

The territorial auditor has just announced that a reduction has been made in the territorial levy for taxes, in the year of our Lord 1906, and the 55th of New Mexico's efforts to become an integral part of the United States.

It is true the reduction is but one mill on the dollar, but then it is a reduction and that is better than to see it gradually climbing up the golden stairs as in times past. There is light ahead, the veil is being lifted and New Mexico may yet shine in the immortal galaxy of the E. Pluribus or bust, the brightest star in the bloomin' lot, and this in spite of the Beverage-Hamilton-Rodey omnibus. Truly it stands us not in hand to despise the day of small things, and who knows but that this one mill take off may be the starter in the way of a further reduction in territorial taxes?

This office is in receipt of several letters from citizens in different parts of the county advocating a mass convention of both political parties for the purpose of nominating a non-partisan ticket, composed of competent men to fill the different county offices. The Lord knows we need the competent men all right, in some of the county offices but whether the plan proposed would result in their selection is quite another matter. Even mass conventions do some very questionable things sometimes. Political reforms are usually best brought about by reforming ones own party, when the necessity occurs, as is now the case. However, the columns of this paper are open for a free and general discussion of this proposition.

Carl Schurz, one of the unique figures in American life, died at his home in New York City Monday morning. A natural born agitator, he was one of the leading spirits in the revolution in Germany in 1848 and narrowly made his escape from the country. He was both an educator and journalist. He settled in Wisconsin and was afterwards made a United States Senator from that state. He was appointed minister to Spain by Buchanan but came back on the breaking out of the civil war and was made a brigadier general and rose to the rank of major general. After the war he settled in St. Louis and became United States Senator from Missouri. He became an ardent republican and was made Secretary of the Interior by President Hayes. He helped organize the Liberal party and was a strong supporter of Horace Greely for the presidency. During the first Cleveland campaign and for several years afterward he was a democrat. Just the nature of his politics at the time of his death would be hard to determine from his later writings. The last years of his life were devoted to newspaper and magazine work.

And still we are hanging on the ragged edge of a debacle.

## HELP THEM ALONG.

The following circular letter from the Territorial Superintendent is issued to the school children of New Mexico under date of May 12th.

Less than one month ago the city of San Francisco had eighty-three school buildings. By the great calamity, it is said that over forty of these have been destroyed.

A great national movement, having its origin in the City of Boston, has been set on foot to let the school children of the United States have the opportunity of building in San Francisco a Memorial School Building. One rule established is that no pupil in the elementary schools shall be permitted to contribute more than five cents, and no pupil in the high schools more than ten cents. It is thought that Boston's contribution will probably amount to \$5,000.

Do the school children of New Mexico want some stock in this great benevolent enterprise? If so, make your contributions, no matter how small, through your teacher, who will remit the same to the Superintendent of Public Instruction at Santa Fe, who will promptly send receipt. After the matter shall have been closed, the superintendent will make and publish a full report of all receipts. It is recommended that all use promptness in attending to this matter. From what school will the first contribution come?

HIRSH HADLEY,  
Sup't. of Public Instruction,  
Santa Fe, N. M.

## OF INTEREST TO TEACHERS.

BRANCHES REQUIRED FOR FIRST AND SECOND GRADE CERTIFICATES.

At a meeting of the Territorial Board of Education held at Santa Fe on March 16th, a resolution was passed making the following the required branches for First and Second grade certificates, respectively.

**SECOND GRADE.**  
1. Reading. 5. Geography.  
2. Penmanship. 6. Arithmetic.  
3. Orthography. 7. U. S. History.  
4. Grammar and Composition. 8. Elementary Teaching and School Management.

**FIRST GRADE.**  
1. Reading. 2. Orthography.  
3. Grammar and Composition.  
4. Penmanship. 5. Geography.  
6. United States History.  
7. Physiology. 8. Civil Government.  
9. Arithmetic.  
10. Elementary Pedagogy, comprising a knowledge of:  
a. School management.  
b. Theory and practice of teaching.  
c. Elementary applied psychology.

11. One of the following branches:  
a. Elementary algebra.  
b. Elementary botany.  
c. Elementary zoology.  
d. Elementary physics.  
e. Elementary book-keeping.

At the same meeting of the Territorial Board of Education a resolution was passed authorizing the renewal of a First Grade Certificate once without re-examination, thus making a certificate of this grade legal for a period of six years.

Senator Carmack, of Tennessee, was defeated for re-election by former governor, Robert L. Taylor, by a vote taken in that state on the 19th of this month.

The sheriff of Socorro county, Leandro Baca, does not appear to be imbued with the Massachusetts idea that a white man has no rights that a red skin need respect. He has incarcerated eight of the gas string fraternity in the county jail for killing deer out of season.

## TERRITORIAL OPINION.

The Springer Stock man sagely remarks that this world has more fools than fleas, and they are a good deal more irritating.

Twenty prisoners in a Pennsylvania jail went on a strike to regain their tobacco allowance but it is not recorded that they tried to prevent anyone else going in to take their jobs.—El Paso Herald.

Seven hundred and fifty-one homestead entries have been made in the Santa Fe land office since the first of day of January, comprising over 130,000 acres. Most of these homesteads have been taken in Torrance county near the line of the Santa Fe Central railway.

The Sunday closing seems to be an accomplished fact all over the territory. It is a good thing and the credit of accomplishing it is due originally to Judge McKie, of this district, who was the judge to set the ball rolling, and the other judges have followed up the good work.—Mining Reporter.

Allah sent the wind and the bad man rubbeded  
As it blew the ladies' skirts knee high.  
Allah is just. He sent a cloud of dust  
To blow in the bad man's eye.  
—Albuquerque Journal.

The El Paso Herald thinks it would be doing vice-president Fairbanks a kindness for some one to get an explanation from him in regard to his position on that railroad rate bill. From the way that bill has been "bamboozled," to use one of Senator Tillman's terms, it would be a little unfair to demand an explanation of any one as to its present provisions and evasions.

Gov. Hagerman appears to be getting the coal oil inspection well in hand. Eleven inspection districts have been formed and a deputy inspector appointed for each. Headquarters for Lincoln county, which will be known as district number nine, will be at Capitan. It is now devoutly to be wished that something will be done besides affixing the inspectors brand on the tank of any kind of conglomeration furnished by the Standard Oil Company.

A project is on foot, and the surveyors are already in the field to build an air line elevated railroad, to be run by electricity, from New York to Chicago. The distance will be covered in ten hours, will be made without stops, and a train will be run every hour. The Arabian Nights liar and Jules Verne will now have to get together and give us something up to date.

## THE MEAN THINGS WON'T POP.

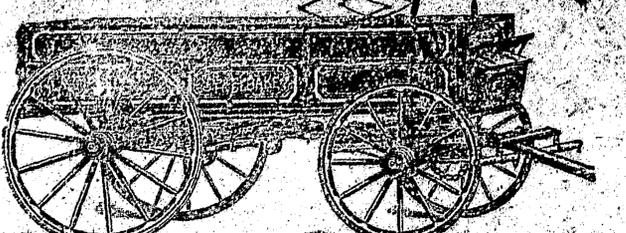

One of Deming's most sprightly and winsome young ladies has suggested to the Headlight that an earthquake right here in Deming would be appreciated—by several of her lady friends, as well as herself. She said that many of the young people of San Francisco were hastily assuming the matrimonial yoke—since the worst danger was over there—and perhaps a good shock in this town would jar the young men into a realization of the fact that there are a number of extra fine quality of young ladies here who would be willing to take care of some men for the rest of their lives. Perhaps a good, lively shake might do the work, and perhaps, now that we have called their attention to the matter in this direct manner, and can assure them that a proposal from any youngster will be accepted, such drastic measures will not be necessary. But if there are not a number of weddings in the near future right here in Deming a first class earthquake will be ordered. So get busy, boys. Don't be afraid—they won't bite.  
—Deming Headlight.

## Notice for Publication.

Homestead application No. 1658, Land office at Roswell, N. Mex. May 4 1906.  
Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before W. B. Kimbrell, the Probate Clerk, at his office in Lincoln, N. M., on June 21, 1906, viz: Alice G. Mustain, formerly Alice T. Gasliola, of Oscura N. M., for the S<sup>1</sup> NW<sup>1</sup> and N<sup>1</sup> SW<sup>1</sup>, Sec. 31, T. 9 S., R. 9 E.  
He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:  
Lydia G. Ellis, of Oscura, N. M.  
James O. Nabours, of " "  
John C. Marquis, of " "  
Dan A. Guggins, of Tucuman, N. M.  
Howard Island, Register.

## TO CONSUMPTIVES.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Bronchitis and all throat and lung maladies. He hopes all sufferers will try his Remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address:  
Rev. EDWARD A. WILSON,  
Brooklyn New York.  
No court proceedings has yet reached this office.
